

PROSPECTUS

\$250,000,000

**Replay Acquisition Corp.**

25,000,000 Units

Replay Acquisition Corp. is a newly incorporated blank check company incorporated as a Cayman Islands exempted company and formed for the purpose of effecting a merger, amalgamation, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses, which we refer to throughout this prospectus as our initial business combination. We have not identified any business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target. While we may pursue a business combination target in any business, industry or geographical location, we intend to focus our search for a target in Argentina and/or Brazil focused on industries that we believe have favorable prospects and a high likelihood of generating strong risk-adjusted returns for our shareholders. These industries include, but are not limited to, the consumer, telecommunications and technology, energy, financial services and real estate sectors, which we refer to as the Latin America opportunity sectors.

This is an initial public offering of our securities. Each unit has an offering price of \$10.00 and consists of one ordinary share and one-half of one warrant. Each whole warrant entitles the holder thereof to purchase one ordinary share at a price of \$11.50 per share, subject to adjustment as provided herein, and only whole warrants are exercisable. The warrants will become exercisable on the later of 30 days after the completion of our initial business combination and 12 months from the closing of this offering, and will expire five years after the completion of our initial business combination or earlier upon redemption or liquidation, as described in this prospectus. We have also granted the underwriters a 45-day option to purchase up to an additional 3,750,000 units to cover over-allotments, if any.

We will provide our public shareholders with the opportunity to redeem all or a portion of their ordinary shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account described below as of two business days prior to the consummation of our initial business combination, including interest (which interest shall be net of taxes payable), divided by the number of then issued and outstanding ordinary shares that were sold as part of the units in this offering, which we refer to collectively as our public shares, subject to the limitations described herein. If we are unable to complete our initial business combination within 24 months from the closing of this offering, we will redeem 100% of the public shares at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (less up to \$100,000 of interest to pay dissolution expenses and which interest shall be net of taxes payable), divided by the number of then issued and outstanding public shares, subject to applicable law and as further described herein.

Our sponsor, Replay Sponsor, LLC, a Delaware limited liability company (which we refer to as our "sponsor" throughout this prospectus), has committed to purchase an aggregate of 7,000,000 warrants (or 7,750,000 warrants if the underwriters' over-allotment option is exercised in full) at a price of \$1.00 per warrant (\$7,000,000 in the aggregate or \$7,750,000 in the aggregate if the underwriters' over-allotment option is exercised in full) in a private placement that will close simultaneously with the closing of this offering. We refer to these warrants throughout this prospectus as the private placement warrants. Each private placement warrant entitles the holder thereof to purchase one ordinary share at \$11.50 per share, subject to adjustment as provided herein.

Our initial shareholders currently hold 7,187,500 ordinary shares (up to 937,500 of which are subject to forfeiture by our sponsor depending on the extent to which the underwriters' over-allotment option is exercised).

Affiliates of our sponsor will purchase 2,500,000 units in this offering at the initial public offering price. The underwriters will not receive any underwriting discounts or commissions on the units purchased by affiliates of our sponsor.

Prior to this offering, there has been no public market for our units, ordinary shares or warrants. Our units have been approved for listing on the New York Stock Exchange, or the NYSE, under the symbol "RPLA.U." The ordinary shares and warrants constituting the units will begin separate trading on the 52<sup>nd</sup> day following the date of this prospectus unless Credit Suisse Securities (USA) LLC and Merrill Lynch, Pierce, Fenner & Smith Incorporated inform us of their decision to allow earlier separate trading, subject to our filing a Current Report on Form 8-K with the Securities and Exchange Commission, or the "SEC", containing an audited balance sheet of the Company reflecting our receipt of the gross proceeds of this offering and issuing a press release announcing when such separate trading will begin. Once the securities constituting the units begin separate trading, we expect that the ordinary shares and warrants will be listed on the NYSE under the symbols "RPLA" and "RPLA WS," respectively.

**We are an "emerging growth company" under applicable federal securities laws and will be subject to reduced public company reporting requirements. Investing in our securities involves risks. See "Risk Factors" on page 28. Investors will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings.**

	Per Unit to Public	Per Unit to Sponsor Affiliates	Total
Public offering price	\$10.00	\$10.00	\$250,000,000
Underwriting discounts and commissions <sup>(1)(2)</sup>	\$0.55	\$0.00	\$12,375,000
Proceeds, before expenses, to us	\$9.45	\$10.00	\$237,625,000

(1) Includes \$0.35 per unit, or \$7,875,000 (or up to \$9,187,500 if the underwriters' over-allotment option is exercised in full) in the aggregate, payable to the underwriters for deferred underwriting commissions to be placed in a trust account located in the United States as described herein. Does not include certain fees and expenses payable to the underwriters in connection with this offering. See also "Underwriting" beginning on page 159 for a description of compensation and other items of value payable to the underwriters.

(2) The underwriters will not receive any underwriting discounts or commissions on the units purchased by affiliates of our sponsor.

Of the proceeds we receive from this offering and the sale of the private placement warrants described in this prospectus, \$250,000,000 or \$287,500,000 if the underwriters' over-allotment option is exercised in full (\$10.00 per unit), will be deposited into a U.S.-based trust account with Continental Stock Transfer & Trust Company acting as trustee. Except with respect to interest earned on the funds held in the trust account that may be released to us to pay our taxes, if any, the funds held in the trust account will not be released from the trust account until the earliest to occur of: (1) the completion of our initial business combination; (2) the redemption of any public shares properly submitted in connection with a shareholder vote to amend our amended and restated memorandum and articles of association (A) to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to shareholders' rights or pre-initial business combination activity; and (3) the redemption of our public shares if we are unable to complete our initial business combination within 24 months from the closing of this offering, subject to applicable law. The proceeds deposited in the trust account could become subject to the claims of our creditors, if any, which could have priority over the claims of our public shareholders.

The underwriters are offering the units for sale on a firm commitment basis. Delivery of the units will be made on or about April 8, 2019.

**Neither the SEC nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.**

**No offer or invitation to subscribe for units may be made to the public in the Cayman Islands.**

**Until April 28, 2019, all dealers that effect transactions in these securities, whether or not participating in this offering, may be required to deliver a prospectus. This is in addition to the dealer's obligation to deliver a prospectus when acting as an underwriter and with respect to unsold allotments or subscriptions.**

## CONVENTIONS WHICH APPLY TO THIS PROSPECTUS

Solely for the convenience of the reader, this prospectus contains translations of certain Argentine pesos amounts into U.S. dollars at specified rates. Except as otherwise stated in this prospectus, income statement figures relating to (i) the six-month period ended December 31, 2015 are based on the noon buying rate of 9.6 per \$1.00; (ii) the six-month period ended June 30, 2016 are based on the noon buying rate of Ps. 14.3 per \$1.00; (iii) the three-month period ended March 31, 2018 are based on the noon buying rate of Ps. 19.7 per \$1.00; (iv) the three-month period ended June 30, 2018 are based on the noon buying rate of Ps. 23.1 per \$1.00; (v) the three-month period ended September 30, 2018 are based on the noon buying rate of Ps. 31.1 per \$1.00; and (vi) the three-month period ended December 31, 2018 are based on the noon buying rate of Ps. 37.1 per \$1.00. No representation is made that the Argentine pesos amounts referred to in this prospectus could have been or could be converted into U.S. dollars at such rates or any other rates. Any discrepancies in any table between totals and sums of the amounts listed are due to rounding.

## SUMMARY

*This summary only highlights the more detailed information appearing elsewhere in this prospectus. You should read this entire prospectus carefully, including the information under "Risk Factors" and our financial statements and the related notes included elsewhere in this prospectus, before investing.*

*Unless otherwise stated in this prospectus or the context otherwise requires, references to:*

- *"we," "us," "company" or "our company" are to Replay Acquisition Corp., a Cayman Islands exempted company;*
- *"amended and restated memorandum and articles of association" are to our memorandum and articles of association to be in effect upon completion of this offering;*
- *"Companies Law" are to the Companies Law (2016 Revision) of the Cayman Islands as the same may be amended from time to time.*
- *"founder shares" are to our ordinary shares initially purchased by our sponsor in a private placement prior to this offering;*
- *"initial shareholders" are to our sponsor and other holders of our founder shares prior to this offering (if any);*
- *"letter agreement" refers to the letter agreement, the form of which is filed as an exhibit to the registration statement of which this prospectus forms a part;*
- *"management" or our "management team" are to our officers and directors and our advisory board member;*
- *"ordinary shares" are to our ordinary shares, par value \$0.0001 per share;*
- *"private placement warrants" are to the warrants issued to our sponsor in a private placement simultaneously with the closing of this offering;*
- *"public shares" are to our ordinary shares sold as part of the units in this offering (whether they are purchased in this offering or thereafter in the open market);*
- *"public shareholders" are to the holders of our public shares, including our sponsor, officers and directors to the extent our sponsor, officers or directors purchase public shares, provided their status as a "public shareholder" shall only exist with respect to such public shares;*
- *"sponsor" are to Replay Sponsor, LLC, a Delaware limited liability company;*
- *"warrants" are to our warrants sold as part of the units in this offering (whether they are purchased in this offering or thereafter in the open market);*
- *"\$, "US\$" and "U.S. dollar" each refer to the United States dollar;*
- *"Ps." and "peso" each refer to the Argentine peso; and*
- *"R\$" and "real" each refer to the Brazilian real.*

*All references in this prospectus to shares of the Company being forfeited shall take effect as surrenders for no consideration of such shares as a matter of Cayman Islands law. Unless we tell you otherwise, the information in this prospectus assumes that the underwriters will not exercise their over-allotment option and the forfeiture by our sponsor of 937,500 founder shares.*

## General

We are a newly organized blank check company incorporated as a Cayman Islands exempted company for the purpose of effecting a merger, amalgamation, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses, which we refer

to throughout this prospectus as our initial business combination. To date, our efforts have been limited to organizational activities and activities related to this offering. We have not selected any potential business combination target, and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any potential business combination target with respect to an initial business combination with us.

While we may pursue a business combination target in any business, industry or geographical location, we intend to focus our search for a target in Argentina and/or Brazil. Both countries are recovering from years of macroeconomic and political instability, which discouraged investment and hindered growth. Although significant risks to the recoveries of these economies persist, we believe that these countries are characterized by strong long-term growth prospects, currently supported by favorable political tailwinds. The Argentine government has implemented and continues to pursue a series of key economic and structural reforms while the new Brazilian administration has sent early signs that it will follow a market-friendly agenda. We intend to focus our search for a target in industries that we believe have favorable prospects and a high likelihood of generating strong risk-adjusted returns for our shareholders. Targeted industries include, but are not limited to, the consumer, telecommunications and technology, energy, financial services and real estate sectors, which we refer to as the Latin America opportunity sectors.

We believe that recent volatility in Argentina has created a favorable backdrop for long-term investment opportunities. Many companies that we believe have attractive underlying fundamentals have been impacted by recent macroeconomic factors, potentially generating an advantageous entry point for investment. We believe that the structural reforms and reduction of distortions in the economy being implemented by President Macri's administration will contribute to an improved business environment and thereby support economic expansion in the country in the medium term. Furthermore, we believe that deregulated and market-friendly policies will improve conditions for long-term investment. Consumption and real salaries have been negatively impacted by the very recent economic slowdown. In addition to structural reforms, we believe that improved consumption from future recovery of real salaries and foreign direct investment will drive further economic growth with positive tailwinds for valuation improvement.

Similarly, we believe that Brazil's newly elected government, who has entrusted economic and monetary policy to market friendly economists, will focus on stricter fiscal policies, initiatives to improve productivity, and liberalization of the economy aiming to put the country back on the path of sustainable development. Potential tax and productivity reforms, combined with a larger agenda of privatizations and concessions, may foster short-term economic environment and provide investment opportunities. We expect Brazil's economic recovery will be driven by a variety of factors, including deleveraging across households and businesses, tax reforms to simplify a complex tax system and more favorable labor market conditions.

We expect the economic and political developments in both Argentina and Brazil to generate multiple attractive targets in the Latin America opportunity sectors.

Our management team is led by our founders, Edmond Safra, Gregorio Werthein and Gerardo Werthein. Our founders collectively have decades of experience investing in, managing and operating companies in Argentina across a variety of industries. Our founders also have decades of experience investing in Brazil. We believe that our management team has established a favorable reputation in the Latin American business community, built strong partnerships with first-tier international institutional investors, developed a vast network of corporate relationships and acquired deep knowledge of the region's economic fundamentals and regulatory environment. In addition to our management team's direct involvement, we will recruit and employ industry experts to evaluate potential investment opportunities. We believe that our management team's extensive network in the region will allow them to attract, select and retain high-performing members of management.

Most recently, our founders participated in the indirect majority interest purchase of Transportadora de Gas del Sur S.A. ("TGS") through PCT LLC and WST S.A., alongside Grupo Inversor Petroquímica S.L. (part of Grupo GIP, led by the Sielecki family). Since our founders' investment in 2016, TGS has generated over 150% of total return, outpacing peers and the Argentina market. Furthermore, the underlying company has seen an approximately 374% increase in EBITDA (from \$123 million for the twelve months ended June 30, 2016 to \$582 million for the twelve months ended December 31, 2018).

Edmond Safra, our Co-Chief Executive Officer, is the founder and President of EMS Capital LP, a New York-based investment manager with over \$2.1 billion in assets under management as of December 31, 2018. Mr. Safra is also a Vice President and director of M. Safra & Co., Inc., a multi-asset class investment management company that serves as the family office of the late Moise Y. Safra. He has extensive experience investing across various strategies, asset classes, sectors and geographies. He has been an active investor in the public and private markets in Brazil for the past two decades and in Argentina for the past six years, most recently including private real estate development projects in Buenos Aires.

Gregorio Werthein, our Co-Chief Executive Officer, is an Executive Managing Director of Werthein Group, which was founded approximately 90 years ago and is one of the most prominent private holding companies in Argentina. Mr. Gregorio Werthein has worked at Werthein Group for the past seven years. He currently serves as the chair of the M&A and investment committee. Mr. Gregorio Werthein is a board member of GNNW S.A., Experta ART and Cachay S.A. Mr. Gregorio Werthein also serves as a board member and executive committee member of TGS.

Gerardo Werthein, our Advisory Board Member, has been a principal and shareholder of Werthein Group since 1990. Over the last three decades, Mr. Gerardo Werthein has played an instrumental role in Werthein Group, executing more than fifty M&A and corporate finance transactions in Argentina. Mr. Gerardo Werthein's transaction experience includes:

- the acquisition, together with the Sielecki family, of a 23.3% stake in BankBoston Argentina (later known as Standard Bank Argentina) in April 2007, with the remaining 76.7% stake being acquired by Standard Bank. The combined investments represented total consideration of approximately \$170 million. In November 2012, ICBC acquired an aggregate of 80% of Standard Bank Argentina for \$600 million, which included the complete stakes of the Werthein and Sielecki families;
- the acquisition of a 48% stake in Telecom Argentina, the largest telecommunications company in Argentina, from France Telecom for \$125 million in September 2003, an investment which Werthein Group partially exited in March 2011, when it sold a 10% stake for \$145 million, and completely exited by May 2017 through share amortizations and dividend payments for approximately \$470 million; and
- the acquisition of La Caja de Ahorro y Seguro, one of the largest insurance companies in Argentina, in 1994, an investment which Werthein Group exited in 2015.

Mr. Gerardo Werthein has held a variety of leadership positions, including Vice Chairman of the board of directors of Telecom Argentina from 2003 to 2017, where he negotiated and completed a \$3.3 billion debt refinancing, one of the largest private debt restructurings in Argentina's history. Mr. Gerardo Werthein also acted as the CEO of Holding Caja de Ahorro y Seguro from 1994 to 2009. Over his tenure as CEO, the company increased its participation in the market to become the largest insurance group in Argentina.

We intend to draw upon the extensive networks, relationships and investment personnel of our management team and our sponsor to identify, source, negotiate and execute an initial business combination in the Latin America opportunity sectors. Our management team has built these

relationships over multiple decades of investment and operating experience in Latin America. We believe that the reputations of the members of our management team will make us a preferred partner for potential initial business combination targets. Furthermore, we believe that these relationships give us access to key resources to understand macroeconomic trends, government policies and reforms, regulatory frameworks, investor expectations and market sentiment in the region.

The past performance of our management team and their affiliates is not a guarantee (i) that we will be able to identify a suitable candidate for our initial business combination or (ii) of success with respect to any business combination we may consummate. You should not rely on the historical record of our sponsor, management team and their affiliates as indicative of our future performance. None of the members of our management team has any past experience with any blank check companies or special purpose acquisition companies.

### **Business Strategy**

Our business strategy is to identify and complete our initial business combination with a company in the Latin America opportunity sectors. We believe that there is an opportunity to take advantage of the recent economic volatility in Argentina to acquire a high-quality, but undervalued, company or asset, as well as of the new economic environment post elections in Brazil, and leverage our expertise to build a strong business with competitive advantages that have the potential to improve the target's overall value proposition.

We believe our management team has significant experience:

- identifying, sourcing, negotiating and executing acquisitions in the Latin America opportunity sectors;
- investing in, managing and operating companies across a variety of industries;
- attracting, selecting and retaining high-performing management teams with proven track records;
- developing and executing strategic business plans to grow companies, both organically and inorganically;
- partnering with other industry-leading players to increase sales and improve profitability, enhancing the competitive position of companies;
- implementing an optimized capital structure that enables companies to achieve their next phase of growth;
- accessing the capital markets, including local and international capital sources, across various business cycles;
- running successful and growing businesses throughout changing macroeconomic, legal, tax and regulatory environments.

Our acquisition plan is to leverage our management team's networks of potential transaction sources where we believe a combination of our management team's industry relationships, knowledge and experience could effect a positive transformation or augmentation of existing businesses or assets. Over the course of their careers, the members of our management team have developed a broad network of contacts and corporate relationships that we believe will serve as a useful source of acquisition opportunities. We plan to leverage relationships with management teams of public and private companies, investment professionals at private equity firms and other financial sponsors, owners of private businesses, government bodies, investment bankers, restructuring advisers, consultants, attorneys and accountants, which we believe should provide us with a number of business combination opportunities.

Upon completion of this offering, the members of our management team plan to communicate with their networks of relationships to articulate the parameters for our search for a target business and a potential business combination and begin the process of pursuing and reviewing potentially interesting leads.

#### Acquisition Criteria

Consistent with our business strategy, we have identified the following general criteria and guidelines that we believe are important in evaluating prospective targets for our initial business combination. We will use these criteria and guidelines in evaluating acquisition opportunities, but we may decide to enter into our initial business combination with a target that does not meet these criteria and guidelines. We expect to weigh potential upside from growth in the target business and an improved capital structure against any identified downside risks. We intend to focus on target businesses that we believe:

- **are leading players or high-quality assets within one of the Latin America opportunity sectors.** We intend to seek a target that has a leading position, technology or product capability in the consumer, telecommunications and technology, energy, financial services and real estate sectors;
- **are fundamentally sound with consistent operational performance and free cash flow generation.** We expect to target a business that has historically exhibited profitability and strong cash flow generation. Our management team has a proven track record accelerating growth of companies with strong past performance;
- **are well-suited for the volatility in local financial markets.** We intend to seek targets that can thrive throughout volatile market conditions such as export-oriented businesses with global sales or U.S. dollar-denominated revenues will be prioritized;
- **are at an inflection point, such as requiring additional capital to achieve a growth strategy.** We intend to look for targets that have clear opportunities for long-term sustainable growth, but which require our capital or expertise to execute a growth strategy;
- **have the potential to further improve their performance under our ownership.** We intend to seek targets where we believe we can improve company results by leveraging our transactional, financial, managerial and investment experience as well as our extensive networks and insights. We believe our management team has the right skills and capabilities to enhance companies' results and consolidate competitive positions in their sectors;
- **may benefit from capital markets access.** We intend to seek a target that may benefit from being, or has the potential to become, a public company with an increased public profile, enhanced corporate governance and increased access to a more diversified pool of capital; and
- **exhibit unrecognized value and desirable returns on capital.** We will look for targets that we believe have been undervalued by the marketplace based on our analysis and due diligence review.

These criteria are not intended to be exhaustive. Any evaluation relating to the merits of a particular initial business combination may be based, to the extent relevant, on these general guidelines as well as other considerations, factors and criteria that our management may deem relevant. In the event that we decide to enter into our initial business combination with a target business that does not meet the above criteria and guidelines, we will disclose that the target business does not meet the above criteria in our shareholder communications related to our initial business combination, which, as discussed in this prospectus, would be in the form of proxy solicitation or tender offer materials that we would file with the SEC.

### **Acquisition Process**

We have not identified any business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target.

Each of our officers and directors presently has, and any of them in the future may have additional, fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a business combination opportunity to such entity. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity that is suitable for an entity to which he or she has then-current fiduciary or contractual obligations, he or she may need to honor these fiduciary or contractual obligations to present such business combination opportunity to such entity, subject to these fiduciary duties under Cayman Islands law. We do not believe, however, that the fiduciary duties or contractual obligations of our officers or directors will materially affect our ability to complete our initial business combination.

### **Initial Business Combination**

The rules of the NYSE require that our initial business combination must be with one or more operating businesses or assets with a fair market value equal to at least 80% of the net assets held in trust (net of taxes payable and excluding the amount of any deferred underwriting discount held in trust). We refer to this as the 80% of net assets test. If our board of directors is not able to independently determine the fair market value of the target business or businesses, we will obtain an opinion from an independent investment banking firm that is a member of FINRA, or from an independent accounting firm, with respect to the satisfaction of such criteria. We do not intend to purchase multiple businesses in unrelated industries in conjunction with our initial business combination.

We anticipate structuring our initial business combination so that the post-transaction company in which our public shareholders own shares will own or acquire 100% of the issued and outstanding equity interests or assets of the target business or businesses. We may, however, structure our initial business combination such that the post-transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or shareholders or for other reasons, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the issued and outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended, or the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our shareholders prior to our initial business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the issued and outstanding capital stock of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our shareholders immediately prior to our initial business combination could own less than a majority of our issued and outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be valued for purposes of the 80% of net assets test. If our initial business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the target businesses.

Prior to the date of this prospectus, we will file a Registration Statement on Form 8-A with the SEC to voluntarily register our securities under Section 12 of the Securities Exchange Act of 1934, as amended, or the Exchange Act. As a result, we will be subject to the rules and regulations promulgated

under the Exchange Act. We have no current intention of filing a Form 15 to suspend our reporting or other obligations under the Exchange Act prior or subsequent to the consummation of our initial business combination.

#### **Emerging Growth Company Status and Other Corporate Information**

We are an "emerging growth company," as defined in Section 2(a) of the Securities Act of 1933, as amended, or the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012, or the JOBS Act. As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not "emerging growth companies" including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, or the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an "emerging growth company" can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an "emerging growth company" can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.07 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our ordinary shares that is held by non-affiliates exceeds \$700 million as of the end of the prior fiscal year's second quarter and (2) the date on which we have issued more than \$1.00 billion in non-convertible debt securities during the prior three-year period. References herein to "emerging growth company" shall have the meaning associated with it in the JOBS Act.

Exempted companies are Cayman Islands companies wishing to conduct business outside the Cayman Islands and, as such, are exempted from complying with certain provisions of the Companies Law. As an exempted company, we have applied for and have received a tax exemption undertaking from the Cayman Islands government that, in accordance with Section 6 of the Tax Concessions Law (2018 Revision) of the Cayman Islands, for a period of 30 years from the date of the undertaking, no law which is enacted in the Cayman Islands imposing any tax to be levied on profits, income, gains or appreciations shall apply to us or our operations and, in addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax shall be payable (1) on or in respect of our shares, debentures or other obligations or (2) by way of the withholding in whole or in part of a payment of dividend or other distribution of income or capital by us to our shareholders or a payment of principal or interest or other sums due under a debenture or other obligation of us.

We are a Cayman Islands exempted company incorporated on November 6, 2018. Our executive offices are located at 767 Fifth Avenue, 46th Floor, New York, New York 10153 and our telephone number is 212-891-2700.

## THE OFFERING

*In making your decision whether to invest in our securities, you should take into account not only the backgrounds of the members of our management team, but also the special risks we face as a blank check company and the fact that this offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act. You will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. You should carefully consider these and the other risks set forth in the section below entitled "Risk Factors" beginning on page 29 of this prospectus.*

Securities offered	25,000,000 units (or 28,750,000 units if the underwriters' over-allotment option is exercised in full), at \$10.00 per unit, each unit consisting of:  one ordinary share; and  one-half of one warrant.
NYSE symbols	Units: "RPLA.U"  Ordinary Shares: "RPLA"  Warrants: "RPLA WS"
Trading commencement and separation of ordinary shares and warrants	The units will begin trading promptly after the date of this prospectus. The ordinary shares and warrants constituting the units will begin separate trading on the 52nd day following the date of this prospectus unless Credit Suisse Securities (USA) LLC and Merrill Lynch, Pierce, Fenner & Smith Incorporated inform us of their decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. Once the ordinary shares and warrants commence separate trading, holders will have the option to continue to hold units or separate their units into the component securities. Holders will need to have their brokers contact our transfer agent in order to separate the units into ordinary shares and warrants. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least two units, you will not be able to receive or trade a whole warrant.
Separate trading of the ordinary shares and warrants is prohibited until we have filed a Current Report on Form 8-K	In no event will the ordinary shares and warrants be traded separately until we have filed with the SEC a Current Report on Form 8-K which includes an audited balance sheet of the Company reflecting our receipt of the gross proceeds at the closing of this offering. We will file the Current Report on Form 8-K promptly after the closing of this offering, which is anticipated to take place four business days from the date of this prospectus. If the underwriters' over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the underwriters' over-allotment option.

**Units:**

Number issued and outstanding before this offering	0
Number issued and outstanding after this offering	25,000,000 <sup>(1)</sup>
Ordinary shares:	
Number issued and outstanding before this offering	7,187,500 <sup>(2)</sup>
Number issued and outstanding after this offering	31,250,000 <sup>(1)(3)</sup>

**Warrants:**

Number of private placement warrants to be sold in a private placement simultaneously with this offering	7,000,000 <sup>(1)</sup>
Number of warrants to be outstanding after this offering and the private placement	19,500,000 <sup>(1)</sup>

Exercisability

Each whole warrant offered in this offering is exercisable to purchase one ordinary share, subject to adjustment as provided herein, and only whole warrants are exercisable. No fractional warrants will be issued upon separation of the units and only whole warrants will trade.

We structured each unit to contain one-half of one warrant, with each whole warrant exercisable for one ordinary share, as compared to units issued by some other similar blank check companies which contain whole warrants exercisable for one share, in order to reduce the dilutive effect of the warrants upon completion of our initial business combination as compared to units that each contain a whole warrant to purchase one share, which we believe will make us a more attractive merger partner for target businesses.

Exercise price

\$11.50 per share, subject to adjustment as described herein.

- (1) Assumes no exercise of the underwriters' over-allotment option and the forfeiture by our sponsor of 937,500 founder shares.
- (2) Consists solely of founder shares and includes up to 937,500 founder shares that are subject to forfeiture by our sponsor depending on the extent to which the underwriters' over-allotment option is exercised.
- (3) Includes 25,000,000 public shares and 6,250,000 founder shares.

In addition, if (x) we issue additional ordinary shares or equity-linked securities for capital raising purposes in connection with the closing of our initial business combination at an issue price or effective issue price of less than \$9.20 per ordinary share (with such issue price or effective issue price to be determined in good faith by our board of directors and, in the case of any such issuance to our sponsor or its affiliates, without taking into account any founder shares held by our sponsor or such affiliates, as applicable, prior to such issuance) (the "Newly Issued Price"), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of our initial business combination on the date of the consummation of our initial business combination (net of redemptions), and (z) the volume weighted average trading price of our ordinary shares during the 20 trading day period starting on the trading day prior to the day on which we consummate our initial business combination (such price, the "Market Value") is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger price described below under "Redemption of warrants" will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price.

Exercise period

The warrants will become exercisable on the later of:

- 30 days after the completion of our initial business combination; and
- 12 months from the closing of this offering; provided in each case that we have an effective registration statement under the Securities Act covering the issuance of the ordinary shares issuable upon exercise of the warrants and a current prospectus relating to them is available (or we permit holders to exercise their warrants on a cashless basis under the circumstances specified in the warrant agreement).

Redemption of warrants

We are not registering the ordinary shares issuable upon exercise of the warrants at this time. However, we have agreed that as soon as practicable, but in no event later than 15 business days after the closing of our initial business combination, we will use our best efforts to file with the SEC and have an effective registration statement covering the issuance of the ordinary shares issuable upon exercise of the warrants and to maintain a current prospectus relating to those ordinary shares until the warrants expire or are redeemed; provided that if our ordinary shares are, at the time of any exercise of a warrant, not listed on a national securities exchange such that it satisfies the definition of a "covered security" under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement.

The warrants will expire at 5:00 p.m., New York City time, five years after the completion of our initial business combination or earlier upon redemption or liquidation. On the exercise of any warrant, the warrant exercise price will be paid directly to us and not placed in the trust account.

Once the warrants become exercisable, we may redeem the outstanding warrants (except as described herein with respect to the private placement warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days' prior written notice of redemption, which we refer to as the 30-day redemption period; and
- if, and only if, the last reported sale price of our ordinary shares equals or exceeds \$18.00 per share (as adjusted for share splits, share dividends, rights issuances, subdivisions, reorganizations, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which we send the notice of redemption to the warrant holders.

We will not redeem the warrants unless a registration statement under the Securities Act covering the issuance of the ordinary shares issuable upon exercise of the warrants is then effective and a current prospectus relating to those ordinary shares is available throughout the 30-day redemption period, except if the warrants may be exercised on a cashless basis and such cashless exercise is exempt from registration under the Securities Act. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws.

If we call the warrants for redemption as described above, our management will have the option to require all holders that wish to exercise warrants to do so on a "cashless basis." In determining whether to require all holders to exercise their warrants on a "cashless basis," our management will consider, among other factors, our cash position, the number of warrants that are outstanding and the dilutive effect on our shareholders of issuing the maximum number of ordinary shares issuable upon the exercise of our warrants. In such event, each holder would pay the exercise price by surrendering the warrants for that number of ordinary shares equal to the quotient obtained by dividing (x) the product of the number of ordinary shares underlying the warrants, multiplied by the excess of the "fair market value" (defined below) over the exercise price of the warrants by (y) the fair market value. The "fair market value" shall mean the average last reported sale price of the ordinary shares for the 10 trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of warrants. Please see the section entitled "Description of Securities—Warrants—Public Shareholders' Warrants" for additional information.

None of the private placement warrants will be redeemable by us so long as they are held by our sponsor or its permitted transferees.

Founder shares

In December 2018, our sponsor subscribed for an aggregate of 7,187,500 ordinary shares, par value \$0.0001 per share, for an aggregate purchase price of \$25,000, or approximately \$0.003 per share (after giving effect to a surrender of shares by our sponsor for no value and a subsequent share capitalization). In March 2019, our sponsor transferred an aggregate of 90,000 founder shares to our independent directors (40,000 founder shares to Mr. Mariano Bosch and 25,000 founder shares each to Messrs. Daniel Marx and Russell Colaco).

Prior to the initial investment in the company of \$25,000 by our sponsor, the company had no assets, tangible or intangible. The purchase price of these founder shares was determined by dividing the amount of cash contributed to us by the number of founder shares issued. Our initial shareholders will collectively own 20% of our issued and outstanding shares after this offering (excluding the ordinary shares underlying the units that affiliates of our sponsor will purchase in this offering and assuming our initial shareholders do not purchase any other units in this offering). If we increase or decrease the size of this offering, we will effect a capitalization or share repurchase or redemption or other appropriate mechanism, as applicable, with respect to our ordinary shares immediately prior to the consummation of this offering in such amount as to maintain the ownership of founder shares by our initial shareholders at 20% of our issued and outstanding ordinary shares upon the consummation of this offering (excluding the ordinary shares underlying the units that affiliates of our sponsor will purchase in this offering and assuming our initial shareholders do not purchase any other units in this offering). Up to 937,500 founder shares are subject to forfeiture by our sponsor depending on the extent to which the underwriters' over-allotment option is exercised.

The founder shares are identical to the ordinary shares included in the units being sold in this offering, except that:

- the founder shares are subject to certain transfer restrictions, as described in more detail below;

Transfer restrictions on founder shares

- our initial shareholders have entered into a letter agreement with us, pursuant to which they have agreed: (1) to waive their redemption rights with respect to their founder shares and any public shares held by them in connection with the completion of our initial business combination; and (2) to waive their rights to liquidating distributions from the trust account with respect to any founder shares they hold if we fail to complete our initial business combination within 24 months from the closing of this offering (although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial business combination within the prescribed time frame). If we submit our initial business combination to our public shareholders for a vote, our initial shareholders have agreed, pursuant to such letter agreement, to vote their founder shares and any public shares they hold in favor of our initial business combination. As a result, in addition to our initial shareholders' founder shares, we would need 9,375,001, or 37.5%, of the 25,000,000 public shares sold in this offering to be voted in favor of a transaction (assuming all issued and outstanding shares are voted and the over-allotment option is not exercised), subject to any higher threshold as is required by Cayman Islands or other applicable law, in order to have such initial business combination approved. Our directors and officers have entered into letter agreements similar to the one signed by our initial shareholders with respect to public shares acquired by them, if any; and
- the founder shares are entitled to registration rights.

Our initial shareholders have agreed not to transfer, assign or sell any of their founder shares until the earlier to occur of: (A) one year after the completion of our initial business combination; or (B) the date on which we complete a liquidation, merger, amalgamation, share exchange, reorganization or other similar transaction after our initial business combination that results in all of our public shareholders having the right to exchange their ordinary shares for cash, securities or other property (except with respect to permitted transferees as described herein under "Principal Shareholders—Transfers of Founder Shares and Private Placement Warrants"). Any permitted transferees would be subject to the same restrictions and other agreements of our initial shareholders with respect to any founder shares. We refer to such transfer restrictions throughout this prospectus as the lock-up.

Notwithstanding the foregoing, if the last reported sale price of our ordinary shares equals or exceeds \$12.00 per share (as adjusted for share splits, share dividends, rights issuances, subdivisions, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, the founder shares will be released from the lock-up.

Private placement warrants

Our sponsor has committed, pursuant to a written agreement, to purchase an aggregate of 7,000,000 private placement warrants (or 7,750,000 if the underwriters' over-allotment option is exercised in full) at a price of \$1.00 per warrant (\$7,000,000 in the aggregate or \$7,750,000 in the aggregate if the underwriters' over-allotment option is exercised in full) in a private placement that will occur simultaneously with the closing of this offering. Each private placement warrant is exercisable to purchase one ordinary share at a price of \$11.50 per share, subject to adjustment as provided herein. Private placement warrants may be exercised only for a whole number of shares. The purchase price of the private placement warrants will be added to the proceeds from this offering to be held in the trust account. If we do not complete our initial business combination within 24 months from the closing of this offering, the proceeds of the sale of the private placement warrants held in the trust account will be used to fund the redemption of our public shares (subject to the requirements of applicable law) and the private placement warrants will expire worthless. The private placement warrants will not be redeemable by us so long as they are held by our sponsor or its permitted transferees (except as described below under "Principal Shareholders—Transfers of Founder Shares and Private Placement Warrants"). If the private placement warrants are held by holders other than our sponsor or its permitted transferees, the private placement warrants will be redeemable by us and exercisable by the holders on the same basis as the warrants included in the units being sold in this offering. Our sponsor, as well as its permitted transferees, have the option to exercise the private placement warrants on a cashless basis.

Transfer restrictions on private placement warrants

The private placement warrants (including the ordinary shares issuable upon exercise of the private placement warrants) will not be transferable, assignable or salable until 30 days after the completion of our initial business combination.

Proceeds to be held in trust account

The rules of the NYSE provide that at least 90% of the gross proceeds from this offering and the sale of the private placement warrants be deposited in a trust account. Of the \$257,000,000 in proceeds we will receive from this offering and the sale of the private placement warrants described in this prospectus, or \$295,250,000 if the underwriters' over-allotment option is exercised in full, \$250,000,000 (\$10.00 per unit), or \$287,500,000 (\$10.00 per unit) if the underwriters' over-allotment option is exercised in full, (including \$7,875,000 (or up to \$9,187,500 if the underwriters' over-allotment option is exercised in full) in deferred underwriting commissions), will be deposited into a U.S.-based trust account with Continental Stock Transfer & Trust Company acting as trustee, and \$2,500,000 will be used to pay expenses in connection with the closing of this offering and for working capital following this offering. The funds in the trust account will be invested only in U.S. government treasury bills with a maturity of 180 days or less or in money market funds investing solely in U.S. Treasuries.

Anticipated expenses and funding sources	<p>Except with respect to interest earned on the funds held in the trust account that may be released to us to pay our taxes, if any, the funds held in the trust account will not be released from the trust account until the earliest to occur of: (1) the completion of our initial business combination; (2) the redemption of any public shares properly submitted in connection with a shareholder vote to amend our amended and restated memorandum and articles of association (A) to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to shareholders' rights or pre-initial business combination activity; and (3) the redemption of our public shares if we are unable to complete our initial business combination within 24 months from the closing of this offering, subject to applicable law. The proceeds deposited in the trust account could become subject to the claims of our creditors, if any, which could have priority over the claims of our public shareholders.</p>
Conditions to completing our initial business combination	<p>Unless and until we complete our initial business combination, no proceeds held in the trust account will be available for our use, except the withdrawal of interest to pay taxes. Based upon current interest rates, we expect the trust account to generate approximately \$3,500,000 of interest annually (assuming an interest rate of 1.4% per year). Unless and until we complete our initial business combination, we may pay our expenses only from:</p> <ul style="list-style-type: none"><li>• the net proceeds of this offering and the sale of the private placement warrants not held in the trust account, which will be approximately \$1,500,000 in working capital after the payment of approximately \$1,000,000 in expenses relating to this offering; and</li><li>• any loans or additional investments from our sponsor, members of our management team or any of their affiliates or other third parties, although they are under no obligation to loan funds or invest in us; and provided that any such loans will not have any claim on the proceeds held in the trust account unless such proceeds are released to us upon completion of our initial business combination.</li></ul> <p>There is no limitation on our ability to raise funds privately or through loans in connection with our initial business combination. The rules of the NYSE require that our initial business combination must be with one or more operating businesses or assets with a fair market value equal to at least 80% of the net assets held in trust (net of taxes payable and excluding the amount of any deferred underwriting discount held in trust). We do not currently intend to purchase multiple businesses in unrelated industries in conjunction with our initial business combination.</p>

If our board of directors is not able to independently determine the fair market value of the target business or businesses, we will obtain an opinion from an independent investment banking firm that is a member of FINRA, or from an independent accounting firm. We will complete our initial business combination only if the post-transaction company in which our public shareholders own shares will own or acquire 50% or more of the issued and outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our shareholders prior to our initial business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us in our initial business combination transaction. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be valued for purposes of the 80% of net assets test; provided that in the event that our initial business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the target businesses.

Permitted purchases of public shares by our affiliates

If we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our initial shareholders, directors, officers, advisors or any of their affiliates may purchase shares in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. Please see "Proposed Business—Permitted purchases of our securities" for a description of how such persons will determine from which shareholders to seek to acquire shares. There is no limit on the number of shares such persons may purchase, or any restriction on the price that they may pay. Any such price per share may be different than the amount per share a public shareholder would receive if it elected to redeem its shares in connection with our initial business combination. However, such persons have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. In the event our initial shareholders, directors, officers, advisors or any of their affiliates determine to make any such purchases at the time of a shareholder vote relating to our initial business combination, such purchases could have the effect of influencing the vote necessary to approve such transaction. None of the funds in the trust account will be used to purchase shares in such transactions. If they engage in such transactions, they will not make any such purchases when they are in possession of any material non-public information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act. Subsequent to the consummation of this offering, we will adopt an insider trading policy which will require insiders to (1) refrain from purchasing securities during certain blackout periods and when they are in possession of any material non-public information and (2) to clear all trades with our legal counsel prior to execution. We cannot currently determine whether our insiders will make such purchases pursuant to a Rule 10b5-1 plan, as it will be dependent upon several factors, including but not limited to, the timing and size of such purchases. Depending on such circumstances, our insiders may either make such purchases pursuant to a Rule 10b5-1 plan or determine that such a plan is not necessary.

We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules. Our sponsor, directors, officers, advisors or any of their affiliates will not make any purchases if the purchases would violate Section 9(a)(2) or Rule 10b-5 of the Exchange Act.

Redemption rights for public shareholders upon completion of our initial business combination

We will provide our public shareholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of our initial business combination, including interest (which interest shall be net of taxes payable), divided by the number of then issued and outstanding public shares, subject to the limitations described herein.

The amount in the trust account is initially anticipated to be \$10.00 per public share. The per-share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. There will be no redemption rights upon the completion of our initial business combination with respect to our warrants. Our initial shareholders have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and any public shares held by them in connection with the completion of our initial business combination. Our directors and officers have entered into letter agreements similar to the one signed by our initial shareholders with respect to public shares acquired by them, if any.

Manner of conducting redemptions

We will provide our public shareholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination either (1) in connection with a shareholder meeting called to approve the business combination or (2) by means of a tender offer. The decision as to whether we will seek shareholder approval of a proposed business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would require us to seek shareholder approval under applicable law or stock exchange listing requirement. Asset acquisitions and share purchases would not typically require shareholder approval while direct mergers with our company where we do not survive, amalgamations pursuant to a scheme of arrangement and any transactions where we issue more than 20% of our issued and outstanding ordinary shares or seek to amend our amended and restated memorandum and articles of association would require shareholder approval. We intend to conduct redemptions without a shareholder vote pursuant to the tender offer rules of the SEC unless shareholder approval is required by applicable law or stock exchange listing requirement or we choose to seek shareholder approval for business or other reasons.

If a shareholder vote is not required and we do not decide to hold a shareholder vote for business or other reasons, we will, pursuant to our amended and restated memorandum and articles of association:

- conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers; and
- file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

Upon the public announcement of our initial business combination, if we elect to conduct redemptions pursuant to the tender offer rules, we and our sponsor will terminate any plan established in accordance with Rule 10b5-1 to purchase our ordinary shares in the open market, in order to comply with Rule 14e-5 under the Exchange Act.

In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. In addition, the tender offer will be conditioned on public shareholders not tendering more than a specified number of public shares, which number will be based on the requirement that we may not redeem public shares in an amount that would cause our net tangible assets to be less than \$5,000,001, after payment of the deferred underwriting commission (so that we do not then become subject to the SEC's "penny stock" rules), or any greater net tangible asset or cash requirement that may be contained in the agreement relating to our initial business combination. If public shareholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete such initial business combination.

If, however, shareholder approval of the transaction is required by applicable law or stock exchange listing requirement, or we decide to obtain shareholder approval for business or other reasons, we will:

- conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules; and
- file proxy materials with the SEC.

We expect that a final proxy statement would be mailed to public shareholders at least 10 days prior to the shareholder vote. However, we expect that a draft proxy statement would be made available to such shareholders well in advance of such time, providing additional notice of redemption if we conduct redemptions in conjunction with a proxy solicitation. Although we are not required to do so, we currently intend to comply with the substantive and procedural requirements of Regulation 14A in connection with any shareholder vote even if we are not able to maintain our NYSE listing or Exchange Act registration.

If we seek shareholder approval, we will complete our initial business combination only if a majority, or such higher threshold as may be required by law, of the issued and outstanding ordinary shares voted are voted in favor of the business combination. In such case, pursuant to the terms of a letter agreement entered into with us, our initial shareholders have agreed (and their permitted transferees will agree) to vote their founder shares and any public shares held by them in favor of our initial business combination. We expect that at the time of any shareholder vote relating to our initial business combination, our initial shareholders and their permitted transferees will own at least 20% of our issued and outstanding ordinary shares entitled to vote thereon. Our directors and officers also have agreed to vote in favor of our initial business combination with respect to public shares acquired by them, if any. These voting thresholds, and the voting agreements of our initial shareholders, may make it more likely that we will consummate our initial business combination. Each public shareholder may elect to redeem their public shares without voting, and if they do vote, irrespective of whether they vote for or against the proposed transaction.

Our amended and restated memorandum and articles of association will provide that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we do not then become subject to the SEC's "penny stock" rules). Redemptions of our public shares may also be subject to a higher net tangible asset test or cash requirement pursuant to an agreement relating to our initial business combination. For example, the proposed business combination may require: (1) cash consideration to be paid to the target or its owners; (2) cash to be transferred to the target for working capital or other general corporate purposes; or (3) the retention of cash to satisfy other conditions in accordance with the terms of the proposed business combination. In the event the aggregate cash consideration we would be required to pay for all ordinary shares that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, and all ordinary shares submitted for redemption will be returned to the holders thereof.

Tendering share certificates in connection with a tender offer or redemption rights

We may require our public shareholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in "street name," to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents or proxy materials mailed to such holders, or up to two business days prior to the vote on the proposal to approve our initial business combination in the event we distribute proxy materials, or to deliver their shares to the transfer agent electronically using The Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System, at the holder's option, rather than simply voting against the initial business combination. The tender offer or proxy materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will indicate whether we are requiring public shareholders to satisfy such delivery requirements.

Limitation on redemption rights of shareholders holding more than 15% of the shares sold in this offering if we hold shareholder vote

Notwithstanding the foregoing redemption rights, if we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated memorandum and articles of association will provide that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a "group" (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the shares sold in this offering. We believe the restriction described above will discourage shareholders from accumulating large blocks of shares, and subsequent attempts by such holders to use their ability to redeem their shares as a means to force us or our sponsor or its affiliates to purchase their shares at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public shareholder holding more than an aggregate of 15% of the shares sold in this offering could threaten to exercise its redemption rights against a business combination if such holder's shares are not purchased by us or our sponsor or its affiliates at a premium to the then-current market price or on other undesirable terms. By limiting our shareholders' ability to redeem to no more than 15% of the shares sold in this offering, we believe we will limit the ability of a small group of shareholders to unreasonably attempt to block our ability to complete our initial business combination, particularly in connection with a business combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash.

Redemption Rights in connection with proposed amendments to our amended and restated memorandum and articles of association

However, we would not be restricting our shareholders' ability to vote all of their shares (including all shares held by those shareholders that hold more than 15% of the shares sold in this offering) for or against our initial business combination.

Some other blank check companies have a provision in their constitutional documents which prohibits the amendment of certain constitutional provisions. Our amended and restated memorandum and articles of association will provide that any of its provisions, including those related to pre-business combination activity (including the requirement to deposit proceeds of this offering and the private placement warrants into the trust account and not release such amounts except in specified circumstances), may be amended if approved by holders of at least two-thirds of our ordinary shares who attend and vote in a general meeting, and corresponding provisions of the trust agreement governing the release of funds from our trust account may be amended if approved by holders of 65% of our ordinary shares. Our initial shareholders, who will beneficially own 20% of our ordinary shares upon the closing of this offering (excluding the ordinary shares underlying the units that affiliates of our sponsor will purchase in this offering and assuming our initial shareholders do not purchase any other units in this offering), may participate in any vote to amend our amended and restated memorandum and articles of association and/or trust agreement and will have the discretion to vote in any manner they choose. Our sponsor, officers and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated memorandum and articles of association (a) that would modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (b) with respect to any other provision relating to shareholders' rights or pre-initial business combination activity, unless we provide our public shareholders with the opportunity to redeem their ordinary shares upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable), divided by the number of then issued and outstanding public shares. Our initial shareholders have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and any public shares held by them in connection with the completion of our initial business combination. Our directors and officers have entered into letter agreements similar to the one signed by our initial shareholders with respect to public shares acquired by them, if any.

Release of funds in trust account on closing of our initial business combination

On the completion of our initial business combination, all amounts held in the trust account will be released to us. We will use these funds to pay amounts due to any public shareholders who exercise their redemption rights as described above under "Redemption rights for public shareholders upon completion of our initial business combination," to pay the underwriters their deferred underwriting commissions, to pay all or a portion of the consideration payable to the target or owners of the target of our initial business combination and to pay other expenses associated with our initial business combination. If our initial business combination is paid for using equity or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination, we may apply the balance of the cash released to us from the trust account for general corporate purposes, including for maintenance or expansion of operations of post-transaction businesses, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital.

Redemption of public shares and distribution and liquidation if no initial business combination

Our sponsor, officers and directors have agreed that we will have only 24 months from the closing of this offering to complete our initial business combination. If we are unable to complete our initial business combination within such 24-month period, we will: (1) cease all operations except for the purpose of winding up; (2) as promptly as reasonably possible but not more than 10 business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (less up to \$100,000 of interest to pay dissolution expenses and which interest shall be net of taxes payable), divided by the number of then issued and outstanding public shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidating distributions, if any), subject to applicable law; and (3) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we fail to complete our initial business combination within the 24- month time period.

Our initial shareholders have entered into a letter agreement with us, pursuant to which they have waived their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within 24 months from the closing of this offering. However, if our initial shareholders acquire public shares after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the allotted 24-month time frame. The underwriters have agreed to waive their rights to their deferred underwriting commission held in the trust account in the event we do not complete our initial business combination within 24 months from the closing of this offering and, in such event, such amounts will be included with the funds held in the trust account that will be available to fund the redemption of our public shares.

Our sponsor, officers and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated memorandum and articles of association (a) that would modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (b) with respect to any other provision relating to shareholders' rights or pre-initial business combination activity, unless we provide our public shareholders with the opportunity to redeem their ordinary shares upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable), divided by the number of then issued and outstanding public shares. However, we may not redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we do not then become subject to the SEC's "penny stock" rules).

Limited payments to insiders

There will be no finder's fees, reimbursements or cash payments made to our sponsor, officers or directors, or our or any of their affiliates, for services rendered to us prior to or in connection with the completion of our initial business combination, other than the following payments, none of which will be made from the proceeds of this offering and the sale of the private placement warrants held in the trust account prior to the completion of our initial business combination:

- repayment of an aggregate of up to \$250,000 in loans made to us by our sponsor to cover offering-related and organizational expenses;
- payment of customary fees for financial advisory services;
- payment of annual director fees of \$25,000 each to two of our independent directors;

	<ul style="list-style-type: none"><li>• reimbursement for any out-of-pocket expenses related to identifying, investigating and completing an initial business combination; and</li><li>• repayment of loans which may be made by our sponsor or an affiliate of our sponsor or certain of our officers and directors to finance transaction costs in connection with an intended initial business combination, the terms of which have not been determined nor have any written agreements been executed with respect thereto. Up to \$1,500,000 of such loans may be convertible into warrants at a price of \$1.00 per warrant at the option of the lender.</li></ul>
	<p>These payments may be funded using the net proceeds of this offering and the sale of the private placement warrants not held in the trust account or, upon completion of the initial business combination, from any amounts remaining from the proceeds of the trust account released to us in connection therewith.</p>
	<p>Our audit committee will review on a quarterly basis all payments that were made to our sponsor, officers or directors, or our or any of their affiliates.</p>
Audit committee	<p>Prior to the effectiveness of this registration statement, we will have established and will maintain an audit committee to, among other things, monitor compliance with the terms described above and the other terms relating to this offering. If any noncompliance is identified, then the audit committee will be charged with the responsibility to immediately take all action necessary to rectify such noncompliance or otherwise to cause compliance with the terms of this offering. For more information, see the section entitled "Management—Committees of the Board of Directors—Audit Committee."</p>
Conflicts of interest	<p>Each of our officers and directors presently has, and any of them in the future may have additional, fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a business combination opportunity to such entity. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity that is suitable for an entity to which he or she has then-current fiduciary or contractual obligations, he or she may need to honor these fiduciary or contractual obligations to present such business combination opportunity to such entity, subject to these fiduciary duties under Cayman Islands law. We do not believe, however, that the fiduciary duties or contractual obligations of our officers or directors will materially affect our ability to complete our initial business combination.</p>

**Indemnity**

Our sponsor has agreed that it will be liable to us if and to the extent any claims by a third party (other than our independent auditors) for services rendered or products sold to us, or a prospective target business with which we have discussed entering into a transaction agreement, reduce the amount of funds in the trust account to below (1) \$10.00 per public share or (2) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay taxes, except as to any claims by a third party who executed a waiver of any and all rights to seek access to the trust account and except as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, our sponsor will not be responsible to the extent of any liability for such third-party claims. We have not independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations and believe that our sponsor's only assets are securities of our company and, therefore, our sponsor may not be able to satisfy those obligations. We have not asked our sponsor to reserve for such obligations.

**Risks**

We are a newly incorporated company that has conducted no operations and has generated no revenues. Until we complete our initial business combination, we will have no operations and will generate no operating revenues. In making your decision whether to invest in our securities, you should take into account not only the background of our management team, but also the special risks we face as a blank check company. This offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act. Accordingly, you will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. For additional information concerning how Rule 419 blank check offerings differ from this offering, please see "Proposed Business—Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419." You should carefully consider these and the other risks set forth in the section entitled "Risk Factors" beginning on page 29 of this prospectus.

**Summary Financial Data**

The following table summarizes the relevant financial data for our business and should be read with our financial statements, which are included in this prospectus. We have not had any significant operations to date, so only balance sheet data is presented.

<u>Balance Sheet Data:</u>	<u>As of</u> <u>December 31, 2018</u>
Working capital (deficiency)	\$ (67,048)
Total assets	114,354
Total liabilities	92,048
Shareholder's equity	22,306

If our initial business combination is not completed within 24 months from the closing of this offering, the proceeds then on deposit in the trust account, including interest (less up to \$100,000 of interest to pay dissolution expenses and which interest shall be net of taxes payable), will be used to fund the redemption of our public shares. Our initial shareholders have entered into a letter agreement with us, pursuant to which they have agreed to waive their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within such 24-month time period.

## RISK FACTORS

*An investment in our securities involves a high degree of risk. You should consider carefully all of the risks described below, together with the other information contained in this prospectus, before making a decision to invest in our units. If any of the following events occur, our business, financial condition and operating results may be materially adversely affected. In that event, the trading price of our securities could decline, and you could lose all or part of your investment.*

### **Risks Relating to the Offering**

*We are a newly incorporated company with no operating history and no revenues, and you have no basis on which to evaluate our ability to achieve our business objective.*

We are a newly incorporated company established under the laws of the Cayman Islands with no operating results, and we will not commence operations until obtaining funding through this offering. Because we lack an operating history, you have no basis upon which to evaluate our ability to achieve our business objective of completing our initial business combination with one or more target businesses. We have no plans, arrangements or understandings with any prospective target business concerning a business combination and may be unable to complete our initial business combination. If we fail to complete our initial business combination, we will never generate any operating revenues.

*Our public shareholders may not be afforded an opportunity to vote on our proposed business combination, which means we may complete our initial business combination even though a majority of our public shareholders do not support such a combination.*

We may not hold a shareholder vote to approve our initial business combination unless the business combination would require shareholder approval under applicable law or stock exchange rules or if we decide to hold a shareholder vote for business or other reasons. For instance, the rules of the NYSE currently allow us to engage in a tender offer in lieu of a shareholder meeting, but would still require us to obtain shareholder approval if we were seeking to issue more than 20% of our issued and outstanding shares to a target business as consideration in any business combination. Therefore, if we were structuring a business combination that required us to issue more than 20% of our issued and outstanding shares, we would seek shareholder approval of such business combination. However, except as required by applicable law or stock exchange rules, the decision as to whether we will seek shareholder approval of a proposed business combination or will allow shareholders to sell their shares to us in a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors, such as the timing of the transaction and whether the terms of the transaction would otherwise require us to seek shareholder approval. Accordingly, we may consummate our initial business combination even if holders of a majority of the issued and outstanding ordinary shares do not approve of the business combination we consummate. Please see the section entitled "Proposed Business—Effecting Our Initial Business Combination—Shareholders may not have the ability to approve our initial business combination" for additional information.

*If we seek shareholder approval of our initial business combination, our initial shareholders, officers and directors have agreed to vote in favor of such initial business combination, regardless of how our public shareholders vote.*

Unlike many other blank check companies in which the initial shareholders agree to vote their founder shares in accordance with the majority of the votes cast by the public shareholders in connection with an initial business combination, our initial shareholders have agreed (and their permitted transferees will agree), pursuant to the terms of a letter agreement entered into with us, to vote their founder shares and any public shares held by them in favor of our initial business combination. As a result, in addition to our initial shareholders' founder shares, we would need

## [Table of Contents](#)

9,375,001, or 37.5%, of the 25,000,000 public shares sold in this offering to be voted in favor of a transaction (assuming all issued and outstanding shares are voted and the over-allotment option is not exercised), subject to any higher threshold as is required by Cayman Islands or other applicable law, in order to have such initial business combination approved. Our directors and officers have entered into letter agreements similar to the one signed by our initial shareholders with respect to public shares acquired by them, if any. We expect that our initial shareholders and their permitted transferees will own at least 20% of our issued and outstanding ordinary shares (excluding the ordinary shares underlying the units that affiliates of our sponsor will purchase in this offering and assuming our initial shareholders do not purchase any other units in this offering) at the time of any such shareholder vote. Accordingly, if we seek shareholder approval of our initial business combination, it is more likely that the necessary shareholder approval will be received than would be the case if such persons agreed to vote their founder shares in accordance with the majority of the votes cast by our public shareholders.

***Your only opportunity to affect the investment decision regarding a potential business combination will be limited to the exercise of your right to redeem your shares from us for cash, unless we seek shareholder approval of such business combination.***

At the time of your investment in us, you will not be provided with an opportunity to evaluate the specific merits or risks of any target businesses. Additionally, since our board of directors may complete a business combination without seeking shareholder approval, public shareholders may not have the right or opportunity to vote on the business combination, unless we seek such shareholder approval. Accordingly, if we do not seek shareholder approval, your only opportunity to affect the investment decision regarding a potential business combination may be limited to exercising your redemption rights within the period of time (which will be at least 20 business days) set forth in our tender offer documents mailed to our public shareholders in which we describe our initial business combination.

***The ability of our public shareholders to redeem their shares for cash may make our financial condition unattractive to potential business combination targets, which may make it difficult for us to enter into a business combination with a target.***

We may seek to enter into a business combination transaction agreement with a prospective target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. If too many public shareholders exercise their redemption rights, we would not be able to meet such closing condition and, as a result, would not be able to proceed with the business combination. Furthermore, in no event will we redeem our public shares in an amount that would cause our net tangible assets, after payment of the deferred underwriting commissions, to be less than \$5,000,001 (so that we do not then become subject to the SEC's "penny stock" rules), or any greater net tangible asset or cash requirement that may be contained in the agreement relating to our initial business combination. Consequently, if accepting all properly submitted redemption requests would cause our net tangible assets to be less than \$5,000,001 or such greater amount necessary to satisfy a closing condition as described above, we would not proceed with such redemption and the related business combination and may instead search for an alternate business combination. Prospective targets will be aware of these risks and, thus, may be reluctant to enter into a business combination transaction with us.

***The ability of our public shareholders to exercise redemption rights with respect to a large number of our shares may not allow us to complete the most desirable business combination or optimize our capital structure.***

At the time we enter into an agreement for our initial business combination, we will not know how many shareholders may exercise their redemption rights and, therefore, we will need to structure the transaction based on our expectations as to the number of shares that will be submitted for

[Table of Contents](#)

redemption. If our initial business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price, or requires us to have a minimum amount of cash at closing, we will need to reserve a portion of the cash in the trust account to meet such requirements, or arrange for third-party financing. In addition, if a larger number of shares is submitted for redemption than we initially expected, we may need to restructure the transaction to reserve a greater portion of the cash in the trust account or arrange for third-party financing.

Raising additional third-party financing may involve dilutive equity issuances or the incurrence of indebtedness at higher than desirable levels. The above considerations may limit our ability to complete the most desirable business combination available to us or optimize our capital structure.

***The ability of our public shareholders to exercise redemption rights with respect to a large number of our shares could increase the probability that our initial business combination would be unsuccessful and that you would have to wait for liquidation in order to redeem your shares.***

If our initial business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price, or requires us to have a minimum amount of cash at closing, the probability that our initial business combination would be unsuccessful increases. If our initial business combination is unsuccessful, you would not receive your pro rata portion of the trust account until we liquidate the trust account. If you are in need of immediate liquidity, you could attempt to sell your shares in the open market; however, at such time our shares may trade at a discount to the pro rata amount per share in the trust account. In either situation, you may suffer a material loss on your investment or lose the benefit of funds expected in connection with our redemption until we liquidate or you are able to sell your shares in the open market.

***The requirement that we complete our initial business combination within the prescribed time frame may give potential target businesses leverage over us in negotiating a business combination and may limit the time we have in which to conduct due diligence on potential business combination targets, in particular as we approach our dissolution deadline, which could undermine our ability to complete our initial business combination on terms that would produce value for our shareholders.***

Any potential target business with which we enter into negotiations concerning a business combination will be aware that we must complete our initial business combination within 24 months from the closing of this offering. Consequently, such target business may obtain leverage over us in negotiating a business combination, knowing that if we do not complete our initial business combination with that particular target business, we may be unable to complete our initial business combination with any target business. This risk will increase as we get closer to the end of the 24-month period. In addition, we may have limited time to conduct due diligence and may enter into our initial business combination on terms that we would have rejected upon a more comprehensive investigation.

***We may not be able to complete our initial business combination within the prescribed time frame, in which case we would cease all operations except for the purpose of winding up and we would redeem our public shares and liquidate, in which case our public shareholders may receive only \$10.00 per share, or less than such amount in certain circumstances, and our warrants will expire worthless.***

Our sponsor, officers and directors have agreed that we must complete our initial business combination within 24 months from the closing of this offering. We may not be able to find a suitable target business and complete our initial business combination within such time period. Our ability to complete our initial business combination may be negatively impacted by general market conditions, volatility in the capital and debt markets and the other risks described herein.

## [Table of Contents](#)

If we have not completed our initial business combination within such time period, we will: (1) cease all operations except for the purpose of winding up; (2) as promptly as reasonably possible but not more than 10 business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (less up to \$100,000 of interest to pay dissolution expenses and which interest shall be net of taxes payable), divided by the number of then issued and outstanding public shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidating distributions, if any), subject to applicable law; and (3) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. In such case, our public shareholders may receive only \$10.00 per share, or less than \$10.00 per share, on the redemption of their shares, and our warrants will expire worthless. See "—If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by shareholders may be less than \$10.00 per share" and other risk factors herein.

***If we seek shareholder approval of our initial business combination, our sponsor, directors, officers, advisors or any of their affiliates may elect to purchase shares from public shareholders, which may influence a vote on a proposed business combination and reduce the public "float" of our ordinary shares.***

If we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsor, directors, officers, advisors or any of their affiliates may purchase shares in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination, although they are under no obligation to do so. Please see "Proposed Business—Permitted purchases of our securities" for a description of how such persons will determine from which shareholders to seek to acquire shares. Such a purchase may include a contractual acknowledgement that such shareholder, although still the record holder of our shares, is no longer the beneficial owner thereof and therefore agrees not to exercise its redemption rights. In the event that our sponsor, directors, officers, advisors or any of their affiliates purchase shares in privately negotiated transactions from public shareholders who have already elected to exercise their redemption rights, such selling shareholders would be required to revoke their prior elections to redeem their shares. The price per share paid in any such transaction may be different than the amount per share a public shareholder would receive if it elected to redeem its shares in connection with our initial business combination. The purpose of such purchases could be to vote such shares in favor of our initial business combination and thereby increase the likelihood of obtaining shareholder approval of our initial business combination or to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met. This may result in the completion of our initial business combination that may not otherwise have been possible.

In addition, if such purchases are made, the public "float" of our ordinary shares and the number of beneficial holders of our securities may be reduced, possibly making it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.

***If a shareholder fails to receive notice of our offer to redeem our public shares in connection with our initial business combination, or fails to comply with the procedures for tendering its shares, such shares may not be redeemed.***

We will comply with the tender offer rules or proxy rules, as applicable, when conducting redemptions in connection with our initial business combination. Despite our compliance with these rules, if a shareholder fails to receive our tender offer or proxy materials, as applicable, such

## [Table of Contents](#)

shareholder may not become aware of the opportunity to redeem its shares. In addition, the tender offer documents or proxy materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will describe the various procedures that must be complied with in order to validly tender or redeem public shares. In the event that a shareholder fails to comply with these procedures, its shares may not be redeemed. See "Proposed Business—Effecting Our Initial Business Combination—Tendering share certificates in connection with a tender offer or redemption rights."

***You will not have any rights or interests in funds from the trust account, except under certain limited circumstances. To liquidate your investment, therefore, you may be forced to sell your public shares or warrants, potentially at a loss.***

Our public shareholders will be entitled to receive funds from the trust account only upon the earliest to occur of: (1) the completion of our initial business combination, and then only in connection with those ordinary shares that such shareholder properly elected to redeem, subject to the limitations described herein, (2) the redemption of any public shares properly submitted in connection with a shareholder vote to amend our amended and restated memorandum and articles of association (A) to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to shareholders' rights or pre-initial business combination activity and (3) the redemption of our public shares if we are unable to complete our initial business combination within 24 months from the closing of this offering, subject to applicable law and as further described herein. In no other circumstances will a public shareholder have any right or interest of any kind in the trust account. Holders of warrants will not have any right to the proceeds held in the trust account with respect to the warrants. Accordingly, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.

***The NYSE may delist our securities from trading on its exchange, which could limit investors' ability to make transactions in our securities and subject us to additional trading restrictions.***

Our units have been approved for listing on the NYSE. We anticipate that our ordinary shares and warrants will be listed on the NYSE on or promptly after their date of separation. Although after giving effect to this offering we expect to meet, on a pro forma basis, the minimum initial listing requirements set forth in the rules of the NYSE, we cannot assure you that our securities will be, or will continue to be, listed on the NYSE in the future or prior to our initial business combination. In order to continue listing our securities on the NYSE prior to our initial business combination, we must maintain certain financial, distribution and share price levels. Generally, we must maintain a minimum number of holders of our securities. Additionally, in connection with our initial business combination, we will be required to demonstrate compliance with the NYSE's initial listing requirements, which are more rigorous than the NYSE's continued listing requirements, in order to continue to maintain the listing of our securities on the NYSE. For instance, our share price would generally be required to be at least \$4 per share. We cannot assure you that we will be able to meet those initial listing requirements at that time.

If the NYSE delists any of our securities from trading on its exchange and we are not able to list our securities on another national securities exchange, we expect such securities could be quoted on an over-the-counter market. If this were to occur, we could face significant material adverse consequences, including:

- a limited availability of market quotations for our securities;
- reduced liquidity for our securities;

## [Table of Contents](#)

- a determination that our ordinary shares are a "penny stock" which will require brokers trading in our ordinary shares to adhere to more stringent rules and possibly result in a reduced level of trading activity in the secondary trading market for our securities;
- a limited amount of news and analyst coverage; and
- a decreased ability to issue additional securities or obtain additional financing in the future.

The National Securities Markets Improvement Act of 1996, which is a federal statute, prevents or preempts the states from regulating the sale of certain securities, which are referred to as "covered securities." Because our units and eventually our ordinary shares and warrants will be listed on the NYSE, our units, ordinary shares and warrants will qualify as covered securities under such statute. Although the states are preempted from regulating the sale of our securities, the federal statute does allow the states to investigate companies if there is a suspicion of fraud, and, if there is a finding of fraudulent activity, then the states can regulate or bar the sale of covered securities in a particular case. While we are not aware of a state having used these powers to prohibit or restrict the sale of securities issued by blank check companies, other than the state of Idaho, certain state securities regulators view blank check companies unfavorably and might use these powers, or threaten to use these powers, to hinder the sale of securities of blank check companies in their states. Further, if we were no longer listed on the NYSE, our securities would not qualify as covered securities under such statute and we would be subject to regulation in each state in which we offer our securities.

***You will not be entitled to protections normally afforded to investors of many other blank check companies.***

Since the net proceeds of this offering and the sale of the private placement warrants are intended to be used to complete an initial business combination with a target business that has not been identified, we may be deemed to be a "blank check" company under the U.S. securities laws. However, because we will have net tangible assets in excess of \$5,000,000 upon the successful completion of this offering and the sale of the private placement warrants and will file a Current Report on Form 8-K, including an audited balance sheet of the Company demonstrating this fact, we are exempt from rules promulgated by the SEC to protect investors in blank check companies, such as Rule 419. Accordingly, investors will not be afforded the benefits or protections of those rules. Among other things, this means our units will be immediately tradable and we will have a longer period of time to complete our initial business combination than do companies subject to Rule 419. Moreover, if this offering were subject to Rule 419, that rule would prohibit the release of any interest earned on funds held in the trust account to us unless and until the funds in the trust account were released to us in connection with our completion of an initial business combination. For a more detailed comparison of our offering to offerings that comply with Rule 419, please see "Proposed Business—Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419."

***If we seek shareholder approval of our initial business combination and we do not conduct redemptions pursuant to the tender offer rules, and if you or a "group" of shareholders are deemed to hold in excess of 15% of our ordinary shares, you will lose the ability to redeem all such shares in excess of 15% of our ordinary shares.***

If we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated memorandum and articles of association will provide that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a "group" (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to more than an aggregate of 15% of the shares sold in this offering, which we refer to as the "Excess Shares." However, we would not be restricting our shareholders' ability to vote all of their shares (including Excess Shares) for or against our initial

## [Table of Contents](#)

business combination. Your inability to redeem the Excess Shares will reduce your influence over our ability to complete our initial business combination and you could suffer a material loss on your investment in us if you sell Excess Shares in open market transactions. Additionally, you will not receive redemption distributions with respect to the Excess Shares if we complete our initial business combination. And as a result, you will continue to hold that number of shares exceeding 15% and, in order to dispose of such shares, would be required to sell your shares in open market transactions, potentially at a loss.

***Because of our limited resources and the significant competition for business combination opportunities, it may be more difficult for us to complete our initial business combination. If we are unable to complete our initial business combination, our public shareholders may receive only approximately \$10.00 per share, or less in certain circumstances, on our redemption of their shares, and our warrants will expire worthless.***

We expect to encounter intense competition from other entities having a business objective similar to ours, including private investors (which may be individuals or investment partnerships), other blank check companies and other entities, domestic and international, competing for the types of businesses we intend to acquire. Many of these individuals and entities are well established and have extensive experience in identifying and effecting, directly or indirectly, acquisitions of companies operating in or providing services to various industries. Many of these competitors possess greater technical, human and other resources or more local industry knowledge than we do and our financial resources will be relatively limited when contrasted with those of many of these competitors. While we believe there are numerous target businesses we could potentially acquire with the net proceeds of this offering and the sale of the private placement warrants, our ability to compete with respect to the acquisition of certain target businesses that are sizable will be limited by our available financial resources. This inherent competitive limitation gives others an advantage in pursuing the acquisition of certain target businesses. Furthermore, in the event we seek shareholder approval of our initial business combination and we are obligated to pay cash for our ordinary shares, it will potentially reduce the resources available to us for our initial business combination. Any of these obligations may place us at a competitive disadvantage in successfully negotiating a business combination. If we are unable to complete our initial business combination, our public shareholders may receive only approximately \$10.00 per share, or less in certain circumstances, on the liquidation of our trust account and our warrants will expire worthless. See "—If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by shareholders may be less than \$10.00 per share" and other risk factors herein.

***If the funds not being held in the trust account are insufficient to allow us to operate for at least the 24 months following the closing of this offering, we may be unable to complete our initial business combination.***

The funds available to us outside of the trust account may not be sufficient to allow us to operate for at least the 24 months following the closing of this offering, assuming that our initial business combination is not completed during that time. We expect to incur significant costs in pursuit of our acquisition plans. Management's plans to address this need for capital through this offering and potential loans from certain of our affiliates are discussed in the section of this prospectus titled "Management's Discussion and Analysis of Financial Condition and Results of Operations." However, our affiliates are not obligated to make loans to us in the future, and we may not be able to raise additional financing from unaffiliated parties necessary to fund our expenses. Any such event in the future may negatively impact the analysis regarding our ability to continue as a going concern at such time.

We believe that, upon the closing of this offering, the funds available to us outside of the trust account, will be sufficient to allow us to operate for at least the 24 months following the closing of this

## [Table of Contents](#)

offering; however, we cannot assure you that our estimate is accurate. Of the funds available to us, we could use a portion of the funds available to us to pay fees to consultants to assist us with our search for a target business. We could also use a portion of the funds as a down payment or to fund a "no-shop" provision (a provision in letters of intent designed to keep target businesses from "shopping" around for transactions with other companies or investors on terms more favorable to such target businesses) with respect to a particular proposed business combination, although we do not have any current intention to do so. If we entered into a letter of intent where we paid for the right to receive exclusivity from a target business and were subsequently required to forfeit such funds (whether as a result of our breach or otherwise), we might not have sufficient funds to continue searching for, or conduct due diligence with respect to, a target business. If we are unable to complete our initial business combination, our public shareholders may receive only approximately \$10.00 per share, or less in certain circumstances, on the liquidation of our trust account and our warrants will expire worthless. See "—If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by shareholders may be less than \$10.00 per share" and other risk factors herein.

***If the net proceeds of this offering and the sale of the private placement warrants not being held in the trust account are insufficient, it could limit the amount available to fund our search for a target business or businesses and complete our initial business combination and we will depend on loans from our sponsor or management team to fund our search, to pay our taxes and to complete our initial business combination. Our sponsor is not obligated to fund such loans.***

Of the net proceeds of this offering and the sale of the private placement warrants, only approximately \$1,500,000 will be available to us initially outside the trust account to fund our working capital requirements. In the event that our offering expenses exceed our estimate of \$1,000,000, we may fund such excess with funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$1,000,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount. If we are required to seek additional capital, we would need to borrow funds from our sponsor, management team or other third parties to operate or may be forced to liquidate. Neither our sponsor, members of our management team nor any of their affiliates is under any obligation to loan funds to us in such circumstances. Any such loans would be repaid only from funds held outside the trust account or from funds released to us upon completion of our initial business combination. If we are unable to complete our initial business combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the trust account. In such case, our public shareholders may receive only \$10.00 per share, or less in certain circumstances, and our warrants will expire worthless. See "—If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by shareholders may be less than \$10.00 per share" and other risk factors herein.

***Subsequent to our completion of our initial business combination, we may be required to subsequently take write-downs or write-offs, restructuring and impairment or other charges that could have a significant negative effect on our financial condition, results of operations and the price of our securities, which could cause you to lose some or all of your investment.***

Even if we conduct extensive due diligence on a target business with which we combine, we cannot assure you that this diligence will identify all material issues that may be present with a particular target business that it would be possible to uncover all material issues through a customary amount of due diligence, or that factors outside of the target business and outside of our control will not later arise. As a result of these factors, we may be forced to later write down or write off assets, restructure our operations, or incur impairment or other charges that could result in our reporting losses. Even if

## [Table of Contents](#)

our due diligence successfully identifies certain risks, unexpected risks may arise and previously known risks may materialize in a manner not consistent with our preliminary risk analysis. Even though these charges may be non-cash items and not have an immediate impact on our liquidity, the fact that we report charges of this nature could contribute to negative market perceptions about us or our securities. In addition, charges of this nature may cause us to violate net worth or other covenants to which we may be subject as a result of assuming pre-existing debt held by a target business or by virtue of our obtaining post-combination debt financing. Accordingly, any shareholder or warrant holder who chooses to remain a shareholder or warrant holder following our initial business combination could suffer a reduction in the value of their securities. Such shareholders and warrant holders are unlikely to have a remedy for such reduction in value.

***If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by shareholders may be less than \$10.00 per share.***

Our placing of funds in the trust account may not protect those funds from third-party claims against us. Although we will seek to have all vendors, service providers (other than our independent auditors), prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public shareholders, such parties may not execute such agreements, or even if they execute such agreements they may not be prevented from bringing claims against the trust account, including, but not limited to, fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will perform an analysis of the alternatives available to it and will enter into an agreement with a third party that has not executed a waiver only if management believes that such third party's engagement would be significantly more beneficial to us than any alternative.

Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third-party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where we are unable to find a service provider willing to execute a waiver. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. Upon redemption of our public shares, if we are unable to complete our initial business combination within the prescribed timeframe, or upon the exercise of a redemption right in connection with our initial business combination, we will be required to provide for payment of claims of creditors that were not waived that may be brought against us within the 10 years following redemption. Accordingly, the per-share redemption amount received by public shareholders could be less than the \$10.00 per share initially held in the trust account, due to claims of such creditors.

Our sponsor has agreed that it will be liable to us if and to the extent any claims by a third party (other than our independent auditors) for services rendered or products sold to us, or a prospective target business with which we have discussed entering into a transaction agreement, reduce the amount of funds in the trust account to below (1) \$10.00 per public share or (2) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay taxes, except as to any claims by a third party who executed a waiver of any and all rights to seek access to the trust account and except as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, our sponsor will not be

[Table of Contents](#)

responsible to the extent of any liability for such third-party claims. We have not independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations and believe that our sponsor's only assets are securities of our company. Our sponsor may not have sufficient funds available to satisfy those obligations. We have not asked our sponsor to reserve for such obligations, and therefore, no funds are currently set aside to cover any such obligations. As a result, if any such claims were successfully made against the trust account, the funds available for our initial business combination and redemptions could be reduced to less than \$10.00 per public share. In such event, we may not be able to complete our initial business combination, and you would receive such lesser amount per share in connection with any redemption of your public shares. None of our officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

***Our directors may decide not to enforce the indemnification obligations of our sponsor, resulting in a reduction in the amount of funds in the trust account available for distribution to our public shareholders.***

If, in the event that the proceeds in the trust account are reduced below the lesser of (1) \$10.00 per public share or (2) such lesser amount per share held in the trust account as of the date of the liquidation of the trust account due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay taxes, and our sponsor asserts that it is unable to satisfy its obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our sponsor to enforce its indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment may choose not to do so in any particular instance. If our independent directors choose not to enforce these indemnification obligations, the amount of funds in the trust account available for distribution to our public shareholders may be reduced below \$10.00 per share.

***If, after we distribute the proceeds in the trust account to our public shareholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, a bankruptcy court may seek to recover such proceeds, and the members of our board of directors may be viewed as having breached their fiduciary duties to our creditors, thereby exposing the members of our board of directors and us to claims of punitive damages.***

If, after we distribute the proceeds in the trust account to our public shareholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, any distributions received by shareholders could be viewed under applicable debtor/creditor and/or insolvency laws as a voidable performance. As a result, a liquidator could seek to recover some or all amounts received by our shareholders. In addition, our board of directors may be viewed as having breached its fiduciary duty to our creditors and/or having acted in bad faith by paying public shareholders from the trust account prior to addressing the claims of creditors, thereby exposing itself and us to claims of punitive damages.

***If, before distributing the proceeds in the trust account to our public shareholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the claims of creditors in such proceeding may have priority over the claims of our shareholders and the per-share amount that would otherwise be received by our shareholders in connection with our liquidation may be reduced.***

If, before distributing the proceeds in the trust account to our public shareholders, we file a winding up petition or winding up petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable insolvency law, and may be included in our liquidation estate and subject to the claims of third parties with priority over the claims of our shareholders. To the

[Table of Contents](#)

extent any liquidation claims deplete the trust account, the per-share amount that would otherwise be received by our shareholders in connection with our liquidation would be reduced.

***If we are deemed to be an investment company under the Investment Company Act, we may be required to institute burdensome compliance requirements and our activities may be restricted, which may make it difficult for us to complete our initial business combination.***

If we are deemed to be an investment company under the Investment Company Act, our activities may be restricted, including:

- restrictions on the nature of our investments; and
- restrictions on the issuance of securities;

each of which may make it difficult for us to complete our initial business combination.

In addition, we may have imposed upon us burdensome requirements, including:

- registration as an investment company with the SEC;
- adoption of a specific form of corporate structure; and
- reporting, record keeping, voting, proxy and disclosure requirements and other rules and regulations.

We do not believe that our anticipated principal activities will subject us to the Investment Company Act. The proceeds held in the trust account may be invested by the trustee only in U.S. government treasury bills with a maturity of 180 days or less or in money market funds investing solely in U.S. Treasuries and meeting certain conditions under Rule 2a-7 under the Investment Company Act. Because the investment of the proceeds will be restricted to these instruments, we believe we will meet the requirements for the exemption provided in Rule 3a-1 promulgated under the Investment Company Act. If we were deemed to be subject to the Investment Company Act, compliance with these additional regulatory burdens would require additional expenses for which we have not allotted funds and may hinder our ability to complete a business combination. If we are unable to complete our initial business combination, our public shareholders may receive only approximately \$10.00 per share, or less in certain circumstances, on the liquidation of our trust account and our warrants will expire worthless.

***Changes in laws or regulations, or a failure to comply with any laws and regulations, may adversely affect our business, including our ability to negotiate and complete our initial business combination, and results of operations.***

We are subject to laws and regulations enacted by national, regional and local governments. In particular, we will be required to comply with certain SEC and other legal requirements. Compliance with, and monitoring of, applicable laws and regulations may be difficult, time consuming and costly. Those laws and regulations and their interpretation and application may also change from time to time and those changes could have a material adverse effect on our business, investments and results of operations. In addition, a failure to comply with applicable laws or regulations, as interpreted and applied, could have a material adverse effect on our business, including our ability to negotiate and complete our initial business combination, and results of operations.

***If we are unable to consummate our initial business combination within 24 months of the closing of this offering, our public shareholders may be forced to wait beyond such 24 months before redemption from our trust account.***

If we are unable to consummate our initial business combination within 24 months from the closing of this offering, we will distribute the aggregate amount then on deposit in the trust account,

## [Table of Contents](#)

including interest (less up to \$100,000 of interest to pay dissolution expenses and which interest shall be net of taxes payable), pro rata to our public shareholders by way of redemption and cease all operations except for the purposes of winding up of our affairs, as further described herein. Any redemption of public shareholders from the trust account shall be effected automatically by function of our amended and restated memorandum and articles of association prior to any voluntary winding up. If we are required to windup, liquidate the trust account and distribute such amount therein, pro rata, to our public shareholders, as part of any liquidation process, such winding up, liquidation and distribution must comply with the applicable provisions of the Companies Law. In that case, investors may be forced to wait beyond the initial 24 months before the redemption proceeds of our trust account become available to them and they receive the return of their pro rata portion of the proceeds from our trust account. We have no obligation to return funds to investors prior to the date of our redemption or liquidation unless we consummate our initial business combination prior thereto and then only in cases where investors have sought to redeem their ordinary shares. Only upon our redemption or any liquidation will public shareholders be entitled to distributions if we are unable to complete our initial business combination.

***Our shareholders may be held liable for claims by third parties against us to the extent of distributions received by them upon redemption of their shares.***

If we are forced to enter into an insolvent liquidation, any distributions received by shareholders could be viewed as an unlawful payment if it was proved that immediately following the date on which the distribution was made, we were unable to pay our debts as they fall due in the ordinary course of business. As a result, a liquidator could seek to recover some or all amounts received by our shareholders. Furthermore, our directors may be viewed as having breached their fiduciary duties to us or our creditors and/or may have acted in bad faith, and thereby exposing themselves and our company to claims, by paying public shareholders from the trust account prior to addressing the claims of creditors. We cannot assure you that claims will not be brought against us for these reasons. We and our directors and officers who knowingly and willfully authorized or permitted any distribution to be paid out of our share premium account while we were unable to pay our debts as they fall due in the ordinary course of business would be guilty of an offence and may be liable to a fine of up to approximately \$15,000 and to imprisonment for five years in the Cayman Islands.

***We may not hold an annual meeting of shareholders until after the consummation of our initial business combination.***

In accordance with the NYSE corporate governance requirements, we are not required to hold an annual meeting until no later than one year after our first fiscal year end following our listing on the NYSE. There is no requirement under the Companies Law for us to hold annual or general meetings to elect directors. Until we hold an annual meeting of shareholders, public shareholders may not be afforded the opportunity to discuss company affairs with management.

***We are not registering the ordinary shares issuable upon exercise of the warrants under the Securities Act or any state securities laws at this time, and such registration may not be in place when an investor desires to exercise warrants, thus precluding such investor from being able to exercise its warrants except on a cashless basis and potentially causing such warrants to expire worthless.***

We are not registering the ordinary shares issuable upon exercise of the warrants under the Securities Act or any state securities laws at this time. However, under the terms of the warrant agreement, we have agreed, as soon as practicable, but in no event later than 15 business days after the closing of our initial business combination, to use our best efforts to file a registration statement under the Securities Act covering the issuance of such shares and maintain a current prospectus relating to the ordinary shares issuable upon exercise of the warrants, until the expiration of the warrants in accordance with the provisions of the warrant agreement. We cannot assure you that we will be able to do so if, for example, any facts or events arise which represent a fundamental change in the information set forth in the registration statement or prospectus, the financial statements contained or incorporated by reference therein are not current or correct or the SEC issues a stop order. If the shares issuable upon exercise of the warrants are not registered under the Securities Act, we will be required to permit holders to exercise their warrants on a cashless basis. However, no warrant will be exercisable for cash or on a cashless basis, and we will not be obligated to issue any shares to holders seeking to exercise their warrants, unless the issuance of the shares upon such exercise is registered or qualified under the securities laws of the state of the exercising holder, or an exemption from registration is available. Notwithstanding the above, if our ordinary shares are, at the time of any exercise of a warrant, not listed on a national securities exchange such that it satisfies the definition of a "covered security" under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement, but we will use our best efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available. In no event will we be required to net cash settle any warrant, or issue securities or other compensation in exchange for the warrants in the event that we are unable to register or qualify the shares underlying the warrants under applicable state securities laws and no exemption is available. If the issuance of the shares upon exercise of the warrants is not so registered or qualified or exempt from registration or qualification, the holder of such warrant shall not be entitled to exercise such warrant and such warrant may have no value and expire worthless. In such event, holders who acquired their warrants as part of a purchase of units will have paid the full unit purchase price solely for the ordinary shares included in the units. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying ordinary shares for sale under all applicable state securities laws.

***The grant of registration rights to our initial shareholders and their permitted transferees may make it more difficult to complete our initial business combination, and the future exercise of such rights may adversely affect the market price of our ordinary shares.***

Pursuant to an agreement to be entered into concurrently with the issuance and sale of the securities in this offering, our initial shareholders and their permitted transferees can demand that we register the resale of their founder shares. In addition, our sponsor and its permitted transferees can demand that we register the resale of the private placement warrants and the ordinary shares issuable upon exercise of the private placement warrants, and holders of warrants that may be issued upon conversion of working capital loans may demand that we register the resale of such warrants or the ordinary shares issuable upon exercise of such warrants. We will bear the cost of registering these securities. The registration and availability of such a significant number of securities for trading in the public market may have an adverse effect on the market price of our ordinary shares. In addition, the existence of the registration rights may make our initial business combination more costly or difficult to conclude. This is because the shareholders of the target business may increase the equity stake they

[Table of Contents](#)

seek in the combined entity or ask for more cash consideration to offset the negative impact on the market price of our ordinary shares that is expected when the ordinary shares owned by our initial shareholders or their permitted transferees, our private placement warrants or warrants issued in connection working capital loans are registered for resale.

***Because we are not limited to a particular industry or any specific target businesses with which to pursue our initial business combination, you will be unable to ascertain the merits or risks of any particular target business's operations.***

Although we expect to focus our search for a target business in Argentina and/or Brazil focused on industries that we believe have favorable prospects and a high likelihood of generating strong risk-adjusted returns for our shareholders, including, but not limited to, the consumer, telecommunications and technology, energy, financial services and real estate sectors, we may seek to complete a business combination with an operating company in any industry or sector. However, we will not, under our amended and restated memorandum and articles of association, be permitted to effectuate our initial business combination with another blank check company or similar company with nominal operations. Because we have not yet identified or approached any specific target business with respect to a business combination, there is no basis to evaluate the possible merits or risks of any particular target business's operations, results of operations, cash flows, liquidity, financial condition or prospects. To the extent we complete our initial business combination, we may be affected by numerous risks inherent in the business operations with which we combine. For example, if we combine with a financially unstable business or an entity lacking an established record of sales or earnings, we may be affected by the risks inherent in the business and operations of a financially unstable or development stage entity. Although our officers and directors will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all of the significant risk factors or that we will have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business. We also cannot assure you that an investment in our units will ultimately prove to be more favorable to investors than a direct investment, if such opportunity were available, in a business combination target. Accordingly, any shareholder who chooses to remain a shareholder following our initial business combination could suffer a reduction in the value of their securities. Such shareholders are unlikely to have a remedy for such reduction in value.

***Past performance by our management team and their affiliates may not be indicative of future performance of an investment in the Company.***

Information regarding performance by our management team and their affiliates is presented for informational purposes only. Past performance by our management team and their affiliates is not a guarantee either (1) that we will be able to identify a suitable candidate for our initial business combination or (2) of success with respect to any business combination we may consummate. You should not rely on the historical record of our management team and their affiliates as indicative of our future performance of an investment in the company or the returns the company will, or is likely to, generate going forward.

***We may seek acquisition opportunities outside the Latin America opportunity sectors, which may be outside of our management's areas of expertise.***

We will consider a business combination outside the Latin America opportunity sectors, which may be outside of our management's areas of expertise, if a business combination candidate is presented to us and we determine that such candidate offers an attractive acquisition opportunity for our company. In the event we elect to pursue an acquisition outside of the areas of our management's expertise, our

## [Table of Contents](#)

management's expertise may not be directly applicable to its evaluation or operation, and the information contained in this prospectus regarding the areas of our management's expertise would not be relevant to an understanding of the business that we elect to acquire. As a result, our management may not be able to adequately ascertain or assess all of the significant risk factors relevant to such acquisition. Accordingly, any shareholder who chooses to remain a shareholder following our initial business combination could suffer a reduction in the value of their securities. Such shareholders are unlikely to have a remedy for such reduction in value.

***Although we have identified general criteria and guidelines that we believe are important in evaluating prospective target businesses, we may enter into our initial business combination with a target that does not meet such criteria and guidelines, and as a result, the target business with which we enter into our initial business combination may not have attributes entirely consistent with our general criteria and guidelines.***

Although we have identified general criteria and guidelines for evaluating prospective target businesses, it is possible that a target business with which we enter into our initial business combination will not have all of these positive attributes. If we complete our initial business combination with a target that does not meet some or all of these criteria and guidelines, such combination may not be as successful as a combination with a business that does meet all of our general criteria and guidelines. In addition, if we announce a prospective business combination with a target that does not meet our general criteria and guidelines, a greater number of shareholders may exercise their redemption rights, which may make it difficult for us to meet any closing condition with a target business that requires us to have a minimum net worth or a certain amount of cash. In addition, if shareholder approval of the transaction is required by law, or we decide to obtain shareholder approval for business or other reasons, it may be more difficult for us to attain shareholder approval of our initial business combination if the target business does not meet our general criteria and guidelines. If we are unable to complete our initial business combination, our public shareholders may receive only approximately \$10.00 per share, or less in certain circumstances, on the liquidation of our trust account and our warrants will expire worthless.

***We may seek acquisition opportunities with an early stage company, a financially unstable business or an entity lacking an established record of revenue or earnings.***

To the extent we complete our initial business combination with an early stage company, a financially unstable business or an entity lacking an established record of sales or earnings, we may be affected by numerous risks inherent in the operations of the business with which we combine. These risks include investing in a business without a proven business model and with limited historical financial data, volatile revenues or earnings, intense competition and difficulties in obtaining and retaining key personnel. Although our officers and directors will endeavor to evaluate the risks inherent in a particular target business, we may not be able to properly ascertain or assess all of the significant risk factors and we may not have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business.

***We are not required to obtain an opinion from an independent investment banking firm or from an independent accounting firm, and consequently, you may have no assurance from an independent source that the price we are paying for the business is fair to our company from a financial point of view.***

Unless we complete our initial business combination with an affiliated entity, we are not required to obtain an opinion from an independent investment banking firm that is a member of FINRA, or from an independent accounting firm, that the price we are paying is fair to our company from a financial point of view. If no opinion is obtained, our shareholders will be relying on the judgment of our board of directors, who will determine fair market value based on standards generally accepted by

[Table of Contents](#)

the financial community. Such standards used will be disclosed in our tender offer documents or proxy solicitation materials, as applicable, related to our initial business combination.

***We may issue additional ordinary shares or preferred shares to complete our initial business combination or under an employee incentive plan after completion of our initial business combination. Any such issuances would substantially dilute the interest of our shareholders and likely present other risks.***

Our amended and restated memorandum and articles of association will authorize the issuance of up to 200,000,000 ordinary shares, par value \$0.0001 per share, and 2,000,000 undesignated preferred shares, par value \$0.0001 per share. Immediately after this offering, there will be 149,250,000 and 2,000,000 (assuming that the underwriters have not exercised their over-allotment option) authorized but unissued ordinary shares and preferred shares, respectively, available for issuance, which amount takes into account shares reserved for issuance upon exercise of outstanding warrants.

We may issue a substantial number of additional ordinary shares, and may issue preferred shares, in order to complete our initial business combination or under an employee incentive plan after completion of our initial business combination. However, our amended and restated memorandum and articles of association will provide, among other things, that prior to our initial business combination, we may not issue additional ordinary shares that would entitle the holders thereof to (1) receive funds from the trust account or (2) vote on any initial business combination. The issuance of additional ordinary shares or preferred shares:

- may significantly dilute the equity interest of investors in this offering;
- may subordinate the rights of holders of ordinary shares if preferred shares are issued with rights senior to those afforded our ordinary shares;
- could cause a change in control if a substantial number of ordinary shares are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors; and
- may adversely affect prevailing market prices for our units, ordinary shares and/or warrants.

***We may be a passive foreign investment company, or "PFIC," which could result in adverse U.S. federal income tax consequences to U.S. investors.***

If we are a PFIC for any taxable year (or portion thereof) that is included in the holding period of a U.S. Holder (as defined in the section of this prospectus captioned "Income Tax Considerations—United States Federal Income Taxation—U.S. Holders") of our ordinary shares or warrants, the U.S. Holder may be subject to adverse U.S. federal income tax consequences and may be subject to additional reporting requirements. Our PFIC status for our current and subsequent taxable years may depend on whether we qualify for the PFIC start-up exception (see the section of this prospectus captioned "Income Tax Considerations—United States Federal Income Taxation—U.S. Holders—Passive Foreign Investment Company Rules"). Depending on the particular circumstances, the application of the start-up exception is uncertain, and there can be no assurance that we will qualify for the start-up exception. Accordingly, there can be no assurances with respect to our status as a PFIC for our current taxable year or any subsequent taxable year. Our actual PFIC status for any taxable year will not be determinable until after the end of such taxable year. Moreover, if we determine we are a PFIC for any taxable year, we will endeavor to provide to a U.S. Holder such information as the Internal Revenue Service ("IRS") may require, including a PFIC annual information statement, in order to enable the U.S. Holder to make and maintain a "qualified electing fund" election, but there can be no assurance that we will timely provide such required information, and such election would likely be unavailable with respect to our warrants in all cases. We urge U.S. Holders to consult their tax advisors regarding the possible application of the PFIC rules to holders of our ordinary shares and

warrants. For a more detailed explanation of the tax consequences of PFIC classification to U.S. Holders, see "Income Tax Considerations—United States Federal Income Taxation—U.S. Holders—Passive Foreign Investment Company Rules."

***We may reincorporate in another jurisdiction in connection with our initial business combination and such reincorporation may result in taxes imposed on shareholders.***

We may, in connection with our initial business combination and subject to requisite shareholder approval under the Companies Law, reincorporate in the jurisdiction in which the target company or business is located or in another jurisdiction. The transaction may require a shareholder to recognize taxable income in the jurisdiction in which the shareholder is a tax resident or in which its members are resident if it is a tax transparent entity. We do not intend to make any cash distributions to shareholders to pay such taxes. Shareholders may be subject to withholding taxes or other taxes with respect to their ownership of us after the reincorporation.

***Resources could be wasted in researching acquisitions that are not completed, which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we are unable to complete our initial business combination, our public shareholders may receive only approximately \$10.00 per share, or less than such amount in certain circumstances, on the liquidation of our trust account and our warrants will expire worthless.***

We anticipate that the investigation of each specific target business and the negotiation, drafting and execution of relevant agreements, disclosure documents and other instruments will require substantial management time and attention and substantial costs for accountants, attorneys and others. If we decide not to complete a specific initial business combination, the costs incurred up to that point for the proposed transaction likely would not be recoverable. Furthermore, if we reach an agreement relating to a specific target business, we may fail to complete our initial business combination for any number of reasons including those beyond our control. Any such event will result in a loss to us of the related costs incurred which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we are unable to complete our initial business combination, our public shareholders may receive only approximately \$10.00 per share, or less in certain circumstances, on the liquidation of our trust account and our warrants will expire worthless.

***We are dependent upon our officers and directors and their departure could adversely affect our ability to operate.***

Our operations are dependent upon a relatively small group of individuals and in particular, Edmond Safra and Gregorio Werthein, our Co-Chief Executive Officers, Gerardo Werthein, a member of our advisory board, and Leonardo Madcur and Ezra Cohen, two of our directors. We believe that our success depends on the continued service of our officers and directors, at least until we have completed our initial business combination. In addition, our officers and directors are not required to commit any specified amount of time to our affairs and, accordingly, will have conflicts of interest in allocating their time among various business activities, including identifying potential business combinations and monitoring the related due diligence. Moreover, certain of our officers and directors have time and attention requirements for investment funds of which affiliates of our sponsor are the investment managers. We do not have an employment agreement with, or key-man insurance on the life of, any of our directors or officers. The unexpected loss of the services of one or more of our directors or officers could have a detrimental effect on us.

[Table of Contents](#)

***Our ability to successfully effect our initial business combination and to be successful thereafter will be totally dependent upon the efforts of our key personnel, some of whom may join us following our initial business combination. The loss of key personnel could negatively impact the operations and profitability of our post-combination business.***

Our ability to successfully effect our initial business combination is dependent upon the efforts of our key personnel. The role of our key personnel in the target business, however, cannot presently be ascertained. Although some of our key personnel may remain with the target business in senior management or advisory positions following our initial business combination, it is likely that some or all of the management of the target business will remain in place. While we intend to closely scrutinize any individuals we engage after our initial business combination, we cannot assure you that our assessment of these individuals will prove to be correct. These individuals may be unfamiliar with the requirements of operating a company regulated by the SEC, which could cause us to have to expend time and resources helping them become familiar with such requirements.

***Our key personnel may negotiate employment or consulting agreements with a target business in connection with a particular business combination. These agreements may provide for them to receive compensation following our initial business combination and as a result, may cause them to have conflicts of interest in determining whether a particular business combination is the most advantageous.***

Our key personnel may be able to remain with the company after the completion of our initial business combination only if they are able to negotiate employment or consulting agreements in connection with the business combination. Such negotiations would take place simultaneously with the negotiation of the business combination and could provide for such individuals to receive compensation in the form of cash payments and/or our securities for services they would render to us after the completion of the business combination. The personal and financial interests of such individuals may influence their motivation in identifying and selecting a target business, subject to his or her fiduciary duties under Cayman Islands law. However, we believe the ability of such individuals to remain with us after the completion of our initial business combination will not be the determining factor in our decision as to whether or not we will proceed with any potential business combination. There is no certainty, however, that any of our key personnel will remain with us after the completion of our initial business combination. We cannot assure you that any of our key personnel will remain in senior management or advisory positions with us. The determination as to whether any of our key personnel will remain with us will be made at the time of our initial business combination.

***We may have limited ability to assess the management of a prospective target business and, as a result, may effect our initial business combination with a target business whose management may not have the skills, qualifications or abilities to manage a public company.***

When evaluating the desirability of effecting our initial business combination with a prospective target business, our ability to assess the target business's management may be limited due to a lack of time, resources or information. Our assessment of the capabilities of the target's management, therefore, may prove to be incorrect and such management may lack the skills, qualifications or abilities we suspected. Should the target's management not possess the skills, qualifications or abilities necessary to manage a public company, the operations and profitability of the post-combination business may be negatively impacted. Accordingly, shareholders who choose to remain shareholders following our initial business combination could suffer a reduction in the value of their securities. Such shareholders are unlikely to have a remedy for such reduction in value.

The officers and directors of an acquisition candidate may resign upon completion of our initial business combination. The departure of a business combination target's key personnel could negatively impact the operations and profitability of our post-combination business. The role of an acquisition candidate's key personnel upon the completion of our initial business combination cannot be

[Table of Contents](#)

ascertained at this time. Although we contemplate that certain members of an acquisition candidate's management team will remain associated with the acquisition candidate following our initial business combination, it is possible that members of the management of an acquisition candidate will not wish to remain in place.

***Our officers and directors will allocate their time to other businesses thereby causing conflicts of interest in their determination as to how much time to devote to our affairs. This conflict of interest could have a negative impact on our ability to complete our initial business combination.***

Our officers and directors are not required to, and will not, commit their full time to our affairs, which may result in a conflict of interest in allocating their time between our operations and our search for a business combination and their other businesses. We do not intend to have any full-time employees prior to the completion of our initial business combination. Each of our officers is engaged in several other business endeavors for which he may be entitled to substantial compensation and our officers are not obligated to contribute any specific number of hours per week to our affairs. Our independent directors also serve as officers and board members for other entities. If our officers' and directors' other business affairs require them to devote substantial amounts of time to such affairs in excess of their current commitment levels, it could limit their ability to devote time to our affairs, which may have a negative impact on our ability to complete our initial business combination. For a complete discussion of our officers' and directors' other business affairs, please see "Management—Directors and Officers."

***Certain of our officers and directors are now, and all of them may in the future become, affiliated with entities engaged in business activities similar to those intended to be conducted by us and, accordingly, may have conflicts of interest in determining to which entity a particular business opportunity should be presented.***

Following the completion of this offering and until we consummate our initial business combination, we intend to engage in the business of identifying and combining with one or more businesses. Our sponsor and officers and directors are, or may in the future become, affiliated with entities that are engaged in a similar business, and they are not prohibited from sponsoring, or otherwise becoming involved with, other blank check companies prior to us completing our initial business combination. Moreover, certain of our officers and directors have time and attention requirements for investment funds of which affiliates of our sponsor are the investment managers.

Our officers and directors also may become aware of business opportunities which may be appropriate for presentation to us and the other entities to which they owe certain fiduciary or contractual duties. Accordingly, they may have conflicts of interest in determining to which entity a particular business opportunity should be presented. These conflicts may not be resolved in our favor and a potential target business may be presented to other entities prior to its presentation to us, subject to his or her fiduciary duties under Cayman Islands law.

For a complete discussion of our officers' and directors' business affiliations and the potential conflicts of interest that you should be aware of, please see "Management—Directors and Officers," "Management—Conflicts of Interest" and "Certain Relationships and Related Party Transactions."

***EMS Capital LP and its personnel are subject to extensive regulatory requirements and oversight.***

EMS Capital LP is an investment manager and, as such, it and its personnel are subject to extensive regulation and oversight by the SEC and other regulatory authorities, including requirements under the Investment Advisers Act of 1940. Any violations, or alleged allegations, by EMS Capital LP or its personnel of these regulatory requirements, could harm our ability to complete an initial business combination, including by making prospective target companies less likely to consummate a business combination with us.

***Our officers, directors, security holders and their respective affiliates may have competitive pecuniary interests that conflict with our interests.***

We have not adopted a policy that expressly prohibits our directors, officers, security holders or affiliates from having a direct or indirect pecuniary or financial interest in any investment to be acquired or disposed of by us or in any transaction to which we are a party or have an interest. In fact, we may enter into a business combination with a target business that is affiliated with our sponsor, our directors or officers, although we do not intend to do so. Nor do we have a policy that expressly prohibits any such persons from engaging for their own account in business activities of the types conducted by us. Accordingly, such persons or entities may have a conflict between their interests and ours.

In particular, affiliates of our sponsor have invested in industries as diverse as consumer, media & entertainment, telecommunications and technology, industrials, energy, financial services, insurance, agribusiness, vineyards and real estate. As a result, there may be substantial overlap between companies that would be a suitable business combination for us and companies that would make an attractive target for such other affiliates.

***We may engage in a business combination with one or more target businesses that have relationships with entities that may be affiliated with our sponsor, officers or directors which may raise potential conflicts of interest.***

In light of the involvement of our sponsor, officers and directors with other entities, we may decide to acquire one or more businesses affiliated with our sponsor, officers and directors. Our officers and directors also serve as officers and board members for other entities, including, without limitation, those described under "Management—Conflicts of Interest." Such entities may compete with us for business combination opportunities. Our sponsor, officers and directors are not currently aware of any specific opportunities for us to complete our initial business combination with any entities with which they are affiliated, and there have been no preliminary discussions concerning a business combination with any such entity or entities. Although we will not be specifically focusing on, or targeting, any transaction with any affiliated entities, we would pursue such a transaction if we determined that such affiliated entity met our criteria for a business combination as set forth in "Proposed Business—Effecting Our Initial Business Combination—Selection of a target business and structuring of our initial business combination" and such transaction was approved by a majority of our independent and disinterested directors. Despite our agreement to obtain an opinion from an independent investment banking firm that is a member of FINRA, or from an independent accounting firm, regarding the fairness to our company from a financial point of view of a business combination with one or more domestic or international businesses affiliated with our sponsor, officers or directors, potential conflicts of interest still may exist and, as a result, the terms of the business combination may not be as advantageous to our public shareholders as they would be absent any conflicts of interest.

***Since our initial shareholders will lose their entire investment in us if our initial business combination is not completed, a conflict of interest may arise in determining whether a particular business combination target is appropriate for our initial business combination.***

In December 2018, our sponsor subscribed for an aggregate of 7,187,500 founder shares for an aggregate purchase price of \$25,000, or approximately \$0.003 per share. In March 2019, our sponsor transferred 25,000 founder shares to each of two of our independent directors and 40,000 founder shares to our third independent director. As such, our initial shareholders will collectively own 20% of our issued and outstanding shares after this offering (excluding the ordinary shares underlying the units that affiliates of our sponsor will purchase in this offering and assuming our initial shareholders do not purchase any other units in this offering). If we increase or decrease the size of this offering, we will effect a capitalization or share repurchase or redemption or other appropriate mechanism, as

## [Table of Contents](#)

applicable, immediately prior to the consummation of this offering in such amount as to maintain the ownership of our initial shareholders prior to this offering at 20% of our issued and outstanding ordinary shares upon the consummation of this offering. The founder shares will be worthless if we do not complete an initial business combination. In addition, our sponsor has committed to purchase an aggregate of 7,000,000 (or 7,750,000 if the underwriters' over-allotment option is exercised in full) private placement warrants, each exercisable for one ordinary share, for a purchase price of \$7,000,000 in the aggregate (or \$7,750,000 in the aggregate if the underwriters' over-allotment option is exercised in full), or \$1.00 per warrant, that will also be worthless if we do not complete a business combination. Each private placement warrant may be exercised for one ordinary share at a price of \$11.50 per share, subject to adjustment as provided herein.

The founder shares are identical to the ordinary shares included in the units being sold in this offering except that: (1) the founder shares are subject to certain transfer restrictions; (2) our initial shareholders have entered into a letter agreement with us, pursuant to which they have agreed (A) to waive their redemption rights with respect to their founder shares and any public shares held by them in connection with the completion of our initial business combination and (B) to waive their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within 24 months from the closing of this offering (although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial business combination within the prescribed time frame); and (3) the founder shares are entitled to registration rights. In addition, our officers and directors have entered into letter agreements similar to the one signed by our initial shareholders with respect to any public shares acquired by them, if any.

The personal and financial interests of our sponsor, officers and directors may influence their motivation in identifying and selecting a target business combination, completing an initial business combination and influencing the operation of the business following the initial business combination. This risk may become more acute as the 24-month deadline following the closing of this offering nears, which is the deadline for the completion of our initial business combination.

***We may issue notes or other debt securities, or otherwise incur substantial debt, to complete a business combination, which may adversely affect our leverage and financial condition and thus negatively impact the value of our shareholders' investment in us.***

Although we have no commitments as of the date of this prospectus to issue any notes or other debt securities, or to otherwise incur outstanding debt following this offering, we may choose to incur substantial debt to complete our initial business combination. We have agreed that we will not incur any indebtedness unless we have obtained from the lender a waiver of any right, title, interest or claim of any kind in or to the monies held in the trust account. As such, no issuance of debt will affect the per-share amount available for redemption from the trust account. Nevertheless, the incurrence of debt could have a variety of negative effects, including:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand;
- our inability to obtain necessary additional financing if the debt security contains covenants restricting our ability to obtain such financing while the debt security is outstanding;

## [Table of Contents](#)

- our inability to pay dividends on our ordinary shares;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our ordinary shares if declared, expenses, capital expenditures, acquisitions and other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

***We may be able to complete only one business combination with the proceeds of this offering and the sale of the private placement warrants, which will cause us to be solely dependent on a single business which may have a limited number of products or services. This lack of diversification may negatively impact our operations and profitability.***

The net proceeds from this offering and the sale of the private placement warrants will provide us with \$250,000,000 (or \$287,500,000 if the underwriters' over-allotment option is exercised in full) that we may use to complete our initial business combination (which includes \$7,875,000, or up to \$9,187,500 if the underwriters' over-allotment option is exercised in full, of deferred underwriting commissions being held in the trust account).

We may effectuate our initial business combination with a single target business or multiple target businesses simultaneously or within a short period of time. However, we may not be able to effectuate our initial business combination with more than one target business because of various factors, including the existence of complex accounting issues and the requirement that we prepare and file pro forma financial statements with the SEC that present operating results and the financial condition of several target businesses as if they had been operated on a combined basis. By completing our initial business combination with only a single entity our lack of diversification may subject us to numerous economic, competitive and regulatory risks. Further, we would not be able to diversify our operations or benefit from the possible spreading of risks or offsetting of losses, unlike other entities which may have the resources to complete several business combinations in different industries or different areas of a single industry. Accordingly, the prospects for our success may be:

- solely dependent upon the performance of a single business, property or asset; or
- dependent upon the development or market acceptance of a single or limited number of products, processes or services.

This lack of diversification may subject us to numerous economic, competitive and regulatory risks, any or all of which may have a substantial adverse impact upon the particular industry in which we may operate subsequent to our initial business combination.

***We may attempt to simultaneously complete business combinations with multiple prospective targets, which may hinder our ability to complete our initial business combination and give rise to increased costs and risks that could negatively impact our operations and profitability.***

If we determine to simultaneously acquire several businesses that are owned by different sellers, we will need for each of such sellers to agree that our purchase of its business is contingent on the simultaneous closings of the other business combinations, which may make it more difficult for us, and delay our ability, to complete our initial business combination. With multiple business combinations, we

[Table of Contents](#)

could also face additional risks, including additional burdens and costs with respect to possible multiple negotiations and due diligence investigations (if there are multiple sellers) and the additional risks associated with the subsequent assimilation of the operations and services or products of the acquired companies in a single operating business. If we are unable to adequately address these risks, it could negatively impact our profitability and results of operations.

***We may attempt to complete our initial business combination with a private company about which little information is available, which may result in a business combination with a company that is not as profitable as we suspected, if at all.***

In pursuing our acquisition strategy, we may seek to effectuate our initial business combination with a privately held company. Very little public information generally exists about private companies, and we could be required to make our decision on whether to pursue a potential initial business combination on the basis of limited information, which may result in a business combination with a company that is not as profitable as we suspected, if at all.

***Our management may not be able to maintain control of a target business after our initial business combination. We cannot provide assurance that, upon loss of control of a target business, new management will possess the skills, qualifications or abilities necessary to profitably operate such business.***

We may structure our initial business combination so that the post-transaction company in which our public shareholders own shares will own less than 100% of the equity interests or assets of a target business, but we will complete such business combination only if the post-transaction company owns or acquires 50% or more of the issued and outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for us not to be required to register as an investment company under the Investment Company Act. We will not consider any transaction that does not meet such criteria. Even if the post-transaction company owns 50% or more of the voting securities of the target, our shareholders prior to our initial business combination may collectively own a minority interest in the post business combination company, depending on valuations ascribed to the target and us in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new ordinary shares in exchange for all of the issued and outstanding capital stock of a target. In this case, we would acquire a 100% interest in the target. However, as a result of the issuance of a substantial number of new ordinary shares, our shareholders immediately prior to such transaction could own less than a majority of our issued and outstanding ordinary shares subsequent to such transaction. In addition, other minority shareholders may subsequently combine their holdings resulting in a single person or group obtaining a larger share of the company's stock than we initially acquired. Accordingly, this may make it more likely that our management will not be able to maintain our control of the target business.

***We do not have a specified maximum redemption threshold. The absence of such a redemption threshold may make it possible for us to complete a business combination with which a substantial majority of our shareholders do not agree.***

Our amended and restated memorandum and articles of association will not provide a specified maximum redemption threshold, except that in no event will we redeem our public shares in an amount that would cause our net tangible assets, after payment of the deferred underwriting commissions, to be less than \$5,000,001 (such that we do not then become subject to the SEC's "penny stock" rules), or any greater net tangible asset or cash requirement that may be contained in the agreement relating to our initial business combination. As a result, we may be able to complete our initial business combination even though a substantial majority of our public shareholders do not agree with the transaction and have redeemed their shares or, if we seek shareholder approval of our initial business combination and do not conduct redemptions in connection with our initial business combination

[Table of Contents](#)

pursuant to the tender offer rules, have entered into privately negotiated agreements to sell their shares to our sponsor, officers, directors, advisors or any of their affiliates. In the event the aggregate cash consideration we would be required to pay for all ordinary shares that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, all ordinary shares submitted for redemption will be returned to the holders thereof, and we instead may search for an alternate business combination.

***The exercise price for the public warrants is higher than in many similar blank check company offerings in the past, and, accordingly, the warrants are more likely to expire worthless.***

The exercise price of the public warrants is higher than is typical in many similar blank check companies in the past. Historically, the exercise price of a warrant was generally a fraction of the purchase price of the units in the initial public offering. The exercise price for our public warrants is \$11.50 per share, subject to adjustment as provided herein. As a result, the warrants are more likely to expire worthless.

***In order to effectuate an initial business combination, blank check companies have, in the past, amended various provisions of their charters and modified governing instruments. We cannot assure you that we will not seek to amend our amended and restated memorandum and articles of association or governing instruments in a manner that will make it easier for us to complete our initial business combination that some of our shareholders may not support.***

In order to effectuate a business combination, blank check companies have, in the past, amended various provisions of their charters and modified governing instruments. For example, blank check companies have amended the definition of business combination, increased redemption thresholds and changed industry focus. We cannot assure you that we will not seek to amend our amended and restated memorandum and articles of association or governing instruments in order to effectuate our initial business combination, though amending our amended and restated memorandum and articles of association will require at least a special resolution of our shareholders as a matter of Cayman Islands law.

***Certain provisions of our amended and restated memorandum and articles of association that relate to our pre-business combination activity (and corresponding provisions of the agreement governing the release of funds from our trust account) may be amended with the approval of holders of at least two-thirds of our ordinary shares who attend and vote at a general meeting, which is a lower amendment threshold than that of some other blank check companies. It may be easier for us, therefore, to amend our amended and restated memorandum and articles of association and the trust agreement to facilitate the completion of an initial business combination that some of our shareholders may not support.***

Some other blank check companies have a provision in their charter which prohibits the amendment of certain of its provisions, including those which relate to a company's pre-business combination activity, without approval by holders of a certain percentage of the company's shares. In those companies, amendment of these provisions typically requires approval by holders holding between 90% and 100% of the company's public shares. Our amended and restated memorandum and articles of association will provide that any of its provisions, including those related to pre-business combination activity (including the requirement to deposit proceeds of this offering and the private placement of warrants into the trust account and not release such amounts except in specified circumstances), may be amended if approved by holders of at least two-thirds of our ordinary shares who attend and vote in a general meeting, and corresponding provisions of the trust agreement governing the release of funds from our trust account may be amended if approved by holders of 65% of our ordinary shares. Our initial shareholders, who will collectively beneficially own 20% of our ordinary shares upon the closing

## [Table of Contents](#)

of this offering (excluding the ordinary shares underlying the units that affiliates of our sponsor will purchase in this offering and assuming our initial shareholders do not purchase any other units in this offering), may participate in any vote to amend our amended and restated memorandum and articles of association and/or trust agreement and will have the discretion to vote in any manner they choose. As a result, we may be able to amend the provisions of our amended and restated memorandum and articles of association which govern our pre-business combination behavior more easily than some other blank check companies, and this may increase our ability to complete our initial business combination with which you do not agree. However, our amended and restated memorandum and articles of association prohibits any amendment of its provisions (a) that would modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (b) with respect to any other provision relating to shareholders' rights or pre-initial business combination activity, unless we provide public shareholders with the opportunity to redeem their public shares. Furthermore, our sponsor, officers and directors have agreed, pursuant to a written agreement with us, that they will not propose such an amendment unless we provide our public shareholders with the opportunity to redeem their public shares. In certain circumstances, our shareholders may pursue remedies against us for any breach of our amended and restated memorandum and articles of association.

***We may be unable to obtain additional financing to complete our initial business combination or to fund the operations and growth of a target business, which could compel us to restructure or abandon a particular business combination.***

Although we believe that the net proceeds of this offering and the sale of the private placement warrants will be sufficient to allow us to complete our initial business combination, because we have not yet identified any prospective target business we cannot ascertain the capital requirements for any particular transaction. If the net proceeds of this offering and the sale of the private placement warrants prove to be insufficient, either because of the size of our initial business combination, the depletion of the available net proceeds in search of a target business, the obligation to redeem for cash a significant number of shares from shareholders who elect redemption in connection with our initial business combination or the terms of negotiated transactions to purchase shares in connection with our initial business combination, we may be required to seek additional financing or to abandon the proposed business combination. We cannot assure you that such financing will be available on acceptable terms, if at all. To the extent that additional financing proves to be unavailable when needed to complete our initial business combination, we would be compelled to either restructure the transaction or abandon that particular business combination and seek an alternative target business candidate. In addition, even if we do not need additional financing to complete our initial business combination, we may require such financing to fund the operations or growth of the target business. The failure to secure additional financing could have a material adverse effect on the continued development or growth of the target business. None of our officers, directors or shareholders is required to provide any financing to us in connection with or after our initial business combination. If we are unable to complete our initial business combination, our public shareholders may receive only approximately \$10.00 per share, or less in certain circumstances, on the liquidation of our trust account, and our warrants will expire worthless.

***Our initial shareholders will hold a substantial interest in us. As a result, they may exert a substantial influence on actions requiring shareholder vote, potentially in a manner that you do not support.***

Upon the closing of this offering, our initial shareholders will own 20% of our issued and outstanding ordinary shares (assuming they do not purchase any units in this offering). Neither our initial shareholders nor, to our knowledge, any of our officers or directors, have any current intention to purchase additional securities, other than as disclosed in this prospectus. Factors that would be considered in making such additional purchases would include consideration of the current trading price of our ordinary shares. In addition, as a result of their substantial ownership in our company, our initial shareholders may exert a substantial influence on actions requiring a shareholder vote, potentially in a manner that you do not support, including amendments to our amended and restated memorandum and articles of association and approval of major corporate transactions. If our initial shareholders purchase any additional ordinary shares in the aftermarket or in privately negotiated transactions, this would increase their influence over these actions. Accordingly, our initial shareholders will exert significant influence over actions requiring a shareholder vote at least until the completion of our initial business combination.

***Our sponsor paid an aggregate of \$25,000, or approximately \$0.003 per founder share, and, accordingly, you will experience immediate and substantial dilution upon the purchase of our ordinary shares.***

The difference between the public offering price per share (allocating all of the unit purchase price to the ordinary shares and none to the warrant included in the unit) and the pro forma net tangible book value per ordinary share after this offering constitutes the dilution to you and the other investors in this offering. Our sponsor acquired the founder shares at a nominal price, significantly contributing to this dilution. Upon the closing of this offering, and assuming no value is ascribed to the warrants included in the units, you and the other public shareholders will incur an immediate and substantial dilution of approximately 93.2% (or \$9.32 per share, assuming no exercise of the underwriters' over-allotment option), the difference between the pro forma net tangible book value per share of \$0.68 and the initial offering price of \$10.00 per unit.

***We may amend the terms of the warrants in a manner that may be adverse to holders of public warrants with the approval by the holders of at least a majority of the then outstanding public warrants.***

Our warrants will be issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least a majority of the then outstanding public warrants to make any change that adversely affects the interests of the registered holders of public warrants. Accordingly, we may amend the terms of the public warrants in a manner adverse to a holder if holders of at least a majority of the then outstanding public warrants approve of such amendment. Although our ability to amend the terms of the public warrants with the consent of at least a majority of the then outstanding public warrants is unlimited, examples of such amendments could be amendments to, among other things, increase the exercise price of the warrants, shorten the exercise period or decrease the number of ordinary shares purchasable upon exercise of a warrant.

***A provision of our warrant agreement may make it more difficult for us to consummate an initial business combination.***

Unlike most blank check companies, if

- (i) we issue additional ordinary shares or equity-linked securities for capital raising purposes in connection with the closing of our initial business combination at a Newly Issued Price of less than \$9.20 per ordinary share;

[Table of Contents](#)

- (ii) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of our initial business combination on the date of the consummation of our initial business combination (net of redemptions), and
- (iii) the Market Value is below \$9.20 per share,

then the exercise price of the warrants will be adjusted to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger price will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price. This may make it more difficult for us to consummate an initial business combination with a target business.

***We may redeem your unexpired warrants prior to their exercise at a time that is disadvantageous to you, thereby making your warrants worthless.***

We have the ability to redeem outstanding warrants at any time after they become exercisable and prior to their expiration, at a price of \$0.01 per warrant; provided that the last reported sales price of our ordinary shares equals or exceeds \$18.00 per share (as adjusted for share splits, share dividends, rights issuances, subdivisions, reorganizations, recapitalizations and the like) for any 20 trading days within a 30 trading-day period ending on the third trading day prior to the date we send the notice of redemption to the warrant holders. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws. Redemption of the outstanding warrants could force you to: (1) exercise your warrants and pay the exercise price therefor at a time when it may be disadvantageous for you to do so; (2) sell your warrants at the then-current market price when you might otherwise wish to hold your warrants; or (3) accept the nominal redemption price which, at the time the outstanding warrants are called for redemption, is likely to be substantially less than the market value of your warrants. None of the private placement warrants will be redeemable by us so long as they are held by our sponsor or its permitted transferees.

***Our warrants and founder shares may have an adverse effect on the market price of our ordinary shares and make it more difficult to effectuate our initial business combination.***

We will be issuing warrants to purchase 12,500,000 ordinary shares (or up to 14,375,000 ordinary shares if the underwriters' over-allotment option is exercised in full), at a price of \$11.50 per whole share (subject to adjustment as provided herein), as part of the units offered by this prospectus and, simultaneously with the closing of this offering, we will be issuing in a private placement an aggregate of 7,000,000 (or 7,750,000 if the underwriters' over-allotment option is exercised in full) private placement warrants, each exercisable to purchase one ordinary share at a price of \$11.50 per share, subject to adjustment as provided herein. Our initial shareholders currently hold 7,187,500 founder shares (up to 937,500 of which are subject to forfeiture by our sponsor depending on the extent to which the underwriters' over-allotment option is exercised). In addition, if our sponsor, an affiliate of our sponsor or certain of our officers and directors make any working capital loans, up to \$1,500,000 of such loans may be converted into warrants, at the price of \$1.00 per warrant at the option of the lender. Such warrants would be identical to the private placement warrants. To the extent we issue ordinary shares to effectuate a business transaction, the potential for the issuance of a substantial number of additional ordinary shares upon exercise of these warrants or conversion rights could make us a less attractive acquisition vehicle to a target business. Any such issuance will increase the number of issued and outstanding ordinary shares and reduce the value of the ordinary shares issued to complete the business transaction. Therefore, our warrants and founder shares may make it more difficult to effectuate a business combination or increase the cost of acquiring the target business.

The private placement warrants are identical to the warrants sold as part of the units in this offering except that, so long as they are held by our sponsor or its permitted transferees: (1) they will

[Table of Contents](#)

not be redeemable by us; (2) they (including the ordinary shares issuable upon exercise of these warrants) may not, subject to certain limited exceptions, be transferred, assigned or sold by our sponsor until 30 days after the completion of our initial business combination; (3) they may be exercised by the holders on a cashless basis; and (4) they (including the ordinary shares issuable upon exercise of these warrants) are entitled to registration rights.

***Because each unit contains one-half of one warrant and only a whole warrant may be exercised, the units may be worth less than units of other blank check companies.***

Each unit contains one-half of one warrant. Pursuant to the warrant agreement, no fractional warrants will be issued upon separation of the units, and only whole units will trade. This is different from other offerings similar to ours whose units include one ordinary share and one whole warrant to purchase one share. We have established the components of the units in this way in order to reduce the dilutive effect of the warrants upon completion of a business combination since the warrants will be exercisable in the aggregate for a half of the number of shares compared to units that each contain a whole warrant to purchase one share, which we believe will make us a more attractive merger partner for target businesses. Nevertheless, this unit structure may cause our units to be worth less than if they included a warrant to purchase one whole share.

***The determination of the offering price of our units and the size of this offering is more arbitrary than the pricing of securities and size of an offering of an operating company in a particular industry. You may have less assurance, therefore, that the offering price of our units properly reflects the value of such units than you would have in a typical offering of an operating company.***

Prior to this offering there has been no public market for any of our securities. The public offering price of the units and the terms of the warrants were negotiated between us and the underwriters. In determining the size of this offering, management held customary organizational meetings with representatives of the underwriters, both prior to our inception and thereafter, with respect to the state of capital markets, generally, and the amount the underwriters believed they reasonably could raise on our behalf. Factors considered in determining the size of this offering, prices and terms of the units, including the ordinary shares and warrants underlying the units, include:

- the history and prospects of companies whose principal business is the acquisition of other companies;
- prior offerings of those companies;
- our prospects for acquiring an operating business at attractive values;
- a review of debt to equity ratios in leveraged transactions;
- our capital structure;
- an assessment of our management and their experience in identifying operating companies;
- general conditions of the securities markets at the time of this offering; and
- other factors as were deemed relevant.

Although these factors were considered, the determination of our offering price is more arbitrary than the pricing of securities of an operating company in a particular industry since we have no historical operations or financial results.

***There is currently no market for our securities and a market for our securities may not develop, which would adversely affect the liquidity and price of our securities.***

There is currently no market for our securities. Shareholders therefore have no access to information about prior market history on which to base their investment decision. Following this

[Table of Contents](#)

offering, the price of our securities may vary significantly due to one or more potential business combinations and general market or economic conditions. Furthermore, an active trading market for our securities may never develop or, if developed, it may not be sustained. You may be unable to sell your securities unless a market can be established and sustained.

***Because we must furnish our shareholders with target business financial statements, we may lose the ability to complete an otherwise advantageous initial business combination with some prospective target businesses.***

The federal proxy rules require that a proxy statement with respect to a vote on a business combination meeting certain financial significance tests include historical and/or pro forma financial statement disclosure in periodic reports. We will include the same financial statement disclosure in connection with our tender offer documents, whether or not they are required under the tender offer rules. These financial statements may be required to be prepared in accordance with, or be reconciled to, accounting principles generally accepted in the United States of America, or U.S. GAAP, or international financing reporting standards as issued by the International Accounting Standards Board, or IFRS, depending on the circumstances and the historical financial statements may be required to be audited in accordance with the standards of the Public Company Accounting Oversight Board (United States), or PCAOB. These financial statement requirements may limit the pool of potential target businesses we may acquire because some targets may be unable to provide such financial statements in time for us to disclose such financial statements in accordance with federal proxy rules and complete our initial business combination within the prescribed time frame.

***We are an emerging growth company within the meaning of the Securities Act, and if we take advantage of certain exemptions from disclosure requirements available to emerging growth companies, this could make our securities less attractive to investors and may make it more difficult to compare our performance with other public companies.***

We are an "emerging growth company" within the meaning of the Securities Act, as modified by the JOBS Act, and we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved. As a result, our shareholders may not have access to certain information they may deem important. We could be an emerging growth company for up to five years, although circumstances could cause us to lose that status earlier, including if the market value of our ordinary shares held by non-affiliates exceeds \$700 million as of the end of any second quarter of a fiscal year, in which case we would no longer be an emerging growth company as of the end of such fiscal year. We cannot predict whether investors will find our securities less attractive because we will rely on these exemptions. If some investors find our securities less attractive as a result of our reliance on these exemptions, the trading prices of our securities may be lower than they otherwise would be, there may be a less active trading market for our securities and the trading prices of our securities may be more volatile.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. We have elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different

[Table of Contents](#)

application dates for public or private companies, we, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of our financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accountant standards used.

***Compliance obligations under the Sarbanes-Oxley Act may make it more difficult for us to effectuate our initial business combination, require substantial financial and management resources, and increase the time and costs of completing an acquisition.***

Section 404 of the Sarbanes-Oxley Act requires that we evaluate and report on our system of internal controls beginning with our Annual Report on Form 10-K for the year ending December 31, 2018. Only in the event we are deemed to be a large accelerated filer or an accelerated filer will we be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. Further, for as long as we remain an emerging growth company, we will not be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. The fact that we are a blank check company makes compliance with the requirements of the Sarbanes-Oxley Act particularly burdensome on us as compared to other public companies because a target business with which we seek to complete our initial business combination may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of its internal controls. The development of the internal control of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such acquisition.

***Because we are incorporated under the laws of the Cayman Islands, you may face difficulties in protecting your interests, and your ability to protect your rights through the U.S. Federal courts may be limited.***

We are an exempted company incorporated under the laws of the Cayman Islands. As a result, it may be difficult for investors to effect service of process within the United States upon our directors or officers, or enforce judgments obtained in the United States courts against our directors or officers.

Our corporate affairs will be governed by our amended and restated memorandum and articles of association, the Companies Law (as the same may be supplemented or amended from time to time) and the common law of the Cayman Islands. The rights of shareholders to take action against the directors, actions by minority shareholders and the fiduciary responsibilities of our directors to us under Cayman Islands law are to a large extent governed by the common law of the Cayman Islands. The common law of the Cayman Islands is derived in part from comparatively limited judicial precedent in the Cayman Islands as well as from English common law, the decisions of whose courts are of persuasive authority, but are not binding on a court in the Cayman Islands. The rights of our shareholders and the fiduciary responsibilities of our directors under Cayman Islands law are different from what they would be under statutes or judicial precedent in some jurisdictions in the United States. In particular, the Cayman Islands has a different body of securities laws as compared to the United States, and certain states, such as Delaware, may have more fully developed and judicially interpreted bodies of corporate law. In addition, Cayman Islands companies may not have standing to initiate a shareholders derivative action in a Federal court of the United States.

We have been advised by our Cayman Islands legal counsel that the courts of the Cayman Islands are unlikely (1) to recognize or enforce against us judgments of courts of the United States predicated upon the civil liability provisions of the federal securities laws of the United States or any state; and (2) in original actions brought in the Cayman Islands, to impose liabilities against us predicated upon the civil liability provisions of the federal securities laws of the United States or any state, so far as the liabilities imposed by those provisions are penal in nature. In those circumstances, although there is no

## [Table of Contents](#)

statutory enforcement in the Cayman Islands of judgments obtained in the United States, the courts of the Cayman Islands will recognize and enforce a foreign money judgment of a foreign court of competent jurisdiction without retrial on the merits based on the principle that a judgment of a competent foreign court imposes upon the judgment debtor an obligation to pay the sum for which judgment has been given provided certain conditions are met. For a foreign judgment to be enforced in the Cayman Islands, such judgment must be final and conclusive and for a liquidated sum, and must not be in respect of taxes or a fine or penalty, inconsistent with a Cayman Islands judgment in respect of the same matter, impeachable on the grounds of fraud or obtained in a manner, or be of a kind the enforcement of which is, contrary to natural justice or the public policy of the Cayman Islands (awards of punitive or multiple damages may well be held to be contrary to public policy). A Cayman Islands Court may stay enforcement proceedings if concurrent proceedings are being brought elsewhere.

As a result of all of the above, public shareholders may have more difficulty in protecting their interests in the face of actions taken by management, members of the board of directors or controlling shareholders than they would as public shareholders of a United States company.

***Provisions in our amended and restated memorandum and articles of association may inhibit a takeover of us, which could limit the price investors might be willing to pay in the future for our ordinary shares and could entrench management.***

Our amended and restated memorandum and articles of association will contain provisions that may discourage unsolicited takeover proposals that shareholders may consider to be in their best interests. These provisions include two-year director terms and the ability of the board of directors to designate the terms of and issue new series of preferred shares, which may make more difficult the removal of management and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

***After our initial business combination, it is possible that a majority of our directors and officers will live outside the United States and all of our assets will be located outside the United States; therefore investors may not be able to enforce federal securities laws or their other legal rights.***

It is possible that after our initial business combination, a majority of our directors and officers will reside outside of the United States and all of our assets will be located outside of the United States. As a result, it may be difficult, or in some cases not possible, for investors in the United States to enforce their legal rights, to effect service of process upon all of our directors or officers or to enforce judgments of United States courts predicated upon civil liabilities and criminal penalties on our directors and officers under United States laws.

***If we effect our initial business combination with a company located in Argentina and/or Brazil, we would be subject to a variety of additional risks that may negatively impact our operations.***

We currently intend to focus our search for target businesses located in Argentina and/or Brazil. If we acquired a company in Argentina or in another jurisdiction outside of the United States, we would be subject to any special considerations or risks associated with companies operating in an international setting, including any of the following:

- costs and difficulties inherent in managing cross-border business operations and complying with commercial and legal requirements of overseas markets;
- rules and regulations regarding currency redemption;
- complex corporate withholding taxes on individuals;
- laws governing the manner in which future business combinations may be effected;
- tariffs and trade barriers;

## [Table of Contents](#)

- regulations related to customs and import/export matters;
- longer payment cycles;
- tax issues, such as tax law changes, including termination or reduction of tax and other incentives that the applicable government provides to domestic companies, and variations in tax laws as compared to the United States;
- currency fluctuations and exchange controls;
- rates of inflation;
- challenges in collecting accounts receivable;
- cultural and language differences;
- employment regulations;
- crime, strikes, riots, civil disturbances, terrorist attacks, natural disasters and wars;
- deterioration of political relations with the United States;
- energy shortages and tariffs resulting in unpredictable availability and costs;
- economic stability; and
- government appropriation of assets.

We may not be able to adequately address these additional risks. If we were unable to do so, our operations might suffer, which may adversely impact our results of operations and financial condition.

***If we effect a business combination with a company located outside of the United States, the laws applicable to such company will likely govern all of our material agreements and we may not be able to enforce our legal rights.***

If we effect a business combination with a company located outside of the United States, the laws of the country in which such company operates will likely govern almost all of the material agreements relating to its operations. We cannot assure you that the target business will be able to enforce any of its material agreements or that remedies will be available in this new jurisdiction. The system of laws and the enforcement of existing laws in such jurisdiction may not be as certain in implementation and interpretation as in the United States. The inability to enforce or obtain a remedy under any of our future agreements could result in a significant loss of business, business opportunities or capital.

***If our management following our initial business combination is unfamiliar with U.S. securities laws, they may have to expend time and resources becoming familiar with such laws, which could lead to various regulatory issues.***

Following our initial business combination, any or all of our management could resign from their positions as officers of the Company, and the management of the target business at the time of the business combination could remain in place. Management of the target business may not be familiar with U.S. securities laws. If new management is unfamiliar with U.S. securities laws, they may have to expend time and resources becoming familiar with such laws. This could be expensive and time-consuming and could lead to various regulatory issues which may adversely affect our operations.

***After our initial business combination, substantially all of our assets may be located in a foreign country and substantially all of our revenue will be derived from our operations in such country. Accordingly, our results of operations and prospects will be subject, to a significant extent, to the economic, political, social and government policies, developments and conditions in the country in which we operate.***

The economic, political and social conditions, as well as government policies, of the country in which our operations are located could affect our business. Economic growth could be uneven, both

## [Table of Contents](#)

geographically and among various sectors of the economy and such growth may not be sustained in the future. If in the future such country's economy experiences a downturn or grows at a slower rate than expected, there may be less demand for spending in certain industries. A decrease in demand for spending in certain industries could materially and adversely affect our ability to find an attractive target business with which to consummate our initial business combination and if we effect our initial business combination, the ability of that target business to become profitable.

### **Risks Relating to Argentina and Brazil**

*Business combinations with companies with operations in Argentina or Brazil entail special considerations and risks. If we complete a business combination with a target business with operations in Argentina or Brazil, we will be subject to, and possibly adversely affected by, the risks set forth below. However, our efforts in identifying prospective target businesses will not be limited to a particular industry or geographic location. Accordingly, if we acquire a target business in another geographic location, these risks will likely not affect us and we will be subject to other risks attendant with the specific industry or location of the target business which we acquire, none of which can be presently ascertained.*

#### ***Our business will be largely dependent upon economic conditions in Argentina.***

If we complete a business combination with a target located in Argentina, the ultimate success of our business may, to a large extent, be dependent upon economic conditions prevailing in Argentina. The changes in economic, political and regulatory conditions in Argentina and measures taken by the Argentine government are expected to have a significant impact on the success of a business combination with a target located in Argentina. You should make your own assessment about Argentina and prevailing conditions in the country before investing in our securities.

The Argentine economy has experienced significant volatility in past decades, including numerous periods of low or negative growth and high and variable levels of inflation and currency devaluation. Since the second quarter of 2018, the economy has experienced GDP declines. No assurances can be given that growth will resume in subsequent quarters or years or that the national economy will not suffer a deeper recession. If economic conditions in Argentina were to slow down, or contract, if inflation were to accelerate further, or if the Argentine government's measures to attract or retain foreign investment and international financing in the future are unsuccessful, such developments could adversely affect Argentina's economic growth and in turn affect our financial condition and results of operations.

Argentina has confronted and continues to confront inflationary pressures. According to inflation data published by the National Statistics Institute (*Instituto Nacional de Estadística y Censos*) ("INDEC"), in 2017 the Argentine alternative consumer price index ("CPI") and the wholesale price index ("WPI") increased by 24.8% and 18.8%, respectively. Between January 1, 2018 and November 30, 2018, the Argentina CPI and WPI increased by 41.5% and 54.8%, respectively. High interest rates or the increase of inflation rates in Argentina could negatively impact our financial condition and results of operations.

Argentine economic conditions are dependent on a variety of factors, including, but not limited to, the following:

- domestic production, international demand and prices for Argentina's principal commodity exports;
- stability and competitiveness of the peso against foreign currencies;
- Argentine public debt;
- Argentine fiscal deficit;
- competitiveness and efficiency of domestic industries and services;

## [Table of Contents](#)

- levels of consumer consumption;
- foreign and domestic investment and financing; and
- the rate of inflation.

The Argentine economy is also sensitive to local political developments. Despite significant measures taken by the Argentine government that was elected on December 10, 2015, such as the elimination of exchange restrictions, the partial adjustment of gas and electricity prices and the elimination or reduction of export taxes for certain products, Argentina's economy continues to face challenges. Inflation remains a challenge for Argentina given its persistent nature in recent years and adjustment of price distortions from prior administrations. The Argentine government has announced its intention to reduce the primary fiscal deficit as a percentage of GDP over time (and also reduce the government's reliance on Central Bank financing). Inflation can also lead to an increase in the Argentine's debt and have an adverse effect on the government's ability to service its debt, principally in the medium and long term when most inflation-indexed debt matures. In addition, weaker fiscal results could have a material adverse effect on the government's ability to access long term financing, which, in turn, could adversely affect Argentina's economy. Furthermore, considering that the government's current macroeconomic program has required and is expected to continue to require domestic and international financing, Argentina may not be able to access international or domestic capital markets, and the government's ability to service its outstanding public debt could be adversely affected, and consequently adversely affect Argentina's economy and our financial health and results of operations.

Argentina's economy is also vulnerable to adverse developments affecting its principal trading partners. A deterioration of economic conditions in Brazil, Argentina's main trading partner, and a deterioration of the economies of Argentina's other major trading partners, such as China or the United States, could have a material adverse impact on Argentina's balance of trade and adversely affect Argentina's economic growth and may consequently adversely affect our financial health and the results of our initial business combination. Furthermore, a significant devaluation of the currencies of Argentina's trading partners or trade competitors may adversely affect the country's competitiveness and consequently adversely affect Argentina's economy.

In 2005, Argentina restructured a substantial portion of its bond indebtedness with approximately 76% of its bondholders, and in 2006 it settled all of its debt with the International Monetary Fund ("IMF"). In June 2010, Argentina restructured additional defaulted bond indebtedness that was not swapped in 2005. As a result of the 2005 and 2010 debt swaps, over 92% of the bond indebtedness on which Argentina had defaulted in 2002 has been restructured. Certain holders of bonds that were not swapped in the debt restructuring sued Argentina for payment. After several years, in February 2016, Argentina negotiated and reached agreements in principle with respect to a substantial number of the holdout bondholders. On April 22, 2016, Argentina issued US\$16.5 billion of new debt securities in the international capital markets, and applied US\$9.3 billion to satisfy settlement payments on agreements with holders of approximately US\$8.2 billion principal amount of defaulted bonds.

On June 20, 2018, the IMF approved a three-year Stand-by Arrangement ("SBA") for Argentina amounting to US\$50 billion, and on September 26, 2018, increased the total amount available under the program, bringing it to US\$57.1 billion. The arrangement is subject to a strict monetary and fiscal program, which includes 0% primary fiscal deficit for 2019, 1% primary surplus in 2020 and limited foreign exchange intervention from the Central Bank only to prevent disorderly conditions, among other requirements. Austerity measures implemented to comply with requirements under the IMF agreement could slow down or contract Argentine economic conditions. Furthermore, deterioration of economic conditions could have a material adverse impact on the country's capacity to repay or roll-over the debt outstanding under the SBA in 2021.

***Certain risks are inherent in any investment in a company operating in an emerging market such as Argentina.***

Argentina is an emerging market economy, and investing in emerging markets generally carries risks. These risks include political, social and economic instability that may affect Argentina's economic results which can stem from many factors, including the following:

- high interest rates;
- abrupt changes in currency values;
- high levels of inflation;
- exchange and capital controls;
- wage and price controls;
- regulations to import equipment and other necessities relevant for operations;
- changes in governmental economic or tax policies; and
- political and social tensions.

Any of these factors, as well as volatility in the capital and foreign exchange markets, may adversely affect our financial condition and results of operations or the liquidity, marketability and value of our securities.

***The Argentine economy has been adversely affected by economic developments in other markets.***

Financial and securities markets in Argentina, and also the Argentine economy, are influenced by economic and market conditions in other markets worldwide. Argentina's economy remains vulnerable to external shocks, including those relating to a potential trade war between China and the United States. Although economic conditions vary from country to country, investors' reactions to events occurring in one country sometimes demonstrate a "contagion" effect in which an entire region or class of investment is disfavored by international investors. Consequently, there can be no assurance that the Argentine financial system and securities markets will not continue to be adversely affected by events in developed countries' economies or events in other emerging markets, which could in turn, adversely affect the Argentine economy and, indirectly, our business, financial condition and results of operations, and the market value of our securities.

***Corruption investigations in Argentina could have an impact on the development of the economy and investors' confidence, which could adversely affect our business, financial condition and the results of our operations.***

As of the date of this prospectus, more than twenty Argentine businessmen and approximately fifteen former government officials are being investigated in connection with their involvement in an alleged bribery scheme during the Kirchner Administration (Argentina prior government). As a result of these investigations, several businessmen and former public officials have been prosecuted, including the former president of Argentina, Mrs. Cristina Fernández de Kirchner, who was prosecuted for illicit association and seized for the sum of Ps. 4,000 million on September 17, 2018.

Depending on the results of such investigations and the time it takes to conclude them, the companies involved could face, among other consequences, a decrease in their credit rating, be subject to demands by their investors, as well as experiencing restrictions on financing through the capital market and have a reduction in their financial condition. These negative effects could hamper the ability of these companies, with a potential contagion effect to other businesses, to meet their financial obligations. As a result, the limitation on obtaining financing in the future could affect the carrying out projects or works currently in execution.

## [Table of Contents](#)

In addition, the effects of these investigations could affect the investment levels in infrastructure in Argentina, as well as the continuation, development and completion of public works and Public-Private Participation projects, which could ultimately lead to lower growth in the Argentine economy.

As of the date of this prospectus, we have not estimated the impact that this investigation could have on the Argentine economy. Likewise, we cannot predict for how long corruption investigations could continue, what other companies might be involved, or how significant the effects of these investigations might be on the Argentine economy. In turn, the decrease in investors' confidence, among other factors, could have a significant adverse impact on the development of the Argentine economy, which could adversely affect our business, financial condition and the results of our operations.

***A decrease in international prices for commodities exported by Argentina could negatively affect Argentina's economic condition, lead to additional pressures on the exchange market and have a material adverse effect on our prospects.***

Argentina's economic recovery since the crisis of 2001 and 2002 has occurred within the context of an increase in prices of Argentine exportable goods, such as soy beans. The high prices of commodities contributed to increase Argentine export revenues since the third quarter of 2002, and to increase Argentine government tax income, principally export withholding taxes. Nonetheless, as of early 2015, international prices for commodities that comprise Argentina's main basic product exports have decreased, which in turn, adversely affected Argentina's economic growth. If the international prices for commodities continue to decrease, Argentina's economy could be adversely affected further. Moreover, agriculture production—which represent an important source of Argentina's export income- could be negatively affected due to adverse climate conditions.

These circumstances may have a negative impact on Argentina's revenues, on the availability of foreign currency, and on Argentina's ability to repay its debt, and in addition, could generate recession and inflationary pressures depending on the Argentine government's reaction. Any such results may adversely affect Argentina's economic growth and as a result, could adversely affect our business, results of operations and financial condition.

***We may be exposed to fluctuations in foreign exchange rates.***

Our results of operations will be exposed to currency fluctuations, and any devaluation of the peso against the U.S. dollar and other hard currencies may adversely affect our business and results of operations. The value of the peso has fluctuated significantly in the past, such as in January 2014 when the peso declined approximately 23% against the U.S. dollar. In 2015, the peso lost approximately 52% of its value with respect to the U.S. dollar, including a 37.3% devaluation during the last quarter of 2015, mainly concentrated after December 16, 2015. In 2016 and 2017 the peso lost approximately 22% and 18.4%, respectively, of its value with respect to the U.S. dollar. Between January 1, 2018 and December 31, 2018, the peso lost approximately 50.6% of its value with respect to the U.S. dollar. The peso may fluctuate in the future.

We are unable to predict whether, and to what extent, the value of the peso may further depreciate or appreciate against the U.S. dollar and how any such fluctuations could affect our initial business combination or the value of our securities.

***We could be subject to exchange and capital controls.***

In the past, Argentina imposed exchange controls and transfer restrictions substantially limiting the ability of companies to retain foreign currency or make payments abroad. Beginning in 2011, additional foreign exchange controls have been imposed that restrict or limit purchases of foreign currency and transfers of foreign currency abroad. In December 2015, the new administration eliminated certain exchange controls imposed by the previous administration, such as (i) the requirement that foreign

[Table of Contents](#)

currency be deposited and exchanged in Argentina in respect of finance transactions outside Argentina, and (ii) the requirement that 30% of funds in U.S. dollars held in Argentina be frozen pursuant to Decree No. 616/05. There can be no assurance that future regulatory changes related to exchange and capital controls will not adversely affect our financial condition or results of operations, our ability to meet our obligations denominated in foreign currency or our ability to execute our financing and capital expenditure plans.

***Our access to international capital markets are influenced by the perception of risk in Argentina and other emerging economies.***

International investors consider Argentina to be an emerging market. Economic and market conditions in other emerging market countries, especially those in Latin America, influence the market for securities issued by Argentine companies. Volatility in securities markets in Latin America and in other emerging market countries may have a negative impact on the trading value of our securities and on our ability and the terms on which we are able to access international capital markets.

We cannot assure that the perception of risk in Argentina and other emerging markets may not have a material adverse effect on our ability to raise capital, which would negatively affect our investments plans and consequently our financial condition and results of operations, and also have a negatively impact on the trading values of our securities. We can give no assurance as to potential adverse impact of the factors discussed above on our financial condition and/or results of operations.

***Upcoming Presidential Elections in Argentina could negatively affect Argentina's economic condition and have a material adverse effect on our prospects.***

There are no assurances that the current government will get reelected, or that subsequent governments will continue the current economic regime.

***The Brazilian government has exercised, and continues to exercise, significant influence over the Brazilian economy, which, together with Brazilian political and economic conditions, may adversely affect us.***

If we complete a business combination with a target located in Brazil, we may be adversely affected by the following factors, as well as the Brazilian federal government's response to these factors:

- economic and social instability;
- increase in interest rates;
- exchange controls and restrictions on remittances abroad;
- restrictions and taxes on agricultural exports;
- exchange rate fluctuations;
- inflation;
- volatility and liquidity in domestic capital and credit markets;
- expansion or contraction of the Brazilian economy, as measured by GDP growth rates;
- allegations of corruption against political parties, elected officials or other public officials, including allegations made in relation to the *Lava Jato* investigation;
- government policies related to our sectors;
- fiscal or monetary policy and amendments to tax legislation; and other political, diplomatic, social or economic developments in or affecting Brazil; and
- political instability.

## [Table of Contents](#)

Historically, the Brazilian government has frequently intervened in the Brazilian economy and has occasionally made significant changes in economic policies and regulations, including, among others, the imposition of a tax on foreign capital entering Brazil (IOF tax), changes in monetary, fiscal and tax policies, currency devaluations, capital controls and limits on imports.

The Brazilian economy has been experiencing a slowdown—GDP growth rates were 3.9%, 1.8%, 2.7% and 0.1%, in 2011, 2012, 2013 and 2014, respectively, and GDP decreased 3.8% in 2015, decreased 3.6% in 2016, increased 1.0% in 2017 and increased 1.1% in the first nine months of 2018.

As a result of investigations carried out in connection with the *Lava Jato* (Car Wash) operation into corruption in Brazil, a number of senior politicians, including congressmen, and executive officers of some of the major state-owned companies in Brazil have resigned or been arrested, while others are being investigated for allegations of unethical and illegal conduct. The matters that have come, and may continue to come, to light as a result of, or in connection with, the *Lava Jato* operation and other similar operations have adversely affected, and we expect that they will continue to adversely affect, the Brazilian economy, markets and trading prices of securities issued by Brazilian issuers in the near future.

The ultimate outcome of these investigations is uncertain, but they have already had an adverse effect on the image and reputation of the implicated companies, and on the general market perception of the Brazilian economy, the political environment and the Brazilian capital markets. The development of these investigations may adversely affect us. We cannot predict whether these investigations will bring further political or economic instability to Brazil, or whether new allegations will be raised against high-level members of the Brazilian federal government. In addition, we cannot predict the results of these investigations, nor their effects on the Brazilian economy.

In addition, on December 2, 2015, the Brazilian Congress opened impeachment proceedings against Brazilian President Dilma Rousseff for allegedly breaking federal budget laws during her term. On August 31, 2016, following a trial by the Senate, President Dilma Rousseff was impeached and Vice-President Michel Temer was sworn in as president. In addition, a number of requests for impeachment were filed against Mr. Temer, as well as criminal charges by the Brazilian Federal Prosecutor's Office after allegations surfaced that Mr. Temer had allegedly been leading a political corruption related criminal organization. Furthermore, a Brazilian federal appeals court unanimously upheld the conviction of former president Luís Inácio Lula da Silva on corruption charges uncovered by the *Lava Jato* operation; however, this decision can still be appealed to the Brazilian Supreme Court. On April 7, 2018, Luís Inácio Lula da Silva began his prison sentence and, on August 31, 2018, the Superior Electoral Court barred Luís Inácio Lula da Silva from participating in Brazil's 2018 presidential election. We cannot predict whether these investigations and lawsuits as well as the imprisonment of Luís Inácio Lula da Silva will bring about further economic and political instability or if new allegations against high officers of the Brazilian Federal Government will arise in the future, nor can we predict the results of any such investigations, including their effects over the Brazilian economy.

In addition, political demonstrations in Brazil over the last few years have affected the development of the Brazilian economy and investors' perceptions of Brazil. For example, street protests, which started in mid-2013 and continued through 2016, demonstrated the public's dissatisfaction with the worsening Brazilian economic condition (including an increase in inflation and fuel prices as well as rising unemployment), and the perception of widespread corruption.

On October 28, 2018, the presidential elections were held in Brazil, with the conservative candidate, Jair Bolsonaro, as the winner in the final round with 55.1% of the votes. President Bolsonaro took office on January 1, 2019. We cannot predict the impact of the policies of the Bolsonaro administration on the global economy or the Brazilian economy.

Any of the above factors may create additional political uncertainty, which could harm the Brazilian economy and, consequently, our business and the price of our ordinary shares.

***Inflation, coupled with the Brazilian government's measures to fight inflation, may hinder Brazilian economic growth and increase interest rates, which could have a material adverse effect on us.***

Brazil has in the past experienced significantly high rates of inflation. As a result, the Brazilian government adopted monetary policies that resulted in Brazilian interest rates being among the highest in the world. The Central Bank's Monetary Policy Committee (*Comitê de Política Monetária do Banco Central*, or "COPOM"), establishes an official interest rate target for the Brazilian financial system based on the level of economic growth, inflation rate and other economic indicators in Brazil. Between 2004 and 2010, the official Brazilian interest rate varied from 19.75% to 8.75% per year. In response to an increase in inflation in 2010, the Brazilian government increased the official Brazilian interest rate, the SELIC rate, which was 10.75% per year as of December 31, 2010. The SELIC rate has increased and decreased since then and, as of December 31, 2018, it was 6.50% per year. The inflation rates, as measured by the General Market Price Index (*Índice Geral de Preços-Mercado*, or IGP-M), and calculated by *Fundação Getúlio Vargas*, or FGV, were 3.67% in 2014, 10.54% in 2015, 7.18% in 2016, (0.52)% in 2017 and 7.54% in 2018.

Inflation and the government measures to fight inflation have had and may continue to have significant effects on the Brazilian economy and our business. In addition, the Brazilian government's measures to control inflation have often included maintaining a tight monetary policy with high interest rates, thereby restricting the availability of credit and slowing economic growth. On the other hand, an easing of monetary policies of the Brazilian government may trigger increases in inflation. In the event of an increase in inflation, we may not be able to adjust our daily rates to offset the effects of inflation on our cost structure, which may materially and adversely affect us.

***A deterioration in general economic and market conditions or the perception of risk in other countries, principally in emerging countries or the United States, may have a negative impact on the Brazilian economy and us.***

Economic and market conditions in other countries, including United States and Latin American and other emerging market countries, may affect the Brazilian economy and the market for securities issued by Brazilian companies. Although economic conditions in these countries may differ significantly from those in Brazil, investors' reactions to developments in these other countries may have an adverse effect on the market value of securities of Brazilian issuers. Crises in other emerging market countries could dampen investor enthusiasm for securities of Brazilian issuers, including ours, which could adversely affect the market price of our ordinary shares. In the past, the adverse development of economic conditions in emerging markets resulted in a significant flow of funds out of the country and a decrease in the quantity of foreign capital invested in Brazil. Changes in the prices of securities of public companies, lack of available credit, reductions in spending, general slowdown of the global economy, exchange rate instability and inflationary pressure may adversely affect, directly or indirectly, the Brazilian economy and securities market. Global economic downturns and related instability in the international financial system have had, and may continue to have, a negative effect on economic growth in Brazil. Global economic downturns reduce the availability of liquidity and credit to fund the continuation and expansion of business operations worldwide.

In addition, the Brazilian economy is affected by international economic and market conditions generally, especially economic conditions in the United States. Share prices on B3 S.A.—Brasil, Bolsa, Balcão (also known as the "B3"), for example, have historically been sensitive to fluctuations in U.S. interest rates and the behavior of the major U.S. stock indexes. An increase in interest rates in other countries, especially the United States, may reduce global liquidity and investors' interest in the Brazilian capital markets, adversely affecting the price of our ordinary shares.

***Infrastructure and workforce deficiency in Brazil may impact economic growth and have a material adverse effect on us.***

Our performance depends on the overall health and growth of the Brazilian economy. Brazilian GDP growth has fluctuated over the past few years, with growth of 3.0% in 2013 but decreasing to 0.5% in 2014, a contraction of 3.8% in 2015, a contraction of 3.6% in 2016, growth of 1.0% in 2017, and growth of 1.1% in the first nine months of 2018. Growth is limited by inadequate infrastructure, including potential energy shortages and deficient transportation, logistics and telecommunication sectors, the lack of a qualified labor force, and the lack of private and public investments in these areas, which limit productivity and efficiency. Any of these factors could lead to labor market volatility and generally impact income, purchasing power and consumption levels, which could limit growth and ultimately have a material adverse effect on us.

***Exchange rate instability may have adverse effects on the Brazilian economy, us and the price of our ordinary shares.***

The Brazilian currency has been historically volatile and has been devalued frequently over the past three decades. Throughout this period, the Brazilian government has implemented various economic plans and used various exchange rate policies, including sudden devaluations, periodic mini-devaluations (during which the frequency of adjustments has ranged from daily to monthly), exchange controls, dual exchange rate markets and a floating exchange rate system. Although long-term depreciation of the *real* is generally linked to the rate of inflation in Brazil, depreciation of the *real* occurring over shorter periods of time has resulted in significant variations in the exchange rate between the *real*, the U.S. dollar and other currencies. The *real* depreciated against the U.S. dollar by 32.0% at year-end 2015 as compared to year-end 2014, and by 11.8% at year-end 2014 as compared to year-end 2013. The *real*/U.S. dollar exchange rate reported by the Central Bank was R\$3.9048 per U.S. dollar on December 31, 2015 and R\$3.2591 per U.S. dollar on December 31, 2016, which reflected a 16.5% appreciation in the *real* against the U.S. dollar during 2016. The *real*/U.S. dollar exchange rate reported by the Central Bank was R\$3.308 per U.S. dollar on December 31, 2017, which reflected a 1.5% depreciation in the *real* against the U.S. dollar during 2017. The *real*/U.S. dollar exchange rate reported by the Central Bank was R\$3.874 per US\$1.00 on December 31, 2018, which reflected a 15.6% depreciation in the *real* against the U.S. dollar during 2018. There can be no assurance that the *real* will not again depreciate against the U.S. dollar or other currencies in the future.

A devaluation of the *real* relative to the U.S. dollar could create inflationary pressures in Brazil and cause the Brazilian government to, among other measures, increase interest rates. Any depreciation of the *real* may generally restrict access to the international capital markets. It would also reduce the U.S. dollar value of our results of operations. Restrictive macroeconomic policies could reduce the stability of the Brazilian economy and harm our results of operations and profitability. In addition, domestic and international reactions to restrictive economic policies could have a negative impact on the Brazilian economy. These policies and any reactions to them may harm us by curtailing access to foreign financial markets and prompting further government intervention. A devaluation of the *real* relative to the U.S. dollar may also, as in the context of the current economic slowdown, decrease consumer spending, increase deflationary pressures and reduce economic growth.

On the other hand, an appreciation of the *real* relative to the U.S. dollar and other foreign currencies may deteriorate the Brazilian foreign exchange current accounts. Changes in the value of the U.S. dollar compared to other currencies may affect the costs of goods and services that Brazilian entities purchase from countries outside Brazil. Depending on the circumstances, either devaluation or appreciation of the *real* relative to the U.S. dollar and other foreign currencies could restrict the growth of the Brazilian economy, as well as our business, results of operations and profitability.

*Any further downgrading of Brazil's credit rating could reduce the trading price of our ordinary shares.*

We may be harmed by investors' perceptions of risks related to Brazil's sovereign debt credit rating. Rating agencies regularly evaluate Brazil and its sovereign ratings, which are based on a number of factors including macroeconomic trends, fiscal and budgetary conditions, indebtedness metrics and the perspective of changes in any of these factors.

The rating agencies began to review Brazil's sovereign credit rating in September 2015. Subsequently, the three major rating agencies downgraded Brazil's investment-grade status:

- Standard & Poor's initially downgraded Brazil's credit rating from BBB-negative to BB-positive and subsequently downgraded it again from BB-positive to BB, maintaining its negative outlook, citing a worse credit situation since the first downgrade. On January 11, 2018, Standard & Poor's further downgraded Brazil's credit rating from BB to BB-negative.
- In December 2015, Moody's placed Brazil's Baa3's issue and bond ratings under review for downgrade and subsequently downgraded the issue and bond ratings to below investment grade, at Ba2 with a negative outlook, citing the prospect of a further deterioration in Brazil's debt indicators, taking into account the low growth environment and the challenging political scenario. On April 9, 2018, Moody's affirmed Brazil's issue and bond ratings at Ba2 and changed the outlook from negative to stable.
- Fitch downgraded Brazil's sovereign credit rating to BB-positive with a negative outlook, citing the rapid expansion of the country's budget deficit and the worse-than-expected recession. In February 2018, Fitch downgraded Brazil's sovereign credit rating again to BB-negative, citing, among other reasons, fiscal deficits, the increasing burden of public debt and an inability to implement reforms that would structurally improve Brazil's public finances. Brazil's sovereign credit rating is currently rated below investment grade by the three main credit rating agencies. Consequently, the prices of securities offered by companies with significant operations in Brazil have been negatively affected. A prolongation or worsening of the current Brazilian recession and continued political uncertainty, among other factors, could lead to further ratings downgrades. Any further downgrade of Brazil's sovereign credit ratings could heighten investors' perception of risk and, as a result, cause the trading price of our ordinary shares to decline.

## CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Some statements contained in this prospectus are forward-looking in nature. Our forward-looking statements include, but are not limited to, statements regarding our or our management team's expectations, hopes, beliefs, intentions or strategies regarding the future. In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. The words "anticipate," "believe," "continue," "could," "estimate," "expect," "intends," "may," "might," "plan," "possible," "potential," "predict," "project," "should," "would" and similar expressions may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. Forward-looking statements in this prospectus may include, for example, statements about:

- our ability to select an appropriate target business or businesses;
- our ability to complete our initial business combination;
- our expectations around the performance of a prospective target business or businesses;
- our success in retaining or recruiting, or changes required in, our officers, key employees or directors following our initial business combination;
- our officers and directors allocating their time to other businesses and potentially having conflicts of interest with our business or in approving our initial business combination, as a result of which they would then receive expense reimbursements;
- our potential ability to obtain additional financing to complete our initial business combination;
- our pool of prospective target businesses and the Latin America opportunity sectors;
- the ability of our officers and directors to generate a number of potential business combination opportunities;
- our public securities' potential liquidity and trading;
- the lack of a market for our securities;
- the use of proceeds not held in the trust account or available to us from interest income on the trust account balance;
- the trust account not being subject to claims of third parties; or
- our financial performance following this offering.

The forward-looking statements contained in this prospectus are based on our current expectations and beliefs concerning future developments and their potential effects on us. There can be no assurance that future developments affecting us will be those that we have anticipated. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond our control) or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to, those factors described under the heading "Risk Factors" beginning on page 29. Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

### USE OF PROCEEDS

We are offering 25,000,000 units at an offering price of \$10.00 per unit. We estimate that the net proceeds of this offering together with the funds we will receive from the sale of the private placement warrants will be used as set forth in the following table.

	Without Over-Allotment Option	Over-Allotment Option Exercised
<i>Gross proceeds</i>		
Gross proceeds from units offered to public <sup>(1)</sup>	\$ 250,000,000	\$ 287,500,000
Gross proceeds from private placement warrants offered in the private placement	7,000,000	7,750,000
Total gross proceeds	\$ 257,000,000	\$ 295,250,000
<i>Offering expenses<sup>(2)</sup></i>		
Underwriting commissions (2.0% of gross proceeds from units offered to public, excluding deferred portion) <sup>(3)</sup>	\$ 4,500,000	\$ 5,250,000
Legal fees and expenses	300,000	300,000
Accounting fees and expenses	42,500	42,500
Printing and engraving expenses	40,000	40,000
SEC expenses	34,845	34,845
FINRA expenses	43,625	43,625
Travel and road show	40,000	40,000
Directors and officers insurance	100,000	100,000
NYSE listing and filing fees	85,000	85,000
Miscellaneous expenses <sup>(4)</sup>	314,030	314,030
Total offering expenses (other than underwriting commissions)	\$ 1,000,000	\$ 1,000,000
Proceeds after offering expenses	\$ 251,500,000	\$ 289,000,000
Held in trust account <sup>(3)</sup>	\$ 250,000,000	\$ 287,500,000
% of public offering size	100%	100%
Not held in trust account <sup>(2)</sup>	\$ 1,500,000	\$ 1,500,000

The following table shows the use of the approximately \$1,500,000 of net proceeds not held in the trust account<sup>(5)</sup>.

	Amount	% of Total
Legal, accounting, due diligence, travel and other expenses in connection with any business combination <sup>(6)</sup>	\$ 450,000	30.0%
Legal and accounting fees related to regulatory reporting obligations	150,000	10.0%
Payment for director compensation	100,000	6.7%
Reserve for liquidation expenses	100,000	6.7%
NYSE continued listing fees	85,000	5.7%
Other miscellaneous expenses	615,000	41.0%
Total	\$ 1,500,000	100.0%

- (1) Includes amounts payable to public shareholders who properly redeem their shares in connection with our successful completion of our initial business combination.
- (2) A portion of the offering expenses have been paid from the proceeds of loans from our sponsor of up to \$250,000 as described in this prospectus. As of December 31, 2018, we had not borrowed any amount under the promissory note with our sponsor to be used for a portion of the expenses of this offering. These loans will be repaid upon completion of this offering out of the \$1,500,000 of

offering proceeds not held in the trust account. In the event that offering expenses are less than as set forth in this table, any such amounts will be used for post-closing working capital expenses. In the event that the offering expenses are more than as set forth in this table, we may fund such excess with funds not held in the trust account.

- (3) The amount of gross proceeds subject to underwriting discounts and commissions will exclude the gross proceeds received on 2,500,000 units which will be sold to affiliates of our sponsor, which units are not subject to any underwriting discounts or commissions. The underwriters have agreed to defer underwriting commissions equal to 3.5% of the gross proceeds of this offering. Upon completion of our initial business combination, \$7,875,000, which constitutes the underwriters' deferred commissions (or up to \$9,187,500 if the underwriters' over-allotment option is exercised in full) will be paid to the underwriters from the funds held in the trust account, and the remaining funds will be released to us and can be used to pay all or a portion of the purchase price of the business or businesses with which our initial business combination occurs or for general corporate purposes, including payment of principal or interest on indebtedness incurred in connection with our initial business combination, to fund the purchases of other companies or for working capital. The underwriters will not be entitled to any interest accrued on the deferred underwriting discounts and commissions.
- (4) Includes organizational and administrative expenses and may include amounts related to above-listed expenses in the event actual amounts exceed estimates.
- (5) These expenses are estimates only. Our actual expenditures for some or all of these items may differ from the estimates set forth herein. For example, we may incur greater legal and accounting expenses than our current estimates in connection with negotiating and structuring a business combination based upon the level of complexity of such business combination. In the event we identify an acquisition target in a specific industry subject to specific regulations, we may incur additional expenses associated with legal due diligence and the engagement of special legal counsel. In addition, our staffing needs may vary and as a result, we may engage a number of consultants to assist with legal and financial due diligence. We do not anticipate any change in our intended use of proceeds, other than fluctuations among the current categories of allocated expenses, which fluctuations, to the extent they exceed current estimates for any specific category of expenses, would not be available for our expenses. The amount in the table above does not include interest available to us from the trust account. Based on current interest rates, we would expect approximately \$3,500,000 to be available to us from interest earned on the funds held in the trust account over the 12 months following the closing of this offering; however, we can provide no assurances regarding this amount. This estimate assumes an interest rate of 1.4% per annum based upon current yields of securities in which the trust account may be invested. In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we would repay such loaned amounts out of the proceeds of the trust account released to us. Otherwise, such loans would be repaid only out of funds held outside the trust account. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used to repay such loaned amounts. Up to \$1,500,000 of such loans may be convertible into warrants at a price of \$1.00 per warrant at the option of the lender. The warrants would be identical to the private placement warrants issued to our sponsor. The terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans. We do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

[Table of Contents](#)

- (6) Includes estimated amounts that may also be used in connection with our initial business combination to fund a "no shop" provision and commitment fees for financing.

The rules of the NYSE provide that at least 90% of the gross proceeds from this offering and the sale of the private placement warrants be deposited in a trust account. Of the net proceeds of this offering and the sale of the private placement warrants, \$250,000,000 (or \$287,500,000 if the underwriters' over-allotment option is exercised in full), including \$7,875,000 (or up to \$9,187,500 if the underwriters' over-allotment option is exercised in full) of deferred underwriting commissions, will, upon the consummation of this offering, be placed in a U.S.-based trust account with Continental Stock Transfer & Trust Company acting as trustee. The funds in the trust account will be invested only in U.S. government treasury bills with a maturity of 180 days or less or in money market funds investing solely in U.S. Treasuries and meeting certain conditions under Rule 2a-7 under the Investment Company Act. Based on current interest rates, we estimate that the interest earned on the trust account will be approximately \$3,500,000 per year, assuming an interest rate of 1.4% per year. We will not be permitted to withdraw any of the principal or interest held in the trust account except for the withdrawal of interest to pay taxes, if any, the funds held in the trust account will not be released from the trust account until the earliest to occur of: (1) the completion of our initial business combination; (2) the redemption of any public shares properly submitted in connection with a shareholder vote to amend our amended and restated memorandum and articles of association (A) to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to shareholders' rights or pre-initial business combination activity; and (3) the redemption of our public shares if we are unable to complete our initial business combination within 24 months from the closing of this offering, subject to applicable law. Based on current interest rates, we expect that interest earned on the trust account will be sufficient to pay taxes.

The net proceeds held in the trust account may be used as consideration to pay the sellers of a target business with which we ultimately complete our initial business combination. If our initial business combination is paid for using equity or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination, we may apply the balance of the cash released from the trust account for general corporate purposes, including for maintenance or expansion of operations of the post-transaction company, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital.

We believe that amounts not held in trust will be sufficient to pay the costs and expenses to which such proceeds are allocated. This belief is based on the fact that while we may begin preliminary due diligence of a target business in connection with an indication of interest, we intend to undertake in-depth due diligence, depending on the circumstances of the relevant prospective acquisition, only after we have negotiated and signed a letter of intent or other preliminary agreement that addresses the terms of a business combination. However, if our estimate of the costs of undertaking in-depth due diligence and negotiating a business combination is less than the actual amount necessary to do so, we may be required to raise additional capital, the amount, availability and cost of which is currently unascertainable. If we are required to seek additional capital, we could seek such additional capital through loans or additional investments from our sponsor, members of our management team or any of their affiliates, but such persons are not under any obligation to loan funds to, or invest in, us.

Prior to the closing of this offering, our sponsor has agreed to loan us up to \$250,000 to be used for a portion of the expenses of this offering. As of December 31, 2018, we had not borrowed any amount under the promissory note with our sponsor to be used for a portion of the expenses of this offering. As of the date hereof, we have borrowed \$250,000 under the promissory note. These loans are non-interest bearing, unsecured and are due at the earlier of June 30, 2019 or the closing of this

## [Table of Contents](#)

offering. These loans will be repaid upon completion of this offering out of the \$1,500,000 of offering proceeds not held in the trust account.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we would repay such loaned amounts out of the proceeds of the trust account released to us. Otherwise, such loans would be repaid only out of funds held outside the trust account. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used to repay such loaned amounts. Up to \$1,500,000 of such loans may be convertible into warrants at a price of \$1.00 per warrant at the option of the lender. The warrants would be identical to the private placement warrants issued to our sponsor. The terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans. We do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

If we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsor, directors, officers, advisors or any of their affiliates may also purchase shares in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. Please see "Proposed Business—Permitted purchases of our securities" for a description of how such persons will determine from which shareholders to seek to acquire shares. The price per share paid in any such transaction may be different than the amount per share a public shareholder would receive if it elected to redeem its shares in connection with our initial business combination. However, such persons have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. If they engage in such transactions, they will not make any such purchases when they are in possession of any material non-public information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules.

We may not redeem our public shares in an amount that would cause our net tangible assets, after payment of the deferred underwriting commissions, to be less than \$5,000,001 (so that we do not then become subject to the SEC's "penny stock" rules) and the agreement for our initial business combination may require as a closing condition that we have a minimum net worth or a certain amount of cash. If too many public shareholders exercise their redemption rights so that we cannot satisfy the net tangible asset requirement or any net worth or cash requirements, we would not proceed with the redemption of our public shares or the business combination, and instead may search for an alternate business combination.

A public shareholder will be entitled to receive funds from the trust account only upon the earliest to occur of: (1) the completion of our initial business combination; (2) the redemption of any public shares properly submitted in connection with a shareholder vote to amend our amended and restated memorandum and articles of association (A) to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to shareholders' rights or pre-initial business combination activity; and (3) the redemption of our public shares if we are unable to complete our initial business combination within 24 months from the closing

[Table of Contents](#)

of this offering, subject to applicable law. In no other circumstances will a public shareholder have any right or interest of any kind to or in the trust account.

Our initial shareholders have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and any public shares held by them in connection with the completion of our initial business combination. Our directors and officers have entered into letter agreements similar to the one signed by our initial shareholders with respect to public shares acquired by them, if any. In addition, our initial shareholders have agreed to waive their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within the prescribed time frame. However, if our sponsor or any of our officers, directors or affiliates acquires public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the prescribed time frame.

## **DIVIDEND POLICY**

We have not paid any cash dividends on our ordinary shares to date and do not intend to pay cash dividends prior to the completion of our initial business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of our initial business combination. The payment of any cash dividends subsequent to our initial business combination will be within the discretion of our board of directors at such time. In addition, our board of directors is not currently contemplating and does not anticipate declaring any share dividends in the foreseeable future, except if we increase the size of this offering, in which case we will effect a capitalization or share repurchase or redemption or other appropriate mechanism immediately prior to the consummation of this offering in such amount as to maintain the ownership of our initial shareholders prior to this offering at 20% of our issued and outstanding ordinary shares upon the consummation of this offering (excluding the ordinary shares underlying the units that affiliates of our sponsor will purchase in this offering and assuming our initial shareholders do not purchase any other units in this offering). Further, if we incur any indebtedness in connection with our initial business combination, our ability to declare dividends may be limited by restrictive covenants we may agree to in connection therewith.

## DILUTION

The difference between the public offering price per ordinary share, assuming no value is attributed to the warrants included in the units we are offering pursuant to this prospectus or the private placement warrants, and the pro forma net tangible book value per ordinary share after this offering constitutes the dilution to investors in this offering. Such calculation does not reflect any dilution associated with the sale and exercise of warrants, including the private placement warrants, which would cause the actual dilution to the public shareholders to be higher, particularly where a cashless exercise is utilized. Net tangible book value per share is determined by dividing our net tangible book value, which is our total tangible assets less total liabilities (including the value of ordinary shares which may be redeemed for cash), by the number of issued and outstanding ordinary shares.

At December 31, 2018, our net tangible book value was a deficiency of \$67,048, or approximately \$(0.01) per ordinary share. After giving effect to the sale of 25,000,000 ordinary shares included in the units we are offering by this prospectus, the sale of the private placement warrants and the deduction of underwriting commissions and estimated expenses of this offering, our pro forma net tangible book value at December 31, 2018 would have been \$5,000,006 or \$0.68 per share, representing an immediate increase in net tangible book value (as decreased by the value of 23,864,730 ordinary shares that may be redeemed for cash and assuming no exercise of the underwriters' over-allotment option) of \$0.69 per share to our initial shareholders as of the date of this prospectus and an immediate dilution of \$9.32 per share or 93.2% to our public shareholders not exercising their redemption rights. The dilution to new investors if the underwriters exercise the over-allotment option in full would be an immediate dilution of \$9.41 per share or 94.1%.

The following table illustrates the dilution to the public shareholders on a per-share basis, assuming no value is attributed to the warrants included in the units or the private placement warrants:

	<u>Without</u> <u>Over-allotment</u>	<u>With</u> <u>Over-allotment</u>
Public offering price	\$ 10.00	\$ 10.00
Net tangible book deficit before this offering	\$ (0.01)	\$ (0.01)
Increase attributable to public shareholders	<u>0.69</u>	<u>0.60</u>
Pro forma net tangible book value after this offering and the sale of the private placement warrants	0.68	0.59
Dilution to public shareholders	<u>\$ 9.32</u>	<u>\$ 9.41</u>
Percentage of dilution to new investors	93.2%	94.1%

For purposes of presentation, we have reduced our pro forma net tangible book value after this offering (assuming no exercise of the underwriters' over-allotment option) by \$238,647,300 because holders of up to approximately 95.5% of our public shares may redeem their shares for a pro rata share of the aggregate amount then on deposit in the trust account at a per-share redemption price equal to the amount in the trust account as set forth in our tender offer or proxy materials (initially anticipated to be the aggregate amount held in trust two days prior to the commencement of our tender offer or shareholders meeting, including interest (which interest shall be net of taxes payable), divided by the number of ordinary shares sold in this offering).

[Table of Contents](#)

The following table sets forth information with respect to our initial shareholders and the public shareholders:

	Shares Purchased		Total Consideration		Average Price per Share
	Number	Percentage	Amount	Percentage	
Initial Shareholders <sup>(1)</sup>	6,250,000	20.00%	\$ 25,000	0.00%	\$ 0.004
Public Shareholders <sup>(2)</sup>	25,000,000	80.00%	250,000,000	100.00%	10.00
	31,250,000	100.00%	\$ 250,025,000	100.00%	

- (1) Assumes the full forfeiture of 937,500 founder shares that are subject to forfeiture by our sponsor depending on the extent to which the underwriters' over-allotment option is exercised.
- (2) Includes 2,500,000 ordinary shares underlying the units affiliates of our sponsor will purchase in this offering.

The pro forma net tangible book value per share after this offering is calculated as follows:

	Without Over-allotment	With Over-allotment
<b>Numerator:</b>		
Net tangible book deficit before this offering	\$ (67,048)	\$ (67,048)
Net proceeds from this offering and sale of the private placement warrants	251,500,000	289,000,000
Plus: Offering costs paid in advance, excluded from tangible book value	89,354	89,354
Less: Deferred underwriting commissions	(7,875,000)	(9,187,500)
Less: Proceeds held in trust subject to redemption	(238,647,300)	(274,834,800)
	<u>\$ 5,000,006</u>	<u>\$ 5,000,006</u>
<b>Denominator</b>		
Ordinary shares outstanding prior to this offering	7,187,500	7,187,500
Ordinary shares forfeited if over-allotment is not exercised	(937,500)	—
Ordinary shares included in the units offered	25,000,000	28,750,000
Less: Ordinary shares subject to redemption	(23,864,730)	(27,483,480)
	<u>7,385,270</u>	<u>8,454,020</u>

**CAPITALIZATION**

The following table sets forth our capitalization at December 31, 2018, and as adjusted to give effect to the sale of our 25,000,000 units in this offering for \$250,000,000 (or \$10.00 per unit) and the sale of 7,000,000 private placement warrants for \$7,000,000 (or \$1.00 per warrant) and the application of the estimated net proceeds derived from the sale of such securities:

	December 31, 2018	
	Actual	As Adjusted <sup>(2)</sup>
Note payable to related party <sup>(1)</sup>	\$ —	\$ —
Deferred underwriting commissions	—	7,875,000
Ordinary shares, subject to redemption; -0- shares actual and 23,864,730 shares as adjusted <sup>(3)</sup>	—	238,647,300
Preferred shares, \$0.0001 par value, 2,000,000 shares authorized; none issued and outstanding, actual and as adjusted	—	—
Ordinary shares, \$0.0001 par value, 200,000,000 shares authorized, 7,187,500 and 7,385,270 shares issued and outstanding (excluding -0- and 23,864,730 shares subject to possible redemption), actual and as adjusted, respectively <sup>(4)</sup>	719	739
Additional paid-in capital <sup>(5)</sup>	24,281	5,001,961
Accumulated deficit	(2,694)	(2,694)
Total shareholders' equity	\$ 22,306	\$ 5,000,006
Total capitalization	<u>\$ 22,306</u>	<u>\$ 251,522,306</u>

- (1) Our sponsor has agreed to loan us up to \$250,000 under an unsecured promissory note to be used for a portion of the expenses of this offering. As of December 31, 2018, we had not borrowed any amount under the promissory note with our sponsor to be used for a portion of the expenses of this offering. As of the date hereof, we have borrowed \$250,000 under the promissory note.
- (2) Assumes the full forfeiture of 937,500 shares that are subject to forfeiture by our sponsor depending on the extent to which the underwriters' over-allotment option is exercised. The proceeds of the sale of such shares will not be deposited into the trust account, the shares will not be eligible for redemption from the trust account nor will they be eligible to vote upon the initial business combination.
- (3) Upon the completion of our initial business combination, we will provide our public shareholders with the opportunity to redeem their public shares for cash equal to their pro rata share of the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of the initial business combination, including interest (which interest shall be net of taxes payable), subject to the limitations described herein whereby our net tangible assets will be maintained at a minimum of \$5,000,001 and any limitations (including, but not limited to, cash requirements) created by the terms of the proposed business combination. The "as adjusted" amount of ordinary shares, subject to redemption equals the "as adjusted" total assets of \$251,522,306, less the "as adjusted" total liabilities of \$7,875,000, less the "as adjusted" total shareholder's equity. The value of ordinary shares that may be redeemed is equal to \$10.00 per share (which is the assumed redemption price) multiplied by 23,864,730 ordinary shares, which is the maximum number of ordinary shares that may be redeemed for a \$10.00 purchase price per share and still maintain at least \$5,000,001 of net tangible assets.
- (4) Actual share amount is prior to any forfeiture of founder shares by our sponsor and as adjusted share amount assumes no exercise of the underwriters' over-allotment option.
- (5) The "as adjusted" additional paid-in capital calculation is equal to the "as adjusted" total shareholder's equity of \$5,000,006, minus ordinary shares (par value) of \$752, minus the accumulated deficit of \$(2,694).

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### Overview

We are a blank check company incorporated as a Cayman Islands exempted company and formed for the purpose of effecting a merger, amalgamation, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses. We have not identified any business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target. We intend to effectuate our initial business combination using cash from the proceeds of this offering and the sale of the private placement warrants, our shares, debt or a combination of cash, shares and debt.

The issuance of additional shares in a business combination:

- may significantly dilute the equity interest of investors in this offering;
- may subordinate the rights of holders of ordinary shares if preferred shares are issued with rights senior to those afforded our ordinary shares;
- could cause a change of control if a substantial number of our ordinary shares are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors;
- may have the effect of delaying or preventing a change of control of us by diluting the share ownership or voting rights of a person seeking to obtain control of us; and
- may adversely affect prevailing market prices for our ordinary shares and/or warrants.

Similarly, if we issue debt securities or otherwise incur significant indebtedness, it could result in:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt is payable on demand;
- our inability to obtain necessary additional financing if the debt contains covenants restricting our ability to obtain such financing while the debt security is outstanding;
- our inability to pay dividends on our ordinary shares;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our ordinary shares if declared, expenses, capital expenditures, acquisitions and other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

As indicated in the accompanying financial statements, at December 31, 2018 we had \$25,000 in cash, a working capital deficit of approximately \$67,000 and deferred offering costs of approximately \$89,000. Further, we expect to continue to incur significant costs in the pursuit of our acquisition plans.

## [Table of Contents](#)

We cannot assure you that our plans to raise capital or to complete our initial business combination will be successful.

### **Results of Operations and Known Trends or Future Events**

We have neither engaged in any operations nor generated any revenues to date. Our only activities since inception have been organizational activities and those necessary to prepare for this offering. Following this offering, we will not generate any operating revenues until after completion of our initial business combination. We will generate non-operating income in the form of interest income on cash and cash equivalents after this offering. There has been no significant change in our financial or trading position and no material adverse change has occurred since the date of our audited financial statements. After this offering, we expect to incur increased expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses. We expect our expenses to increase substantially after the closing of this offering.

### **Liquidity and Capital Resources**

Our liquidity needs have been satisfied prior to the completion of this offering through receipt of \$25,000 from the sale of the founder shares to our sponsor and up to \$250,000 in loans from our sponsor under an unsecured promissory note. As of December 31, 2018, we had not borrowed any amount under the promissory note with our sponsor to be used for a portion of the expenses of this offering. As of the date hereof, we have borrowed \$250,000 under the promissory note. We do not have sufficient liquidity to meet our anticipated obligations over the next year from the issuance of our financial statements. In connection with our assessment of going concern considerations in accordance with FASB's Accounting Standards Update ("ASU") 2014-15, "Disclosures of Uncertainties about an Entity's Ability to Continue as a Going Concern," management has determined that we have access to funds from our sponsor that are sufficient to fund our working capital needs until the earlier of the consummation of this offering or one year from the issuance of the financial statements.

We estimate that the net proceeds from (1) the sale of the units in this offering, after deducting offering expenses of approximately \$1,000,000 and underwriting commissions of \$4,500,000 (\$5,250,000 if the underwriters' over-allotment option is exercised in full) (excluding deferred underwriting commissions of \$7,875,000 (or up to \$9,187,500 if the underwriters' over-allotment option is exercised in full)), and (2) the sale of the private placement warrants for a purchase price of \$7,000,000 (or \$7,750,000 if the underwriters' over-allotment option is exercised in full), will be \$251,500,000 (or \$289,000,000 if the underwriters' over-allotment option is exercised in full). Of this amount, \$250,000,000 or \$287,500,000 if the underwriters' over-allotment option is exercised in full, including \$7,875,000 (or up to \$9,187,500 if the underwriters' over-allotment option is exercised in full) in deferred underwriting commissions will be deposited into the trust account. The funds in the trust account will be invested only in U.S. government treasury bills with a maturity of 180 days or less or in money market funds investing solely in U.S. Treasuries. The remaining \$1,500,000 will not be held in the trust account. In the event that our offering expenses exceed our estimate of \$1,000,000 we may fund such excess with funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$1,000,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount.

We intend to use substantially all of the funds held in the trust account, including any amounts representing interest earned on the trust account (which interest shall be net of taxes payable and excluding deferred underwriting commissions) to complete our initial business combination. We may withdraw interest to pay taxes, if any. Our annual income tax obligations will depend on the amount of interest and other income earned on the amounts held in the trust account. We expect the interest earned on the amount in the trust account will be sufficient to pay our taxes. We expect the only taxes payable by us out of the funds in the trust account will be income and franchise taxes, if any. To the

## [Table of Contents](#)

extent that our ordinary shares or debt is used, in whole or in part, as consideration to complete our initial business combination, the remaining proceeds held in the trust account will be used as working capital to finance the operations of the target business or businesses, make other acquisitions and pursue our growth strategies.

Prior to the completion of our initial business combination, we will have available to us \$1,500,000 of proceeds held outside the trust account. We will use these funds primarily to identify and evaluate target businesses, perform business due diligence on prospective target businesses, travel to and from the offices, plants or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses, structure, negotiate and complete a business combination, and to pay taxes to the extent the interest earned on the trust account is not sufficient to pay our taxes.

In order to fund working capital deficiencies or finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we would repay such loaned amounts. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into warrants at a price of \$1.00 per warrant at the option of the lender. The warrants would be identical to the private placement warrants issued to our sponsor. The terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans. We do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

We expect our primary liquidity requirements during that period to include approximately \$450,000 for legal, accounting, due diligence, travel and other expenses in connection with any business combinations; \$150,000 for legal and accounting fees related to regulatory reporting requirements; \$85,000 for NYSE continued listing fees; \$100,000 for independent director compensation; \$100,000 as a reserve for liquidation expenses and approximately \$615,000 for general working capital that will be used for miscellaneous expenses and reserves net of estimated interest income.

These amounts are estimates and may differ materially from our actual expenses. In addition, we could use a portion of the funds not being placed in trust to pay commitment fees for financing, fees to consultants to assist us with our search for a target business or as a down payment or to fund a "no-shop" provision (a provision designed to keep target businesses from "shopping" around for transactions with other companies or investors on terms more favorable to such target businesses) with respect to a particular proposed business combination, although we do not have any current intention to do so. If we entered into an agreement where we paid for the right to receive exclusivity from a target business, the amount that would be used as a down payment or to fund a "no-shop" provision would be determined based on the terms of the specific business combination and the amount of our available funds at the time. Our forfeiture of such funds (whether as a result of our breach or otherwise) could result in our not having sufficient funds to continue searching for, or conducting due diligence with respect to, prospective target businesses.

We do not believe we will need to raise additional funds following this offering in order to meet the expenditures required for operating our business. However, if our estimates of the costs of identifying a target business, undertaking in-depth due diligence and negotiating an initial business combination are less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our initial business combination. Moreover, we may need to obtain additional financing either to complete our initial business combination or because we become obligated to redeem a significant number of our public shares upon completion of our initial business

combination, in which case we may issue additional securities or incur debt in connection with such business combination.

#### **Controls and Procedures**

We are not currently required to maintain an effective system of internal controls as defined by Section 404 of the Sarbanes-Oxley Act. We will be required to comply with the internal control requirements of the Sarbanes-Oxley Act for the fiscal year ending December 31, 2020. Only in the event that we are deemed to be a large accelerated filer or an accelerated filer would we be required to comply with the independent registered public accounting firm attestation requirement. Further, for as long as we remain an emerging growth company as defined in the JOBS Act, we intend to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirement.

Prior to the closing of this offering, we have not completed an assessment, nor have our auditors tested our systems, of internal controls. We expect to assess the internal controls of our target business or businesses prior to the completion of our initial business combination and, if necessary, to implement and test additional controls as we may determine are necessary in order to state that we maintain an effective system of internal controls. A target business may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding the adequacy of internal controls. Many small and mid-sized target businesses we may consider for our initial business combination may have internal controls that need improvement in areas such as:

- staffing for financial, accounting and external reporting areas, including segregation of duties;
- reconciliation of accounts;
- proper recording of expenses and liabilities in the period to which they relate;
- evidence of internal review and approval of accounting transactions;
- documentation of processes, assumptions and conclusions underlying significant estimates; and
- documentation of accounting policies and procedures.

Because it will take time, management involvement and perhaps outside resources to determine what internal control improvements are necessary for us to meet regulatory requirements and market expectations for our operation of a target business, we may incur significant expenses in meeting our public reporting responsibilities, particularly in the areas of designing, enhancing, or remediating internal and disclosure controls. Doing so effectively may also take longer than we expect, thus increasing our exposure to financial fraud or erroneous financing reporting.

Once our management's report on internal controls is complete, we will retain our independent auditors to audit and render an opinion on such report when required by Section 404 of the Sarbanes-Oxley Act. The independent auditors may identify additional issues concerning a target business's internal controls while performing their audit of internal control over financial reporting.

#### **Quantitative and Qualitative Disclosures about Market Risk**

The net proceeds of this offering and the sale of the private placement warrants held in the trust account will be invested in U.S. government treasury bills with a maturity of 180 days or less or in money market funds investing solely in U.S. Treasuries and meeting certain conditions under Rule 2a-7 under the Investment Company Act. Due to the short-term nature of these investments, we believe there will be no associated material exposure to interest rate risk.

## **Related Party Transactions**

In December 2018, our sponsor purchased 7,187,500 founder shares for an aggregate purchase price of \$25,000, or approximately \$0.003 per share. In March 2019, our sponsor transferred an aggregate of 90,000 founder shares to our independent directors (40,000 founder shares to Mr. Mariano Bosch and 25,000 founder shares each to Messrs. Daniel Marx and Russell Colaco). The purchase price of the founder shares was determined by dividing the amount of cash contributed to the company by the number of founder shares issued. As such, our initial shareholders will collectively own 20% of our issued and outstanding shares after this offering (excluding the ordinary shares underlying the units that affiliates of our sponsor will purchase in this offering and assuming our initial shareholders do not purchase any other units in this offering). If we increase or decrease the size of this offering, we will effect a capitalization or share repurchase or redemption or other appropriate mechanism, as applicable with respect to our ordinary shares immediately prior to the consummation of this offering in such amount as to maintain the ownership of founder shares by our initial shareholders at 20% of our issued and outstanding ordinary shares upon the consummation of this offering (excluding the ordinary shares underlying the units that affiliates of our sponsor will purchase in this offering and assuming our initial shareholders do not purchase any other units in this offering).

Our sponsor, officers and directors, or any of their respective affiliates, will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made to our sponsor, officers, directors or our or any of their affiliates and will determine which expenses and the amount of expenses that will be reimbursed. There is no cap or ceiling on the reimbursement of out-of-pocket expenses incurred by such persons in connection with activities on our behalf.

Our sponsor has agreed to loan us up to \$250,000 under an unsecured promissory note to be used for a portion of the expenses of this offering. As of December 31, 2018, we had not borrowed any amount under the promissory note with our sponsor to be used for a portion of the expenses of this offering. As of the date hereof, we have borrowed \$250,000 under the promissory note. These loans are non-interest bearing, unsecured and are due at the earlier of June 30, 2019 or the closing of this offering. These loans will be repaid upon completion of this offering out of the \$1,500,000 of offering proceeds not held in the trust account.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we would repay such loaned amounts. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into warrants at a price of \$1.00 per warrant at the option of the lender. The warrants would be identical to the private placement warrants issued to our sponsor. The terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans. We do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

Our sponsor has committed to purchase an aggregate of 7,000,000 (or 7,750,000 if the underwriters' over-allotment option is exercised in full) private placement warrants at a price of \$1.00 per warrant (\$7,000,000 in the aggregate or \$7,750,000 in the aggregate if the underwriters' over-allotment option is exercised in full) in a private placement that will occur simultaneously with the closing of this offering. Each private placement warrant entitles the holder to purchase one ordinary share at a price of \$11.50 per share, subject to adjustment as provided herein. Our sponsor will be permitted to transfer the private placement warrants held by it to certain permitted transferees,

## [Table of Contents](#)

including our officers and directors and other persons or entities affiliated with or related to them, but the transferees receiving such securities will be subject to the same agreements with respect to such securities as our sponsor. Otherwise, these warrants will not, subject to certain limited exceptions, be transferable or salable until 30 days after the completion of our initial business combination. The private placement warrants will be non-redeemable so long as they are held by our sponsor or its permitted transferees (except as described below under "Principal Shareholders—Transfers of Founder Shares and Private Placement Warrants"). The private placement warrants may also be exercised by our sponsor or its permitted transferees for cash or on a cashless basis. Otherwise, the private placement warrants have terms and provisions that are identical to those of the warrants being sold as part of the units in this offering.

Pursuant to a registration rights agreement we will enter into with our initial shareholders on or prior to the closing of this offering, we may be required to register certain securities for sale under the Securities Act. These holders, and holders of warrants issued upon conversion of working capital loans, if any, are entitled under the registration rights agreement to make up to three demands that we register certain of our securities held by them for sale under the Securities Act and to have the securities covered thereby registered for resale pursuant to Rule 415 under the Securities Act. In addition, these holders have the right to include their securities in other registration statements filed by us. However, the registration rights agreement provides that we will not permit any registration statement filed under the Securities Act to become effective until the securities covered thereby are released from their lock-up restrictions, as described herein. We will bear the costs and expenses of filing any such registration statements. See "Certain Relationships and Related Party Transactions."

### **Off-Balance Sheet Arrangements; Commitments and Contractual Obligations; Quarterly Results**

As of December 31, 2018, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K and did not have any commitments or contractual obligations. No unaudited quarterly operating data is included in this prospectus as we have conducted no operations to date.

### **JOBS Act**

On April 5, 2012, the JOBS Act was signed into law. The JOBS Act contains provisions that, among other things, relax certain reporting requirements for qualifying public companies. We will qualify as an "emerging growth company" and under the JOBS Act will be allowed to comply with new or revised accounting pronouncements based on the effective date for private (not publicly traded) companies. We are electing to delay the adoption of new or revised accounting standards, and as a result, we may not comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. As a result, our financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates.

Additionally, we are in the process of evaluating the benefits of relying on the other reduced reporting requirements provided by the JOBS Act. Subject to certain conditions set forth in the JOBS Act, if, as an "emerging growth company," we choose to rely on such exemptions we may not be required to, among other things: (1) provide an auditor's attestation report on our system of internal controls over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act; (2) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act; (3) comply with any requirement that may be adopted by the PCAOB regarding mandatory audit firm rotation or a supplement to the auditor's report providing additional information about the audit and the financial statements (auditor discussion and analysis); and (4) disclose certain executive compensation-related items such as the correlation between executive compensation and performance and comparisons of the CEO's compensation to median employee compensation. These exemptions will apply for a period of five years following the completion of our initial public offering or until we are no longer an "emerging growth company," whichever is earlier.

## PROPOSED BUSINESS

### General

#### Overview

We are a newly organized blank check company incorporated as a Cayman Islands exempted company for the purpose of effecting a merger, amalgamation, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses, which we refer to throughout this prospectus as our initial business combination. To date, our efforts have been limited to organizational activities and activities related to this offering. We have not selected any potential business combination target, and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any potential business combination target with respect to an initial business combination with us.

While we may pursue a business combination target in any business, industry or geographical location, we intend to focus our search for a target in Argentina and/or Brazil. Both countries are recovering from years of macroeconomic and political instability, which discouraged investment and hindered growth. Although significant risks to the recoveries of these economies persist, we believe that these countries are characterized by strong long-term growth prospects, currently supported by favorable political tailwinds. The Argentine government has implemented and continues to pursue a series of key economic and structural reforms while the new Brazilian administration has sent early signs that it will follow a market-friendly agenda. We intend to focus our search for a target in industries that we believe have favorable prospects and a high likelihood of generating strong risk-adjusted returns for our shareholders. Targeted industries include, but are not limited to, the consumer, telecommunications and technology, energy, financial services and real estate sectors, which we refer to as the Latin America opportunity sectors.

We believe that recent volatility in Argentina has created a favorable backdrop for long-term investment opportunities. Many companies that we believe have attractive underlying fundamentals have been impacted by recent macroeconomic factors, potentially generating an advantageous entry point for investment. We believe that the structural reforms and reduction of distortions in the economy being implemented by President Macri's administration will contribute to an improved business environment and thereby support economic expansion in the country in the medium term. Furthermore, we believe that deregulated and market-friendly policies will improve conditions for long-term investment. Consumption and real salaries have been negatively impacted by the very recent economic slowdown. In addition to structural reforms, we believe that improved consumption from future recovery of real salaries and foreign direct investment will drive further economic growth with positive tailwinds for valuation improvement.

Similarly, we believe that Brazil's newly elected government, who has entrusted economic and monetary policy to market friendly economists, will focus on stricter fiscal policies, initiatives to improve productivity, and liberalization of the economy aiming to put the country back on the path of sustainable development. Potential tax and productivity reforms, combined with a larger agenda of privatizations and concessions, may foster short-term economic environment and provide investment opportunities. We expect Brazil's economic recovery will be driven by a variety of factors, including deleveraging across households and businesses, tax reforms to simplify a complex tax system and more favorable labor market conditions.

We expect the economic and political developments in both Argentina and Brazil to generate multiple attractive targets in the Latin America opportunity sectors.

Our management team is led by our founders, Edmond Safra, Gregorio Werthein and Gerardo Werthein. Our founders collectively have decades of experience investing in, managing and operating companies in Argentina across a variety of industries. Our founders also have decades of experience investing in Brazil. We believe that our management team has established a favorable reputation in the

## [Table of Contents](#)

Latin American business community, built strong partnerships with first-tier international institutional investors, developed a vast network of corporate relationships and acquired deep knowledge of the region's economic fundamentals and regulatory environment. In addition to our management team's direct involvement, we will recruit and employ industry experts to evaluate potential investment opportunities. We believe that our management team's extensive network in the region will allow them to attract, select and retain high-performing members of management.

Most recently, our founders participated in the indirect majority interest purchase of Transportadora de Gas del Sur S.A. ("TGS") through PCT LLC and WST S.A., alongside Grupo Inversor Petroquímica S.L. (part of Grupo GIP, led by the Sielecki family). Since our founders' investment in 2016, TGS has generated over 150% of total return, outpacing peers and the Argentina market. Furthermore, the underlying company has seen an approximately 374% increase in EBITDA (from \$123 million for the twelve months ended June 30, 2016 to \$582 million for the twelve months ended December 31, 2018).

Edmond Safra, our Co-Chief Executive Officer, is the founder and President of EMS Capital LP, a New York-based investment manager with over \$2.1 billion in assets under management as of December 31, 2018. Mr. Safra is also a Vice President and director of M. Safra & Co., Inc., a multi-asset class investment management company that serves as the family office of the late Moise Y. Safra. He has extensive experience investing across various strategies, asset classes, sectors and geographies. He has been an active investor in the public and private markets in Brazil for the past two decades and in Argentina for the past six years, most recently including private real estate development projects in Buenos Aires.

Gregorio Werthein, our Co-Chief Executive Officer, is an Executive Managing Director of Werthein Group, which was founded approximately 90 years ago and is one of the most prominent private holding companies in Argentina. Mr. Gregorio Werthein has worked at Werthein Group for the past seven years. He currently serves as the chair of the M&A and investment committee. Mr. Gregorio Werthein is a board member of GNNW S.A., Experta ART and Cachay S.A. Mr. Gregorio Werthein also serves as a board member and executive committee member of TGS.

Gerardo Werthein, our Advisory Board Member, has been a principal and shareholder of Werthein Group since 1990. Over the last three decades, Mr. Gerardo Werthein has played an instrumental role in Werthein Group, executing more than fifty M&A and corporate finance transactions in Argentina. Mr. Gerardo Werthein's transaction experience includes:

- the acquisition, together with the Sielecki family, of a 23.3% stake in BankBoston Argentina (later known as Standard Bank Argentina) in April 2007, with the remaining 76.7% stake being acquired by Standard Bank. The combined investments represented total consideration of approximately \$170 million. In November 2012, ICBC acquired an aggregate of 80% of Standard Bank Argentina for \$600 million, which included the complete stakes of the Werthein and Sielecki families;
- the acquisition of a 48% stake in Telecom Argentina, the largest telecommunications company in Argentina, from France Telecom for \$125 million in September 2003, an investment which Werthein Group partially exited in March 2011, when it sold a 10% stake for \$145 million, and completely exited by May 2017 through share amortizations and dividend payments for approximately \$470 million; and
- the acquisition of La Caja de Ahorro y Seguro, one of the largest insurance companies in Argentina, in 1994, an investment which Werthein Group exited in 2015.

Mr. Gerardo Werthein has held a variety of leadership positions, including Vice Chairman of the board of directors of Telecom Argentina from 2003 to 2017, where he negotiated and completed a \$3.3 billion debt refinancing, one of the largest private debt restructurings in Argentina's history. Mr. Gerardo Werthein also acted as the CEO of Holding Caja de Ahorro y Seguro from 1994 to 2009.

Over his tenure as CEO, the company increased its participation in the market to become the largest insurance group in Argentina.

We intend to draw upon the extensive networks, relationships and investment personnel of our management team and our sponsor to identify, source, negotiate and execute an initial business combination in the Latin America opportunity sectors. Our management team has built these relationships over multiple decades of investment and operating experience in Latin America. We believe that the reputations of the members of our management team will make us a preferred partner for potential initial business combination targets. Furthermore, we believe that these relationships give us access to key resources to understand macroeconomic trends, government policies and reforms, regulatory frameworks, investor expectations and market sentiment in the region.

The past performance of our management team and their affiliates is not a guarantee (i) that we will be able to identify a suitable candidate for our initial business combination or (ii) of success with respect to any business combination we may consummate. You should not rely on the historical record of our sponsor, management team and their affiliates as indicative of our future performance. None of the members of our management team has any past experience with any blank check companies or special purpose acquisition companies.

### **Business Strategy**

Our business strategy is to identify and complete our initial business combination with a company in the Latin America opportunity sectors. We believe that there is an opportunity to take advantage of the recent economic volatility in Argentina to acquire a high-quality, but undervalued, company or asset, as well as of the new economic environment post elections in Brazil, and leverage our expertise to build a strong business with competitive advantages that have the potential to improve the target's overall value proposition.

We believe our management team has significant experience:

- identifying, sourcing, negotiating and executing acquisitions in the Latin America opportunity sectors;
- investing in, managing and operating companies across a variety of industries;
- attracting, selecting and retaining high-performing management teams with proven track records;
- developing and executing strategic business plans to grow companies, both organically and inorganically;
- partnering with other industry-leading players to increase sales and improve profitability, enhancing the competitive position of companies;
- implementing an optimized capital structure that enables companies to achieve their next phase of growth;
- accessing the capital markets, including local and international capital sources, across various business cycles;
- running successful and growing businesses throughout changing macroeconomic, legal, tax and regulatory environments.

Our acquisition plan is to leverage our management team's networks of potential transaction sources where we believe a combination of our management team's industry relationships, knowledge and experience could effect a positive transformation or augmentation of existing businesses or assets. Over the course of their careers, the members of our management team have developed a broad network of contacts and corporate relationships that we believe will serve as a useful source of acquisition opportunities. We plan to leverage relationships with management teams of public and private companies, investment professionals at private equity firms and other financial sponsors, owners

of private businesses, government bodies, investment bankers, restructuring advisers, consultants, attorneys and accountants, which we believe should provide us with a number of business combination opportunities.

Upon completion of this offering, the members of our management team plan to communicate with their networks of relationships to articulate the parameters for our search for a target business and a potential business combination and begin the process of pursuing and reviewing potentially interesting leads.

#### Acquisition Criteria

Consistent with our business strategy, we have identified the following general criteria and guidelines that we believe are important in evaluating prospective targets for our initial business combination. We will use these criteria and guidelines in evaluating acquisition opportunities, but we may decide to enter into our initial business combination with a target that does not meet these criteria and guidelines. We expect to weigh potential upside from growth in the target business and an improved capital structure against any identified downside risks. We intend to focus on target businesses that we believe:

- **are leading players or high-quality assets within one of the Latin America opportunity sectors.** We intend to seek a target that has a leading position, technology or product capability in the consumer, telecommunications and technology, energy, financial services and real estate sectors;
- **are fundamentally sound with consistent operational performance and free cash flow generation.** We expect to target a business that has historically exhibited profitability and strong cash flow generation. Our management team has a proven track record accelerating growth of companies with strong past performance;
- **are well-suited for the volatility in local financial markets.** We intend to seek targets that can thrive throughout volatile market conditions such as export-oriented businesses with global sales or U.S. dollar-denominated revenues will be prioritized;
- **are at an inflection point, such as requiring additional capital to achieve a growth strategy.** We intend to look for targets that have clear opportunities for long-term sustainable growth, but which require our capital or expertise to execute a growth strategy;
- **have the potential to further improve their performance under our ownership.** We intend to seek targets where we believe we can improve company results by leveraging our transactional, financial, managerial and investment experience as well as our extensive networks and insights. We believe our management team has the right skills and capabilities to enhance companies' results and consolidate competitive positions in their sectors;
- **may benefit from capital markets access.** We intend to seek a target that may benefit from being, or has the potential to become, a public company with an increased public profile, enhanced corporate governance and increased access to a more diversified pool of capital; and
- **exhibit unrecognized value and desirable returns on capital.** We will look for targets that we believe have been undervalued by the marketplace based on our analysis and due diligence review.

These criteria are not intended to be exhaustive. Any evaluation relating to the merits of a particular initial business combination may be based, to the extent relevant, on these general guidelines as well as other considerations, factors and criteria that our management may deem relevant. In the event that we decide to enter into our initial business combination with a target business that does not meet the above criteria and guidelines, we will disclose that the target business does not meet the above criteria in our shareholder communications related to our initial business combination, which, as

discussed in this prospectus, would be in the form of proxy solicitation or tender offer materials that we would file with the SEC.

### **Acquisition Process**

We have not identified any business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target.

Each of our officers and directors presently has, and any of them in the future may have additional, fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a business combination opportunity to such entity. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity that is suitable for an entity to which he or she has then-current fiduciary or contractual obligations, he or she may need to honor these fiduciary or contractual obligations to present such business combination opportunity to such entity, subject to these fiduciary duties under Cayman Islands law. We do not believe, however, that the fiduciary duties or contractual obligations of our officers or directors will materially affect our ability to complete our initial business combination.

### **Initial Business Combination**

The rules of the NYSE require that our initial business combination must be with one or more operating businesses or assets with a fair market value equal to at least 80% of the net assets held in trust (net of taxes payable and excluding the amount of any deferred underwriting discount held in trust). We refer to this as the 80% of net assets test. If our board of directors is not able to independently determine the fair market value of the target business or businesses, we will obtain an opinion from an independent investment banking firm that is a member of FINRA, or from an independent accounting firm, with respect to the satisfaction of such criteria. We do not intend to purchase multiple businesses in unrelated industries in conjunction with our initial business combination.

We anticipate structuring our initial business combination so that the post-transaction company in which our public shareholders own shares will own or acquire 100% of the issued and outstanding equity interests or assets of the target business or businesses. We may, however, structure our initial business combination such that the post-transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or shareholders or for other reasons, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the issued and outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended, or the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our shareholders prior to our initial business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the issued and outstanding capital stock of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our shareholders immediately prior to our initial business combination could own less than a majority of our issued and outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be valued for purposes of the 80% of net assets test. If our initial business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the target businesses.

[Table of Contents](#)

Prior to the date of this prospectus, we will file a Registration Statement on Form 8-A with the SEC to voluntarily register our securities under Section 12 of the Securities Exchange Act of 1934, as amended, or the Exchange Act. As a result, we will be subject to the rules and regulations promulgated under the Exchange Act. We have no current intention of filing a Form 15 to suspend our reporting or other obligations under the Exchange Act prior or subsequent to the consummation of our initial business combination.

**Emerging Growth Company Status and Other Corporate Information**

We are an "emerging growth company," as defined in Section 2(a) of the Securities Act of 1933, as amended, or the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012, or the JOBS Act. As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not "emerging growth companies" including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, or the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an "emerging growth company" can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an "emerging growth company" can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.07 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our ordinary shares that is held by non-affiliates exceeds \$700 million as of the end of the prior fiscal year's second quarter and (2) the date on which we have issued more than \$1.00 billion in non-convertible debt securities during the prior three-year period. References herein to "emerging growth company" shall have the meaning associated with it in the JOBS Act.

Exempted companies are Cayman Islands companies wishing to conduct business outside the Cayman Islands and, as such, are exempted from complying with certain provisions of the Companies Law. As an exempted company, we have applied for and have received a tax exemption undertaking from the Cayman Islands government that, in accordance with Section 6 of the Tax Concessions Law (2018 Revision) of the Cayman Islands, for a period of 30 years from the date of the undertaking, no law which is enacted in the Cayman Islands imposing any tax to be levied on profits, income, gains or appreciations shall apply to us or our operations and, in addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax shall be payable (1) on or in respect of our shares, debentures or other obligations or (2) by way of the withholding in whole or in part of a payment of dividend or other distribution of income or capital by us to our shareholders or a payment of principal or interest or other sums due under a debenture or other obligation of us.

We are a Cayman Islands exempted company incorporated on November 6, 2018. Our executive offices are located at 767 Fifth Avenue, 46th Floor, New York, New York 10153 and our telephone number is 212-891-2700.

## **Status as a Public Company**

We believe our structure will make us an attractive business combination partner to target businesses. As an existing public company, we offer target businesses an alternative to the traditional initial public offering through a merger, amalgamation, share exchange, asset acquisition, share purchase, reorganization or other business combination. In this situation, the owners of the target business would exchange their shares of stock in the target business for our shares or for a combination of our shares and cash, allowing us to tailor the consideration to the specific needs of the sellers. Although there are various costs and obligations associated with being a public company, we believe target businesses will find this method a more certain and cost effective method to becoming a public company than the typical initial public offering. In a typical initial public offering, there are additional expenses incurred in marketing, road show and public reporting efforts that may not be present to the same extent in connection with a business combination with us.

Furthermore, once a proposed business combination is completed, the target business will have effectively become public, whereas an initial public offering is always subject to the underwriters' ability to complete the offering, as well as general market conditions, which could delay or prevent the offering from occurring. Once public, we believe the target business would then have greater access to capital and an additional means of providing management incentives consistent with shareholders' interests. It can offer further benefits by augmenting a company's profile among potential new customers and vendors and aid in attracting talented employees.

We are an "emerging growth company," as defined in the JOBS Act. We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.07 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our ordinary shares that is held by non-affiliates exceeds \$700 million as of the end of the prior fiscal year's second quarter, and (2) the date on which we have issued more than \$1.00 billion in non-convertible debt securities during the prior three-year period.

## **Financial Position**

With funds available for a business combination initially in the amount of \$242,125,000 assuming no redemptions and after payment of \$7,875,000 of deferred underwriting fees (or \$278,312,500 assuming no redemptions and after payment of up to \$9,187,500 of deferred underwriting fees if the underwriters' over-allotment option is exercised in full), we offer a target business a variety of options such as creating a liquidity event for its owners, providing capital for the potential growth and expansion of its operations or strengthening its balance sheet by reducing its debt ratio. Because we are able to complete our initial business combination using our cash, debt or equity securities, or a combination of the foregoing, we have the flexibility to use the most efficient combination that will allow us to tailor the consideration to be paid to the target business to fit its needs and desires. However, we have not taken any steps to secure third-party financing and there can be no assurance it will be available to us.

## **Effecting Our Initial Business Combination**

We are not presently engaged in, and we will not engage in, any operations for an indefinite period of time following this offering. We intend to effectuate our initial business combination using cash from the proceeds of this offering and the sale of the private placement warrants, our shares, debt or a combination of these as the consideration to be paid in our initial business combination. We may seek to complete our initial business combination with a company or business that may be financially unstable or in its early stages of development or growth, which would subject us to the numerous risks inherent in such companies and businesses.

## [Table of Contents](#)

If our initial business combination is paid for using equity or debt securities, or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination or used for redemptions of our ordinary shares, we may apply the balance of the cash released to us from the trust account for general corporate purposes, including for maintenance or expansion of operations of the post-transaction company, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other companies or for working capital.

We have not identified any business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target.

We may seek to raise additional funds through a private offering of debt or equity securities in connection with the completion of our initial business combination, and we may effectuate our initial business combination using the proceeds of such offering rather than using the amounts held in the trust account.

In the case of an initial business combination funded with assets other than the trust account assets, our tender offer documents or proxy materials disclosing the business combination would disclose the terms of the financing and, only if required by law, we would seek shareholder approval of such financing. There are no prohibitions on our ability to raise funds privately or through loans in connection with our initial business combination. At this time, we are not a party to any arrangement or understanding with any third party with respect to raising any additional funds through the sale of securities or otherwise.

### **Selection of a target business and structuring of our initial business combination**

The rules of the NYSE require that our initial business combination must be with one or more operating businesses or assets with a fair market value equal to at least 80% of the net assets held in trust (net of taxes payable and excluding the amount of any deferred underwriting discount held in trust). The fair market value of the target or targets will be determined by our board of directors based upon one or more standards generally accepted by the financial community, such as discounted cash flow valuation or value of comparable businesses. If our board is not able to independently determine the fair market value of the target business or businesses, we will obtain an opinion from an independent investment banking firm that is a member of FINRA, or from an independent accounting firm, with respect to the satisfaction of such criteria. We do not currently intend to purchase multiple businesses in unrelated industries in conjunction with our initial business combination. Subject to this requirement, our management will have virtually unrestricted flexibility in identifying and selecting one or more prospective target businesses, although we will not be permitted to effectuate our initial business combination with another blank check company or a similar company with nominal operations.

In any case, we will only complete an initial business combination in which we own or acquire 50% or more of the issued and outstanding voting securities of the target or otherwise acquire a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act. If we own or acquire less than 100% of the equity interests or assets of a target business or businesses, the portion of such business or businesses that are owned or acquired by the post-transaction company is what will be valued for purposes of the 80% of net assets test. There is no basis for investors in this offering to evaluate the possible merits or risks of any target business with which we may ultimately complete our initial business combination.

To the extent we effect our initial business combination with a company or business that may be financially unstable or in its early stages of development or growth we may be affected by numerous risks inherent in such company or business. Although our management will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all significant risk factors.

## [Table of Contents](#)

In evaluating a prospective target business, we expect to conduct a thorough due diligence review which will encompass, among other things, meetings with incumbent management and employees, document reviews, inspection of facilities, as well as a review of financial, operational, legal and other information, which will be made available to us.

The time required to select and evaluate a target business and to structure and complete our initial business combination, and the costs associated with this process, are not currently ascertainable with any degree of certainty. Any costs incurred with respect to the identification and evaluation of a prospective target business with which our initial business combination is not ultimately completed will result in our incurring losses and will reduce the funds we can use to complete another business combination.

### **Lack of business diversification**

For an indefinite period of time after the completion of our initial business combination, the prospects for our success may depend entirely on the future performance of a single business. Unlike other entities that have the resources to complete business combinations with multiple entities in one or several industries, it is probable that we will not have the resources to diversify our operations and mitigate the risks of being in a single line of business. By completing our initial business combination with only a single entity, our lack of diversification may:

- subject us to negative economic, competitive and regulatory developments, any or all of which may have a substantial adverse impact on the particular industry in which we operate after our initial business combination; and
- cause us to depend on the marketing and sale of a single product or limited number of products or services.

### **Limited ability to evaluate the target's management team**

Although we intend to closely scrutinize the management of a prospective target business when evaluating the desirability of effecting our initial business combination with that business, our assessment of the target business's management may not prove to be correct. In addition, the future management may not have the necessary skills, qualifications or abilities to manage a public company. Furthermore, the future role of members of our management team, if any, in the target business cannot presently be stated with any certainty. While it is possible that one or more of our directors will remain associated in some capacity with us following our initial business combination, it is unlikely that any of them will devote their full efforts to our affairs subsequent to our initial business combination. Moreover, we cannot assure you that members of our management team will have significant experience or knowledge relating to the operations of the particular target business.

We cannot assure you that any of our key personnel will remain in senior management or advisory positions with the combined company. The determination as to whether any of our key personnel will remain with the combined company will be made at the time of our initial business combination.

Following our initial business combination, we may seek to recruit additional managers to supplement the incumbent management of the target business. We cannot assure you that we will have the ability to recruit additional managers, or that additional managers will have the requisite skills, knowledge or experience necessary to enhance the incumbent management.

### **Shareholders may not have the ability to approve our initial business combination**

We may conduct redemptions without a shareholder vote pursuant to the tender offer rules of the SEC subject to the provisions of our amended and restated memorandum and articles of association. However, we will seek shareholder approval if it is required by applicable law or stock exchange listing requirement, or we may decide to seek shareholder approval for business or other reasons.

## [Table of Contents](#)

Under the rules of the NYSE, shareholder approval would be required for our initial business combination if, for example:

- we issue (other than in a public offering for cash) ordinary shares that will either (a) be equal to or in excess of 20% of the number of ordinary shares then outstanding or (b) have voting power equal to or in excess of 20% of the voting power then outstanding;
- any of our directors, officers or substantial security holders (as defined by the rules of the NYSE) has a 5% or greater interest, directly or indirectly, in the target business or assets to be acquired and if the number of ordinary shares to be issued, or if the number of ordinary shares into which the securities may be convertible or exercisable, exceeds either (a) 1% of the number of ordinary shares or 1% of the voting power outstanding before the issuance in the case of any of our directors and officers or (b) 5% of the number of ordinary shares or 5% of the voting power outstanding before the issuance in the case of any substantial security holders; or
- the issuance or potential issuance of ordinary shares will result in our undergoing a change of control.

The Companies Law and Cayman Islands law do not currently require, and we are not aware of any other applicable law that will require, shareholder approval of our initial business combination.

### **Permitted purchases of our securities**

In the event we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsor, directors, officers, advisors or any of their affiliates may purchase shares in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. There is no limit on the number of shares such persons may purchase. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. In the event our initial shareholders, directors, officers, advisors or any of their affiliates determine to make any such purchases at the time of a shareholder vote relating to our initial business combination, such purchases could have the effect of influencing the vote necessary to approve such transaction. None of the funds in the trust account will be used to purchase shares in such transactions. They will not make any such purchases when they are in possession of any material non-public information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act. Such a purchase may include a contractual acknowledgement that such shareholder, although still the record holder of our shares, is no longer the beneficial owner thereof and therefore agrees not to exercise its redemption rights. Subsequent to the consummation of this offering, we will adopt an insider trading policy which will require insiders to (1) refrain from purchasing securities during certain blackout periods and when they are in possession of any material non-public information and (2) to clear all trades with our legal counsel prior to execution. We cannot currently determine whether our insiders will make such purchases pursuant to a Rule 10b5-1 plan, as it will be dependent upon several factors, including but not limited to, the timing and size of such purchases. Depending on such circumstances, our insiders may either make such purchases pursuant to a Rule 10b5-1 plan or determine that such a plan is not necessary.

In the event that our sponsor, directors, officers, advisors or any of their affiliates purchase shares in privately negotiated transactions from public shareholders who have already elected to exercise their redemption rights, such selling shareholders would be required to revoke their prior elections to redeem their shares. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules.

## [Table of Contents](#)

The purpose of such purchases would be to (1) vote such shares in favor of the business combination and thereby increase the likelihood of obtaining shareholder approval of our initial business combination or (2) to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met. This may result in the completion of our initial business combination that may not otherwise have been possible.

In addition, if such purchases are made, the public "float" of our ordinary shares may be reduced and the number of beneficial holders of our securities may be reduced, which may make it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.

Our sponsor, officers, directors, advisors and/or any of their affiliates anticipate that they may identify the shareholders with whom our sponsor, officers, directors, advisors or any of their affiliates may pursue privately negotiated purchases by either the shareholders contacting us directly or by our receipt of redemption requests submitted by shareholders following our mailing of proxy materials in connection with our initial business combination. To the extent that our sponsor, officers, directors, advisors or any of their affiliates enter into a private purchase, they would identify and contact only potential selling shareholders who have expressed their election to redeem their shares for a pro rata share of the trust account or vote against our initial business combination. Such persons would select the shareholders from whom to acquire shares based on the number of shares available, the negotiated price per share and such other factors as any such person may deem relevant at the time of purchase. The price per share paid in any such transaction may be different than the amount per share a public shareholder would receive if it elected to redeem its shares in connection with our initial business combination. Our sponsor, officers, directors, advisors or any of their affiliates will purchase shares only if such purchases comply with Regulation M under the Exchange Act and the other federal securities laws.

Any purchases by our sponsor, officers, directors and/or any of their affiliates who are affiliated purchasers under Rule 10b-18 under the Exchange Act will be made only to the extent such purchases are able to be made in compliance with Rule 10b-18, which is a safe harbor from liability for manipulation under Section 9(a)(2) and Rule 10b-5 of the Exchange Act. Rule 10b-18 has certain technical requirements that must be complied with in order for the safe harbor to be available to the purchaser. Our sponsor, officers, directors and/or any of their affiliates will not make purchases of ordinary shares if the purchases would violate Section 9(a)(2) or Rule 10b-5 of the Exchange Act.

### **Redemption rights for public shareholders upon completion of our initial business combination**

We will provide our public shareholders with the opportunity to redeem all or a portion of their ordinary shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of the initial business combination, including interest (which interest shall be net of taxes payable), divided by the number of then issued and outstanding public shares, subject to the limitations described herein. At completion of the business combination, we will be required to purchase any ordinary shares properly delivered for redemption and not withdrawn. The amount in the trust account is initially anticipated to be \$10.00 per public share. The per-share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. Our initial shareholders have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and any public shares held by them in connection with the completion of our initial business combination. Our directors and officers have entered into letter agreements similar to the one signed by our initial shareholders with respect to public shares acquired by them, if any.

## **Manner of Conducting Redemptions**

We will provide our public shareholders with the opportunity to redeem all or a portion of their ordinary shares upon the completion of our initial business combination either (1) in connection with a shareholder meeting called to approve the business combination or (2) by means of a tender offer. The decision as to whether we will seek shareholder approval of a proposed business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would require us to seek shareholder approval under applicable law or stock exchange listing requirement. Asset acquisitions and share purchases would not typically require shareholder approval while direct mergers with our company where we do not survive and any transactions where we issue more than 20% of our issued and outstanding ordinary shares or seek to amend our amended and restated memorandum and articles of association would require shareholder approval. We intend to conduct redemptions without a shareholder vote pursuant to the tender offer rules of the SEC unless shareholder approval is required by applicable law or stock exchange listing requirement or we choose to seek shareholder approval for business or other reasons.

If a shareholder vote is not required and we do not decide to hold a shareholder vote for business or other reasons, we will, pursuant to our amended and restated memorandum and articles of association:

- conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers; and
- file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

Upon the public announcement of our initial business combination, we and our sponsor will terminate any plan established in accordance with Rule 10b5-1 to purchase our ordinary shares in the open market if we elect to redeem our public shares through a tender offer, to comply with Rule 14e-5 under the Exchange Act.

In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. In addition, the tender offer will be conditioned on public shareholders not tendering more than a specified number of public shares which are not purchased by our sponsor, which number will be based on the requirement that we may not redeem public shares in an amount that would cause our net tangible assets, after payment of the deferred underwriting commissions, to be less than \$5,000,001 (so that we do not then become subject to the SEC's "penny stock" rules), or any greater net tangible asset or cash requirement that may be contained in the agreement relating to our initial business combination. If public shareholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete such initial business combination.

If, however, shareholder approval of the transaction is required by applicable law or stock exchange listing requirement, or we decide to obtain shareholder approval for business or other reasons, we will, pursuant to our amended and restated memorandum and articles of association:

- conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules; and
- file proxy materials with the SEC.

## [Table of Contents](#)

We expect that a final proxy statement would be mailed to public shareholders at least 10 days prior to the shareholder vote. However, we expect that a draft proxy statement would be made available to such shareholders well in advance of such time, providing additional notice of redemption if we conduct redemptions in conjunction with a proxy solicitation. Although we are not required to do so, we currently intend to comply with the substantive and procedural requirements of Regulation 14A in connection with any shareholder vote even if we are not able to maintain our NYSE listing or Exchange Act registration.

In the event that we seek shareholder approval of our initial business combination, we will distribute proxy materials and, in connection therewith, provide our public shareholders with the redemption rights described above upon completion of the initial business combination.

If we seek shareholder approval, we will complete our initial business combination only if a majority, or such higher threshold as may be required by law, of the issued and outstanding ordinary shares voted are voted in favor of the business combination. In such case, pursuant to the terms of a letter agreement entered into with us, our initial shareholders have agreed (and their permitted transferees will agree) to vote their founder shares and any public shares held by them in favor of our initial business combination. Our directors and officers also have agreed to vote in favor of our initial business combination with respect to public shares acquired by them, if any. We expect that at the time of any shareholder vote relating to our initial business combination, our initial shareholders and their permitted transferees will own at least 20% of our issued and outstanding ordinary shares entitled to vote thereon. Each public shareholder may elect to redeem their public shares without voting and, if they do vote, irrespective of whether they vote for or against the proposed transaction. In addition, our initial shareholders have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and any public shares held by them in connection with the completion of a business combination. Our directors and officers have entered into letter agreements similar to the one signed by our initial shareholders with respect to public shares acquired by them, if any.

Our amended and restated memorandum and articles of association will provide that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we do not then become subject to the SEC's "penny stock" rules). Redemptions of our public shares may also be subject to a higher net tangible asset test or cash requirement pursuant to an agreement relating to our initial business combination. For example, the proposed business combination may require: (1) cash consideration to be paid to the target or its owners; (2) cash to be transferred to the target for working capital or other general corporate purposes; or (3) the retention of cash to satisfy other conditions in accordance with the terms of the proposed business combination. In the event the aggregate cash consideration we would be required to pay for all ordinary shares that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, and all ordinary shares submitted for redemption will be returned to the holders thereof.

### **Limitation on redemption upon completion of our initial business combination if we seek shareholder approval**

Notwithstanding the foregoing, if we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated memorandum and articles of association will provide that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a "group" (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to Excess Shares. We believe this restriction will discourage shareholders from accumulating large blocks of shares, and subsequent

attempts by such holders to use their ability to exercise their redemption rights against a proposed business combination as a means to force us or our sponsor or its affiliates to purchase their shares at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public shareholder holding more than an aggregate of 15% of the shares sold in this offering could threaten to exercise its redemption rights if such holder's shares are not purchased by us or our sponsor or its affiliates at a premium to the then-current market price or on other undesirable terms. By limiting our shareholders' ability to redeem no more than 15% of the shares sold in this offering, we believe we will limit the ability of a small group of shareholders to unreasonably attempt to block our ability to complete our initial business combination, particularly in connection with a business combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. However, we would not be restricting our shareholders' ability to vote all of their shares (including Excess Shares) for or against our initial business combination.

#### **Tendering share certificates in connection with a tender offer or redemption rights**

We may require our public shareholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in "street name," to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents or proxy materials mailed to such holders, or up to two business days prior to the vote on the proposal to approve the business combination in the event we distribute proxy materials, or to deliver their shares to the transfer agent electronically using The Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System, rather than simply voting against the initial business combination. The tender offer or proxy materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will indicate whether we are requiring public shareholders to satisfy such delivery requirements. Accordingly, a public shareholder would have from the time we send out our tender offer materials until the close of the tender offer period, or up to two days prior to the vote on the business combination if we distribute proxy materials, as applicable, to tender its shares if it wishes to seek to exercise its redemption rights. Pursuant to the tender offer rules, the tender offer period will be not less than 20 business days and, in the case of a shareholder vote, a final proxy statement would be mailed to public shareholders at least 10 days prior to the shareholder vote. However, we expect that a draft proxy statement would be made available to such shareholders well in advance of such time, providing additional notice of redemption if we conduct redemptions in conjunction with a proxy solicitation. Given the relatively short exercise period, it is advisable for shareholders to use electronic delivery of their public shares.

There is a nominal cost associated with the above-referenced tendering process and the act of certificating the shares or delivering them through the DWAC System. The transfer agent will typically charge the tendering broker \$80.00 and it would be up to the broker whether or not to pass this cost on to the redeeming holder. However, this fee would be incurred regardless of whether or not we require holders seeking to exercise redemption rights to tender their shares. The need to deliver shares is a requirement of exercising redemption rights regardless of the timing of when such delivery must be effectuated.

The foregoing is different from the procedures used by many blank check companies. In order to perfect redemption rights in connection with their business combinations, many blank check companies would distribute proxy materials for the shareholders' vote on an initial business combination, and a holder could simply vote against a proposed business combination and check a box on the proxy card indicating such holder was seeking to exercise his or her redemption rights. After the business combination was approved, the company would contact such shareholder to arrange for him or her to deliver his or her certificate to verify ownership. As a result, the shareholder then had an "option window" after the completion of the business combination during which he or she could monitor the price of the company's shares in the market. If the price rose above the redemption price, he or she could sell his or her shares in the open market before actually delivering his or her shares to the

## [Table of Contents](#)

company for cancellation. As a result, the redemption rights, to which shareholders were aware they needed to commit before the shareholder meeting, would become "option" rights surviving past the completion of the business combination until the redeeming holder delivered its certificate. The requirement for physical or electronic delivery prior to the meeting ensures that a redeeming holder's election to redeem is irrevocable once the business combination is approved.

Any request to redeem such shares, once made, may be withdrawn at any time up to the date set forth in the tender offer materials or the date of the shareholder meeting set forth in our proxy materials, as applicable. Furthermore, if a holder of a public share delivered its certificate in connection with an election of redemption rights and subsequently decides prior to the applicable date not to elect to exercise such rights, such holder may simply request that the transfer agent return the certificate (physically or electronically). It is anticipated that the funds to be distributed to holders of our public shares electing to redeem their shares will be distributed promptly after the completion of our initial business combination.

If our initial business combination is not approved or completed for any reason, then our public shareholders who elected to exercise their redemption rights would not be entitled to redeem their shares for the applicable pro rata share of the trust account. In such case, we will promptly return any certificates delivered by public holders who elected to redeem their shares.

If our initial proposed business combination is not completed, we may continue to try to complete a business combination with a different target until 24 months from the closing of this offering.

### **Redemption of public shares and liquidation if no initial business combination**

Our sponsor, officers and directors have agreed that we will have only 24 months from the closing of this offering to complete our initial business combination. If we are unable to complete our initial business combination within such 24-month period, we will: (1) cease all operations except for the purpose of winding up; (2) as promptly as reasonably possible but not more than 10 business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (less up to \$100,000 of interest to pay dissolution expenses and which interest shall be net of taxes payable), divided by the number of then issued and outstanding public shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidating distributions, if any), subject to applicable law; and (3) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we fail to complete our initial business combination within the 24-month time period.

Our initial shareholders have entered into a letter agreement with us, pursuant to which they have waived their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within 24 months from the closing of this offering. However, if our initial shareholders acquire public shares after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the allotted 24-month time period.

Our sponsor, officers and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated memorandum and articles of association (a) that would modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (b) with respect to any other provision relating to shareholders' rights or pre-initial business combination activity, unless we provide our public shareholders with the opportunity to redeem their ordinary shares upon approval of any such amendment at a per-share price, payable in cash, equal to

## [Table of Contents](#)

the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable), divided by the number of then issued and outstanding public shares. However, we may not redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 (so that we do not then become subject to the SEC's "penny stock" rules).

We expect that all costs and expenses associated with implementing our plan of dissolution, as well as payments to any creditors, will be funded from amounts remaining out of the \$1,500,000 of proceeds held outside the trust account, although we cannot assure you that there will be sufficient funds for such purpose. However, if those funds are not sufficient to cover the costs and expenses associated with implementing our plan of dissolution, to the extent that there is any interest accrued in the trust account not required to pay taxes, we may request the trustee to release to us an additional amount of up to \$100,000 of such accrued interest to pay those costs and expenses.

If we were to expend all of the net proceeds of this offering and the sale of the private placement warrants, other than the proceeds deposited in the trust account, and without taking into account interest, if any, earned on the trust account, the per-share redemption amount received by shareholders upon our dissolution would be approximately \$10.00. The proceeds deposited in the trust account could, however, become subject to the claims of our creditors which would have higher priority than the claims of our public shareholders. We cannot assure you that the actual per-share redemption amount received by shareholders will not be substantially less than \$10.00. While we intend to pay such amounts, if any, we cannot assure you that we will have funds sufficient to pay or provide for all creditors' claims.

Although we will seek to have all vendors, service providers (other than our independent auditors), prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public shareholders, there is no guarantee that they will execute such agreements or even if they execute such agreements that they would be prevented from bringing claims against the trust account including but not limited to fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain an advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will perform an analysis of the alternatives available to it and will enter into an agreement with a third party that has not executed a waiver only if management believes that such third party's engagement would be significantly more beneficial to us than any alternative. Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third-party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where we are unable to find a service provider willing to execute a waiver. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. Upon redemption of our public shares, if we are unable to complete our initial business combination within the prescribed time frame, or upon the exercise of a redemption right in connection with our initial business combination, we will be required to provide for payment of claims of creditors that were not waived that may be brought against us within the 10 years following redemption. Our sponsor has agreed that it will be liable to us if and to the extent any claims by a third party (other than our independent auditors) for services rendered or products sold to us, or a prospective target business with which we have discussed entering into a transaction agreement, reduce the amount of funds in the trust account to below (1) \$10.00 per public share or (2) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account, due to reductions in value of the trust assets, in each case net of the amount of interest which may be withdrawn to pay taxes, except as to any claims by a third party who executed a waiver of any and all rights to seek access to the trust account and except as to any claims

## [Table of Contents](#)

under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. In the event that an executed waiver is deemed to be unenforceable against a third party, then our sponsor will not be responsible to the extent of any liability for such third-party claims. We have not independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations and believe that our sponsor's only assets are securities of our company and, therefore, our sponsor may not be able to satisfy those obligations. None of our other officers will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

In the event that the proceeds in the trust account are reduced below (1) \$10.00 per public share or (2) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account, due to reductions in value of the trust assets, in each case net of the amount of interest which may be withdrawn to pay taxes, and our sponsor asserts that it is unable to satisfy its indemnification obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our sponsor to enforce its indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment may choose not to do so in any particular instance. Accordingly, we cannot assure you that due to claims of creditors the actual value of the per-share redemption price will not be substantially less than \$10.00 per share.

We will seek to reduce the possibility that our sponsor will have to indemnify the trust account due to claims of creditors by endeavoring to have all vendors, service providers (other than our independent auditors), prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to monies held in the trust account. Our sponsor will also not be liable as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. We will have access to up to \$1,500,000 from the proceeds of this offering and the sale of the private placement warrants, with which to pay any such potential claims (including costs and expenses incurred in connection with our liquidation, currently estimated to be no more than approximately \$100,000). In the event that we liquidate and it is subsequently determined that the reserve for claims and liabilities is insufficient, shareholders who received funds from our trust account could be liable for claims made by creditors. In the event that our offering expenses exceed our estimate of \$1,000,000, we may fund such excess with funds from the funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$1,000,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount.

If we file a winding up petition or a winding up petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable insolvency law, and may be included in our insolvency estate and subject to the claims of third parties with priority over the claims of our shareholders. To the extent any insolvency claims deplete the trust account, we cannot assure you we will be able to return \$10.00 per share to our public shareholders. Additionally, if we file an insolvency petition or a winding up petition is filed against us that is not dismissed, any distributions received by shareholders could be viewed under applicable debtor/creditor and/or insolvency laws as a voidable performance. As a result, a bankruptcy court could seek to recover some or all amounts received by our shareholders. Furthermore, our board may be viewed as having breached its fiduciary duty to our creditors and/or may have acted in bad faith, and thereby exposing itself and our company to claims of punitive damages, by paying public shareholders from the trust account prior to addressing the claims of creditors. We cannot assure you that claims will not be brought against us for these reasons.

## [Table of Contents](#)

Our public shareholders will be entitled to receive funds from the trust account only in the event of the redemption of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or if they redeem their respective shares for cash upon the completion of the initial business combination. In no other circumstances will a shareholder have any right or interest of any kind to or in the trust account. In the event we seek shareholder approval in connection with our initial business combination, a shareholder's voting in connection with our initial business combination alone will not result in a shareholder's redeeming its shares to us for an applicable pro rata share of the trust account. Such shareholder must have also exercised its redemption rights described above.

### **Amended and Restated Memorandum and Articles of Association**

Our amended and restated memorandum and articles of association will contain certain requirements and restrictions relating to this offering that will apply to us until the consummation of our initial business combination. Our amended and restated memorandum and articles of association contains a provision which provides that, if we seek to amend any provisions thereof relating to shareholders' rights or pre-business combination activity, we will provide public shareholders with the opportunity to redeem their public shares in connection with any such amendment. Specifically, our amended and restated memorandum and articles of association will provide, among other things, that:

- prior to the consummation of our initial business combination, we shall either (1) seek shareholder approval of our initial business combination at a meeting called for such purpose at which shareholders may seek to redeem their shares, regardless of whether they vote for or against the proposed business combination, into their pro rata share of the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable), or (2) provide our public shareholders with the opportunity to tender their shares to us by means of a tender offer (and thereby avoid the need for a shareholder vote) for an amount equal to their pro rata share of the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable), in each case subject to the limitations described herein;
- we will consummate our initial business combination only if we have net tangible assets of at least \$5,000,001 upon such consummation and, solely if we seek shareholder approval, a majority of the issued and outstanding ordinary shares voted are voted in favor of the business combination;
- if our initial business combination is not consummated within 24 months from the closing of this offering, then our existence will terminate and we will distribute all amounts in the trust account; and
- prior to our initial business combination, we may not issue additional ordinary shares that would entitle the holders thereof to (1) receive funds from the trust account or (2) vote on any initial business combination.

These provisions cannot be amended without the approval of holders of at least two-thirds of our ordinary shares. In the event we seek shareholder approval in connection with our initial business combination, our amended and restated memorandum and articles of association will provide that we may consummate our initial business combination only if approved by a majority of the ordinary shares voted by our shareholders at a duly held shareholders meeting.

**Comparison of redemption or purchase prices in connection with our initial business combination and if we fail to complete our initial business combination.**

The following table compares the redemptions and other permitted purchases of public shares that may take place in connection with the completion of our initial business combination and if we are unable to complete our initial business combination within 24 months from the closing of this offering.

	<u>Redemptions in Connection with our Initial Business Combination</u>	<u>Other Permitted Purchases of Public Shares by our Affiliates</u>	<u>Redemptions if we fail to Complete an Initial Business Combination</u>
<b>Calculation of redemption price</b>	Redemptions at the time of our initial business combination may be made pursuant to a tender offer or in connection with a shareholder vote. The redemption price will be the same whether we conduct redemptions pursuant to a tender offer or in connection with a shareholder vote. In either case, our public shareholders may redeem their public shares for cash equal to the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of the initial business combination (which is initially anticipated to be \$10.00 per share), including interest (which interest shall be net of taxes payable), divided by the number of then issued and outstanding public shares, subject to the limitation that no redemptions will take place if all of the redemptions would cause our net tangible assets to be less than \$5,000,001 and any limitations (including, but not limited to, cash requirements) agreed to in connection with the negotiation of terms of a proposed business combination.	If we seek shareholder approval of our initial business combination, our sponsor, directors, officers, advisors or any of their affiliates may purchase shares in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. Such purchases will be made only to the extent such purchases are able to be made in compliance with Rule 10b-18, which is a safe harbor from liability for manipulation under Section 9(a)(2) and Rule 10b-5 of the Exchange Act. None of the funds in the trust account will be used to purchase shares in such transactions.	If we are unable to complete our initial business combination within 24 months from the closing of this offering, we will redeem all public shares at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account (which is initially anticipated to be \$10.00 per share), including interest (less up to \$100,000 of interest to pay dissolution expenses and which interest shall be net of taxes payable), divided by the number of then issued and outstanding public shares.

	<u>Redemptions in Connection with our Initial Business Combination</u>	<u>Other Permitted Purchases of Public Shares by our Affiliates</u>	<u>Redemptions if we fail to Complete an Initial Business Combination</u>
<b>Impact to remaining shareholders</b>	The redemptions in connection with our initial business combination will reduce the book value per share for our remaining shareholders, who will bear the burden of the deferred underwriting commissions and interest withdrawn in order to pay taxes (to the extent not paid from amounts accrued as interest on the funds held in the trust account).	If the permitted purchases described above are made, there will be no impact to our remaining shareholders because the purchase price would not be paid by us.	The redemption of our public shares if we fail to complete our initial business combination will reduce the book value per share for the shares held by our initial shareholders, who will be our only remaining shareholders after such redemptions.

**Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419**

The following table compares the terms of this offering to the terms of an offering by a blank check company subject to the provisions of Rule 419. This comparison assumes that the gross proceeds, underwriting commissions and underwriting expenses of our offering would be identical to those of an offering undertaken by a company subject to Rule 419, and that the underwriters will not exercise their over-allotment option. None of the provisions of Rule 419 apply to our offering.

	<u>Terms of Our Offering</u>	<u>Terms Under a Rule 419 Offering</u>
<b>Escrow of offering proceeds</b>	The rules of the NYSE provide that at least 90% of the gross proceeds from this offering and the sale of the private placement warrants be deposited in a trust account. \$250,000,000 of the net proceeds of this offering and the sale of the private placement warrants will be deposited into a U.S.-based trust account at J.P. Morgan Chase Bank, N.A., with Continental Stock Transfer & Trust Company acting as trustee.	Approximately \$220,500,000 of the offering proceeds, representing the gross proceeds of this offering less allowable underwriting commissions, expenses and company deductions under Rule 419, would be required to be deposited into either an escrow account with an insured depository institution or in a separate bank account established by a broker-dealer in which the broker-dealer acts as trustee for persons having the beneficial interests in the account.
<b>Investment of net Proceeds</b>	\$250,000,000 of the net offering proceeds and the sale of the private placement warrants held in trust will be invested only in U.S. government treasury bills with a maturity of 180 days or less or in money market funds investing solely in U.S. Treasuries and meeting certain conditions under Rule 2a-7 under the Investment Company Act.	Proceeds could be invested only in specified securities such as a money market fund meeting conditions of the Investment Company Act or in securities that are direct obligations of, or obligations guaranteed as to principal or interest by, the United States

	<u>Terms of Our Offering</u>	<u>Terms Under a Rule 419 Offering</u>
<b>Receipt of interest on escrowed funds</b>	Interest on proceeds from the trust account to be paid to shareholders is reduced by (1) any taxes paid or payable and (2) in the event of our liquidation for failure to complete our initial business combination within the allotted time, up to \$100,000 of net interest that may be released to us should we have no or insufficient working capital to fund the costs and expenses of our dissolution and liquidation.	Interest on funds in escrow account would be held for the sole benefit of investors, unless and only after the funds held in escrow were released to us in connection with our completion of a business combination.
<b>Limitation on fair value or net assets of target business</b>	The rules of the NYSE require that our initial business combination must be with one or more operating businesses or assets with a fair market value equal to at least 80% of the net assets held in trust (net of taxes payable and excluding the amount of any deferred underwriting discount held in trust).	The fair value or net assets of a target business must represent at least 80% of the maximum offering proceeds.
<b>Trading of securities issued</b>	The units will begin trading on or promptly after the date of this prospectus. The ordinary shares and warrants constituting the units will begin separate trading on the 52 <sup>nd</sup> day following the date of this prospectus unless Credit Suisse Securities (USA) LLC and Merrill Lynch, Pierce, Fenner & Smith Incorporated inform us of their decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. We will file the Current Report on Form 8-K promptly after the closing of this offering, which is anticipated to take place four business days from the date of this prospectus. If the underwriters' over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the underwriters' over-allotment option.	No trading of the units or the underlying ordinary shares and warrants would be permitted until the completion of a business combination. During this period, the securities would be held in the escrow or trust account.
<b>Exercise of the warrants</b>	The warrants cannot be exercised until the later of 30 days after the completion of our initial business combination or 12 months from the closing of this offering.	The warrants could be exercised prior to the completion of a business combination, but securities received and cash paid in connection with the exercise would be deposited in the escrow or trust account.

**Election to remain an investor**

**Terms of Our Offering**

We will provide our public shareholders with the opportunity to redeem their public shares for cash equal to their pro rata share of the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of our initial business combination, including interest, which interest shall be net of taxes payable, upon the completion of our initial business combination, subject to the limitations described herein. We may not be required by law to hold a shareholder vote. If we are not required by law and do not otherwise decide to hold a shareholder vote, we will, pursuant to our amended and restated memorandum and articles of association, conduct the redemptions pursuant to the tender offer rules of the SEC and file tender offer documents with the SEC which will contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under the SEC's proxy rules. If, however, we hold a shareholder vote, we will, like many blank check companies, offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. Pursuant to the tender offer rules, the tender offer period will be not less than 20 business days and, in the case of a shareholder vote, a final proxy statement would be mailed to public shareholders at least 10 days prior to the shareholder vote. However, we expect that a draft proxy statement would be made available to such shareholders well in advance of such time, providing additional notice of redemption if we conduct redemptions in conjunction with a proxy solicitation. If we seek shareholder approval, we will complete our initial business combination only if a majority, or such higher threshold as may be required by law, of the issued and outstanding ordinary shares voted are voted in favor of the business combination. Additionally, each public shareholder may elect to redeem its public shares without voting and, if they do vote, irrespective of whether they vote for or against the proposed transaction.

**Terms Under a Rule 419 Offering**

A prospectus containing information pertaining to the business combination required by the SEC would be sent to each investor. Each investor would be given the opportunity to notify the company in writing, within a period of no less than 20 business days and no more than 45 business days from the effective date of a post-effective amendment to the company's registration statement, to decide if he, she or it elects to remain a shareholder of the company or require the return of his, her or its investment. If the company has not received the notification by the end of the 45th business day, funds and interest or dividends, if any, held in the trust or escrow account are automatically returned to the shareholder. Unless a sufficient number of investors elect to remain investors, all funds on deposit in the escrow account must be returned to all of the investors and none of the securities are issued.

	<u>Terms of Our Offering</u>	<u>Terms Under a Rule 419 Offering</u>
<b>Business combination deadline</b>	<p>If we are unable to complete an initial business combination within 24 months from the closing of this offering, we will (1) cease all operations except for the purpose of winding up, (2) as promptly as reasonably possible but not more than 10 business days thereafter, redeem 100% of the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (less up to \$100,000 of interest to pay dissolution expenses and which interest shall be net of taxes payable), divided by the number of then issued and outstanding public shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidating distributions, if any), subject to applicable law and (3) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law.</p>	<p>If an acquisition has not been completed within 18 months after the effective date of the company's registration statement, funds held in the trust or escrow account are returned to investors.</p>
<b>Release of funds</b>	<p>Except with respect to interest earned on the funds held in the trust account that may be released to us to pay our taxes, if any, the funds held in the trust account will not be released from the trust account until the earliest to occur of: (1) the completion of our initial business combination; (2) the redemption of any public shares properly submitted in connection with a shareholder vote to amend our amended and restated memorandum and articles of association (A) to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to shareholders' rights or pre-initial business combination activity; and (3) the redemption of our public shares if we are unable to complete our initial business combination within 24 months from the closing of this offering, subject to applicable law.</p>	<p>The proceeds held in the escrow account are not released until the earlier of the completion of a business combination or the failure to effect a business combination within the allotted time.</p>

	<u>Terms of Our Offering</u>	<u>Terms Under a Rule 419 Offering</u>
<b>Limitation on redemption rights of shareholders holding more than 15% of the shares sold in this offering if we hold a shareholder vote</b>	<p>If we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated memorandum and articles of association will provide that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a "group" (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to Excess Shares (more than an aggregate of 15% of the shares sold in this offering). Our public shareholders' inability to redeem Excess Shares will reduce their influence over our ability to complete our initial business combination and they could suffer a material loss on their investment in us if they sell Excess Shares in open market transactions.</p>	<p>Most blank check companies provide no restrictions on the ability of shareholders to redeem shares based on the number of shares held by such shareholders in connection with an initial business combination.</p>
<b>Tendering share certificates in connection with a tender offer or redemption rights</b>	<p>We may require our public shareholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in "street name," to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents or proxy materials mailed to such holders, or up to two business days prior to the vote on the proposal to approve the business combination in the event we distribute proxy materials, or to deliver their shares to the transfer agent electronically using The Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System, at the holder's option. The tender offer or proxy materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will indicate whether we are requiring public shareholders to satisfy such delivery requirements. Accordingly, a public shareholder would have from the time we send out our tender offer materials until the close of the tender offer period, or up to two days prior to the vote on the business combination if we distribute proxy materials, as applicable, to tender its shares if it wishes to seek to exercise its redemption rights.</p>	<p>In order to perfect redemption rights in connection with their business combinations, holders could vote against a proposed business combination and check a box on the proxy card indicating such holders were seeking to exercise their redemption rights. After the business combination was approved, the company would contact such shareholders to arrange for them to deliver their certificate to verify ownership.</p>

## **Competition**

In identifying, evaluating and selecting a target business for our initial business combination, we may encounter intense competition from other entities having a business objective similar to ours, including other blank check companies, private equity groups and leveraged buyout funds, public companies and operating businesses seeking strategic acquisitions. Many of these entities are well established and have extensive experience identifying and effecting business combinations directly or through affiliates. Moreover, many of these competitors possess greater financial, technical, human and other resources than us. Our ability to acquire larger target businesses will be limited by our available financial resources. This inherent limitation gives others an advantage in pursuing the acquisition of a target business. Furthermore, our obligation to pay cash in connection with our public shareholders who exercise their redemption rights may reduce the resources available to us for our initial business combination and our outstanding warrants, and the future dilution they potentially represent, may not be viewed favorably by certain target businesses. Either of these factors may place us at a competitive disadvantage in successfully negotiating an initial business combination.

## **Conflicts of Interest**

All of our executive officers and certain of our directors have fiduciary and contractual duties to certain companies in which either of them has invested. These entities may compete with us for acquisition opportunities. If these entities decide to pursue any such opportunity, we may be precluded from pursuing such opportunities. However, we do not expect these duties to present a significant conflict of interest with our search for an initial business combination. None of the members of our management team who are also employed by our sponsor or its affiliates have any obligation to present us with any opportunity for a potential business combination of which they become aware. Our management team, in their capacities as directors, officers or employees of our sponsor or its affiliates or in their other endeavors, may choose to present potential business combinations to the related entities described above, current or future entities affiliated with or managed by our sponsor, or third parties, before they present such opportunities to us, subject to applicable fiduciary duties.

Each of our officers and directors presently has, and any of them in the future may have additional, fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a business combination opportunity to such entity. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity that is suitable for an entity to which he or she has then-current fiduciary or contractual obligations, he or she may need to honor these fiduciary or contractual obligations to present such business combination opportunity to such entity, subject to these fiduciary duties under Cayman Islands law. We do not believe, however, that the fiduciary duties or contractual obligations of our officers or directors will materially affect our ability to complete our initial business combination.

## **Indemnity**

Our sponsor has agreed that it will be liable to us if and to the extent any claims by a third party (other than our independent auditors) for services rendered or products sold to us, or a prospective target business with which we have discussed entering into a transaction agreement, reduce the amount of funds in the trust account to below (1) \$10.00 per public share or (2) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay taxes, except as to any claims by a third party who executed a waiver of any and all rights to seek access to the trust account and except as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, our sponsor will not be responsible to the extent of any liability for such third party claims. We have not independently verified

[Table of Contents](#)

whether our sponsor has sufficient funds to satisfy their indemnity obligations and believe that our sponsor's only assets are securities of our company and, therefore, our sponsor may not be able to satisfy those obligations. We have not asked our sponsor to reserve for such obligations.

**Facilities**

We currently maintain our executive offices at 767 Fifth Avenue, 46th Floor, New York, New York 10153. We consider our current office space adequate for our current operations.

**Employees**

We currently have three officers and do not intend to have any full-time employees prior to the completion of our initial business combination. Members of our management team are not obligated to devote any specific number of hours to our matters but they intend to devote as much of their time as they deem necessary to our affairs until we have completed our initial business combination. The amount of time that any such person will devote in any time period will vary based on whether a target business has been selected for our initial business combination and the current stage of the business combination process.

**Periodic Reporting and Financial Information**

We will register our units, ordinary shares and warrants under the Exchange Act and have reporting obligations, including the requirement that we file annual, quarterly and current reports with the SEC. In accordance with the requirements of the Exchange Act, our annual reports will contain financial statements audited and reported on by our independent registered public auditors.

We will provide shareholders with audited financial statements of the prospective target business as part of the tender offer materials or proxy solicitation materials sent to shareholders to assist them in assessing the target business. These financial statements may be required to be prepared in accordance with, or be reconciled to, U.S. GAAP or IFRS, depending on the circumstances and the historical financial statements may be required to be audited in accordance with the PCAOB. These financial statement requirements may limit the pool of potential target businesses we may acquire because some targets may be unable to provide such financial statements in time for us to disclose such financial statements in accordance with federal proxy rules and complete our initial business combination within the prescribed time frame. While this may limit the pool of potential business combination candidates, we do not believe that this limitation will be material.

We will be required to evaluate our internal control procedures for the fiscal year ending December 31, 2018 as required by the Sarbanes-Oxley Act. Only in the event we are deemed to be a large accelerated filer or an accelerated filer will we be required to have our internal control procedures audited. A target business may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of their internal controls. The development of the internal controls of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such acquisition.

Prior to the date of this prospectus, we will file a Registration Statement on Form 8-A with the SEC to voluntarily register our securities under Section 12 of the Exchange Act. As a result, we will be subject to the rules and regulations promulgated under the Exchange Act. We have no current intention of filing a Form 15 to suspend our reporting or other obligations under the Exchange Act prior or subsequent to the consummation of our initial business combination.

We are an "emerging growth company," as defined in Section 2(a) of the Securities Act, as modified by the JOBS Act. As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not "emerging

[Table of Contents](#)

growth companies" including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an "emerging growth company" can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an "emerging growth company" can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.07 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our ordinary shares that is held by non-affiliates exceeds \$700 million as of the end of the prior fiscal year's second quarter, and (2) the date on which we have issued more than \$1.00 billion in non-convertible debt securities during the prior three-year period. References herein to "emerging growth company" shall have the meaning associated with it in the JOBS Act.

**Legal Proceedings**

There is no material litigation, arbitration or governmental proceeding currently pending against us or any members of our management team in their capacity as such, and we and the members of our management team have not been subject to any such proceeding in the 12 months preceding the date of this prospectus.

## MANAGEMENT

### Directors and Officers

<u>Name</u>	<u>Age</u>	<u>Title</u>
Edmond Safra	42	Founder and Co-Chief Executive Officer
Gregorio Werthein	35	Founder and Co-Chief Executive Officer
Gerardo Werthein	63	Founder and Advisory Board Member
Brendan Driscoll	45	Chief Financial Officer
Leonardo Madcur	49	Director
Ezra Cohen	32	Director
Daniel Marx	65	Independent Director
Mariano Bosch	49	Independent Director
Russell Colaco	46	Independent Director

Our directors and officers are as follows:

**Edmond Safra**, our Co-Chief Executive Officer, founded and has served since 2007 as the President of EMS Capital LP, a New York-based investment manager with over \$2.1 billion in assets under management as of December 31, 2018. Mr. Safra has also served since 1999 as Vice President and director of M. Safra & Co., Inc., a multi-asset class investment management company that serves as the family office of the late Moise Y. Safra. He has extensive experience investing across various strategies, asset classes, sectors and geographies. He has been an active investor in the public and private markets in Brazil for the past two decades and in Argentina for the past six years, most recently including private real estate development projects in Buenos Aires. Mr. Safra graduated from Harvard University with an A.B. in History in 1998.

**Gregorio Werthein**, our Co-Chief Executive Officer, has served since 2012 as an Executive Managing Director of Werthein Group, which was founded approximately 90 years ago and is one of the most prominent private holding companies in Argentina. Mr. Gregorio Werthein has worked at Werthein Group for the past seven years. He currently serves as the chair of the M&A and investment committee. Mr. Gregorio Werthein is a board member of GNNW S.A., Experta ART and Cachay S.A. Mr. Gregorio Werthein also serves as a board member and executive committee member of TGS. Mr. Gregorio Werthein received an undergraduate degree in Economics from the University of Buenos Aires in 2008, an MBA from Columbia Business School in 2011 and participated in the Program for Leadership Development at Harvard Business School in 2017.

**Gerardo Werthein**, our Advisory Board Member, has been a principal and shareholder of Werthein Group since 1990. Over the last three decades, Mr. Gerardo Werthein has played an instrumental role in Werthein Group, executing more than fifty M&A and corporate finance transactions in Argentina. Mr. Gerardo Werthein has held a variety of leadership positions, including Vice Chairman of the board of directors of Telecom Argentina from 2003 to 2017, where he negotiated and completed a \$3.3 billion debt refinancing, one of the largest private debt restructurings in Argentina's history. Mr. Gerardo Werthein also acted as the CEO of Holding Caja de Ahorro y Seguro from 1994 to 2009. Over his tenure as CEO, the company increased its participation in the market to become the largest insurance group in Argentina. Mr. Gerardo Werthein received a Doctor of Veterinary Medicine degree from the University of Buenos Aires in 1980.

**Brendan Driscoll**, our Chief Financial Officer, has served since September 2017 as Chief Financial Officer of EMS Capital LP. From November 2012 to September 2017, Mr. Driscoll was at Wingspan Investment Management, a global long/short asset management firm, serving as the firm's Chief Operating Officer and Chief Financial Officer. Immediately prior to joining Wingspan, Mr. Driscoll was the Chief Financial Officer of Normandy Hill Capital, a global distressed-debt and event-driven asset manager, and The Airlie Group, a credit-focused asset manager. Before Airlie, Mr. Driscoll spent

## [Table of Contents](#)

several years as an Audit Manager at Goldstein Golub Kessler, LLP. Mr. Driscoll is a Certified Public Accountant in New York. He received a Bachelor of Business Administration in Accounting from Dowling College in 1998.

**Leonardo Madcur**, one of our directors, has served since 2012 as the Director of Corporate Development at Wertheim Group. Mr. Madcur has over two decades of experience in Argentina's private and public sectors. He has helped execute over \$2.0 billion of M&A and corporate finance transactions and co-led Argentina's \$100 billion sovereign debt restructuring in 2005. Mr. Madcur also serves on the board of directors of Madalena Energy Inc. Previously, Mr. Madcur held senior leadership roles at Uno Medios/Grupo America, Integra Investment and Corporacion America. Mr. Madcur has also held senior roles in the public sector, serving as the Secretary of Technical Coordination in Argentina's Ministry of Economy, the Regulator of Competition and Consumers and a Former Member of the Board of the Central Bank of Argentina. Mr. Madcur received an undergraduate degree in Law from Belgrano University in 1992 and an MBA from IAE—Austral University in 1997.

**Ezra Cohen**, one of our directors, joined EMS Capital LP in June 2017 as an Investment Analyst. Previously, Mr. Cohen was an Associate from July 2013 to May 2015 and an Analyst from March 2010 to June 2013 in the investment banking division at Credit Suisse, where he was primarily responsible for providing a complete range of M&A, financial advisory, and capital raising services to companies throughout Latin America. Mr. Cohen received a Bachelor of Science in Economics, magna cum laude, from the Wharton School at the University of Pennsylvania in 2009 and an MBA from Harvard Business School in 2017.

**Daniel Marx**, who has served as one of our independent directors since the date of this prospectus, has served since June 2009 as the Executive Director of Quantum Finanzas, a financial boutique based in Buenos Aires which has a strategic international alliance with Evercore Partners. Prior to joining Quantum Finanzas, Mr. Marx served as Manager in charge of the Corporate Department in Banco Río de la Plata, Director of the Central Bank of Argentina, Managing Director of Darby Overseas Investments, a private equity fund with interests in Latin America, Executive Director of Merchant Bankers Asociados and was responsible for the restructuring of Arbol Solo/Inversiones Unidas Group. Mr. Marx was Secretary of Finance of the Argentine Ministry of Economy from 2000 to 2001 and Chief Debt Negotiator from 1988 to 1993, in charge of the design and execution of sovereign debt restructuring, financing program and relationship with international financial institutions and private banks. He also organized the initial public offering of several major Argentine firms. Mr. Marx has served on the board of directors of Corporación América Airports S.A. since February 2019, Quantum Asset Management since May 2018, Central Urbana S.A. since April 2018 and Quantum Finanzas since June 2009. He has also served on the advisory board of AES Argentina. Previously, he served on the board of directors of Banorte (Mexico) and Interbank (Peru). Mr. Marx received an undergraduate degree in Economics from the University of Buenos Aires in 1974. We believe Mr. Marx is qualified to serve on our board of directors because of his remarkable macroeconomic knowledge and his extensive experience serving as an executive and director of large financial institutions.

**Mariano Bosch**, who has served as one of our independent directors since the date of this prospectus, co-founded and has served since 2002 as Chief Executive Officer of Adecoagro (NYSE: AGRO), a leading agricultural company based in South America, with presence in Argentina, Brazil and Uruguay. From 1995 to 2002, Mr. Bosch served as the founder and Chief Executive Officer of BLS Agribusiness, an agricultural consulting, technical management and administration company. Mr. Bosch currently serves on the board of directors of Adecoagro and also serves on the advisory board of Teays River Investments LLC, a farmland investment management firm in North America. Mr. Bosch has over 20 years of experience in agribusiness development and agricultural production. He actively participates in organizations focused on promoting the use of best practices in the agribusiness sector, such as the Argentine Association of Regional Consortiums for Agricultural Experimentation

## [Table of Contents](#)

(AACREA) and the Conservational Production Foundation (Producir Conservando), among others. Mr. Bosch is also involved in organizations focused on business leadership like YPO and IDEA. In 2018, he was awarded by Konex in the category "Agribusiness Entrepreneurs". Mr. Bosch received an undergraduate degree in Agricultural Engineering from the University of Buenos Aires in 1993. We believe Mr. Bosch is qualified to serve on our board of directors because of his business acumen and extensive experience leading a large publicly-traded company with high standards of corporate governance in Latin America.

**Russell Colaco**, who has served as one of our independent directors since the date of this prospectus, has served since September 2017 as the Managing Partner of Aleutian Advisors, a consulting firm. From June 2016 to July 2017, Mr. Colaco served as the Chief Financial Officer of JBS Foods International, a global food company, and from November 2015 to May 2016, he served as the Head of Corporate Development. From May 2006 to September 2015, Mr. Colaco was a Managing Director in the investment banking division at Morgan Stanley. In that position, he advised leading global consumer and retail companies on strategic and corporate finance matters. Mr. Colaco received a Bachelor of Business Administration from Wilfrid Laurier University in 1995 and an MBA from the University of Chicago Booth School of Business in 2004. We believe Mr. Colaco is qualified to serve on our board of directors because of his significant strategic and corporate finance experience at an international business with operations in Latin America and his background in the financial services industry.

### **Number, Terms of Office and Election of Officers and Directors**

Upon the effectiveness of the registration statement of which this prospectus forms a part, we expect that our board of directors will consist of five members. Our board of directors is divided into two classes with only one class of directors being elected in each year and each (except for those directors appointed prior to our first annual meeting of shareholders) serving a two-year term. The term of office of the first class of directors will expire at our first annual meeting of shareholders and the term of office of the second class of directors will expire at our second annual meeting of shareholders. We may not hold an annual meeting of shareholders until after we consummate our initial business combination (unless required by NYSE). Subject to any other special rights applicable to the shareholders, any vacancies on our board of directors may be filled by the affirmative vote of a majority of the directors present and voting at the meeting of our board or by a majority of the holders of our ordinary shares.

Our officers are elected by the board of directors and serve at the discretion of the board of directors, rather than for specific terms of office. Our board of directors is authorized to appoint persons to the offices set forth in our amended and restated memorandum and articles of association as it deems appropriate. Our amended and restated memorandum and articles of association will provide that our officers may consist of a Chairman, a Chief Executive Officer, a President, a Chief Operating Officer, a Chief Financial Officer, Vice Presidents, a Secretary, Assistant Secretaries, a Treasurer and such other offices as may be determined by the board of directors.

### **Director Independence**

The rules of the NYSE require that a majority of our board of directors be independent within one year of our initial public offering. An "independent director" is defined generally as a person that, in the opinion of the company's board of directors, has no material relationship with the listed company (either directly or as a partner, shareholder or officer of an organization that has a relationship with the company). Upon the effectiveness of the registration statement of which this prospectus forms a part, we expect to have three "independent directors" as defined in the NYSE rules and applicable SEC rules prior to completion of this offering. Our board has determined that each of Messrs. Daniel Marx, Mariano Bosch and Russell Colaco is an independent director under applicable

[Table of Contents](#)

SEC and NYSE rules. Our independent directors will have regularly scheduled meetings at which only independent directors are present.

**Officer and Director Compensation**

None of our officers or directors have received any cash compensation for services rendered to us. Commencing on the date that our securities are first listed on the NYSE through the earlier of consummation of our initial business combination and our liquidation, we will pay two of our independent directors an annual fee of \$25,000, each. Our sponsor, officers and directors, or any of their respective affiliates, will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made to our sponsor, officers, directors or our or any of their affiliates.

After the completion of our initial business combination, directors or members of our management team who remain with us may be paid consulting, management or other compensation from the combined company. All compensation will be fully disclosed to shareholders, to the extent then known, in the tender offer materials or proxy solicitation materials furnished to our shareholders in connection with a proposed business combination. It is unlikely the amount of such compensation will be known at the time, because the directors of the post-combination business will be responsible for determining executive officer and director compensation. Any compensation to be paid to our officers after the completion of our initial business combination will be determined by a compensation committee constituted solely by independent directors.

We are not party to any agreements with our executive officers and directors that provide for benefits upon termination of employment. The existence or terms of any such employment or consulting arrangements may influence our management's motivation in identifying or selecting a target business, and we do not believe that the ability of our management to remain with us after the consummation of our initial business combination should be a determining factor in our decision to proceed with any potential business combination.

**Committees of the Board of Directors**

Upon the effective date of the registration statement of which this prospectus forms a part, our board of directors will have three standing committees: an audit committee; a compensation committee; and a nominating and corporate governance committee. Subject to phase-in rules, the rules of NYSE and Rule 10A-3 of the Exchange Act require that the audit committee of a listed company be comprised solely of independent directors, and the rules of NYSE require that the compensation committee and the nominating and corporate governance committee of a listed company be comprised solely of independent directors. Each committee will operate under a charter that will be approved by our board and will have the composition and responsibilities described below. The charter of each committee will be available on our website following the closing of this offering.

***Audit Committee***

Upon the effectiveness of the registration statement of which this prospectus forms a part, we will establish an audit committee of the board of directors. The members of our audit committee will be Messrs. Daniel Marx, Mariano Bosch and Russell Colaco. Mr. Russell Colaco will serve as chairman of the audit committee.

Each member of the audit committee is financially literate and our board of directors has determined that Mr. Russell Colaco qualifies as an "audit committee financial expert" as defined in applicable SEC rules and has accounting or related financial management expertise.

## [Table of Contents](#)

We will adopt an audit committee charter, which will detail the purpose and principal functions of the audit committee, including:

- assisting board oversight of (1) the integrity of our financial statements, (2) our compliance with legal and regulatory requirements, (3) our independent auditor's qualifications and independence and (4) the performance of our internal audit function and independent auditors;
- the appointment, compensation, retention, replacement and oversight of the work of the independent auditors and any other independent registered public accounting firm engaged by us;
- pre-approving all audit and non-audit services to be provided by the independent auditors or any other registered public accounting firm engaged by us and establishing pre-approval policies and procedures;
- reviewing and discussing with the independent auditors all relationships the auditors have with us in order to evaluate their continued independence;
- setting clear hiring policies for employees or former employees of the independent auditors;
- setting clear policies for audit partner rotation in compliance with applicable laws and regulations;
- obtaining and reviewing a report, at least annually, from the independent auditors describing (1) the independent auditor's internal quality-control procedures and (2) any material issues raised by the most recent internal quality-control review, or peer review, of the audit firm, or by any inquiry or investigation by governmental or professional authorities, within the preceding five years respecting one or more independent audits carried out by the firm and any steps taken to deal with such issues;
- meeting to review and discuss our annual audited financial statements and quarterly financial statements with management and the independent auditor, including reviewing our specific disclosures under "Management's Discussion and Analysis of Financial Condition and Results of Operations";
- reviewing and approving any related party transaction required to be disclosed pursuant to Item 404 of Regulation S-K promulgated by the SEC prior to us entering into such transaction; and
- reviewing with management, the independent auditors, and our legal advisors, as appropriate, any legal, regulatory or compliance matters, including any correspondence with regulators or government agencies and any employee complaints or published reports that raise material issues regarding our financial statements or accounting policies and any significant changes in accounting standards or rules promulgated by the Financial Accounting Standards Board, the SEC or other regulatory authorities.

### ***Compensation Committee***

Upon the effectiveness of the registration statement of which this prospectus forms a part, we will establish a compensation committee of the board of directors. The members of our Compensation Committee will be Messrs. Daniel Marx, Mariano Bosch and Russell Colaco. Mr. Daniel Marx will serve as chairman of the compensation committee. We will adopt a compensation committee charter, which will detail the purpose and responsibility of the compensation committee, including:

- reviewing and approving on an annual basis the corporate goals and objectives relevant to our Chief Executive Officer's compensation, evaluating our Chief Executive Officer's performance in

## [Table of Contents](#)

light of such goals and objectives and determining and approving the remuneration (if any) of our Chief Executive Officer based on such evaluation;

- reviewing and making recommendations to our board of directors with respect to the compensation and any incentive-compensation and equity-based plans that are subject to board approval of all of our other officers;
- reviewing our executive compensation policies and plans;
- implementing and administering our incentive compensation equity-based remuneration plans;
- assisting management in complying with our proxy statement and annual report disclosure requirements;
- approving all special perquisites, special cash payments and other special compensation and benefit arrangements for our officers and employees;
- producing a report on executive compensation to be included in our annual proxy statement; and
- reviewing, evaluating and recommending changes, if appropriate, to the remuneration for directors.

The charter will also provide that the compensation committee may, in its sole discretion, retain or obtain the advice of a compensation consultant, independent legal counsel or other adviser and will be directly responsible for the appointment, compensation and oversight of the work of any such adviser. However, before engaging or receiving advice from a compensation consultant, external legal counsel or any other adviser, the compensation committee will consider the independence of each such adviser, including the factors required by the NYSE and the SEC.

### *Nominating and Corporate Governance Committee*

Upon the effectiveness of the registration statement of which this prospectus forms a part, we will establish a nominating and corporate governance committee of the board of directors. The members of our nominating and corporate governance will be Messrs. Daniel Marx, Mariano Bosch and Russell Colaco. Mr. Mariano Bosch will serve as chair of the nominating and corporate governance committee. We will adopt a nominating and corporate governance committee charter, which will detail the purpose and responsibilities of the nominating and corporate governance committee, including:

- identifying, screening and reviewing individuals qualified to serve as directors, consistent with criteria approved by the board, and recommending to the board of directors candidates for nomination for election at the annual meeting of shareholders or to fill vacancies on the board of directors;
- developing and recommending to the board of directors and overseeing implementation of our corporate governance guidelines;
- coordinating and overseeing the annual self-evaluation of the board of directors, its committees, individual directors and management in the governance of the company; and
- reviewing on a regular basis our overall corporate governance and recommending improvements as and when necessary.

The charter will also provide that the nominating and corporate governance committee may, in their sole discretion, retain or obtain the advice of, and terminate, any search firm to be used to identify director candidates, and will be directly responsible for approving the search firm's fees and other retention terms.

[Table of Contents](#)

We have not formally established any specific, minimum qualifications that must be met or skills that are necessary for directors to possess. In general, in identifying and evaluating nominees for director, the board of directors considers educational background, diversity of professional experience, knowledge of our business, integrity, professional reputation, independence, wisdom, and the ability to represent the best interests of our shareholders.

**Compensation Committee Interlocks and Insider Participation**

None of our officers currently serves, and in the past year has not served, as a member of the board of directors or compensation committee of any entity that has one or more officers serving on our board of directors.

**Code of Ethics**

Prior to the effectiveness of the registration statement of which this prospectus is a part, we will have adopted a Code of Ethics applicable to our directors, officers and employees. We will file a copy of our form of Code of Ethics and our audit committee charter as exhibits to the registration statement. You will be able to review these documents by accessing our public filings at the SEC's website at [www.sec.gov](http://www.sec.gov). In addition, a copy of the Code of Ethics will be provided without charge upon request from us. We intend to disclose any amendments to or waivers of certain provisions of our Code of Ethics in a Current Report on Form 8-K. See "Where You Can Find Additional Information."

**Conflicts of Interest**

Under Cayman Islands law, directors and officers owe the following fiduciary duties:

- duty to act in good faith in what the director or officer believes to be in the best interests of the company as a whole;
- duty to exercise authority for the purpose for which it is conferred;
- duty to not improperly fetter the exercise of future discretion;
- duty not to put themselves in a position in which there is a conflict between their duty to the company and their personal interests; and
- duty to exercise independent judgment.

In addition to the above, directors also owe a duty of care, which is not fiduciary in nature. This duty has been defined as a requirement to act as a reasonably diligent person having both the general knowledge, skill and experience that may reasonably be expected of a person carrying out the same functions as are carried out by that director in relation to the company and the general knowledge, skill and experience which that director has.

As set out above, directors have a duty not to put themselves in a position of conflict and this includes a duty not to engage in self-dealing, or to otherwise benefit as a result of their position at the expense of the company. However, in some instances what would otherwise be a breach of this duty can be forgiven and/or authorized in advance by the shareholders; provided that there is full disclosure by the directors. This can be done by way of permission granted in the amended and restated memorandum and articles of association or alternatively by shareholder approval at general meetings.

Each of our officers and directors presently has, and any of them in the future may have additional, fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a business combination opportunity to such entity. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity that is suitable for an entity to which he or she has then-current fiduciary or contractual obligations, he

[Table of Contents](#)

or she may need to honor these fiduciary or contractual obligations to present such business combination opportunity to such entity, subject to these fiduciary duties under Cayman Islands law. We do not believe, however, that the fiduciary duties or contractual obligations of our officers or directors will materially affect our ability to complete our initial business combination.

Potential investors should also be aware of the following potential conflicts of interest:

- None of our officers or directors is required to commit his or her full time to our affairs and, accordingly, may have conflicts of interest in allocating his or her time among various business activities.
- In the course of their other business activities, our officers and directors may become aware of investment and business opportunities that may be appropriate for presentation to us as well as the other entities with which they are affiliated. Our management may have conflicts of interest in determining to which entity a particular business opportunity should be presented. For a complete description of our management's other affiliations, see "—Directors and Officers."
- Our initial shareholders have agreed to waive their redemption rights with respect to their founder shares and any public shares held by them in connection with the consummation of our initial business combination. Our directors and officers have entered into letter agreements similar to the one signed by our initial shareholders with respect to public shares acquired by them, if any. Additionally, our initial shareholders have agreed to waive their redemption rights with respect to their founder shares if we fail to consummate our initial business combination within 24 months after the closing of this offering. However, if our initial shareholders or any of our officers, directors or affiliates acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to consummate our initial business combination within the prescribed time frame. If we do not complete our initial business combination within such applicable time period, the proceeds of the sale of the private placement warrants held in the trust account will be used to fund the redemption of our public shares, and the private placement warrants will expire worthless. With certain limited exceptions, the founder shares will not be transferable, assignable or salable by our initial shareholders until the earlier of (1) one year after the completion of our initial business combination and (2) the date on which we consummate a liquidation, merger, amalgamation, share exchange, reorganization, or other similar transaction after our initial business combination that results in all of our shareholders having the right to exchange their ordinary shares for cash, securities or other property. Notwithstanding the foregoing, if the last reported sale price of our ordinary shares equals or exceeds \$12.00 per share (as adjusted for share splits, share dividends, rights issuances, subdivisions, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, the founder shares will be released from the lock-up. With certain limited exceptions, the private placement warrants and the ordinary shares underlying such warrants, will not be transferable, assignable or salable by our sponsor until 30 days after the completion of our initial business combination. Since our sponsor and officers and directors may directly or indirectly own ordinary shares and warrants following this offering, our officers and directors may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination.
- Our officers and directors may negotiate employment or consulting agreements with a target business in connection with a particular business combination. These agreements may provide for them to receive compensation following our initial business combination and as a result, may cause them to have conflicts of interest in determining whether to proceed with a particular business combination.

[Table of Contents](#)

- Our officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such officers and directors was included by a target business as a condition to any agreement with respect to our initial business combination.

The conflicts described above may not be resolved in our favor.

Accordingly, as a result of multiple business affiliations, our officers and directors have similar legal obligations relating to presenting business opportunities meeting the above-listed criteria to multiple entities. Below is a table summarizing the entities to which our officers and directors currently have fiduciary duties or contractual obligations:

Individual	Entity	Entity's Business	Affiliation
Edmond Safra	EMS Capital LP	Investment Adviser	President
	M. Safra & Co., Inc.	Investment Management	Vice President and Director
	Moise Y. Safra Foundation, Inc.	Non-profit Organization	Director
Gregorio Werthein	Werthein Group	Investment Management	Executive Managing Director
	Transportadora de Gas del Sur S.A.	Natural Gas Transportation	Director
	GNNW S.A.	Agribusiness	Director
	Experta ART	Insurance	Director
	Cachay S.A.	Food & Beverage	Director
Gerardo Werthein	Werthein Group	Investment Management	Principal
Brendan Driscoll	EMS Capital LP	Investment Adviser	Chief Financial Officer
Leonardo Madcur	Madalena Energy Inc.	Energy	Director
Ezra Cohen	EMS Capital LP	Investment Adviser	Investment Analyst
Daniel Marx	Quantum Finanzas	Financial Services	Executive Director
	Quantum Asset Management	Investment Adviser	Director
	Central Urbana S.A.	Investment Management	Director
	Corporación América Airports S.A.	Airports & Air Services	Director
Mariano Bosch	Adecoagro Group	Agribusiness	Chief Executive Officer and Director
	Teays River Investments LLC	Investment Management	Advisory Board Member
	Adeco Agropecuaria S.A.	Agribusiness	Director
	Bañado del Salado S.A.	Agribusiness	Director
	Dinaluca S.A.	Agribusiness	Director
	Establecimientos El Orden S.A.	Agribusiness	Director
	Cia. Agroforestal S.M.S.A.	Agribusiness	Director
	Pilagá S.A.	Agribusiness	Director

Global Anceo SL	Agribusiness	Administrative Council	
Adecoagro GP S.a.r.l.	Agribusiness	Manager	
Russell Colaco	Aleutian Advisors	Consulting	Managing Partner
	Razor USA LLC	Sporting Goods Manufacturing	Director and Advisor

## [Table of Contents](#)

Accordingly, if any of the above officers or directors become aware of a business combination opportunity which is suitable for any of the above entities to which he or she has then-current fiduciary or contractual obligations, he or she may need to honor his or her fiduciary or contractual obligations to present such business combination opportunity to such entity, and only present it to us if such entity chooses not to pursue the opportunity, subject to his or her fiduciary duties under Cayman Islands law. We do not believe, however, that any of the foregoing fiduciary duties or contractual obligations will materially affect our ability to complete our initial business combination.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, officers or directors. In the event we seek to complete our initial business combination with such a company, we, or a committee of independent and disinterested directors, would obtain an opinion from an independent investment banking firm that is a member of FINRA, or from an independent accounting firm, that such an initial business combination is fair to our company from a financial point of view.

In addition, our sponsor or any of its affiliates may make additional investments in the company in connection with the initial business combination, although our sponsor and its affiliates have no obligation or current intention to do so. If our sponsor or any of its affiliates elects to make additional investments, such proposed investments could influence our sponsor's motivation to complete an initial business combination.

In the event that we submit our initial business combination to our public shareholders for a vote, our initial shareholders have agreed, pursuant to the terms of a letter agreement entered into with us, to vote their founder shares (and their permitted transferees will agree) and any public shares held by them in favor of our initial business combination. Our directors and officers have entered into letter agreements similar to the one signed by our initial shareholders with respect to public shares acquired by them, if any.

### **Limitation on Liability and Indemnification of Officers and Directors**

Cayman Islands law does not limit the extent to which a company's memorandum and articles of association may provide for indemnification of officers and directors, except to the extent any such provision may be held by the Cayman Islands courts to be contrary to public policy, such as to provide indemnification against willful default, fraud or the consequences of committing a crime. Our amended and restated memorandum and articles of association will provide for indemnification of our officers and directors to the maximum extent permitted by law, including for any liability incurred in their capacities as such, except through their own actual fraud, willful default or willful neglect.

We may purchase a policy of directors' and officers' liability insurance that insures our officers and directors against the cost of defense, settlement or payment of a judgment in some circumstances and insures us against our obligations to indemnify our officers and directors.

We believe that these provisions and the insurance are necessary to attract and retain talented and experienced officers, directors and advisory board members.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers, members of our advisory board or persons controlling us pursuant to the foregoing provisions, we have been informed that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

**PRINCIPAL SHAREHOLDERS**

The following table sets forth information regarding the beneficial ownership of our ordinary shares as of the date of this prospectus, and as adjusted to reflect the sale of our ordinary shares included in the units offered by this prospectus, and assuming no purchase of units in this offering, by:

- each person known by us to be the beneficial owner of more than 5% of our issued and outstanding ordinary shares;
- each of our officers and directors that beneficially owns ordinary shares; and
- all our officers and directors as a group.

Unless otherwise indicated, we believe that all persons named in the table have sole voting and investment power with respect to all ordinary shares beneficially owned by them. The following table does not reflect record or beneficial ownership of the private placement warrants as these warrants are not exercisable within 60 days of the date of this prospectus.

The post-offering ownership percentage column below assumes that the underwriters do not exercise their over-allotment option, that our sponsor forfeits 937,500 founder shares and that there are 31,250,000 ordinary shares issued and outstanding after this offering and excludes the ordinary shares underlying the units that will be purchased in this offering by affiliates of our sponsor.

Name and Address of Beneficial Owner <sup>(1)</sup>	Number of Shares Beneficially Owned	Approximate Percentage of Issued and Outstanding Ordinary Shares	
		Before Offering	After Offering
Replay Sponsor, LLC	7,097,500	98.7%	19.7%
Edmond Safra	7,097,500 <sup>(2)</sup>	98.7%	19.7%
Gregorio Werthein	7,097,500 <sup>(2)</sup>	98.7%	19.7%
Brendan Driscoll	—	—	—
Leonardo Madcur	—	—	—
Ezra Cohen	—	—	—
Daniel Marx	25,000	*	*
Mariano Bosch	40,000	*	*
Russell Colaco	25,000	*	*
All directors and officers as a group (8 individuals)	7,187,500	100.0%	20.0%

\* Less than one percent.

(1) Unless otherwise noted, the business address of each of the following entities or individuals is 767 Fifth Avenue, 46th Floor, New York, New York 10153.

(2) Represents ordinary shares held by our sponsor. Messrs. Edmond Safra and Gregorio Werthein are managers of our sponsor. Accordingly, all of the shares held by our sponsor may be deemed to be beneficially held by Messrs. Edmond Safra and Gregorio Werthein. Each of Messrs. Edmond Safra and Gregorio Werthein disclaims beneficial ownership of our ordinary shares held by our sponsor except to the extent of his pecuniary interest therein.

Immediately after this offering, our initial shareholders will beneficially own 20.0% of the then issued and outstanding ordinary shares (excluding the ordinary shares underlying the units that affiliates of our sponsor will purchase in this offering and assuming our initial shareholders do not purchase any

## [Table of Contents](#)

other units in this offering). In addition, because of their ownership block, our initial shareholders may be able to effectively influence the outcome of all matters requiring approval by our shareholders, including amendments to our amended and restated memorandum and articles of association and approval of significant corporate transactions. If we increase or decrease the size of this offering, we will effect a capitalization or share repurchase or redemption or other appropriate mechanism, as applicable, with respect to our ordinary shares immediately prior to the consummation of this offering in such amount as to maintain the ownership of founder shares of our initial shareholders prior to this offering at 20% of our issued and ordinary shares upon the consummation of this offering (excluding the ordinary shares underlying the units that affiliates of our sponsor will purchase in this offering and assuming our initial shareholders do not purchase any other units in this offering).

Our sponsor has committed, pursuant to a written agreement, to purchase an aggregate of 7,000,000 (or 7,750,000 if the underwriters' over-allotment option is exercised in full) private placement warrants at a price of \$1.00 per warrant (\$7,000,000 in the aggregate or \$7,750,000 in the aggregate if the underwriters' over-allotment option is exercised in full) in a private placement that will occur simultaneously with the closing of this offering. Each private placement warrant entitles the holder to purchase one ordinary share at a price of \$11.50 per share, subject to adjustment as provided herein. The purchase price of the private placement warrants will be added to the proceeds from this offering to be held in the trust account pending our completion of our initial business combination. If we do not complete our initial business combination within 24 months from the closing of this offering, the proceeds of the sale of the private placement warrants held in the trust account will be used to fund the redemption of our public shares, and the private placement warrants will expire worthless. The private placement warrants are subject to the transfer restrictions described below. The private placement warrants will not be redeemable by us so long as they are held by our sponsor or its permitted transferees. If the private placement warrants are held by holders other than our sponsor or its permitted transferees, the private placement warrants will be redeemable by us and exercisable by the holders on the same basis as the warrants included in the units being sold in this offering. Otherwise, the private placement warrants have terms and provisions that are identical to those of the warrants being sold as part of the units in this offering.

Our sponsor and our officers and directors are deemed to be our "promoters" as such term is defined under the federal securities laws. See "Certain Relationships and Related Party Transactions" for additional information regarding our relationships with our promoters.

### **Transfers of Founder Shares and Private Placement Warrants**

The founder shares, private placement warrants and any ordinary shares issued upon conversion or exercise thereof are each subject to transfer restrictions pursuant to lock-up provisions in the letter agreement with us to be entered into by our initial shareholders. Those lock-up provisions provide that such securities are not transferable or salable (1) in the case of the founder shares, until the earlier of (A) one year after the completion of our initial business combination or (B) subsequent to our initial business combination, (x) if the last reported sale price of the ordinary shares equals or exceeds \$12.00 per share (as adjusted for share splits, share dividends, rights issuances, subdivisions, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (y) the date following the completion of our initial business combination on which we complete a liquidation, merger, amalgamation, share exchange, reorganization or other similar transaction that results in all of our shareholders having the right to exchange their ordinary shares for cash, securities or other property, and (2) in the case of the private placement warrants and the respective ordinary shares underlying such warrants, until 30 days after the completion of our initial business combination, except in each case (a) to our officers or directors, any affiliates or family members of any of our officers or directors, any members of our sponsor, or any affiliates of our sponsor, (b) in the case of an individual, by gift to a member of the

## [Table of Contents](#)

individual's immediate family or to a trust, the beneficiary of which is a member of the individual's immediate family or an affiliate of such person, or to a charitable organization; (c) in the case of an individual, by virtue of laws of descent and distribution upon death of the individual; (d) in the case of an individual, pursuant to a qualified domestic relations order; (e) by private sales or transfers made in connection with the consummation of a business combination at prices no greater than the price at which the shares were originally purchased; (f) in the event of our liquidation prior to our completion of our initial business combination; (g) by virtue of the laws of Delaware or our sponsor's limited liability company agreement, as amended, upon dissolution of our sponsor; or (h) in the event of our completion of a liquidation, merger, amalgamation, share exchange, reorganization or other similar transaction which results in all of our shareholders having the right to exchange their ordinary shares for cash, securities or other property subsequent to our completion of our initial business combination; provided, however, that in the case of clauses (a) through (e) these permitted transferees must enter into a written agreement agreeing to be bound by these transfer restrictions.

### **Registration Rights**

The holders of the founder shares, private placement warrants and any warrants that may be issued on conversion of working capital loans (and any ordinary shares issuable upon the exercise of the private placement warrants or warrants issued upon conversion of the working capital loans) will be entitled to registration rights pursuant to a registration rights agreement to be signed prior to or on the effective date of this offering requiring us to register such securities for resale. The holders of these securities will be entitled to make up to three demands, excluding short form registration demands, that we register such securities. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to our completion of our initial business combination and rights to require us to register for resale such securities pursuant to Rule 415 under the Securities Act. However, the registration rights agreement provides that we will not permit any registration statement filed under the Securities Act to become effective until termination of the applicable lock-up period, which occurs (1) in the case of the founder shares, on the earlier of (A) one year after the completion of our initial business combination or (B) subsequent to our initial business combination, (x) if the last reported sale price of ordinary shares equals or exceeds \$12.00 per share (as adjusted for share splits, share dividends, rights issuances, subdivisions, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (y) the date following the completion of our initial business combination on which we complete a liquidation, merger, amalgamation, share exchange, reorganization or other similar transaction that results in all of our public shareholders having the right to exchange their ordinary shares for cash, securities or other property, and (2) in the case of the private placement warrants and the respective ordinary shares underlying such warrants, 30 days after the completion of our initial business combination. We will bear the expenses incurred in connection with the filing of any such registration statements.

## CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

In December 2018, our sponsor purchased 7,187,500 founder shares for an aggregate purchase price of \$25,000, or approximately \$0.003 per share. In March 2019, our sponsor transferred an aggregate of 90,000 founder shares to our independent directors (40,000 founder shares to Mr. Mariano Bosch and 25,000 founder shares each to Messrs. Daniel Marx and Russell Colaco). Our initial shareholders will collectively own 20% of our issued and outstanding shares after this offering (excluding the ordinary shares underlying the units that affiliates of our sponsor will purchase in this offering and assuming our initial shareholders do not purchase any other units in this offering). If we increase or decrease the size of this offering, we will effect a capitalization or share repurchase or redemption or other appropriate mechanism, as applicable, with respect to our ordinary shares immediately prior to the consummation of this offering in such amount as to maintain the ownership of founder shares by our initial shareholders prior to this offering at 20% of our issued and outstanding ordinary shares upon the consummation of this offering (excluding the ordinary shares underlying the units that affiliates of our sponsor will purchase in this offering and assuming our initial shareholders do not purchase any other units in this offering).

Our sponsor has committed, pursuant to a written agreement, to purchase an aggregate of 7,000,000 (or 7,750,000 if the underwriters' over-allotment option is exercised in full) private placement warrants for a purchase price of \$1.00 per warrant in a private placement that will occur simultaneously with the closing of this offering. Each private placement warrant may be exercised for one ordinary share at a price of \$11.50 per share, subject to adjustment as provided herein. The private placement warrants (including the ordinary shares issuable upon exercise of the private placement warrants) may not, subject to certain limited exceptions, be transferred, assigned or sold by it until 30 days after the completion of our initial business combination.

Affiliates of our sponsor will purchase an aggregate of 2,500,000 units in this offering at the initial public offering price. The underwriters will not receive any underwriting discounts or commissions on the units purchased by the affiliates of our sponsor.

As more fully discussed in "Management—Conflicts of Interest," if any of our officers or directors becomes aware of a business combination opportunity that falls within the line of business of any entity to which he or she has then-current fiduciary or contractual obligations, he or she may be required to present such business combination opportunity to such entity prior to presenting such business combination opportunity to us. Our officers and directors currently have certain relevant fiduciary duties or contractual obligations that may take priority over their duties to us.

We will pay two of our independent directors, Messrs. Daniel Marx and Russell Colaco, an annual fee of \$25,000 each. Our sponsor, officers and directors, or any of their respective affiliates, will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made to our sponsor, officers, directors or our or any of their affiliates and will determine which expenses and the amount of expenses that will be reimbursed. There is no cap or ceiling on the reimbursement of out-of-pocket expenses incurred by such persons in connection with activities on our behalf.

Our sponsor has agreed to loan us up to \$250,000 to be used for a portion of the expenses of this offering. As of December 31, 2018, we had not borrowed any amount under the promissory note with our sponsor to be used for a portion of the expenses of this offering. As of the date hereof, we have borrowed \$250,000 under the promissory note. These loans are non-interest bearing, unsecured and are due at the earlier of June 30, 2019 or the closing of this offering. These loans will be repaid upon completion of this offering out of the \$1,500,000 of offering proceeds not held in the trust account. The value of our sponsor's interest in this loan transaction corresponds to the principal amount outstanding under any such loan.

## [Table of Contents](#)

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we would repay such loaned amounts. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into warrants at a price of \$1.00 per warrant at the option of the lender. The warrants would be identical to the private placement warrants issued to our sponsor. The terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans. We do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver of any and all rights to seek access to funds in our trust account.

After our initial business combination, members of our management team who remain with us may be paid consulting, management or other fees from the combined company with any and all amounts being fully disclosed to our shareholders, to the extent then known, in the tender offer or proxy solicitation materials, as applicable, furnished to our shareholders. It is unlikely the amount of such compensation will be known at the time of distribution of such tender offer materials or at the time of a shareholder meeting held to consider our initial business combination, as applicable, as it will be up to the directors of the post-combination business to determine executive and director compensation.

We have entered into a registration rights agreement with respect to the founder shares, private placement warrants and warrants issued upon conversion of working capital loans (if any), which is described under the heading "Principal Shareholders—Registration Rights."

### **Related Party Policy**

We have not yet adopted a formal policy for the review, approval or ratification of related party transactions. Accordingly, the transactions discussed above were not reviewed, approved or ratified in accordance with any such policy.

Prior to the consummation of this offering, we will adopt a code of ethics requiring us to avoid, wherever possible, all conflicts of interests, except under guidelines or resolutions approved by our board of directors (or the appropriate committee of our board) or as disclosed in our public filings with the SEC. Under our code of ethics, conflict of interest situations will include any financial transaction, arrangement or relationship (including any indebtedness or guarantee of indebtedness) involving the company. A form of the code of ethics that we plan to adopt prior to the consummation of this offering is filed as an exhibit to the registration statement of which this prospectus is a part.

In addition, our audit committee, pursuant to a written charter that we will adopt prior to the consummation of this offering, will be responsible for reviewing and approving related party transactions to the extent that we enter into such transactions. An affirmative vote of a majority of the members of the audit committee present at a meeting at which a quorum is present will be required in order to approve a related party transaction. A majority of the members of the entire audit committee will constitute a quorum. Without a meeting, the unanimous written consent of all of the members of the audit committee will be required to approve a related party transaction. A form of the audit committee charter that we plan to adopt prior to the consummation of this offering is filed as an exhibit to the registration statement of which this prospectus is a part. Our audit committee will review on a quarterly basis all payments that were made to our sponsor, officers or directors, or our or any of their affiliates.

These procedures are intended to determine whether any such related party transaction impairs the independence of a director or presents a conflict of interest on the part of a director, employee or officer.

[Table of Contents](#)

To further minimize conflicts of interest, we have agreed not to consummate an initial business combination with an entity that is affiliated with any of our sponsor, officers or directors unless we, or a committee of independent and disinterested directors, have obtained an opinion from an independent investment banking firm which is a member of FINRA or an independent accounting firm that our initial business combination is fair to our company from a financial point of view. Furthermore, no finder's fees, reimbursements or cash payments will be made to our sponsor, officers or directors, or our or any of their affiliates, for services rendered to us prior to or in connection with the completion of our initial business combination. However, the following payments will be made to our sponsor, officers or directors, or any of their affiliates, none of which will be made from the proceeds of this offering and the sale of the private placement warrants held in the trust account prior to the completion of our initial business combination:

- Repayment of an aggregate of up to \$250,000 in loans made to us by our sponsor to cover offering-related and organizational expenses;
- Reimbursement for any out-of-pocket expenses related to identifying, investigating and completing an initial business combination; and
- Repayment of loans which may be made by our sponsor or an affiliate of our sponsor or certain of our officers and directors to finance transaction costs in connection with an intended initial business combination, the terms of which have not been determined nor have any written agreements been executed with respect thereto. Up to \$1,500,000 of such loans may be convertible into warrants, at a price of \$1.00 per warrant at the option of the lender.

The above payments may be funded using the net proceeds of this offering and the sale of the private placement warrants not held in the trust account.

## DESCRIPTION OF SECURITIES

We are a Cayman Islands exempted company (company number 344622) and our affairs are governed by our amended and restated memorandum and articles of association, the Companies Law and common law of the Cayman Islands. Pursuant to our amended and restated memorandum and articles of association which will be adopted upon the consummation of this offering, we will be authorized to issue 200,000,000 ordinary shares, \$0.0001 par value each, and 2,000,000 undesignated preferred shares, \$0.0001 par value each. The following description summarizes the material terms of our shares as set out more particularly in our amended and restated memorandum and articles of association. Because it is only a summary, it may not contain all the information that is important to you.

### Units

Each unit has an offering price of \$10.00 and consists of one ordinary share and one-half of one warrant. Each whole warrant entitles the holder thereof to purchase one ordinary share at a price of \$11.50 per share, subject to adjustment as described in this prospectus. Pursuant to the warrant agreement, a warrant holder may exercise its warrants only for a whole number of the company's ordinary shares. This means only a whole warrant may be exercised at any given time by a warrant holder.

The ordinary shares and warrants constituting the units will begin separate trading on the 52<sup>nd</sup> day following the closing of this offering unless Credit Suisse Securities (USA) LLC and Merrill Lynch, Pierce, Fenner & Smith Incorporated inform us of their decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. Once the ordinary shares and warrants commence separate trading, holders will have the option to continue to hold units or separate their units into the component securities. Holders will need to have their brokers contact our transfer agent in order to separate the units into ordinary shares and warrants. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least two units, you will not be able to receive or trade a whole warrant.

In no event will the ordinary shares and warrants be traded separately until we have filed with the SEC a Current Report on Form 8-K which includes an audited balance sheet of the Company reflecting our receipt of the gross proceeds at the closing of this offering. We will file the Current Report on Form 8-K promptly after the closing of this offering which will include this audited balance sheet, which is anticipated to take place four business days after the date of this prospectus. If the underwriters' over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the underwriters' over-allotment option.

### Ordinary Shares

Upon the closing of this offering 31,250,000 ordinary shares will be issued and outstanding (assuming no exercise of the underwriters' over-allotment option and the corresponding forfeiture of 937,500 founder shares by our sponsor), including:

- 25,000,000 ordinary shares underlying the units being offered in this offering; and
- 6,250,000 founder shares held by our initial shareholders.

If we increase or decrease the size of this offering, we will effect a capitalization or share repurchase or redemption or other appropriate mechanism, as applicable, with respect to our ordinary shares immediately prior to the consummation of this offering in such amount as to maintain the ownership of founder shares by our initial shareholders prior to this offering at 20% of our issued and outstanding ordinary shares upon the consummation of this offering (excluding the ordinary shares

## [Table of Contents](#)

underlying the units that affiliates of our sponsor will purchase in this offering and assuming our initial shareholders do not purchase any other units in this offering).

Ordinary shareholders of record are entitled to one vote for each share held on all matters to be voted on by shareholders. Unless specified in the Companies Law, our amended and restated memorandum and articles of association or applicable stock exchange rules, the affirmative vote of a majority of our ordinary shares that are voted is required to approve any such matter voted on by our shareholders. Approval of certain actions will require a special resolution under Cayman Islands law and pursuant to our amended and restated memorandum and articles of association; such actions include amending our amended and restated memorandum and articles of association and approving a statutory merger or consolidation with another company. Directors are elected for a term of two years. There is no cumulative voting with respect to the election of directors, with the result that the holders of more than 50% of the founder shares voted for the election of directors can elect all of the directors. Our shareholders are entitled to receive ratable dividends when, as and if declared by the board of directors out of funds legally available therefor.

Because our amended and restated memorandum and articles of association will authorize the issuance of up to 200,000,000 ordinary shares, if we were to enter into a business combination, we may (depending on the terms of such a business combination) be required to increase the number of ordinary shares which we are authorized to issue at the same time as our shareholders vote on the business combination to the extent we seek shareholder approval in connection with our initial business combination.

In accordance with NYSE corporate governance requirements, we are not required to hold an annual meeting until not later than one year after our first fiscal year end following our listing on the NYSE. There is no requirement under the Companies Law for us to hold annual or general meetings to elect directors. We may not hold an annual meeting of shareholders prior to the consummation of our initial business combination.

We will provide our public shareholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of our initial business combination, including interest (which interest shall be net of taxes payable), divided by the number of then issued and outstanding public shares, subject to the limitations described herein. The amount in the trust account is initially anticipated to be \$10.00 per public share. The per-share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. Our initial shareholders have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to their founder shares and any public shares held by them in connection with the completion of our initial business combination. Our directors and officers have entered into letter agreements similar to the one signed by our initial shareholders with respect to public shares acquired by them, if any. Permitted transferees of our initial shareholders, officers or directors will be subject to the same obligations.

Unlike many blank check companies that hold shareholder votes and conduct proxy solicitations in conjunction with their initial business combinations and provide for related redemptions of public shares for cash upon completion of such initial business combinations even when a vote is not required by applicable law or stock exchange listing requirements, if a shareholder vote is not required by applicable law or stock exchange listing requirements and we do not decide to hold a shareholder vote for business or other reasons, we will, pursuant to our amended and restated memorandum and articles of association, conduct the redemptions pursuant to the tender offer rules of the SEC and file tender offer documents with the SEC prior to completing our initial business combination. Our amended and restated memorandum and articles of association will require these tender offer documents to contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under the SEC's proxy rules. If, however, a shareholder approval of

## [Table of Contents](#)

the transaction is required by law, or we decide to obtain shareholder approval for business or other reasons, we will, like many blank check companies, offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If we seek shareholder approval, we will complete our initial business combination only if a majority, or such higher threshold as may be required by law, of the issued and outstanding ordinary shares voted are voted in favor of the business combination. However, the participation of our sponsor, officers, directors, advisors or any of their affiliates in privately-negotiated transactions (as described in this prospectus), if any, could result in the approval of our initial business combination even if a majority of our public shareholders vote, or indicate their intention to vote, against such business combination. For purposes of seeking approval of the majority of our issued and outstanding ordinary shares, non-votes will have no effect on the approval of our initial business combination once a quorum is obtained. We intend to give not less than 10 days nor more than 60 days prior written notice of any such meeting, if required, at which a vote shall be taken to approve our initial business combination.

If we seek shareholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated memorandum and articles of association will provide that a public shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a "group" (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the ordinary shares sold in this offering, which we refer to as the "Excess Shares." However, we would not be restricting our shareholders' ability to vote all of their shares (including Excess Shares) for or against our initial business combination. Our shareholders' inability to redeem the Excess Shares will reduce their influence over our ability to complete our initial business combination, and such shareholders could suffer a material loss in their investment if they sell such Excess Shares on the open market. Additionally, such shareholders will not receive redemption distributions with respect to the Excess Shares if we complete the business combination. And, as a result, such shareholders will continue to hold that number of shares exceeding 15% and, in order to dispose such shares would be required to sell their shares in open market transactions, potentially at a loss.

If we seek shareholder approval in connection with our initial business combination, our initial shareholders have agreed (and their permitted transferees will agree), pursuant to the terms of a letter agreement entered into with us, to vote their founder shares and any public shares held by them in favor of our initial business combination. As a result, in addition to our initial shareholders' founder shares, we would need 9,375,001, or 37.5%, of the 25,000,000 public shares sold in this offering to be voted in favor of a transaction (assuming all issued and outstanding shares are voted and the over-allotment option is not exercised), subject to any higher threshold as is required by Cayman Islands or other applicable law, in order to have such initial business combination approved. Our directors and officers have entered into letter agreements similar to the one signed by our initial shareholders with respect to public shares acquired by them, if any. Additionally, each public shareholder may elect to redeem its public shares without voting and, if they do vote, irrespective of whether they vote for or against the proposed transaction.

Pursuant to our amended and restated memorandum and articles of association, if we are unable to complete our initial business combination within 24 months from the closing of this offering, we will (1) cease all operations except for the purpose of winding up, (2) as promptly as reasonably possible but no more than 10 business days thereafter, subject to lawfully available funds therefor, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (less up to \$100,000 of interest to pay dissolution expenses and which interest shall be net of taxes payable), divided by the number of then issued and outstanding public shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidating distributions, if any), subject to applicable law and (3) as promptly as reasonably possible following such redemption, subject to the approval of our

## [Table of Contents](#)

remaining shareholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. Our initial shareholders have entered into a letter agreement with us, pursuant to which they have agreed to waive their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within 24 months from the closing of this offering. However, if our initial shareholders acquire public shares after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the prescribed time period.

In the event of a liquidation, dissolution or winding up of the company after a business combination, our shareholders are entitled to share ratably in all assets remaining available for distribution to them after payment of liabilities and after provision is made for each class of shares, if any, having preference over the ordinary shares. Our shareholders have no preemptive or other subscription rights. There are no sinking fund provisions applicable to the ordinary shares, except that we will provide our shareholders with the opportunity to redeem their public shares for cash equal to their pro rata share of the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable), upon the completion of our initial business combination, subject to the limitations described herein.

### **Founder Shares**

The founder shares are identical to the ordinary shares included in the units being sold in this offering, and holders of founder shares have the same shareholder rights as public shareholders, except that: (1) the founder shares are subject to certain transfer restrictions, as described in more detail below; (2) our initial shareholders have entered into a letter agreement with us, pursuant to which they have agreed (A) to waive their redemption rights with respect to their founder shares and any public shares held by them in connection with the completion of our initial business combination and (B) to waive their rights to liquidating distributions from the trust account with respect to their founder shares if we fail to complete our initial business combination within 24 months from the closing of this offering, although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial business combination within such time period; and (3) the founder shares are entitled to registration rights. If we submit our initial business combination to our public shareholders for a vote, our initial shareholders have agreed (and their permitted transferees will agree), pursuant to the terms of a letter agreement entered into with us, to vote their founder shares and any public shares held by them purchased during or after this offering in favor of our initial business combination.

With certain limited exceptions, the founder shares are not transferable, assignable or salable (except to our officers and directors and other persons or entities affiliated with our sponsor, each of whom will be subject to the same transfer restrictions) until the earlier of (A) one year after the completion of our initial business combination or (B) subsequent to our initial business combination, (x) if the last reported sale price of the ordinary shares equals or exceeds \$12.00 per share (as adjusted for share splits, share dividends, rights issuances, subdivisions, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (y) the date following the completion of our initial business combination on which we complete a liquidation, merger, amalgamation, share exchange, reorganization or other similar transaction that results in all of our public shareholders having the right to exchange their ordinary shares for cash, securities or other property.

## **Register of Members**

Under Cayman Islands law, we must keep a register of members and there shall be entered therein:

- the names and addresses of the members and a statement of the shares held by each member and of the amount paid or agreed to be considered as paid on the shares of each member;
- the date on which the name of any person was entered on the register as a member; and
- the date on which any person ceased to be a member.

Under Cayman Islands law, the register of members of our company is prima facie evidence of the matters set out therein (i.e., the register of members will raise a presumption of fact on the matters referred to above unless rebutted) and a member registered in the register of members shall be deemed as a matter of Cayman Islands law to have legal title to the shares as set against its name in the register of members. Upon the closing of this public offering, the register of members shall be immediately updated to reflect the issue of shares by us. Once our register of members has been updated, the shareholders recorded in the register of members shall be deemed to have legal title to the shares set against their name. However, there are certain limited circumstances where an application may be made to a Cayman Islands court for a determination on whether the register of members reflects the correct legal position. Further, the Cayman Islands court has the power to order that the register of members maintained by a company should be rectified where it considers that the register of members does not reflect the correct legal position. If an application for an order for rectification of the register of members were made in respect of our ordinary shares, then the validity of such shares may be subject to re-examination by a Cayman Islands court.

## **Preferred Shares**

Our amended and restated memorandum and articles of association will authorize 2,000,000 preferred shares and will provide that preferred shares may be issued from time to time in one or more series. Our board of directors will be authorized to fix the voting rights, if any, designations, powers, preferences, the relative, participating, optional or other special rights and any qualifications, limitations and restrictions thereof, applicable to the shares of each series. Our board of directors will be able to, without shareholder approval, issue preferred shares with voting and other rights that could adversely affect the voting power and other rights of the holders of the ordinary shares and could have anti-takeover effects. The ability of our board of directors to issue preferred shares without shareholder approval could have the effect of delaying, deferring or preventing a change of control of us or the removal of existing management. We have no preferred shares issued and outstanding at the date hereof. Although we do not currently intend to issue any preferred shares, we cannot assure you that we will not do so in the future. No preferred shares are being issued or registered in this offering.

## **Warrants**

### ***Public Shareholders' Warrants***

Each whole warrant entitles the registered holder to purchase one ordinary share at a price of \$11.50 per share, subject to adjustment as discussed below, at any time commencing on the later of 12 months from the closing of this offering or 30 days after the completion of our initial business combination. Pursuant to the warrant agreement, a warrant holder may exercise its warrants only for a whole number of ordinary shares. This means only a whole warrant may be exercised at a given time by a warrant holder. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least two units, you will not be able to receive or trade a whole warrant. The warrants will expire five years after the completion of our initial business combination, at 5:00 p.m., New York City time, or earlier upon redemption or liquidation.

We will not be obligated to deliver any ordinary shares pursuant to the exercise of a warrant and will have no obligation to settle such warrant exercise unless a registration statement under the

## [Table of Contents](#)

Securities Act covering the issuance of the ordinary shares issuable upon exercise of the warrants is then effective and a current prospectus relating thereto is current, subject to our satisfying our obligations described below with respect to registration. No warrant will be exercisable for cash or on a cashless basis, and we will not be obligated to issue any shares to holders seeking to exercise their warrants, unless the issuance of the shares upon such exercise is registered or qualified under the securities laws of the state of the exercising holder, or an exemption is available. In the event that the conditions in the two immediately preceding sentences are not satisfied with respect to a warrant, the holder of such warrant will not be entitled to exercise such warrant and such warrant may have no value and expire worthless. In the event that a registration statement is not effective for the exercised warrants, the purchaser of a unit containing such warrant will have paid the full purchase price for the unit solely for the ordinary share underlying such unit.

We have agreed that as soon as practicable, but in no event later than 15 business days, after the closing of our initial business combination, we will use our best efforts to file with the SEC a registration statement registering the issuance, under the Securities Act, of the ordinary shares issuable upon exercise of the warrants. We will use our best efforts to cause the same to become effective and to maintain the effectiveness of such registration statement, and a current prospectus relating thereto, until the expiration of the warrants in accordance with the provisions of the warrant agreement. Notwithstanding the above, if our ordinary shares are, at the time of any exercise of a warrant, not listed on a national securities exchange such that it satisfies the definition of a "covered security" under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement, but will use our best efforts to qualify the shares under applicable blue sky laws to the extent an exemption is not available.

Once the warrants become exercisable, we may call the warrants for redemption:

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon not less than 30 days' prior written notice of redemption (the "30-day redemption period") to each warrant holder; and
- if, and only if, the last reported sale price of the ordinary shares equals or exceeds \$18.00 per share (as adjusted for share splits, share dividends, rights issuances, subdivisions, reorganizations, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date we send the notice of redemption to the warrant holders.

If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws.

We have established the last of the redemption criterion discussed above to prevent a redemption call unless there is at the time of the call a significant premium to the warrant exercise price. If the foregoing conditions are satisfied and we issue a notice of redemption of the warrants, each warrant holder will be entitled to exercise his, her or its warrant prior to the scheduled redemption date. However, the price of the ordinary shares may fall below the \$18.00 redemption trigger price as well as the \$11.50 warrant exercise price after the redemption notice is issued.

If we call the warrants for redemption as described above, our management will have the option to require any holder that wishes to exercise his, her or its warrant to do so on a "cashless basis." In determining whether to require all holders to exercise their warrants on a "cashless basis," our management will consider, among other factors, our cash position, the number of warrants that are outstanding and the dilutive effect on our shareholders of issuing the maximum number of ordinary shares issuable upon the exercise of our warrants. If our management takes advantage of this option, all holders of warrants would pay the exercise price by surrendering their warrants for that number of

## [Table of Contents](#)

ordinary shares equal to the quotient obtained by dividing (x) the product of the number of ordinary shares underlying the warrants, multiplied by the excess of the "fair market value" (defined below) over the exercise price of the warrants by (y) the fair market value. The "fair market value" shall mean the average last reported sale price of the ordinary shares for the 10 trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of warrants. If our management takes advantage of this option, the notice of redemption will contain the information necessary to calculate the number of ordinary shares to be received upon exercise of the warrants, including the "fair market value" in such case. Requiring a cashless exercise in this manner will reduce the number of shares to be issued and thereby lessen the dilutive effect of a warrant redemption. We believe this feature is an attractive option to us if we do not need the cash from the exercise of the warrants after our initial business combination. If we call our warrants for redemption and our management does not take advantage of this option, our sponsor and its permitted transferees would still be entitled to exercise their private placement warrants for cash or on a cashless basis using the same formula described above that other warrant holders would have been required to use had all warrant holders been required to exercise their warrants on a cashless basis, as described in more detail below.

A holder of a warrant may notify us in writing in the event it elects to be subject to a requirement that such holder will not have the right to exercise such warrant, to the extent that after giving effect to such exercise, such person (together with such person's affiliates), to the warrant agent's actual knowledge, would beneficially own in excess of 9.8% (or such other amount as a holder may specify) of the ordinary shares issued and outstanding immediately after giving effect to such exercise.

If the number of issued and outstanding ordinary shares is increased by a capitalization or share dividend payable in ordinary shares, or by a split-up of ordinary shares or other similar event, then, on the effective date of such share dividend, split-up or similar event, the number of ordinary shares issuable on exercise of each warrant will be increased in proportion to such increase in the issued and outstanding ordinary shares. A rights offering to holders of ordinary shares entitling holders to purchase ordinary shares at a price less than the fair market value will be deemed a share dividend of a number of ordinary shares equal to the product of (1) the number of ordinary shares actually sold in such rights offering (or issuable under any other equity securities sold in such rights offering that are convertible into or exercisable for ordinary shares) multiplied by (2) one minus the quotient of (x) the price per ordinary share paid in such rights offering divided by (y) the fair market value. For these purposes (1) if the rights offering is for securities convertible into or exercisable for ordinary shares, in determining the price payable for ordinary shares, there will be taken into account any consideration received for such rights, as well as any additional amount payable upon exercise or conversion and (2) fair market value means the volume weighted average price of ordinary shares as reported during the 10 trading day period ending on the trading day prior to the first date on which the ordinary shares trade on the applicable exchange or in the applicable market, regular way, without the right to receive such rights.

In addition, if we, at any time while the warrants are outstanding and unexpired, pay a dividend or make a distribution in cash, securities or other assets to the holders of ordinary shares on account of such ordinary shares (or other ordinary shares into which the warrants are convertible), other than (a) as described above, (b) certain ordinary cash dividends, (c) to satisfy the redemption rights of the holders of ordinary shares in connection with a proposed initial business combination, (d) to satisfy the redemption rights of the holders of ordinary shares in connection with a shareholder vote to amend our amended and restated memorandum and articles of association (i) to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (ii) with respect to any other provision relating to shareholders' rights or pre-initial business combination activity, or (e) in connection with the redemption of our public shares upon our failure to complete our initial business combination, then the warrant exercise price will be decreased, effective immediately after the effective

[Table of Contents](#)

date of such event, by the amount of cash and/or the fair market value of any securities or other assets paid on each ordinary share in respect of such event.

If the number of issued and outstanding ordinary shares is decreased by a consolidation, combination, reverse share split or reclassification of ordinary shares or other similar event, then, on the effective date of such consolidation, combination, reverse share split, reclassification or similar event, the number of ordinary shares issuable on exercise of each warrant will be decreased in proportion to such decrease in issued and outstanding ordinary shares.

Whenever the number of ordinary shares purchasable upon the exercise of the warrants is adjusted, as described above, the warrant exercise price will be adjusted by multiplying the warrant exercise price immediately prior to such adjustment by a fraction (x) the numerator of which will be the number of ordinary shares purchasable upon the exercise of the warrants immediately prior to such adjustment, and (y) the denominator of which will be the number of ordinary shares so purchasable immediately thereafter.

In addition, if (x) we issue additional ordinary shares or equity-linked securities for capital raising purposes in connection with the closing of our initial business combination at a Newly Issued Price of less than \$9.20 per ordinary share (with such issue price or effective issue price to be determined in good faith by our board of directors and, in the case of any such issuance to our sponsor or its affiliates, without taking into account any founder shares held by our sponsor or such affiliates, as applicable, prior to such issuance), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of our initial business combination on the date of the consummation of our initial business combination (net of redemptions), and (z) the Market Value is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger price described above will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price.

In case of any reclassification or reorganization of the issued and outstanding ordinary shares (other than those described above or that solely affects the par value of such ordinary shares), or in the case of any merger or consolidation of us with or into another corporation (other than a consolidation or merger in which we are the continuing corporation and that does not result in any reclassification or reorganization of our issued and outstanding ordinary shares), or in the case of any sale or conveyance to another corporation or entity of the assets or other property of us as an entirety or substantially as an entirety in connection with which we are dissolved, the holders of the warrants will thereafter have the right to purchase and receive, upon the basis and upon the terms and conditions specified in the warrants and in lieu of our ordinary shares immediately theretofore purchasable and receivable upon the exercise of the rights represented thereby, the kind and amount of shares of stock or other securities or property (including cash) receivable upon such reclassification, reorganization, merger or consolidation, or upon a dissolution following any such sale or transfer, that the holder of the warrants would have received if such holder had exercised their warrants immediately prior to such event. However, if such holders were entitled to exercise a right of election as to the kind or amount of securities, cash or other assets receivable upon such consolidation or merger, then the kind and amount of securities, cash or other assets for which each warrant will become exercisable will be deemed to be the weighted average of the kind and amount received per share by such holders in such consolidation or merger that affirmatively make such election, and if a tender, exchange or redemption offer has been made to and accepted by such holders (other than a tender, exchange or redemption offer made by the company in connection with redemption rights held by shareholders of the company as provided for in the company's amended and restated memorandum and articles of association or as a result of the redemption of ordinary shares by the company if a proposed initial business combination is presented to the shareholders of the company for approval) under circumstances in which, upon completion of such tender or exchange offer, the maker thereof, together with members of any group (within the meaning of Rule 13d-5(b)(1) under the Exchange Act) of which such maker is a part, and

## [Table of Contents](#)

together with any affiliate or associate of such maker (within the meaning of Rule 12b-2 under the Exchange Act) and any members of any such group of which any such affiliate or associate is a part, own beneficially (within the meaning of Rule 13d-3 under the Exchange Act) more than 50% of the issued and outstanding ordinary shares, the holder of a warrant will be entitled to receive the highest amount of cash, securities or other property to which such holder would actually have been entitled as a shareholder if such warrant holder had exercised the warrant prior to the expiration of such tender or exchange offer, accepted such offer and all of the ordinary shares held by such holder had been purchased pursuant to such tender or exchange offer, subject to adjustment (from and after the consummation of such tender or exchange offer) as nearly equivalent as possible to the adjustments provided for in the warrant agreement. Additionally, if less than 70% of the consideration receivable by the holders of ordinary shares in such a transaction is payable in the form of ordinary shares in the successor entity that is listed for trading on a national securities exchange or is quoted in an established over-the-counter market, or is to be so listed for trading or quoted immediately following such event, and if the registered holder of the warrant properly exercises the warrant within 30 days following public disclosure of such transaction, the warrant exercise price will be reduced as specified in the warrant agreement based on the per share consideration minus Black-Scholes Warrant Value (as defined in the warrant agreement) of the warrant.

The warrants will be issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. You should review a copy of the warrant agreement, which will be filed as an exhibit to the registration statement of which this prospectus is a part, for a complete description of the terms and conditions applicable to the warrants. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least 65% of the then issued and outstanding public warrants to make any change that adversely affects the interests of the registered holders of public warrants.

The warrants may be exercised upon surrender of the warrant certificate on or prior to the expiration date at the offices of the warrant agent, with the exercise form on the reverse side of the warrant certificate completed and executed as indicated, accompanied by full payment of the exercise price (or on a cashless basis, if applicable), by certified or official bank check payable to us, for the number of warrants being exercised. The warrant holders do not have the rights or privileges of holders of ordinary shares and any voting rights until they exercise their warrants and receive ordinary shares. After the issuance of ordinary shares upon exercise of the warrants, each holder will be entitled to one vote for each share held of record on all matters to be voted on by shareholders.

No fractional warrants will be issued upon separation of the units and only whole warrants will trade.

### ***Private Placement Warrants***

The private placement warrants (including the ordinary shares issuable upon exercise of the private placement warrants) will not be transferable, assignable or salable until 30 days after the completion of our initial business combination (except, among other limited exceptions as described under "Principal Shareholders—Transfers of Founder Shares and Private Placement Warrants," to our officers and directors and other persons or entities affiliated with our sponsor) and they will not be redeemable by us so long as they are held by our sponsor or its permitted transferees. Otherwise, the private placement warrants have terms and provisions that are identical to those of the warrants being sold as part of the units in this offering. If the private placement warrants are held by holders other than our sponsor or its permitted transferees, the private placement warrants will be redeemable by us and exercisable by the holders on the same basis as the warrants included in the units being sold in this offering.

If holders of the private placement warrants elect to exercise them on a cashless basis, they would pay the exercise price by surrendering his, her or its warrants for that number of ordinary shares equal

## [Table of Contents](#)

to the quotient obtained by dividing (x) the product of the number of ordinary shares underlying the warrants, multiplied by the excess of the "fair market value" (defined below) over the exercise price of the warrants by (y) the fair market value. The "fair market value" shall mean the average last reported sale price of the ordinary shares for the 10 trading days ending on the third trading day prior to the date on which the notice of warrant exercise is sent to the warrant agent. The reason that we have agreed that these warrants will be exercisable on a cashless basis so long as they are held by our sponsor and its permitted transferees is because it is not known at this time whether they will be affiliated with us following a business combination. If they remain affiliated with us, their ability to sell our securities in the open market will be significantly limited. We expect to have policies in place that prohibit insiders from selling our securities except during specific periods of time. Even during such periods of time when insiders will be permitted to sell our securities, an insider cannot trade in our securities if he or she is in possession of material non-public information. Accordingly, unlike public shareholders who could exercise their warrants and sell the ordinary shares received upon such exercise freely in the open market in order to recoup the cost of such exercise, the insiders could be significantly restricted from selling such securities. As a result, we believe that allowing the holders to exercise such warrants on a cashless basis is appropriate.

### **Dividends**

We have not paid any cash dividends on our ordinary shares to date and do not intend to pay cash dividends prior to the completion of a business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of a business combination. The payment of any cash dividends subsequent to a business combination will be within the discretion of our board of directors at such time. In addition, our board of directors is not currently contemplating and does not anticipate declaring any share dividends in the foreseeable future, except if we increase the size of this offering, in which case we will effect a share dividend with respect to our ordinary shares immediately prior to the consummation of this offering in such amount as to maintain the ownership of founder shares by our initial shareholders prior to this offering at 20% of our issued and outstanding ordinary shares upon the consummation of this offering (excluding the ordinary shares underlying the units that affiliates of our sponsor will purchase in this offering and assuming our initial shareholders do not purchase any other units in this offering). Further, if we incur any indebtedness, our ability to declare dividends may be limited by restrictive covenants we may agree to in connection therewith.

### **Our Transfer Agent and Warrant Agent**

The transfer agent for our ordinary shares and warrant agent for our warrants is Continental Stock Transfer & Trust Company. We have agreed to indemnify Continental Stock Transfer & Trust Company in its roles as transfer agent and warrant agent, its agents and each of its shareholders, directors, officers and employees against all liabilities, including judgments, costs and reasonable counsel fees that may arise out of acts performed or omitted for its activities in that capacity, except for any liability due to any gross negligence, willful misconduct or bad faith of the indemnified person or entity.

### **Certain Differences in Corporate Law**

Cayman Islands companies are governed by the Companies Law. The Companies Law is modeled on English Law but does not follow recent English Law statutory enactments and differs from laws applicable to United States corporations and their shareholders. Set forth below is a summary of the material differences between the provisions of the Companies Law applicable to us and the laws applicable to companies incorporated in the United States and their shareholders.

*Mergers and Similar Arrangements.* In certain circumstances, the Companies Law allows for mergers or consolidations between two Cayman Islands companies, or between a Cayman Islands exempted company and a company incorporated in another jurisdiction (provided that is facilitated by the laws of that other jurisdiction).

Where the merger or consolidation is between two Cayman Islands companies, the directors of each company must approve a written plan of merger or consolidation containing certain prescribed information. That plan of merger or consolidation must then be authorized by (a) a special resolution (at least a majority of 66<sup>2</sup>/<sub>3</sub>% in value who attend and vote at a general meeting) of the shareholders of each company; and (b) such other authorization, if any, as may be specified in such constituent company's articles of association. No shareholder resolution is required for a merger between a parent company (i.e., a company that owns at least 90% of the issued shares of each class in a subsidiary company) and its subsidiary company. The consent of each holder of a fixed or floating security interest of a constituent company must be obtained, unless the court waives such requirement. If the Cayman Islands Registrar of Companies is satisfied that the requirements of the Companies Law (which includes certain other formalities) have been complied with, the Registrar of Companies will register the plan of merger or consolidation.

Where the merger or consolidation involves a foreign company, the procedure is similar, save that with respect to the foreign company, the directors of the Cayman Islands exempted company are required to make a declaration to the effect that, having made due enquiry, they are of the opinion that the requirements set out below have been met: (1) that the merger or consolidation is permitted or not prohibited by the constitutional documents of the foreign company and by the laws of the jurisdiction in which the foreign company is incorporated, and that those laws and any requirements of those constitutional documents have been or will be complied with; (2) that no petition or other similar proceeding has been filed and remains outstanding or order made or resolution adopted to wind up or liquidate the foreign company in any jurisdictions; (3) that no receiver, trustee, administrator or other similar person has been appointed in any jurisdiction and is acting in respect of the foreign company, its affairs or its property or any part thereof; and (4) that no scheme, order, compromise or other similar arrangement has been entered into or made in any jurisdiction whereby the rights of creditors of the foreign company are and continue to be suspended or restricted; and (5) there is no other reason why it would be against the public interest to permit the merger or consolidation.

Where the surviving company is the Cayman Islands exempted company, the directors of the Cayman Islands exempted company are further required to make a declaration to the effect that, having made due enquiry, they are of the opinion that the requirements set out below have been met: (1) that the foreign company is able to pay its debts as they fall due and that the merger or consolidated is bona fide and not intended to defraud unsecured creditors of the foreign company; (2) that in respect of the transfer of any security interest granted by the foreign company to the surviving or consolidated company (a) consent or approval to the transfer has been obtained, released or waived; (b) the transfer is permitted by and has been approved in accordance with the constitutional documents of the foreign company; and (c) the laws of the jurisdiction of the foreign company with respect to the transfer have been or will be complied with; and (3) that the foreign company will, upon the merger or consolidation becoming effective, cease to be incorporated, registered or exist under the laws of the relevant foreign jurisdiction.

The Companies Law provides for a right of dissenting shareholders to be paid a payment of the fair value of his or her shares upon their dissenting to the merger or consolidation in certain circumstances if they follow a prescribed procedure. In essence, where such rights apply, that procedure is as follows: (a) the shareholder must give his or her written objection to the merger or consolidation to the constituent company before the vote on the merger or consolidation, including a statement that the shareholder proposes to demand payment for his or her shares if the merger or consolidation is authorized by the vote; (b) within 20 days following the date on which the merger or consolidation is approved by the shareholders, the constituent company must give written notice to each shareholder who made a written objection; (c) a shareholder must within 20 days following receipt of such notice from the constituent company, give the constituent company a written notice of his or her intention to dissent including, among other details, a demand for payment of the fair value of his or her shares; (d) within seven days following the date of the expiration of the period set out in paragraph (b) above

## [Table of Contents](#)

or seven days following the date on which the plan of merger or consolidation is filed, whichever is later, the constituent company, the surviving company or the consolidated company must make a written offer to each dissenting shareholder to purchase his or her shares at a price that the company determines is the fair value and if the company and the shareholder agrees to the price within 30 days following the date on which the offer was made, the company must pay the shareholder such amount; and (e) if the company and the shareholder fails to agree to a price within such 30-day period, within 20 days following the date on which such 30-day period expires, the company (and any dissenting shareholder) must file a petition with the Cayman Islands Grand Court to determine the fair value and such petition must be accompanied by a list of the names and addresses of the dissenting shareholders with whom agreements as to the fair value of their shares have not been reached by the company. At the hearing of that petition, the court has the power to determine the fair value of the shares together with a fair rate of interest, if any, to be paid by the company upon the amount determined to be the fair value. Any dissenting shareholder whose name appears on the list filed by the company may participate fully in all proceedings until the determination of fair value is reached. These rights of a dissenting shareholder are not to be available in certain circumstances, for example, to dissenters holding shares of any class in respect of which an open market exists on a recognized stock exchange or recognized interdealer quotation system at the relevant date or where the consideration for such shares to be contributed are shares of any company listed on a national securities exchange or shares of the surviving or consolidated company, or in the context of a parent and subsidiary merger.

Moreover, Cayman Islands law also has separate statutory provisions that facilitate the reconstruction or amalgamation of companies in certain circumstances, such schemes of arrangement will generally be more suited for complex mergers or other transactions involving widely held companies, commonly referred to in the Cayman Islands as a "scheme of arrangement" which may be tantamount to a merger. In the event that a merger was sought pursuant to a scheme of arrangement (the procedures of which are more rigorous and take longer to complete than the procedures typically required to consummate a merger in the United States), the arrangement in question must be approved by a majority in number of each class of shareholders and creditors with whom the arrangement is to be made and who must in addition represent three-fourths in value of each such class of shareholders or creditors, as the case may be, that are present and voting either in person or by proxy at a meeting, or meeting summoned for that purpose. The convening of the meetings and subsequently the terms of the arrangement must be sanctioned by the Grand Court of the Cayman Islands. While a dissenting shareholder would have the right to express to the court the view that the transaction should not be approved, the court can be expected to approve the arrangement if it is satisfied that:

- we are not proposing to act illegally or beyond the scope of our corporate authority and we have complied with the statutory provisions as to majority vote;
- the shareholders have been fairly represented at the meeting in question;
- the arrangement is such as a business-person would reasonably approve; and
- the arrangement is not one that would more properly be sanctioned under some other provision of the Companies Law or that would amount to a "fraud on the minority."

If a scheme of arrangement or takeover offer (as described below) is approved, any dissenting shareholder would have no rights comparable to appraisal rights, which would otherwise ordinarily be available to dissenting shareholders of U.S. corporations, providing rights to receive payment in cash for the judicially determined value of the shares.

*Squeeze-out Provisions.* When a takeover offer is made and accepted by holders of 90% of the shares to whom the offer relates within four months, the offeror may, within a two-month period, require the holders of the remaining shares to transfer such shares on the terms of the offer. An objection can be made to the Grand Court of the Cayman Islands, but this is unlikely to succeed unless there is evidence of fraud, bad faith, collusion or inequitable treatment of the shareholders.

## [Table of Contents](#)

Further, transactions similar to a merger, reconstruction and/or an amalgamation may in some circumstances be achieved through other means to these statutory provisions, such as a share capital exchange, asset acquisition or control, through contractual arrangements, of an operating business.

*Shareholders' Suits.* Our Cayman Islands counsel is not aware of any reported class action having been brought in a Cayman Islands court. Derivative actions have been brought in the Cayman Islands courts, and the Cayman Islands courts have confirmed the availability of such actions. In most cases, we will be the proper plaintiff in any claim based on a breach of duty owed to us, and a claim against (for example) our officers or directors usually may not be brought by a shareholder. However, based both on Cayman Islands authorities and on English authorities, which would in all likelihood be of persuasive authority and applied by a court in the Cayman Islands, exceptions to the foregoing principle apply in circumstances in which:

- a company is acting, or proposing to act, illegally or beyond the scope of its authority;
- the act complained of, although not beyond the scope of the authority, could be effected if duly authorized by more than the number of votes that have actually been obtained; or
- those who control the company are perpetrating a "fraud on the minority."

A shareholder may have a direct right of action against us where the individual rights of that shareholder have been infringed or are about to be infringed.

*Enforcement of Civil Liabilities.* The Cayman Islands has a different body of securities laws as compared to the United States and provides less protection to investors. Additionally, Cayman Islands companies may not have standing to sue before the federal courts of the United States.

We have been advised by our Cayman Islands legal counsel that the courts of the Cayman Islands are unlikely (1) to recognize or enforce against us judgments of courts of the United States predicated upon the civil liability provisions of the federal securities laws of the United States or any state and (2) in original actions brought in the Cayman Islands, to impose liabilities against us predicated upon the civil liability provisions of the federal securities laws of the United States or any state, so far as the liabilities imposed by those provisions are penal in nature. In those circumstances, although there is no statutory enforcement in the Cayman Islands of judgments obtained in the United States, the courts of the Cayman Islands will recognize and enforce a foreign money judgment of a foreign court of competent jurisdiction without retrial on the merits based on the principle that a judgment of a competent foreign court imposes upon the judgment debtor an obligation to pay the sum for which judgment has been given provided certain conditions are met. For a foreign judgment to be enforced in the Cayman Islands, such judgment must be final and conclusive and for a liquidated sum, and must not be in respect of taxes or a fine or penalty, inconsistent with a Cayman Islands judgment in respect of the same matter, impeachable on the grounds of fraud or obtained in a manner, and or be of a kind the enforcement of which is, contrary to natural justice or the public policy of the Cayman Islands (awards of punitive or multiple damages may well be held to be contrary to public policy). A Cayman Islands Court may stay enforcement proceedings if concurrent proceedings are being brought elsewhere.

*Special Considerations for Exempted Companies.* We are an exempted company with limited liability (meaning our public shareholders have no liability, as members of the Company, for liabilities of the Company over and above the amount paid for their shares) under the Companies Law. The Companies Law distinguishes between ordinary resident companies and exempted companies. Any company that is registered in the Cayman Islands but conducts business mainly outside of the Cayman Islands may apply to be registered as an exempted company. The requirements for an exempted

## [Table of Contents](#)

company are essentially the same as for an ordinary company except for the exemptions and privileges listed below:

- annual reporting requirements are minimal and consist mainly of a statement that the company has conducted its operations mainly outside of the Cayman Islands and has complied with the provisions of the Companies Law;
- an exempted company's register of members is not open to inspection;
- an exempted company does not have to hold an annual general meeting;
- an exempted company may issue negotiable or bearer shares or shares with no par value;
- an exempted company may obtain an undertaking against the imposition of any future taxation (such undertakings are usually given for 30 years in the first instance);
- an exempted company may register by way of continuation in another jurisdiction and be deregistered in the Cayman Islands;
- an exempted company may register as a limited duration company; and
- an exempted company may register as a segregated portfolio company.

### **Our Amended and Restated Memorandum and Articles of Association**

Our amended and restated memorandum and articles of association will contain certain requirements and restrictions relating to this offering that will apply to us until the completion of our initial business combination. These provisions cannot be amended without a special resolution. As a matter of Cayman Islands law, a resolution is deemed to be a special resolution where it has been approved by either (1) at least two-thirds (or any higher threshold specified in a company's articles of association) of a company's shareholders at a general meeting for which notice specifying the intention to propose the resolution as a special resolution has been given or (2) if so authorized by a company's articles of association, by a unanimous written resolution of all of the company's shareholders. Our amended and restated memorandum and articles of association will provide that special resolutions must be approved either by at least two-thirds of our shareholders who attend and vote at a shareholders meeting (i.e., the lowest threshold permissible under Cayman Islands law), or by a unanimous written resolution of all of our shareholders.

Our initial shareholders, who collectively will beneficially own 20% of our ordinary shares upon the closing of this offering (excluding the ordinary shares underlying the units that affiliates of our sponsor will purchase in this offering and assuming our initial shareholders do not purchase any other units in this offering), may participate in any vote to amend our amended and restated memorandum and articles of association and will have the discretion to vote in any manner they choose. Specifically, our amended and restated memorandum and articles of association will provide, among other things, that:

- if we are unable to complete our initial business combination within 24 months from the closing of this offering, we will: (1) cease all operations except for the purpose of winding up; (2) as promptly as reasonably possible but not more than 10 business days thereafter, subject to lawfully available funds therefor, redeem 100% of the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (less up to \$100,000 of interest to pay dissolution expenses and which interest shall be net of taxes payable), divided by the number of then issued and outstanding public shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidating distributions, if any), subject to applicable law; and (3) as promptly as reasonably possible following such redemption, subject to the approval of our remaining shareholders and our board of directors, dissolve and liquidate;

## [Table of Contents](#)

- prior to our initial business combination, we may not issue additional ordinary shares that would entitle the holders thereof to (1) receive funds from the trust account or (2) vote on any initial business combination;
- although we do not intend to enter into a business combination with a target business that is affiliated with our sponsor, our directors or our officers, we are not prohibited from doing so. In the event we enter into such a transaction, we, or a committee of independent and disinterested directors, will obtain an opinion from an independent investment banking firm that is a member of FINRA, or from an independent accounting firm, that such a business combination is fair to our company from a financial point of view;
- if a shareholder vote on our initial business combination is not required by law and we do not decide to hold a shareholder vote for business or other reasons, we will offer to redeem our public shares pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, and will file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about our initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act;
- our initial business combination must be with one or more operating businesses or assets with a fair market value equal to at least 80% of the net assets held in trust (net of taxes payable and excluding the amount of any deferred underwriting discount held in trust);
- if our shareholders approve an amendment to our amended and restated memorandum and articles of association (a) that would modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (b) with respect to any other provision relating to shareholders' rights or pre-initial business combination activity, we will provide our public shareholders with the opportunity to redeem all or a portion of their ordinary shares upon such approval at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable), divided by the number of then issued and outstanding public shares; and
- we will not effectuate our initial business combination with another blank check company or a similar company with nominal operations.

In addition, our amended and restated memorandum and articles of association will provide that under no circumstances will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001.

The Companies Law permits a company incorporated in the Cayman Islands to amend its memorandum and articles of association with the approval of the holders of at least two-thirds of such company's issued and outstanding ordinary shares. A company's articles of association may specify that the approval of a higher majority is required. Accordingly, although we could amend any of the provisions relating to our proposed offering, structure and business plan which are contained in our amended and restated memorandum and articles of association, we view all of these provisions as binding obligations to our shareholders and neither we, nor our officers or directors, will take any action to amend or waive any of these provisions unless we provide dissenting public shareholders with the opportunity to redeem their public shares.

### **Anti-Money Laundering—Cayman Islands**

In order to comply with legislation or regulations aimed at the prevention of money laundering, we are required to adopt and maintain anti-money laundering procedures and may require subscribers to provide evidence to verify their identity and source of funds. Where permitted, and subject to certain

## [Table of Contents](#)

conditions, we may also delegate the maintenance of our anti-money laundering procedures (including the acquisition of due diligence information) to a suitable person.

We reserve the right to request such information as is necessary to verify the identity of a subscriber. In some cases, the directors may be satisfied that no further information is required since an exemption applies under the Money Laundering Regulations (2015 Revision) of the Cayman Islands, as amended and revised from time to time (the "Regulations"). Depending on the circumstances of each application, a detailed verification of identity might not be required where:

- (1) the applicant is a relevant financial business required to comply with the Regulations or is a majority-owned subsidiary of such a business; or
- (2) the applicant is acting in the course of a business in relation to which a regulatory authority exercises regulatory functions and which is in a country listed by the Cayman Islands Anti-Money Laundering Steering Committee ("Equivalent Jurisdiction") or is a majority-owned subsidiary of such an applicant; or
- (3) the applicant is a central or local government organization, statutory body or agency of government in the Cayman Islands or an Equivalent Jurisdiction; or
- (4) the applicant is a company that is listed on a recognized stock exchange and subject to disclosure requirements which impose requirements to ensure adequate transparency of beneficial ownership, or is a majority-owned subsidiary of such a company; or
- (5) the applicant is a pension fund for a professional association, trade union or is acting on behalf of employees of an entity referred to in sub-paragraphs (1) to (4); or
- (6) the application is made through an intermediary which falls within one of sub-paragraphs (1) to (5). In this situation the company may rely on a written assurance from the intermediary which confirms (i) that the requisite identification and verification procedures on the applicant for business and its beneficial owners have been carried out; (ii) the nature and intended purpose of the business relationship; (iii) that the intermediary has identified the source of funds of the applicant for business; and (iv) that the intermediary shall make available copies of any identification and verification data or information and relevant documents.

For the purposes of these exceptions, recognition of a financial institution, regulatory authority or jurisdiction will be determined in accordance with the Regulations by reference to those jurisdictions recognized by the Cayman Islands Monetary Authority as having equivalent anti-money laundering regulations.

In the event of delay or failure on the part of the subscriber in producing any information required for verification purposes, we may refuse to accept the application, in which case any funds received will be returned without interest to the account from which they were originally debited.

We also reserve the right to refuse to make any payment to a shareholder if our directors or officers suspect or are advised that the payment to such shareholder might result in a breach of applicable anti-money laundering or other laws or regulations by any person in any relevant jurisdiction, or if such refusal is considered necessary or appropriate to ensure our compliance with any such laws or regulations in any applicable jurisdiction.

If any person resident in the Cayman Islands knows or suspects or has reasonable grounds for knowing or suspecting that another person is engaged in criminal conduct or is involved with terrorism or terrorist property and the information for that knowledge or suspicion came to their attention in the course of business in the regulated sector, or other trade, profession, business or employment, the person will be required to report such knowledge or suspicion to (1) the Financial Reporting Authority of the Cayman Islands, pursuant to the Proceeds of Crime Law (2017 Revision) of the Cayman Islands if the disclosure relates to criminal conduct or money laundering or (2) a police officer of the rank of

## [Table of Contents](#)

constable or higher, or the Financial Reporting Authority, pursuant to the Terrorism Law (2017 Revision) of the Cayman Islands, if the disclosure relates to involvement with terrorism or terrorist financing and property. Such a report shall not be treated as a breach of confidence or of any restriction upon the disclosure of information imposed by any enactment or otherwise.

### **Certain Anti-Takeover Provisions of Our Amended and Restated Memorandum and Articles of Association**

Our authorized but unissued ordinary shares and preferred shares are available for future issuances without shareholder approval and could be utilized for a variety of corporate purposes, including future offerings to raise additional capital, acquisitions and employee benefit plans. The existence of authorized but unissued and unreserved ordinary shares and preferred shares could render more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

### **Securities Eligible for Future Sale**

Immediately after this offering we will have 31,250,000 (or 35,937,500 if the underwriters' over-allotment option is exercised in full) ordinary shares issued and outstanding. Of these shares, the 25,000,000 ordinary shares (or 28,750,000 shares if the underwriters' over-allotment option is exercised in full) sold in this offering will be freely tradable without restriction or further registration under the Securities Act, except for any shares purchased by one of our affiliates within the meaning of Rule 144 under the Securities Act. All of the remaining 6,250,000 (or 7,187,500 if the underwriters' over-allotment option is exercised in full) founder shares and all 7,000,000 (or 7,750,000 if the underwriters' over-allotment option is exercised in full) private placement warrants are restricted securities under Rule 144, in that they were issued in private transactions not involving a public offering, and are subject to transfer restrictions as set forth elsewhere in this prospectus.

### **Rule 144**

Pursuant to Rule 144, a person who has beneficially owned restricted ordinary shares or warrants for at least six months would be entitled to sell their securities provided that (1) such person is not deemed to have been one of our affiliates at the time of, or at any time during the three months preceding, a sale and (2) we are subject to the Exchange Act periodic reporting requirements for at least three months before the sale and have filed all required reports under Section 13 or 15(d) of the Exchange Act during the 12 months (or such shorter period as we were required to file reports) preceding the sale.

Persons who have beneficially owned restricted ordinary shares or warrants for at least six months but who are our affiliates at the time of, or at any time during the three months preceding, a sale, would be subject to additional restrictions, by which such person would be entitled to sell within any three-month period only a number of securities that does not exceed the greater of:

- 1% of the total number of ordinary shares then issued and outstanding, which will equal 312,500 shares immediately after this offering (or 359,375 if the underwriters exercise their over-allotment option in full); or
- the average weekly reported trading volume of the ordinary shares during the four calendar weeks preceding the filing of a notice on Form 144 with respect to the sale.

Sales by our affiliates under Rule 144 are also limited by manner of sale provisions and notice requirements and to the availability of current public information about us.

### **Restrictions on the Use of Rule 144 by Shell Companies or Former Shell Companies**

Rule 144 is not available for the resale of securities initially issued by shell companies (other than business combination related shell companies) or issuers that have been at any time previously a shell company. However, Rule 144 also includes an important exception to this prohibition if the following conditions are met:

- the issuer of the securities that was formerly a shell company has ceased to be a shell company;
- the issuer of the securities is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act;
- the issuer of the securities has filed all Exchange Act reports and material required to be filed, as applicable, during the preceding 12 months (or such shorter period that the issuer was required to file such reports and materials), other than Current Reports on Form 8-K; and
- at least one year has elapsed from the time that the issuer filed current Form 10 type information with the SEC reflecting its status as an entity that is not a shell company.

As a result, our initial shareholders will be able to sell their founder shares and our sponsor will be able to sell its private placement warrants, pursuant to Rule 144 without registration, one year after we have completed our initial business combination.

### **Registration Rights**

The holders of the founder shares, private placement warrants and any warrants that may be issued on conversion of working capital loans (and any ordinary shares issuable upon the exercise of the private placement warrants or warrants issued upon conversion of the working capital loans) will be entitled to registration rights pursuant to a registration rights agreement to be signed prior to or on the effective date of this offering requiring us to register such securities for resale. The holders of these securities will be entitled to make up to three demands, excluding short form registration demands, that we register such securities. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to our completion of our initial business combination and rights to require us to register for resale such securities pursuant to Rule 415 under the Securities Act. However, the registration rights agreement provides that we will not permit any registration statement filed under the Securities Act to become effective until termination of the applicable lock-up period, which occurs (1) in the case of the founder shares, on the earlier of (A) one year after the completion of our initial business combination or (B) subsequent to our initial business combination, (x) if the last reported sale price of ordinary shares equals or exceeds \$12.00 per share (as adjusted for share splits, share dividends, rights issuances, subdivisions, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (y) the date following the completion of our initial business combination on which we complete a liquidation, merger, amalgamation, share exchange, reorganization or other similar transaction that results in all of our public shareholders having the right to exchange their ordinary shares for cash, securities or other property, and (2) in the case of the private placement warrants and the respective ordinary shares underlying such warrants, 30 days after the completion of our initial business combination. We will bear the expenses incurred in connection with the filing of any such registration statements.

### **Listing of Securities**

Our units have been approved for listing on the NYSE under the symbol "RPLA.U." We anticipate that the ordinary shares and warrants, once they begin separate trading, will be listed on the NYSE under the symbols "RPLA" and "RPLA WS," respectively.

## INCOME TAX CONSIDERATIONS

The following summary of certain Cayman Islands and U.S. federal income tax considerations relevant to an investment in our units, ordinary shares and warrants is based upon laws and relevant interpretations thereof in effect as of the date of this prospectus, all of which are subject to change. This summary does not deal with all possible tax consequences relating to an investment in our ordinary shares and warrants, such as the tax consequences under state, local and other tax laws.

Prospective investors should consult their professional advisors on the possible tax consequences of buying, holding or selling any securities under the laws of their country of citizenship, residence or domicile.

### Cayman Islands Taxation

The following is a discussion on certain Cayman Islands income tax consequences of an investment in our securities. The discussion is a general summary of present law, which is subject to prospective and retroactive change. It is not intended as tax advice, does not consider any investor's particular circumstances and does not consider tax consequences other than those arising under Cayman Islands law.

### Under Existing Cayman Islands Laws

Payments of dividends and capital in respect of our securities will not be subject to taxation in the Cayman Islands and no withholding will be required on the payment of a dividend or capital to any holder of the securities nor will gains derived from the disposal of the securities be subject to Cayman Islands income or corporation tax. The Cayman Islands currently have no income, corporation or capital gains tax and no estate duty, inheritance tax or gift tax.

No stamp duty is payable in respect of the issue of our securities or on an instrument of transfer in respect of our securities.

The Company has been incorporated under the laws of the Cayman Islands as an exempted company with limited liability and, as such, has applied for and expects to obtain an undertaking from the Financial Secretary of the Cayman Islands in the following form:

**The Tax Concessions Law  
(2018 Revision)  
Undertaking as to Tax Concessions**

In accordance with the provision of section 6 of The Tax Concessions Law (2018 Revision), the Financial Secretary undertakes with Replay Acquisition Corp. ("the Company").

1. That no law which is hereafter enacted in the Cayman Islands imposing any tax to be levied on profits, income, gains or appreciations shall apply to the Company or its operations; and
2. In addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax shall be payable:
  - 2.1 on or in respect of the shares, debentures or other obligations of the Company;OR
  - 2.2 by way of the withholding in whole or part, of any relevant payment as defined in Section 6(3) of the Tax Concessions Law (2018 Revision).
3. These concessions shall be for a period of 30 years from the date hereof.

## United States Federal Income Taxation

### General

The following discussion summarizes certain U.S. federal income tax considerations generally applicable to the acquisition, ownership and disposition of our units (each consisting of one ordinary share and one-half of one warrant) that are purchased in this offering by U.S. Holders (as defined below) and Non-U.S. Holders (as defined below). Because the components of a unit are generally separable at the option of the holder, the holder of a unit generally should be treated, for U.S. federal income tax purposes, as the owner of the underlying ordinary share and warrant components of the unit.

This discussion is limited to certain U.S. federal income tax considerations to beneficial owners of our securities who are initial purchasers of a unit pursuant to this offering and hold the unit and each component of the unit as a capital asset within the meaning of Section 1221 of the U.S. Internal Revenue Code of 1986, as amended (the "Code"). This discussion assumes that the ordinary shares and warrants will trade separately and that any distributions made (or deemed made) by us on our ordinary shares and any consideration received (or deemed received) by a holder in consideration for the sale or other disposition of our securities will be in U.S. dollars. This discussion is a summary only and does not consider all aspects of U.S. federal income taxation that may be relevant to the acquisition, ownership and disposition of a unit by a prospective investor in light of its particular circumstances, including:

- certain financial institutions or financial services entities;
- broker, dealers and traders in securities or foreign currencies;
- taxpayers that are subject to the mark-to-market accounting rules;
- tax-exempt entities;
- governments or agencies or instrumentalities thereof;
- insurance companies;
- regulated investment companies;
- real estate investment trusts;
- grantor trusts;
- persons liable for the alternative minimum tax;
- expatriates or former long-term residents of the United States;
- persons that actually or constructively own five percent or more of our shares;
- persons that acquired our securities pursuant to an exercise of employee share options, in connection with employee share incentive plans or otherwise as compensation or in connection with services;
- S-corporations, partnerships or other entities classified as partnerships for U.S. federal income tax purposes and any beneficial owners of such entities;
- persons that hold our securities as part of a straddle, constructive sale, hedging, conversion or other integrated or similar transaction; or
- U.S. Holders (as defined below) whose functional currency is not the U.S. dollar.

The discussion below is based upon the provisions of the Code, the Treasury regulations promulgated thereunder and administrative and judicial interpretations thereof, all as of the date hereof, and such provisions may be repealed, revoked, modified or subject to differing interpretations, possibly on a retroactive basis, so as to result in U.S. federal income tax considerations different from

[Table of Contents](#)

those discussed below. Furthermore, this discussion does not address any aspect of U.S. federal non-income tax laws, such as gift, estate or Medicare contribution tax laws, or state, local or non-U.S. tax laws.

We have not sought, and will not seek, a ruling from the IRS as to any U.S. federal income tax considerations described herein. The IRS may disagree with the discussion herein, and its determination may be upheld by a court. Moreover, there can be no assurance that future legislation, regulations, administrative rulings or court decisions will not adversely affect the accuracy of the statements in this discussion.

As used herein, the term "U.S. Holder" means a beneficial owner of units, ordinary shares or warrants who or that is for U.S. federal income tax purposes: (1) an individual citizen or resident of the United States; (2) a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) that is created or organized (or treated as created or organized) in or under the laws of the United States, any state thereof or the District of Columbia; (3) an estate the income of which is subject to U.S. federal income taxation regardless of its source; or (4) a trust if (A) a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (B) it has in effect a valid election to be treated as a U.S. person.

This discussion does not consider the U.S. federal income tax treatment of partnerships or other pass-through entities or arrangements or persons who hold our securities through such entities or arrangements. If a partnership (or other entity or arrangement classified as a partnership for U.S. federal income tax purposes) is the beneficial owner of our securities, the U.S. federal income tax treatment of a partner in the partnership generally will depend on the status of the partner and the activities of the partner and the partnership. Partnerships holding our securities and partners in such partnerships are urged to consult their tax advisors.

**THIS DISCUSSION IS ONLY A SUMMARY OF THE U.S. FEDERAL INCOME TAX CONSIDERATIONS ASSOCIATED WITH THE ACQUISITION, OWNERSHIP AND DISPOSITION OF OUR SECURITIES. EACH PROSPECTIVE INVESTOR IN OUR SECURITIES IS URGED TO CONSULT ITS TAX ADVISOR WITH RESPECT TO THE PARTICULAR TAX CONSEQUENCES TO SUCH INVESTOR OF THE ACQUISITION, OWNERSHIP AND DISPOSITION OF OUR SECURITIES, INCLUDING THE APPLICABILITY AND EFFECT OF ANY STATE, LOCAL, AND NON-U.S. TAX LAWS, AS WELL AS U.S. FEDERAL TAX LAWS AND ANY APPLICABLE TAX TREATIES.**

*Allocation of Purchase Price and Characterization of a Unit*

There is no statutory, administrative or judicial authority directly addressing the treatment, for U.S. federal income tax purposes, of securities with terms substantially the same as the units, and, therefore, that treatment is not entirely clear. The acquisition of a unit should be treated for U.S. federal income tax purposes as the acquisition of one ordinary share and one-half of one warrant to acquire one ordinary share. We intend to treat the acquisition of a unit in this manner and, by purchasing a unit, you agree to adopt such treatment for U.S. federal income tax purposes. Each holder of a unit must allocate the purchase price paid by such holder for such unit between the ordinary share and the warrant that comprise the unit based on their respective relative fair market values at the time of issuance. A holder's initial tax basis in the ordinary share and the warrant included in each unit should equal the portion of the purchase price of the unit allocated thereto. Any disposition of a unit should be treated for U.S. federal income tax purposes as a disposition of the ordinary share and the one-half of one warrant comprising the unit, and the amount realized on the disposition should be allocated between the ordinary share and the one-half of one warrant based on their respective relative fair market values at the time of disposition. Neither the separation of the ordinary share and the one-half

## [Table of Contents](#)

of one warrant comprising a unit nor the combination of halves of warrants into a single warrant should be a taxable event for U.S. federal income tax purposes.

The foregoing treatment of our ordinary shares and warrants and a holder's purchase price allocation are not binding on the IRS or the courts. Because there are no authorities that directly address instruments that are similar to the units, no assurance can be given that the IRS or the courts will agree with the characterization described above or the discussion below. Accordingly, each prospective investor is urged to consult its tax advisor regarding the tax considerations of an investment in a unit (including alternative characterizations of a unit) and regarding an allocation of the purchase price among the ordinary share and the one-half of one warrant that comprise a unit. The balance of this discussion generally assumes that the characterization of the units described above is respected for U.S. federal income tax purposes.

### ***U.S. Holders***

#### *Taxation of Distributions Paid on Ordinary Shares*

Subject to the passive foreign investment company ("PFIC") rules discussed below, a U.S. Holder generally will be required to include in gross income as dividends the amount of any cash distribution paid on our ordinary shares. A cash distribution on such shares generally will be treated as a dividend for U.S. federal income tax purposes to the extent the distribution is paid out of our current or accumulated earnings and profits (as determined under U.S. federal income tax principles). Such dividends paid by us will be taxable to a corporate U.S. Holder at regular rates and will not be eligible for the dividends-received deduction generally allowed to domestic corporations in respect of dividends received from other domestic corporations.

Distributions in excess of such earnings and profits generally will be applied against and reduce the U.S. Holder's tax basis in its ordinary shares (but not below zero) and, to the extent in excess of such tax basis, will be treated as gain from the sale or exchange of such ordinary shares.

With respect to non-corporate U.S. Holders, under tax laws currently in effect, dividends generally will be taxed at the lower applicable long-term capital gains rate (see "—Taxation on the Disposition of Ordinary Shares and Warrants" below) only if our ordinary shares are readily tradable on an established securities market in the United States (which they will be if our stock is traded on the NYSE) and certain other requirements are met, including that we are not classified as a PFIC during the taxable year in which the dividend is paid or the preceding taxable year. U.S. Holders are urged to consult their tax advisors regarding the availability of the lower rate for any dividends paid with respect to our ordinary shares.

#### *Possible Constructive Distributions*

The terms of each warrant provide for an adjustment to the number of shares for which the warrant may be exercised or to the exercise price of the warrant in certain events, as described under "Description of Securities—Warrants." An adjustment which has the effect of preventing dilution generally is not taxable. However, the U.S. Holders of the warrants would be treated as receiving a constructive distribution from us if, for example, the adjustment increases the warrant holders' proportionate interest in our assets or earnings and profits (e.g., through an increase in the number of ordinary shares that would be obtained upon exercise) as a result of a distribution of cash to the holders of our ordinary shares which is taxable to the U.S. Holders of such ordinary shares as described under "—Taxation of Distributions Paid on Ordinary Shares" above. Such constructive distribution would be subject to tax as described under that section in the same manner as if the U.S. Holders of the warrants received a cash distribution from us equal to the fair market value of such increased interest.

*Taxation on the Disposition of Ordinary Shares and Warrants*

Subject to the PFIC rules discussed below, upon a sale or other taxable disposition of our ordinary shares or warrants which, in general, would include a redemption of ordinary shares as described below, and including as a result of a dissolution and liquidation in the event we do not consummate an initial business combination within the required time period, a U.S. Holder generally will recognize capital gain or loss. The amount of gain or loss recognized generally will be equal to the difference between (1) the sum of the amount of cash and the fair market value of any property received in such disposition (or, if the ordinary shares or warrants are held as part of units at the time of the disposition, the portion of the amount realized on such disposition that is allocated to the ordinary shares or warrants based upon the then fair market values of the ordinary shares and the warrants included in the units) and (2) the U.S. Holder's adjusted tax basis in its ordinary shares or warrants so disposed of. A U.S. Holder's adjusted tax basis in its ordinary shares or warrants generally will equal the U.S. Holder's acquisition cost (that is, the portion of the purchase price of a unit allocated to an ordinary share or one-half of one warrant, as described above under "—Allocation of Purchase Price and Characterization of a Unit") reduced by any prior distributions treated as a return of capital. See "—Acquisition of Ordinary Shares Pursuant to a Warrant" below for a discussion regarding a U.S. Holder's tax basis in an ordinary share acquired pursuant to a warrant.

Long-term capital gains recognized by non-corporate U.S. Holders are generally subject to U.S. federal income tax at a reduced rate of tax. Capital gain or loss will constitute long-term capital gain or loss if the U.S. Holder's holding period for the ordinary shares or warrants exceeds one year. It is unclear whether the redemption rights with respect to the ordinary shares described in this prospectus may prevent a U.S. Holder from satisfying the applicable holding period requirements for this purpose. The deductibility of capital losses is subject to various limitations.

*Redemption of Ordinary Shares*

Subject to the PFIC rules discussed below, if a U.S. Holder's ordinary shares are redeemed pursuant to the exercise of a shareholder redemption right or if we purchase a U.S. Holder's ordinary shares in an open market transaction (such open market transaction referred to as a "redemption" for the remainder of this discussion), for U.S. federal income tax purposes, such redemption will be subject to the following rules. If the redemption qualifies as a sale of the ordinary shares under Section 302 of the Code, the U.S. federal income tax treatment of such redemption will be as described under "—Taxation on the Disposition of Ordinary Shares and Warrants" above. Whether a redemption of our ordinary shares qualifies for sale treatment will depend largely on the total number of our ordinary shares treated as held by such U.S. Holder (including any shares constructively owned as a result of, among other things, owning warrants). The redemption of ordinary shares generally will be treated as a sale or exchange of the ordinary shares (rather than as a distribution) if the receipt of cash upon the redemption (1) is "substantially disproportionate" with respect to a U.S. Holder, (2) results in a "complete termination" of such holder's interest in us or (3) is "not essentially equivalent to a dividend" with respect to such holder. These tests are explained more fully below.

In determining whether any of the foregoing tests are satisfied, a U.S. Holder must take into account not only our ordinary shares actually owned by such U.S. Holder, but also our ordinary shares that are constructively owned by such U.S. Holder. A U.S. Holder may constructively own, in addition to our ordinary shares owned directly, ordinary shares owned by related individuals and entities in which such U.S. Holder has an interest or that have an interest in such U.S. Holder, as well as any ordinary shares such U.S. Holder has a right to acquire by exercise of an option, which would generally include ordinary shares which could be acquired pursuant to the exercise of the warrants. In order to meet the substantially disproportionate test, the percentage of our outstanding voting shares actually and constructively owned by a U.S. Holder immediately following the redemption of our ordinary shares must, among other requirements, be less than 80% of the percentage of our outstanding voting

## [Table of Contents](#)

shares actually and constructively owned by such U.S. Holder immediately before the redemption. Prior to our initial business combination the ordinary shares may not be treated as voting shares for this purpose and, consequently, this substantially disproportionate test may not be applicable. There will be a complete termination of a U.S. Holder's interest if either (1) all of our ordinary shares actually and constructively owned by such U.S. Holder are redeemed or (2) all of our ordinary shares actually owned by such U.S. Holder are redeemed and such U.S. Holder is eligible to waive, and effectively waives, in accordance with specific rules, the attribution of shares owned by family members and such U.S. Holder does not constructively own any other shares. The redemption of the ordinary shares will not be essentially equivalent to a dividend if such redemption results in a "meaningful reduction" of a U.S. Holder's proportionate interest in us. Whether the redemption will result in a meaningful reduction in a U.S. Holder's proportionate interest in us will depend on the particular facts and circumstances. However, the IRS has indicated in a published ruling that even a small reduction in the proportionate interest of a small minority shareholder in a publicly held corporation who exercises no control over corporate affairs may constitute such a "meaningful reduction." U.S. Holders are urged to consult their tax advisors as to the tax considerations of an exercise of the redemption right.

If none of the foregoing tests are satisfied, then the redemption may be treated as a distribution and the tax effects will be as described under "—Taxation of Distributions Paid on Ordinary Shares," above. After the application of those rules, any remaining tax basis a U.S. Holder has in the redeemed ordinary shares will be added to the adjusted tax basis in such holder's remaining ordinary shares. If there are no remaining ordinary shares, a U.S. Holder is urged to consult its tax advisor as to the allocation of any remaining tax basis.

### *Acquisition of Ordinary Shares Pursuant to a Warrant*

Subject to the PFIC rules discussed below, a U.S. Holder generally will not recognize gain or loss upon the exercise of a warrant for cash. An ordinary share acquired pursuant to the exercise of a warrant for cash generally will have a tax basis equal to the U.S. Holder's tax basis in the warrant, increased by the amount paid to exercise the warrant. It is unclear whether a U.S. Holder's holding period for the ordinary share will commence on the date of exercise of the warrant or the day following the date of exercise of the warrant; in either case, the holding period will not include the period during which the U.S. Holder held the warrant. If a warrant is allowed to lapse unexercised, a U.S. Holder generally will recognize a capital loss equal to such holder's tax basis in the warrant.

The tax consequences of a cashless exercise of a warrant are not clear under current U.S. federal income tax law. A cashless exercise may be tax-free, either because the exercise is not a realization event or because the exercise is treated as a recapitalization for U.S. federal income tax purposes. In either tax-free situation, a U.S. Holder's tax basis in the ordinary shares received generally would equal the U.S. Holder's tax basis in the warrants. If the cashless exercise was tax-free due to not being a realization event (rather than due to being treated as a recapitalization), it is unclear whether a U.S. Holder's holding period for the ordinary shares would be treated as commencing on the date of exercise of the warrant or the day following the date of exercise of the warrant. If the cashless exercise was tax-free due to being treated as a recapitalization (rather than due to not being a realization event), the holding period of the ordinary shares would include the holding period of the warrants.

It is also possible that a cashless exercise could be treated as a taxable exchange in which gain or loss would be recognized. In such event, a U.S. Holder could be deemed to have surrendered warrants with an aggregate fair market value equal to the exercise price for the total number of warrants to be exercised. The U.S. Holder would recognize capital gain or loss in an amount equal to the difference between the fair market value of the warrants deemed surrendered and the U.S. Holder's tax basis in such warrants. In this case, a U.S. Holder's tax basis in the ordinary shares received would equal the sum of the U.S. Holder's initial investment in the warrants exercised (i.e., the portion of the U.S. Holder's purchase price for the units that is allocated to the warrant, as described above under

## [Table of Contents](#)

"—Allocation of Purchase Price and Characterization of a Unit") and the exercise price of such warrants. It is unclear whether a U.S. Holder's holding period for the ordinary shares would commence on the date of exercise of the warrant or the day following the date of exercise of the warrant.

Due to the absence of authority on the U.S. federal income tax treatment of a cashless exercise, there can be no assurance which, if any, of the alternative tax consequences and holding periods described above would be adopted by the IRS or a court of law. Accordingly, U.S. Holders are urged to consult their tax advisors regarding the tax consequences of a cashless exercise.

### *Passive Foreign Investment Company Rules*

A foreign (i.e., non-U.S.) corporation will be classified as a PFIC for U.S. federal income tax purposes if either (i) at least 75% of its gross income in a taxable year, including its pro rata share of the gross income of any corporation in which it is considered to own at least 25% of the shares by value, is passive income or (ii) at least 50% of its assets in a taxable year (ordinarily determined based on fair market value and averaged quarterly over the year), including its pro rata share of the assets of any corporation in which it is considered to own at least 25% of the shares by value, are held for the production of, or produce, passive income. Passive income generally includes dividends, interest, rents and royalties (other than rents or royalties derived from the active conduct of a trade or business) and gains from the disposition of passive assets.

Because we are a blank check company, with no current active business, we believe that it is likely that we will meet the PFIC asset or income test for our current taxable year ending December 31, 2019. However, pursuant to a start-up exception, a corporation will not be a PFIC for the first taxable year the corporation has gross income (the "start-up year"), if (1) no predecessor of the corporation was a PFIC; (2) the corporation satisfies the IRS that it will not be a PFIC for either of the two taxable years following the start-up year; and (3) the corporation is not in fact a PFIC for either of those years. The applicability of the start-up exception to us is uncertain and will not be known until after the close of our current taxable year ending December 31, 2019. After the acquisition of a company or assets in a business combination, we may still meet one of the PFIC tests depending on the timing of the acquisition and the amount of our passive income and assets as well as the passive income and assets of the acquired business. If the company that we acquire in a business combination is a PFIC, then we will likely not qualify for the start-up exception and will be a PFIC for our current taxable year ending December 31, 2019. Our actual PFIC status for our current taxable year or any subsequent taxable year, however, will not be determinable until after the end of such taxable year. Accordingly, there can be no assurance with respect to our status as a PFIC for our current taxable year ending December 31, 2019 or any subsequent taxable year.

Although our PFIC status is determined annually, an initial determination that our company is a PFIC will generally apply for subsequent years to a U.S. Holder who held our ordinary shares or warrants while we were a PFIC, whether or not we meet the test for PFIC status in those subsequent years. If we are determined to be a PFIC for any taxable year (or portion thereof) that is included in the holding period of a U.S. Holder of our ordinary shares or warrants and, in the case of our ordinary shares, the U.S. Holder did not make either a timely qualified electing fund ("QEF") election or a mark-to-market election for our first taxable year as a PFIC in which the U.S. Holder held (or was deemed to hold) ordinary shares, as described below, such U.S. Holder generally will be subject to special rules with respect to:

- any gain recognized by the U.S. Holder on the sale or other disposition of its ordinary shares or warrants; and
- any "excess distribution" made to the U.S. Holder (generally, any distributions to such U.S. Holder during a taxable year of the U.S. Holder that are greater than 125% of the average annual distributions received by such U.S. Holder in respect of the ordinary shares during the

## [Table of Contents](#)

three preceding taxable years of such U.S. Holder or, if shorter, such U.S. Holder's holding period for the ordinary shares).

Under these rules,

- the U.S. Holder's gain or excess distribution will be allocated ratably over the U.S. Holder's holding period for the ordinary shares and warrants;
- the amount allocated to the U.S. Holder's taxable year in which the U.S. Holder recognized the gain or received the excess distribution, or to the period in the U.S. Holder's holding period before the first day of our first taxable year in which we are a PFIC, will be taxed as ordinary income;
- the amount allocated to other taxable years (or portions thereof) of the U.S. Holder and included in its holding period will be taxed at the highest tax rate in effect for that year and applicable to the U.S. Holder; and
- an additional tax equal to the interest charge generally applicable to underpayments of tax will be imposed on the U.S. Holder with respect to the tax attributable to each such other taxable year of the U.S. Holder.

In general, if we are determined to be a PFIC, a U.S. Holder may avoid the PFIC tax consequences described above in respect to our ordinary shares (but not our warrants) by making a timely and valid QEF election (if eligible to do so) to include in income its pro rata share of our net capital gains (as long-term capital gain) and other earnings and profits (as ordinary income), on a current basis, in each case whether or not distributed, in the taxable year of the U.S. Holder in which or with which our taxable year ends. A U.S. Holder generally may make a separate election to defer the payment of taxes on undistributed income inclusions under the QEF rules, but if deferred, any such taxes will be subject to an interest charge.

A U.S. Holder may not make a QEF election with respect to its warrants to acquire our ordinary shares. As a result, if a U.S. Holder sells or otherwise disposes of such warrants (other than upon exercise of such warrants), any gain recognized generally will be subject to the special tax and interest charge rules treating the gain as an excess distribution, as described above, if we were a PFIC at any time during the period the U.S. Holder held the warrants. If a U.S. Holder that exercises such warrants properly makes a QEF election with respect to the newly acquired ordinary shares (or has previously made a QEF election with respect to our ordinary shares), the QEF election will apply to the newly acquired ordinary shares, but the adverse tax consequences relating to PFIC shares, adjusted to take into account the current income inclusions resulting from the QEF election, will continue to apply with respect to such newly acquired ordinary shares (which generally will be deemed to have a holding period for purposes of the PFIC rules that includes the period the U.S. Holder held the warrants), unless the U.S. Holder makes a purging election. The purging election creates a deemed sale of such shares at their fair market value. The gain recognized by the purging election will be subject to the special tax and interest charge rules treating the gain as an excess distribution, as described above. As a result of the purging election, the U.S. Holder will have a new tax basis and holding period in the ordinary shares acquired upon the exercise of the warrants for purposes of the PFIC rules.

The QEF election is made on a shareholder-by-shareholder basis and, once made, can be revoked only with the consent of the IRS. A U.S. Holder generally makes a QEF election by attaching a completed IRS Form 8621 (Return by a Shareholder of a Passive Foreign Investment Company or Qualified Electing Fund), including the information provided in a PFIC annual information statement, to a timely filed U.S. federal income tax return for the tax year to which the election relates. Retroactive QEF elections generally may be made only by filing a protective statement with such return and if certain other conditions are met or with the consent of the IRS. U.S. Holders are urged to consult their tax advisors regarding the availability and tax consequences of a retroactive QEF election under their particular circumstances.

## [Table of Contents](#)

In order to comply with the requirements of a QEF election, a U.S. Holder must receive a PFIC annual information statement from us. If we determine we are a PFIC for any taxable year, we will endeavor to provide to a U.S. Holder such information as the IRS may require, including a PFIC annual information statement, in order to enable the U.S. Holder to make and maintain a QEF election, but there is no assurance that we will timely provide such required information. There is also no assurance that we will have timely knowledge of our status as a PFIC in the future or of the required information to be provided.

If a U.S. Holder has made a QEF election with respect to our ordinary shares, and the special tax and interest charge rules do not apply to such shares (because of a timely QEF election for our first taxable year as a PFIC in which the U.S. Holder holds (or is deemed to hold) such shares or a purge of the PFIC taint pursuant to a purging election, as described above), any gain recognized on the sale of our ordinary shares generally will be taxable as capital gain and no interest charge will be imposed under the PFIC rules. As discussed above, if we are a PFIC for any taxable year, U.S. Holders of our ordinary shares that have made a QEF election will be taxed on their pro rata shares of its earnings and profits, whether or not distributed for such taxable year. In such case, a subsequent distribution of such earnings and profits that were previously included in income generally should not be taxable as a dividend to such U.S. Holders. The tax basis of a U.S. Holder's shares in a QEF will be increased by amounts that are included in income, and decreased by amounts distributed but not taxed as dividends, under the above rules.

A U.S. Holder who makes the QEF election discussed above for our first taxable year as a PFIC in which such U.S. Holder holds (or is deemed to hold) our ordinary shares, however, will not be subject to the PFIC tax and interest charge rules discussed above in respect to such shares. In addition, such U.S. Holder will not be subject to the QEF inclusion regime with respect to such shares for any taxable year of us that ends within or with a taxable year of such U.S. Holder and in which we are not a PFIC. On the other hand, if the QEF election is not effective for each of our taxable years in which we are a PFIC and such U.S. Holder holds (or is deemed to hold) our ordinary shares, the PFIC rules discussed above will continue to apply to such shares unless such U.S. Holder makes a purging election, as described above, and pays the tax and interest charge with respect to the gain inherent in such shares attributable to the pre-QEF election period.

Alternatively, if a U.S. Holder, at the close of its taxable year, owns shares in a PFIC that are treated as "marketable stock," such U.S. Holder may make a mark-to-market election with respect to such shares for such taxable year. If such U.S. Holder makes a valid mark-to-market election for the first taxable year of such U.S. Holder in which such U.S. Holder holds (or is deemed to hold) ordinary shares in us and for which we are determined to be a PFIC, such U.S. Holder generally will not be subject to the PFIC rules described above in respect to its ordinary shares. Instead, in general, such U.S. Holder will include as ordinary income each year the excess, if any, of the fair market value of its ordinary shares at the end of its taxable year over the adjusted basis in its ordinary shares. Such a U.S. Holder also will be allowed to take an ordinary loss in respect of the excess, if any, of the adjusted basis of its ordinary shares over the fair market value of its ordinary shares at the end of its taxable year (but only to the extent of the net amount of previously included income as a result of the mark-to-market election). Such U.S. Holder's tax basis in its ordinary shares will be adjusted to reflect any such income or loss amounts, and any further gain recognized on a sale or other taxable disposition of the ordinary shares will be treated as ordinary income. Currently, a mark-to-market election may not be made with respect to our warrants.

The mark-to-market election is available only for "marketable stock," generally, stock that is regularly traded on a national securities exchange that is registered with the SEC, including the NYSE, or on a foreign exchange or market that the IRS determines has rules sufficient to ensure that the market price represents a legitimate and sound fair market value. U.S. Holders are urged to consult

## [Table of Contents](#)

their tax advisors regarding the availability and tax consequences of a mark-to-market election in respect to our ordinary shares under their particular circumstances.

If we are a PFIC and, at any time, have a foreign subsidiary that is classified as a PFIC, U.S. Holders generally would be deemed to own a portion of the shares of such lower-tier PFIC, and generally could incur liability for the deferred tax and interest charge described above if we receive a distribution from, or dispose of all or part of our interest in, the lower-tier PFIC or the U.S. Holders otherwise were deemed to have disposed of an interest in the lower-tier PFIC. We will endeavor to cause any lower-tier PFIC to provide to a U.S. Holder the information that may be required to make or maintain a QEF election with respect to the lower-tier PFIC. There can be no assurance that we will have timely knowledge of the status of any such lower-tier PFIC. In addition, we may not hold a controlling interest in any such lower-tier PFIC and thus there can be no assurance we will be able to cause the lower-tier PFIC to provide such required information. U.S. Holders are urged to consult their tax advisors regarding the tax issues raised by lower-tier PFICs.

A U.S. Holder that owns (or is deemed to own) shares in a PFIC during any taxable year of such U.S. Holder, may have to file an IRS Form 8621 (whether or not a QEF or mark-to-market election is made) and such other information as may be required by the U.S. Treasury Department. Failure to do so, if required, will extend the statute of limitations until such required information is furnished to the IRS.

The rules dealing with PFICs and with the QEF and mark-to-market elections are very complex and are affected by various factors in addition to those described above. Accordingly, U.S. Holders of our ordinary shares or warrants are urged to consult their tax advisors concerning the application of the PFIC rules to our ordinary shares or warrants under their particular circumstances.

### *Tax Reporting*

Certain U.S. Holders may be required to file an IRS Form 926 (Return by a U.S. Transferor of Property to a Foreign Corporation) to report a transfer of property (including cash) to us. Substantial penalties may be imposed on a U.S. Holder that fails to comply with this reporting requirement. Furthermore, certain U.S. Holders who are individuals and certain entities will be required to report information with respect to such U.S. Holder's investment in "specified foreign financial assets," which may include an interest in us, on IRS Form 8938 (Statement of Specified Foreign Financial Assets), subject to certain exceptions. An interest in the Company constitutes a specified foreign financial asset for these purposes. Persons who are required to report specified foreign financial assets and fail to do so may be subject to substantial penalties. Potential investors are urged to consult their tax advisers regarding the foreign financial asset and other reporting obligations and their application to an investment in our securities.

### **Non-U.S. Holders**

This section applies to you if you are a "Non-U.S. Holder." As used herein, the term "Non-U.S. Holder" means a beneficial owner of our units, ordinary shares or warrants (other than a partnership or other entity or arrangement treated as a partnership for U.S. federal income tax purposes) who or that is for U.S. federal income tax purposes:

- a non-resident alien individual (other than certain former citizens and residents of the United States subject to U.S. tax as expatriates);
- a foreign corporation; or
- an estate or trust that is not a U.S. Holder;

but generally does not include an individual who is present in the United States for 183 days or more in the taxable year of disposition. If you are such an individual, you are urged to consult your tax

advisor regarding the U.S. federal income tax consequences of the sale or other disposition of our securities.

Dividends (including constructive dividends) paid or deemed paid to a Non-U.S. Holder in respect to its ordinary shares generally will not be subject to U.S. federal income tax, unless the dividends are effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, are attributable to a permanent establishment or fixed base that such holder maintains in the United States).

In addition, a Non-U.S. Holder generally will not be subject to U.S. federal income tax on any gain attributable to a sale or other disposition of our ordinary shares and warrants unless such gain is effectively connected with its conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, is attributable to a permanent establishment or fixed base that such Non-U.S. Holder maintains in the United States).

Dividends (including constructive dividends) and gains that are effectively connected with the Non-U.S. Holder's conduct of a trade or business in the United States (and, if required by an applicable income tax treaty, are attributable to a permanent establishment or fixed base in the United States) generally will be subject to U.S. federal income tax at the same regular U.S. federal income tax rates applicable to a comparable U.S. Holder and, in the case of a Non-U.S. Holder that is a corporation for U.S. federal income tax purposes, also may be subject to an additional branch profits tax at a 30% rate or a lower applicable tax treaty rate.

The U.S. federal income tax treatment of a Non-U.S. Holder's exercise of a warrant or the lapse of a warrant held by a Non-U.S. Holder, generally will correspond to the U.S. federal income tax treatment of the exercise or lapse of a warrant by a U.S. Holder, as described under "U.S. Holders—Acquisition of Ordinary Shares Pursuant to Warrant," above, although to the extent a cashless exercise results in a taxable exchange, the consequences would be similar to those described in the preceding paragraphs above for a Non-U.S. Holder's gain on the sale or other disposition of our ordinary shares and warrants.

### **Backup Withholding and Information Reporting**

Dividend payments with respect to our ordinary shares and proceeds from the sale, exchange or redemption of our ordinary shares may be subject to information reporting to the IRS and possible United States backup withholding. Backup withholding will not apply, however, to a U.S. Holder who furnishes a correct taxpayer identification number and makes other required certifications, or who is otherwise exempt from backup withholding and establishes such exempt status. A Non-U.S. Holder generally will eliminate the requirement for information reporting and backup withholding by providing certification of its foreign status, under penalties of perjury, on a duly executed applicable IRS Form W-8 or by otherwise establishing an exemption.

Backup withholding is not an additional tax. Rather, the amount of any backup withholding will be allowed as a credit against a U.S. Holder's or a Non-U.S. Holder's U.S. federal income tax liability, if any, and may entitle such U.S. Holder or Non-U.S. Holder to a refund, provided that the requisite information is correctly and timely furnished to the IRS. Holders are urged to consult their tax advisors regarding the application of backup withholding and the availability of and procedure for obtaining an exemption from backup withholding in their particular circumstances.

The U.S. federal income tax discussion set forth above is included for general information only and may not be applicable depending upon a holder's particular situation. Holders are urged to consult their tax advisors with respect to the tax consequences to them of the acquisition, ownership and disposition of our ordinary shares and warrants, including the tax consequences under state, local, estate, foreign and other tax laws and tax treaties and the possible effects of changes in U.S. or other tax laws.

## UNDERWRITING

Under the terms and subject to the conditions contained in an underwriting agreement dated April 3, 2019, we have agreed to sell to the underwriters named below the following respective numbers of units:

Underwriter	Number of Units
Credit Suisse Securities (USA) LLC	15,762,500
Merrill Lynch, Pierce, Fenner & Smith Incorporated	8,487,500
I-Bankers Securities, Inc.	750,000
Total	25,000,000

The underwriting agreement provides that the underwriters are obligated to purchase all the units in this offering if any are purchased, other than those units covered by the over-allotment option described below.

We have granted to the underwriters a 45-day option to purchase on a pro rata basis up to 3,750,000 additional units at the initial public offering price, less the underwriting discounts and commissions. The option may be exercised only to cover any over-allotments of units.

The underwriters propose to offer the units initially at the public offering price on the cover page of this prospectus and to selling group members at that price less a selling concession of \$0.12 per unit.

The following table summarizes the compensation and estimated expenses we will pay:

	Per Unit <sup>(1)</sup>		Total <sup>(2)</sup>	
	Without Overallotment	With Overallotment	Without Overallotment	With Overallotment
Underwriting Discounts and Commissions paid by us	\$ 0.55	\$ 0.55	\$ 12,375,000	\$ 14,437,500

(1) Includes \$0.35 per unit, or \$7,875,000 (or \$9,187,500 if the over-allotment option is exercised in full) in the aggregate, payable to the underwriters for deferred underwriting commissions to be placed in a trust account located in the United States as described herein. The deferred commissions will be released to the underwriters only on completion of an initial business combination, in an amount equal to \$0.35 multiplied by the number of ordinary shares sold as part of the units in this offering, as described in this prospectus.

(2) The underwriters will not receive any underwriting discounts or commissions on the 2,500,000 units that will be purchased by affiliates of our sponsor.

We estimate that our non-reimbursed out-of-pocket expenses for this offering will be approximately \$1,000,000. We have agreed to pay for the FINRA-related fees and expenses of the underwriters' legal counsel, not to exceed \$15,000.

The representative has informed us that the underwriters do not intend to make sales to discretionary accounts.

We, our sponsor and our officers and directors have agreed that we will not offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, without the prior written consent of Credit Suisse Securities (USA) LLC and Merrill Lynch, Pierce, Fenner & Smith Incorporated for a period of 180 days after the date of this prospectus, any units, warrants, ordinary shares or any other securities convertible into, or exercisable, or exchangeable for, ordinary shares; provided, however, that we may

## [Table of Contents](#)

(1) issue and sell the private placement warrants; (2) issue and sell the additional units to cover our underwriters' over-allotment option (if any); (3) register with the SEC pursuant to an agreement to be entered into concurrently with the issuance and sale of the securities in this offering, the resale of the private placement warrants and the ordinary shares issuable upon exercise of the warrants and the founder shares; and (4) issue securities in connection with our initial business combination. However, the foregoing shall not apply to the forfeiture of any Founder Shares pursuant to their terms or any transfer of Founder Shares to any current or future independent director of the Company (as long as such current or future independent director is subject to the terms of the letter agreement, filed herewith, at the time of such transfer; and as long as, to the extent any Section 16 reporting obligation is triggered as a result of such transfer, any related Section 16 filing includes a practical explanation as to the nature of the transfer). Credit Suisse Securities (USA) LLC and Merrill Lynch, Pierce, Fenner & Smith Incorporated in their sole discretion may release any of the securities subject to these lock-up agreements at any time without notice.

Our initial shareholders have agreed not to transfer, assign or sell any of their founder shares until the earlier to occur of: (A) one year after the completion of our initial business combination; or (B) subsequent to our initial business combination, (x) if the last reported sale price of the ordinary shares equals or exceeds \$12.00 per share (as adjusted for share splits, capitalization of shares, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (y) the date following the completion of our initial business combination on which we complete a liquidation, merger, stock exchange or other similar transaction that results in all of our public shareholders having the right to exchange their ordinary shares for cash, securities or other property (except with respect to permitted transferees as described herein under "Principal Shareholders—Transfers of Founder Shares and Private Placement Warrants"). Any permitted transferees would be subject to the same restrictions and other agreements of our initial shareholders with respect to any founder shares.

The private placement warrants (including the ordinary shares issuable upon exercise of the private placement warrants) will not be transferable, assignable or salable until 30 days after the completion of our initial business combination (except with respect to permitted transferees as described herein under "Principal Shareholders—Transfers of Founder Shares and Private Placement Warrants").

We have agreed to indemnify the underwriters against certain liabilities under the Securities Act, or contribute to payments that the underwriters may be required to make in that respect.

Our units have been approved for listing on the NYSE under the symbol "RPLA.U." We anticipate that the ordinary shares and warrants, once they begin separate trading, will be listed on the NYSE under the symbols "RPLA" and "RPLA WS," respectively.

Prior to this offering, there has been no public market for our securities. Consequently, the initial public offering price for the units was determined by negotiations between us and the representative.

The determination of our per unit offering price was more arbitrary than would typically be the case if we were an operating company. Among the factors considered in determining the initial public offering price were the history and prospects of companies whose principal business is the acquisition of other companies, prior offerings of those companies, our management, our capital structure, and currently prevailing general conditions in equity securities markets, including current market valuations of publicly traded companies considered comparable to our company. We cannot assure you, however, that the price at which the units, ordinary shares or warrants will sell in the public market after this offering will not be lower than the initial public offering price or that an active trading market in our units, ordinary shares or warrants will develop and continue after this offering.

If we do not complete our initial business combination within 24 months from the closing of this offering, the trustee and the underwriters have agreed that: (1) they will forfeit any rights or claims to

## [Table of Contents](#)

their deferred underwriting discounts and commissions, including any accrued interest thereon, then in the trust account; and (2) the deferred underwriters' discounts and commissions will be distributed on a pro rata basis, together with any accrued interest thereon (which interest shall be net of taxes payable) to the public shareholders.

In connection with this offering, the underwriters may engage in stabilizing transactions, over-allotment transactions, syndicate covering transactions and penalty bids in accordance with Regulation M under the Exchange Act.

- Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.
- Over-allotment involves sales by the underwriters of units in excess of the number of units the underwriters are obligated to purchase, which creates a syndicate short position. The short position may be either a covered short position or a naked short position. In a covered short position, the number of units over-allotted by the underwriters is not greater than the number of units that they may purchase in the over-allotment option. In a naked short position, the number of units involved is greater than the number of units in the over-allotment option. The underwriters may close out any covered short position by either exercising their over-allotment option and/or purchasing units in the open market.
- Syndicate covering transactions involve purchases of the units in the open market after the distribution has been completed in order to cover syndicate short positions. In determining the source of units to close out the short position, the underwriters will consider, among other things, the price of units available for purchase in the open market as compared to the price at which they may purchase units through the over-allotment option. If the underwriters sell more units than could be covered by the over-allotment option, a naked short position, the position can only be closed out by buying units in the open market. A naked short position is more likely to be created if the underwriters are concerned that there could be downward pressure on the price of the units in the open market after pricing that could adversely affect investors who purchase in this offering.
- Penalty bids permit the representative to reclaim a selling concession from a syndicate member when the units originally sold by the syndicate member are purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our units or preventing or retarding a decline in the market price of the units. As a result, the price of our units may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the NYSE or otherwise and, if commenced, may be discontinued at any time.

We are not under any contractual obligation to engage any of the underwriters to provide any services for us after this offering and have no present intent to do so. However, any of the underwriters may introduce us to potential target businesses or assist us in raising additional capital in the future. If any of the underwriters provide services to us after this offering, we may pay such underwriter fair and reasonable fees that would be determined at that time in an arm's length negotiation; provided that no agreement will be entered into with any of the underwriters and no fees for such services will be paid to any of the underwriters prior to the date that is 90 days from the date of this prospectus, unless FINRA determines that such payment would not be deemed underwriters' compensation in connection with this offering, and we may pay the underwriters of this offering or any entity with which they are affiliated, a finder's fee or other compensation for services rendered to us in connection with the completion of a business combination.

## [Table of Contents](#)

Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

A prospectus in electronic format may be made available on the websites maintained by one or more of the underwriters, or selling group members, if any, participating in this offering and one or more of the underwriters participating in this offering may distribute prospectuses electronically. The representative may agree to allocate a number of units to underwriters and selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the underwriters and selling group members that will make internet distributions on the same basis as other allocations.

The units are offered for sale in the United States, Europe, Asia and other jurisdictions where it is lawful to make such offers.

Each of the underwriters has represented and agreed that it has not offered, sold or delivered and will not offer, sell or deliver any of the units directly or indirectly, or distribute this prospectus or any other offering material relating to the units, in or from any jurisdiction except under circumstances that will result in compliance with the applicable laws and regulations thereof and that will not impose any obligations on us except as set forth in the underwriting agreement.

### **European Economic Area**

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "Relevant Member State"), each underwriter represents and agrees that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "Relevant Implementation Date") it has not made and will not make an offer of units to the public in that Relevant Member State prior to the publication of a prospectus in relation to the units which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the Prospectus Directive, except that it may, with effect from and including the Relevant Implementation Date, make an offer of units to the public in that Relevant Member State at any time,

- (a) to legal entities which are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities;
- (b) to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than €43,000,000; and (3) an annual net turnover of more than €50,000,000, as shown in its last annual or consolidated accounts;
- (c) to fewer than 100 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the manager for any such offer; or

## [Table of Contents](#)

- (d) in any other circumstances which do not require the publication by the issuer of a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an "offer of units to the public" in relation to any units in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the units to be offered so as to enable an investor to decide to purchase or subscribe the units, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State;

### **Notice to Investors in the United Kingdom**

Each of the underwriters severally represents, warrants and agrees as follows:

- (a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of section 21 of FSMA) to persons who have professional experience in matters relating to investments falling with Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 or in circumstances in which section 21 of FSMA does not apply to the company; and
- (b) it has complied with, and will comply with all applicable provisions of FSMA with respect to anything done by it in relation to the units in, from or otherwise involving the United Kingdom.

### **Notice to Residents of Japan**

The underwriters will not offer or sell any of our units directly or indirectly in Japan or to, or for the benefit of any Japanese person or to others, for re-offering or re-sale directly or indirectly in Japan or to any Japanese person, except in each case pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Securities and Exchange Law of Japan and any other applicable laws and regulations of Japan. For purposes of this paragraph, "Japanese person" means any person resident in Japan, including any corporation or other entity organized under the laws of Japan.

### **Notice to Residents of Hong Kong**

The underwriters and each of their affiliates have not (1) offered or sold, and will not offer or sell, in Hong Kong, by means of any document, our units other than (A) to "professional investors" as defined in the Securities and Futures Ordinance (Cap.571) of Hong Kong and any rules made under that Ordinance or (B) in other circumstances which do not result in the document being a "prospectus" as defined in the Companies Ordinance (Cap. 32 of Hong Kong) or which do not constitute an offer to the public within the meaning of that Ordinance or (2) issued or had in its possession for the purposes of issue, and will not issue or have in its possession for the purposes of issue, whether in Hong Kong or elsewhere any advertisement, invitation or document relating to our units which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to our securities which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" as defined in the Securities and Futures Ordinance and any rules made under that Ordinance. The contents of this document have not been reviewed by any regulatory authority in Hong Kong. You are advised to exercise caution in relation to the offer. If you are in any doubt about any of the contents of this document, you should obtain independent professional advice.

**Notice to Residents of Singapore**

This prospectus or any other offering material relating to our units has not been and will not be registered as a prospectus with the Monetary Authority of Singapore, and the units will be offered in Singapore pursuant to exemptions under Section 274 and Section 275 of the Securities and Futures Act, Chapter 289 of Singapore (the "Securities and Futures Act"). Accordingly our units may not be offered or sold, or be the subject of an invitation for subscription or purchase, nor may this prospectus or any other offering material relating to our units be circulated or distributed, whether directly or indirectly, to the public or any member of the public in Singapore other than (a) to an institutional investor or other person specified in Section 274 of the Securities and Futures Act, (b) to a sophisticated investor, and in accordance with the conditions specified in Section 275 of the Securities and Futures Act or (c) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the Securities and Futures Act.

**Notice to Residents of Germany**

Each person who is in possession of this prospectus is aware that no German sales prospectus (Verkaufsprospekt) within the meaning of the Securities Sales Prospectus Act (Wertpapier-Verkaufsprospektgesetz, the "Act") of the Federal Republic of Germany has been or will be published with respect to our units. In particular, each underwriter has represented that it has not engaged and has agreed that it will not engage in a public offering (öffentlicher Angebot) within the meaning of the Act with respect to any of our units otherwise than in accordance with the Act and all other applicable legal and regulatory requirements.

**Notice to Residents of France**

The units are being issued and sold outside the Republic of France and that, in connection with their initial distribution, it has not offered or sold and will not offer or sell, directly or indirectly, any units to the public in the Republic of France, and that it has not distributed and will not distribute or cause to be distributed to the public in the Republic of France this prospectus or any other offering material relating to the units, and that such offers, sales and distributions have been and will be made in the Republic of France only to qualified investors (investisseurs qualifiés) in accordance with Article L.411-2 of the Monetary and Financial Code and décret no. 98-880 dated October 1, 1998.

**Notice to Residents of the Netherlands**

Our units may not be offered, sold, transferred or delivered in or from the Netherlands as part of their initial distribution or at any time thereafter, directly or indirectly, other than to, individuals or legal entities situated in The Netherlands who or which trade or invest in securities in the conduct of a business or profession (which includes banks, securities intermediaries (including dealers and brokers), insurance companies, pension funds, collective investment institution, central governments, large international and supranational organizations, other institutional investors and other parties, including treasury departments of commercial enterprises, which as an ancillary activity regularly invest in securities; hereinafter, "Professional Investors"); provided that in the offer, prospectus and in any other documents or advertisements in which a forthcoming offering of our units is publicly announced (whether electronically or otherwise) in The Netherlands it is stated that such offer is and will be exclusively made to such Professional Investors. Individual or legal entities who are not Professional Investors may not participate in the offering of our units, and this prospectus or any other offering material relating to our units may not be considered an offer or the prospect of an offer to sell or exchange our units.

## **Notice to Prospective Investors in the Cayman Islands**

No invitation, whether directly or indirectly, may be made to the public in the Cayman Islands to subscribe for our shares.

## **Notice to Canadian Residents**

### ***Resale Restrictions***

The distribution of units in Canada is being made only in the provinces of Ontario, Quebec, Alberta and British Columbia on a private placement basis exempt from the requirement that we prepare and file a prospectus with the securities regulatory authorities in each province where trades of these securities are made. Any resale of the units in Canada must be made under applicable securities laws which may vary depending on the relevant jurisdiction, and which may require resales to be made under available statutory exemptions or under a discretionary exemption granted by the applicable Canadian securities regulatory authority. Purchasers are advised to seek legal advice prior to any resale of the securities.

### ***Representations of Canadian Purchasers***

By purchasing units in Canada and accepting delivery of a purchase confirmation, a purchaser is representing to us and the dealer from whom the purchase confirmation is received that:

- the purchaser is entitled under applicable provincial securities laws to purchase the units without the benefit of a prospectus qualified under those securities laws as it is an "accredited investor" as defined under National Instrument 45-106—*Prospectus Exemptions*;
- the purchaser is a "permitted client" as defined in National Instrument 31-103—*Registration Requirements, Exemptions and Ongoing Registrant Obligations*;
- where required by law, the purchaser is purchasing as principal and not as agent; and
- the purchaser has reviewed the text above under Resale Restrictions.

### ***Conflicts of Interest***

Canadian purchasers are hereby notified that Credit Suisse Securities (USA) LLC and Merrill Lynch, Pierce, Fenner & Smith Incorporated are relying on the exemption set out in section 3A.3 or 3A.4, if applicable, of National Instrument 33-105—*Underwriting Conflicts* from having to provide certain conflict of interest disclosure in this document.

### ***Statutory Rights of Action***

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if the prospectus (including any amendment thereto) such as this document contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser of these securities in Canada should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor.

### ***Enforcement of Legal Rights***

All of our directors and officers as well as the experts named herein may be located outside of Canada and, as a result, it may not be possible for Canadian purchasers to effect service of process within Canada upon us or those persons. All or a substantial portion of our assets and the assets of

[Table of Contents](#)

those persons may be located outside of Canada and, as a result, it may not be possible to satisfy a judgment against us or those persons in Canada or to enforce a judgment obtained in Canadian courts against us or those persons outside of Canada.

***Taxation and Eligibility for Investment***

Canadian purchasers of units should consult their own legal and tax advisors with respect to the tax consequences of an investment in the units in their particular circumstances and about the eligibility of the units for investment by the purchaser under relevant Canadian legislation.

**LEGAL MATTERS**

Greenberg Traurig, LLP, New York, New York, is acting as counsel in connection with the registration of our securities under the Securities Act, and as such, will pass upon the validity of the securities offered in this prospectus with respect to units and warrants. Walkers will pass upon the validity of the securities offered in this prospectus with respect to the ordinary shares and matters of Cayman Islands law. In connection with this offering, Kirkland & Ellis LLP, New York, New York, is acting as counsel to the underwriters.

**EXPERTS**

The Balance Sheet of Replay Acquisition Corp. as of December 31, 2018, and the related Statements of Operations, Changes in Shareholder's Equity and Cash Flows for the period from November 6, 2018 (inception) through December 31, 2018, have been audited by WithumSmith+Brown, PC, Independent Registered Public Accounting Firm, as stated in their report which is incorporated herein. Such financial statements have been incorporated herein in reliance on the report of such firm given upon their authority as experts in accounting and auditing.

**WHERE YOU CAN FIND ADDITIONAL INFORMATION**

We have filed with the SEC a registration statement on Form S-1 under the Securities Act with respect to the securities we are offering by this prospectus. This prospectus does not contain all of the information included in the registration statement. For further information about us and our securities, you should refer to the registration statement and the exhibits and schedules filed with the registration statement. Whenever we make reference in this prospectus to any of our contracts, agreements or other documents, the references are materially complete but may not include a description of all aspects of such contracts, agreements or other documents, and you should refer to the exhibits attached to the registration statement for copies of the actual contract, agreement or other document.

Upon completion of this offering, we will be subject to the information requirements of the Exchange Act and will file annual, quarterly and current event reports, proxy statements and other information with the SEC. You can read our SEC filings, including the registration statement, over the internet at the SEC's website at [www.sec.gov](http://www.sec.gov). You may also read and copy any document we file with the SEC at its public reference facility at 100 F Street, N.E., Washington, D.C. 20549.

You may also obtain copies of the documents at prescribed rates by writing to the Public Reference Section of the SEC at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the operation of the public reference facilities.

**Report of Independent Registered Public Accounting Firm**

To the Board of Directors and Shareholder of  
Replay Acquisition Corp.

**Opinion on the Financial Statements**

We have audited the accompanying balance sheet of Replay Acquisition Corp. (the "Company") as of December 31, 2018, the related statements of operations, changes in shareholder's equity and cash flows, for the period from November 6, 2018 (date of inception) to December 31, 2018, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2018, and the results of its operations and its cash flows for the period from November 6, 2018 (date of inception) to December 31, 2018, in conformity with accounting principles generally accepted in the United States of America.

**Basis for Opinion**

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

/s/ WithumSmith+Brown, PC

We have served as the Company's auditor since 2018.

New York, New York

**REPLAY ACQUISITION CORP.**  
**NOTES TO FINANCIAL STATEMENTS**

**Note 1—Description of Organization and Business Operations**

Replay Acquisition Corp. (the "Company") was incorporated as a Cayman Islands exempted company on November 6, 2018. The Company was formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses (the "Business Combination"). Although the Company is not limited to a particular industry or sector for purposes of consummating a Business Combination, the Company intends to focus its search for a target in Argentina or Brazil focused on industries that the Company believes it has favorable prospects and a high likelihood of generating strong risk-adjusted returns for its shareholders. The Company is an emerging growth company and, as such, the Company is subject to all of the risks associated with emerging growth companies.

As of December 31, 2018, the Company had not commenced any operations. All activity for the period from November 6, 2018 (inception) through December 31, 2018 relates to the Company's formation and the proposed initial public offering described below. The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income on cash and cash equivalents from the proceeds derived from the Proposed Public Offering (as defined below). The Company has selected December 31 as its fiscal year end.

The Company's sponsor is Replay Sponsor, LLC, a Delaware limited liability company (the "Sponsor"). The Company's ability to commence operations is contingent upon obtaining adequate financial resources through a proposed public offering (the "Proposed Public Offering") of 25,000,000 units (each, a "Unit" and collectively, the "Units") at \$10.00 per Unit (or 28,750,000 units if the underwriters' over-allotment option is exercised in full), which is discussed in Note 3, and the sale of 7,000,000 warrants (or 7,750,000 warrants if the underwriters' over-allotment option is exercised in full) (each, a "Private Placement Warrant" and collectively, the "Private Placement Warrants"), at a price of \$1.00 per Private Placement Warrant in a private placement to the Sponsor that will close simultaneously with the Proposed Public Offering.

The Company's management has broad discretion with respect to the specific application of the net proceeds of the Proposed Public Offering and the sale of Private Placement Warrants, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. There is no assurance that the Company will be able to complete a Business Combination successfully. The Company must complete one or more initial Business Combinations having an aggregate fair market value of at least 80% of the assets held in the Trust Account (as defined below) (excluding the deferred underwriting commissions and taxes payable on income earned on the Trust Account) at the time of the agreement to enter into the initial Business Combination. However, the Company will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act 1940, as amended (the "Investment Company Act"). Upon the closing of the Proposed Public Offering, management has agreed that an amount equal to at least \$10.00 per Unit sold in the Proposed Public Offering, including the proceeds of the Private Placement Warrants, will be held in a trust account ("Trust Account"), located in the United States at J.P. Morgan Chase Bank, N.A., with Continental Stock Transfer & Trust Company acting as trustee, and invested only in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with a maturity of 180 days or less or in any open-ended investment company that holds itself out as a money market fund selected by the Company meeting the conditions of paragraphs (d)(2), (d)(3) and (d)(4) of Rule 2a-7 of the Investment Company Act, as determined by

**REPLAY ACQUISITION CORP.**

**NOTES TO FINANCIAL STATEMENTS (Continued)**

**Note 1—Description of Organization and Business Operations (Continued)**

the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the Trust Account as described below.

The Company will provide its holders (the "Public Shareholders") of its ordinary shares, par value \$0.0001, sold in the Proposed Public Offering (the "Public Shares"), with the opportunity to redeem all or a portion of their Public Shares upon the completion of a Business Combination either (i) in connection with a shareholder meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek shareholder approval of a Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The Public Shareholders will be entitled to redeem their Public Shares for a pro rata portion of the amount then in the Trust Account (initially anticipated to be \$10.00 per Public Share). The per-share amount to be distributed to Public Shareholders who redeem their Public Shares will not be reduced by the deferred underwriting commissions the Company will pay to the underwriters (as discussed in Note 5). These Public Shares will be classified as temporary equity upon the completion of the Proposed Public Offering in accordance with the Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") Topic 480 "Distinguishing Liabilities from Equity." In such case, the Company will proceed with a Business Combination if the Company has net tangible assets of at least \$5,000,001 upon such consummation of a Business Combination and a majority of the shares voted are voted in favor of the Business Combination. If a shareholder vote is not required by law and the Company does not decide to hold a shareholder vote for business or other legal reasons, the Company will, pursuant to its Amended and Restated Memorandum and Articles of Association (the "Amended and Restated Memorandum and Articles of Association"), conduct the redemptions pursuant to the tender offer rules of the U.S. Securities and Exchange Commission ("SEC") and file tender offer documents with the SEC prior to completing a Business Combination. If, however, shareholder approval of the transactions is required by law, or the Company decides to obtain shareholder approval for business or legal reasons, the Company will offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. Additionally, each Public Shareholder may elect to redeem their Public Shares irrespective of whether they vote for or against the proposed transaction. If the Company seeks shareholder approval in connection with a Business Combination, the initial shareholders (as defined below) have agreed to vote their Founder Shares (as defined below in Note 4) and any Public Shares purchased during or after the Proposed Public Offering in favor of a Business Combination. Subsequent to the consummation of the Proposed Public Offering, the Company will adopt an insider trading policy which will require insiders to: (i) refrain from purchasing shares during certain blackout periods and when they are in possession of any material non-public information and (ii) to clear all trades with the Company's legal counsel prior to execution. In addition, the initial shareholders have agreed to waive their redemption rights with respect to their Founder Shares and Public Shares in connection with the completion of a Business Combination.

Notwithstanding the foregoing, the Amended and Restated Memorandum and Articles of Association will provide that a Public Shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a "group" (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the "Exchange Act")), will be restricted from redeeming its shares with respect to more than an aggregate of 15% or more of the ordinary shares sold in the Proposed Public Offering, without the prior consent of the Company.

The Company's Sponsor, officers and directors (the "initial shareholders") have agreed not to propose an amendment to the Amended and Restated Memorandum and Articles of Association

**REPLAY ACQUISITION CORP.**

**NOTES TO FINANCIAL STATEMENTS (Continued)**

**Note 1—Description of Organization and Business Operations (Continued)**

(a) that would modify the substance or timing of the Company's obligation to redeem 100% of its Public Shares if the Company does not complete a Business Combination within 24 months from the closing of the Proposed Public Offering (the "Combination Period") or (b) with respect to any other provision relating to shareholders' rights or pre-initial Business Combination activity, unless the Company provides the Public Shareholders with the opportunity to redeem their ordinary shares in conjunction with any such amendment.

If the Company is unable to complete a Business Combination within the Combination Period, the Company will (1) cease all operations except for the purpose of winding up, (2) as promptly as reasonably possible but no more than 10 business days thereafter, subject to lawfully available funds therefor, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (less up to \$100,000 of interest to pay dissolution expenses and which interest shall be net of taxes payable), divided by the number of then issued and outstanding Public Shares, which redemption will completely extinguish public shareholders' rights as shareholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (3) as promptly as reasonably possible following such redemption, subject to the approval of the Company's remaining shareholders and our board of directors, dissolve and liquidate, subject in each case to the Company's obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law.

The initial shareholders have agreed to waive their liquidation rights with respect to the Founder Shares if the Company fails to complete a Business Combination within the Combination Period. However, if the initial shareholders should acquire Public Shares in or after the Proposed Public Offering, they will be entitled to liquidating distributions from the Trust Account with respect to such Public Shares if the Company fails to complete a Business Combination within the Combination Period. The underwriters have agreed to waive their rights to its deferred underwriting commission (see Note 5) held in the Trust Account in the event the Company does not complete a Business Combination within the Combination Period and, in such event, such amounts will be included with the other funds held in the Trust Account that will be available to fund the redemption of the Public Shares. In the event of such distribution, it is possible that the per share value of the residual assets remaining available for distribution (including Trust Account assets) will be only \$10.00 per share initially held in the Trust Account. In order to protect the amounts held in the Trust Account, the Sponsor has agreed to be liable to the Company if and to the extent any claims by a vendor for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the Trust Account. This liability will not apply with respect to any claims by a third party who executed a waiver of any right, title, interest or claim of any kind in or to any monies held in the Trust Account or to any claims under the Company's indemnity of the underwriters of the Proposed Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"). Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, the Sponsor will not be responsible to the extent of any liability for such third party claims. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers, prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

**REPLAY ACQUISITION CORP.**

**NOTES TO FINANCIAL STATEMENTS (Continued)**

**Note 2—Summary of Significant Accounting Policies**

*Basis of Presentation*

The accompanying financial statements are presented in U.S. dollars in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") and pursuant to the rules and regulations of the SEC.

The Company does not have sufficient liquidity to meet its anticipated obligations over the next year from the issuance of these financial statements. In connection with the Company's assessment of going concern considerations in accordance with FASB's Accounting Standards Update ("ASU") 2014-15, "Disclosures of Uncertainties about an Entity's Ability to Continue as a Going Concern," management has determined that the Company has access to funds from the Sponsor that are sufficient to fund the working capital needs of the Company until the earlier of the consummation of the Proposed Public Offering or one year from the issuance of these financial statements.

*Emerging Growth Company*

Section 102(b)(1) of the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act") exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that an emerging growth company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period, which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard.

This may make comparison of the Company's financial statement with another public company that is neither an emerging growth company nor an emerging growth company that has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

*Net Loss Per Ordinary Share*

The Company complies with accounting and disclosure requirements of FASB ASC Topic 260, "Earnings Per Share." Net loss per share is computed by dividing net loss by the weighted average number of ordinary shares outstanding during the period. At December 31, 2018, the Company did not have any dilutive securities and other contracts that could, potentially, be exercised or converted into ordinary shares and then share in the earnings of the Company. As a result, diluted loss per share is the same as basic loss per share for the period presented.

*Concentration of Credit Risk*

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash accounts in a financial institution, which, at times, may exceed the Federal Depository Insurance Coverage of \$250,000. The Company has not experienced losses on these accounts and management believes the Company is not exposed to significant risks on such accounts.

**REPLAY ACQUISITION CORP.**

**NOTES TO FINANCIAL STATEMENTS (Continued)**

**Note 2—Summary of Significant Accounting Policies (Continued)**

*Financial Instruments*

The fair value of the Company's assets and liabilities, which qualify as financial instruments under the FASB ASC 820, "Fair Value Measurements and Disclosures," approximates the carrying amounts represented in the balance sheet.

*Use of Estimates*

The preparation of financial statements in conformity with U.S. GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the financial statements and the reported amounts of expenses during the reporting period. Actual results could differ from those estimates.

*Deferred Offering Costs Associated with the Proposed Public Offering*

Deferred offering costs consist of legal, accounting, underwriting fees and other costs incurred through the balance sheet date that are directly related to the Proposed Public Offering and that will be charged to shareholder's equity upon the completion of the Proposed Public Offering. Should the Proposed Public Offering prove to be unsuccessful, these deferred costs, as well as additional expenses to be incurred, will be charged to operations.

*Income Taxes*

The Company follows the asset and liability method of accounting for income taxes under FASB ASC 740, "Income Taxes." Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

FASB ASC 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. There were no unrecognized tax benefits as of December 31, 2018. The Company's management determined that the Cayman Islands is the Company's only major tax jurisdiction. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. No amounts were accrued for the payment of interest and penalties for the period from November 6, 2018 (inception) through December 31, 2018. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

*Recent Accounting Pronouncements*

In July 2017, the FASB issued ASU 2017-11, Earnings Per Share (Topic 260), Distinguishing Liabilities from Equity (Topic 480) and Derivatives and Hedging (Topic 815): Part I. Accounting for Certain Financial Instruments with Down Round Features; Part II. Replacement of the Indefinite Deferral for Mandatorily Redeemable Financial Instruments of Certain Nonpublic Entities and Certain

**REPLAY ACQUISITION CORP.**

**NOTES TO FINANCIAL STATEMENTS (Continued)**

**Note 2—Summary of Significant Accounting Policies (Continued)**

Mandatorily Redeemable Noncontrolling Interests with a Scope Exception. Part I of this update addresses the complexity of accounting for certain financial instruments with down round features. Down round features are features of certain equity-linked instruments (or embedded features) that result in the strike price being reduced on the basis of the pricing of future equity offerings. Also, entities must adjust their basic Earnings Per Share ("EPS") calculation for the effect of the down round provision when triggered (that is, when the exercise price of the related equity-linked financial instrument is adjusted downward because of the down round feature). That effect is treated as a dividend and as a reduction of income available to common shareholders in basic EPS. An entity will also recognize the effect of the trigger within equity. The guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. The Company plans to adopt this guidance during the quarter ended March 31, 2019. The adoption of this guidance is not expected to have a material impact on the Company's financial position, results of operations, cash flows or disclosures until a trigger event occurs. Part II of this update addresses the difficulty of navigating Topic 480, Distinguishing Liabilities from Equity, because of the existence of extensive pending content in the FASB Accounting Standards Codification. This pending content is the result of the indefinite deferral of accounting requirements about mandatorily redeemable financial instruments of certain nonpublic entities and certain mandatorily redeemable noncontrolling interests. The amendments in Part II of this update are not expected to have an impact on the Company.

**Note 3—Public Offering**

Pursuant to the Proposed Public Offering, the Company intends to offer for sale 25,000,000 Units at a price of \$10.00 per Unit. Each Unit consists of one ordinary share, and one-half of one redeemable warrant (each, a "Public Warrant"). Each Public Warrant entitles the holder to purchase one ordinary shares at a price of \$11.50 per share, subject to adjustment (see Note 6).

In April 2019, certain affiliates of the Sponsor agreed to purchase an aggregate of 2,500,000 Units in the Proposed Public Offering ("Affiliate Units") for gross proceeds of \$25.0 million.

**Note 4—Related Party Transactions**

*Founder Shares*

In December 2018, the Sponsor purchased 7,187,500 ordinary shares, par value \$0.0001, (the "Founder Shares"), for an aggregate price of \$25,000. In March 2019, the Sponsor transferred to the Company's independent directors an aggregate of 90,000 Founder Shares for an aggregate purchase price of \$313.05. The Sponsor has agreed to forfeit up to 937,500 Founder Shares to the extent that the over-allotment option is not exercised in full by the underwriters. The forfeiture will be adjusted to the extent that the over-allotment option is not exercised in full by the underwriters so that the Founder Shares will represent 20.0% of the Company's issued and outstanding shares after the Proposed Public Offering. If the Company increases or decreases the size of the offering, the Company will effect a stock dividend or share contribution back to capital, as applicable, immediately prior to the consummation of the Proposed Public Offering in such amount as to maintain the Founder Share ownership of the Company's shareholders prior to the Proposed Public Offering at 20.0% of the Company's issued and outstanding ordinary shares upon the consummation of the Proposed Public Offering (excluding the shares underlying the Units to be purchased by affiliates of the Sponsor in the Proposed Public Offering, and assuming the initial shareholders do not purchase any other Units in the Proposed Public Offering).

**REPLAY ACQUISITION CORP.**

**NOTES TO FINANCIAL STATEMENTS (Continued)**

**Note 4—Related Party Transactions (Continued)**

The initial shareholders will agree, subject to limited exceptions, not to transfer, assign or sell any of their Founder Shares until the earlier to occur of: (A) one year after the completion of the initial Business Combination or (B) subsequent to the initial Business Combination, (x) if the last sale price of the ordinary shares equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the initial Business Combination, or (y) the date on which the Company completes a liquidation, merger, capital stock exchange or other similar transaction that results in all of the Company's shareholders having the right to exchange their ordinary shares for cash, securities or other property.

*Private Placement Warrants*

The Sponsor will agree to purchase an aggregate of 7,000,000 Private Placement Warrants (or 7,750,000 Private Placement Warrants if the underwriters' over-allotment option is exercised in full), at a price of \$1.00 per Private Placement Warrant (\$7.0 million in the aggregate, or \$7.75 million if the underwriters' over-allotment option is exercised in full) in a private placement that will occur simultaneously with the closing of the Proposed Public Offering. Each whole Private Placement Warrant is exercisable for one whole ordinary share at a price of \$11.50 per share. The proceeds from the Private Placement Warrants will be added to the proceeds from the Proposed Public Offering to be held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the Private Placement Warrants will expire worthless. The Private Placement Warrants will be non-redeemable and exercisable on a cashless basis so long as they are held by the Sponsor or its permitted transferees.

The Sponsor and the Company's officers and directors will agree, subject to limited exceptions, not to transfer, assign or sell any of their Private Placement Warrants until 30 days after the completion of the initial Business Combination.

*Related Party Loans*

On December 1, 2018, the Sponsor agreed to loan the Company an aggregate of up to \$250,000 to cover expenses related to the Proposed Public Offering pursuant to a promissory note (the "Note"). This loan is non-interest bearing and payable on the earlier of June 30, 2019 or the completion of the Proposed Public Offering. As of December 31, 2018, the Company had no borrowings under the Note. Subsequently, the Company has borrowed \$250,000 under the Note.

In addition, in order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors may, but are not obligated to, loan the Company funds as may be required ("Working Capital Loans"). If the Company completes a Business Combination, the Company would repay the Working Capital Loans out of the proceeds of the Trust Account released to the Company. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the Trust Account. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. The Working Capital Loans would either be repaid upon consummation of a Business Combination, without interest, or, at the lender's discretion, up to \$1.5 million of such Working Capital Loans may be convertible into

**NOTES TO FINANCIAL STATEMENTS (Continued)**

**Note 4—Related Party Transactions (Continued)**

warrants of the post Business Combination entity at a price of \$1.00 per warrant. The warrants would be identical to the Private Placement Warrants. To date, the Company had no borrowings under the Working Capital Loans.

*Reimbursement*

The Sponsor, officers and directors, or any of their respective affiliates, will be reimbursed for any out-of-pocket expenses incurred in connection with activities on the Company's behalf such as identifying potential target businesses and performing due diligence on suitable Business Combinations. The Company's audit committee will review on a quarterly basis all payments that were made to the Sponsor, officers, directors or our or any of their affiliates and will determine which expenses and the amount of expenses that will be reimbursed. There is no cap or ceiling on the reimbursement of out-of-pocket expenses incurred by such persons in connection with activities on the Company's behalf.

**Note 5—Commitments & Contingencies**

*Registration Rights*

The holders of Founder Shares, Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans, if any, will be entitled to registration rights pursuant to a registration rights agreement to be signed upon consummation of the Proposed Public Offering. These holders will be entitled to certain demand and "piggyback" registration rights. However, the registration rights agreement provides that the Company will not permit any registration statement filed under the Securities Act to become effective until the termination of the applicable lock-up period for the securities to be registered. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

*Underwriting Agreement*

The Company will grant the underwriters a 45-day option from the final prospectus relating to the Proposed Public Offering to purchase up to 3,750,000 additional Units to cover over-allotments, if any, at the Proposed Public Offering price less the underwriting discounts and commissions.

Except on the Affiliate Units, the underwriters will be entitled to an underwriting discount of \$0.20 per unit, or \$4.5 million in the aggregate (or \$5.25 million in the aggregate if the underwriters' over-allotment option is exercised in full), payable upon the closing of the Proposed Public Offering. In addition, \$0.35 per unit, or approximately \$7.87 million in the aggregate (or approximately \$9.19 million in the aggregate if the underwriters' over-allotment option is exercised in full) will be payable to the underwriters for deferred underwriting commissions. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

**Note 6—Shareholder's Equity**

**Ordinary Shares**—The Company is currently authorized to issue 200,000,000 ordinary shares with a par value of \$0.0001 per share. Holders of ordinary shares are entitled to one vote for each share. As of December 31, 2018, there were 7,187,500 ordinary shares outstanding. Of the 7,187,500 ordinary shares, an aggregate of up to 937,500 shares subject to forfeiture to the Company by the Sponsor for no consideration to the extent that the underwriters' over-allotment option is not exercised in full or in part,

NOTES TO FINANCIAL STATEMENTS (Continued)

**Note 6—Shareholder's Equity (Continued)**

so that the initial shareholders will collectively own 20% of the Company's issued and outstanding ordinary shares after the Proposed Public Offering.

**Preferred Shares**—The Company is authorized to issue 2,000,000 preferred shares with such designations, voting and other rights and preferences as may be determined from time to time by the Company's board of directors. As of December 31, 2018, there were no shares of preferred stock issued or outstanding.

**Warrants**—Public Warrants may only be exercised for a whole number of shares. No fractional Public Warrants will be issued upon separation of the Units and only whole Public Warrants will trade. The Public Warrants will become exercisable on the later of (a) 30 days after the completion of a Business Combination or (b) 12 months from the closing of the Proposed Offering; provided in each case that the Company has an effective registration statement under the Securities Act covering the ordinary shares issuable upon exercise of the Public Warrants and a current prospectus relating to them is available (or the Company permits holders to exercise their Public Warrants on a cashless basis and such cashless exercise is exempt from registration under the Securities Act). The Company has agreed that as soon as practicable, but in no event later than 15 business days, after the closing of a Business Combination, the Company will use its best efforts to file with the SEC a registration statement for the registration, under the Securities Act, of the ordinary shares issuable upon exercise of the Public Warrants. If the shares issuable upon exercise of the warrants are not registered under the Securities Act, the Company will be required to permit holders to exercise their warrants on a cashless basis. However, no warrant will be exercisable for cash or on a cashless basis, and the Company will not be obligated to issue any shares to holders seeking to exercise their warrants, unless the issuance of the shares upon such exercise is registered or qualified under the securities laws of the state of the exercising holder, or an exemption from registration is available. Notwithstanding the above, if the Company's ordinary shares are at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a "covered security" under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of public warrants who exercise their warrants to do so on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company elects, the Company will not be required to file or maintain in effect a registration statement, but the Company will use our best efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

The Public Warrants will expire five years after the completion of a Business Combination or earlier upon redemption or liquidation.

The Private Placement Warrants are identical to the Public Warrants underlying the Units sold in the Proposed Public Offering, except that the Private Placement Warrants and the ordinary shares issuable upon exercise of the Private Placement Warrants will not be transferable, assignable or salable until 30 days after the completion of a Business Combination, subject to certain limited exceptions. Additionally, the Private Placement Warrants will be non-redeemable so long as they are held by the initial purchasers or such purchasers' permitted transferees. If the Private Placement Warrants are held by someone other than the initial shareholders or their permitted transferees, the Private Placement Warrants will be redeemable by the Company and exercisable by such holders on the same basis as the Public Warrants.

**REPLAY ACQUISITION CORP.**

**NOTES TO FINANCIAL STATEMENTS (Continued)**

**Note 6—Shareholder's Equity (Continued)**

The Company may call the Public Warrants for redemption (except with respect to the Private Placement Warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days' prior written notice of redemption; and
- if, and only if, the last reported closing price of the ordinary shares equals or exceeds \$18.00 per share for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which the Company sends the notice of redemption to the warrant holders.

If the Company calls the Public Warrants for redemption, management will have the option to require all holders that wish to exercise the Public Warrants to do so on a "cashless basis," as described in the warrant agreement.

The exercise price and number of ordinary shares issuable upon exercise of the warrants may be adjusted in certain circumstances including in the event of a share dividend, or recapitalization, reorganization, merger or consolidation. In addition, if (x) the Company issues additional ordinary shares or equity-linked securities for capital raising purposes in connection with the closing of its initial Business Combination at an issue price or effective issue price of less than \$9.20 per ordinary share (with such issue price or effective issue price to be determined in good faith by the Company's board of directors and, in the case of any such issuance to the Sponsor or its affiliates, without taking into account any Founder Shares held by the Sponsor or such affiliates, as applicable, prior to such issuance) (the "Newly Issued Price"), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of the Company's initial Business Combination on the date of the consummation of such initial Business Combination (net of redemptions), and (z) the volume weighted average trading price of the Company's ordinary shares during the 20 trading day period starting on the trading day prior to the day on which the Company consummates its initial Business Combination (such price, the "Market Value") is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price and the \$18.00 per share redemption trigger price described above will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price. Additionally, in no event will the Company be required to net cash settle the warrant shares. If the Company is unable to complete a Business Combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of warrants will not receive any of such funds with respect to their warrants, nor will they receive any distribution from the Company's assets held outside of the Trust Account with the respect to such warrants. Accordingly, the warrants may expire worthless.

**Note 7—Subsequent Events**

Management has evaluated subsequent events to determine if events or transactions occurring through the date the financial statements were available for issuance, require potential adjustment to or disclosure in the financial statements and has concluded that all such events that would require recognition or disclosure have been recognized or disclosed.
